1. Description of Plan

The following description of the Shiloh Industries, Inc. Hourly Union Employees 401(k) Incentive Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Shiloh Industries, Inc. (the "Company") who are union employees at the Mansfield Blanking, Liverpool Manufacturing, Parma Manufacturing, and Liverpool Coil Processing plants. Eligibility requirements to participate in the Plan are dependent upon the plant in which the participant works. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan has given Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (the "Trustee"), the trustee of the Plan, the authority to hold the assets of the Plan and to invest, control and disburse all assets of the Plan in accordance with the Plan agreement.

The Plan agreement restatement was effective April 1, 2017. The Plan was amended effective January 1, 2019, to make changes to hardship withdrawals:

- Additional contribution types and their earnings are now available:
  - Qualified Non-Elective Contributions
  - Safe Harbor Qualified Matching Contributions
  - Qualified Automatic Contribution Arrangements
- Removal of the requirement to take a loan before taking a hardship withdrawal.
- Clarified that a hardship withdrawal may be taken to repair damage to a principal residence that would qualify for a casualty loss deduction.
- Added an additional hardship reason for expenses and losses incurred on account of a federally declared disaster. Two other law changed that were included in this amendment are as follows:
  - Disaster Tax Relief and Airport and Airway Extension Act of 2017 (victims of the 2017 Hurricanes that expires December 31, 2018): loan maximum increase to $100,000 or 100% of vested account and one-year extension for 5-year repayment period.
  - Tax Cuts and Job Act: extends rollover period for certain plan loan offset amounts into a qualified plan or IRA

Eligibility

Employees may become participants and are eligible for matching contributions in the Plan after attaining the age 18 and completing six months of service. Eligible employees are able to enroll in the Plan on the first of February, May, August, and November of each year.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan agreement and subject to Internal Revenue Service ("IRS") limitations. Participants may also contribute amounts representing distributions from other qualified plans. Eligible participants may make additional "catch-up" contributions to the Plan. The Plan provides for Company matching contributions of participant deferrals at specific rates for each location based upon the bargaining agreements currently in place. Additional profit sharing amounts may be contributed for certain plant locations at the option of the Company's Board of Directors. No such contribution was made for the years ended October 31, 2019 and 2018. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings and losses (net of administrative expenses) and charged with the participant's withdrawals. Allocations are based on participant contributions, earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon and vest in the Company's contribution at a rate of 20% each year beginning on the anniversary of their second year of service. Participants are entitled to 100% of their vested account balances upon retirement, death or disability.

Investment Options

Participants direct the investment of contributions into their accounts into the various investment options offered under the Plan. The Company common stock held by the Plan is not an option as it is closed to new contributions and transfers in.

Payment of Benefits

On termination of service, participants are entitled to receive the value of the vested interest in their accounts. On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount, annual installments or various annuity options. For terminations of service due to other reasons, participants will receive their benefit as a lump-sum distribution. Participants may also receive a distribution for reasons of proven financial hardship, up to the amount the employee has deferred (excluding earnings thereon) under the Plan.

Forfeitures

Forfeited balances of terminated participants' nonvested accounts may be used to pay administrative expenses and reduce the Company's contributions to the Plan.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. Participants may only have one loan outstanding at a time. The loans are secured by the balance in the participant's account. The interest rate for the loan is computed at the "prime rate" as published in the Wall Street Journal as of the date the loan is made, plus 1%. Principal and interest are paid through payroll deductions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension and Finance Committee determines the Plan's valuation policies utilizing information provided by the Trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Certain costs incurred in the administration of the Plan have been paid by the Company. Investment management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Subsequent Events

Plan management has evaluated subsequent events for recognition and disclosure through August 13, 2020, which is the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant instability in financial markets. As a result, the Plan's investment portfolio has incurred a decline in fair value since October 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

On March 27, 2020, President Trump signed into law the "Coronavirus Aid, Relief, and Economic Security (CARES) Act." The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000
- Increase the available loan amount as described in Note 1 to the lesser of $100,000 or 100% of the participant's vested account balance
- Extend the period for loan repayments, if applicable, up to one year
- Suspended required minimum distributions for 2020

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

4. Information Certified by Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

October 31,	**2019**	2018
Mutual funds	**$ 2,924,066**	$ 3,013,809
Collective trust	**3,561,488**	3,432,541
Pooled separate accounts	**516,966**	548,210
Common stock	**10,694**	32,795
Notes receivable from participants	**121,393**	134,440

Year ended October 31,	**2019**	2018
Total investment income	**$ 738,143**	$ 152,742
Interest on notes receivable from participants	**6,513**	6,421

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and gives the lowest priority to unobservable inputs (Level 3). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2019 and 2018.

Common Stock - Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held buy the Plan are deemed to be actively traded.

Pooled Separate Accounts - The fair values of participation units held in pooled separate accounts are based on their NAV, as reported by the managers of the pooled separate accounts as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The NAV is used as a practical expedient to estimate fair value. Each of the pooled separate accounts invests in a single, open ended mutual fund with the exception of the Principal Mid Cap S&P 400 Index Separate Account, and the Principal Large Cap S&P 500 Index Separate Account. These pooled separate accounts invest the majority of assets in common stocks of companies that comprise the S&P 400 and 500 indexes, respectively, as management seeks a very close correlation between their performance before expenses and that of the S&P 400 Index and the S&P 500 Index. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's NAV per unit.

Collective Trust-Fund - A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The fund invests in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions, with the objective of providing preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. Withdrawals from the fund for benefit payments and participant transfers to noncompeting options to be paid to plan participants shall be made within 30 days after written notification has been received and are considered as made immediately after the next valuation date subsequent to the fund's trustee approval. Withdrawals, other than for benefit payments and participant transfers to noncompeting options, are made one year after notification is received from the participating plan. The trustee of the fund, however, reserves the right to grant a withdrawal earlier than that mentioned above if there are sufficient cash assets to satisfy the withdrawal and it is not detrimental to the best interest of the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2019 and 2018.

	As of October 31, **2019**

(a) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts represented in this table are intended to permit reconciliation of the fair value to the amounts presented in the Statements of Net Assets Available for Benefits.

6. Party-In-Interest Transactions

The Plan held investments in pooled separate accounts and a collective trust managed by Principal Life Insurance Company. Principal Life Insurance Company is an affiliate of the Delaware Charter Guarantee & Trust Company (d/b/a Principal Trust Company), the trustee of the Plan. The Company holds common shares of Shiloh Industries, Inc. Certain expenses of maintaining the Plan are paid by the Company. Notes receivable from participants qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules under ERISA. These qualify as party-in-interest transactions under ERISA.

7. Risks and Uncertainties

The Plan provides for various investment options. Investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain Plan investments it is at least reasonably possible that changes in the values of investments will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and Statements of Changes in Net Assets Available for Benefits.

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 26, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan was designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe the Plan is qualified and that the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained by the taxing authorities. The Plan is subject to routine audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
