INFILTRATOR WATER TECHNOLOGIES LLC 401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

A. PLAN DESCRIPTION:

The following description of Infiltrator Water Technologies LLC 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan document for more detailed information.

General

The Plan is a defined contribution plan sponsored by Infiltrator Water Technologies, LLC and its adopting employers (the "Company") covering substantially all employees who have attained the age of 21 and who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute up to 100% of their compensation (as defined in the Plan) on a pre-tax or after-tax "Roth" basis, subject to Internal Revenue Code ("IRC") limitations. Participants who are at least age 50 may make an additional pre-tax "catch-up" contribution subject to IRC limitations. Participants may also contribute funds from another qualified retirement plan ("rollover contributions"), subject to certain requirements.

The Company may make discretionary matching and qualified nonelective contributions on behalf of each eligible participant. For the plan year ended December 31, 2019, the Company matched 20% of each participant's deferral contributions. The Company did not make any qualified nonelective contributions for the year ended December 31, 2019.

Participant Accounts

Each participant's account is credited or charged with contributions, investment income, and administrative expenses. Investment income, including realized and unrealized gains and losses, and expenses are allocated to participants' accounts based on each participant's account balance within each fund. Participants determine the percentage in which contributions are to be invested in each fund. Participants may change their investment options as set forth in the plan document.

Vesting

Participants are fully vested in that portion of their account which represents their contributions and the income earned thereon. Participants become 100% vested in the Company's contributions and earnings thereon upon death, total and permanent disability, or attainment of normal retirement age. A participant's interest in the Company's contributions and earnings thereon vests according to the following schedule:

INFILTRATOR WATER TECHNOLOGIES LLC 401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

<u>Completed Years of Service</u>	<u>Vesting Percentages</u>
Less than 3	0%
3 or more	100%

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of a participant's account represents a forfeiture, as defined by the Plan. If a forfeiting participant is re-employed and fulfills certain requirements, as set forth in the Plan, the participant's account will be restored. Forfeitures may be used to reduce plan expenses, employer contributions or allocated to participants. During 2019, \$7,923 of forfeitures were allocated to participants. Unallocated forfeitures at December 31, 2019 and 2018 amounted to \$11,102 and \$7,923, respectively.

Unallocated Assets

The Plan holds assets in an expense account for service expenditures which receives contributions as a result of a revenue sharing agreement with Voya Retirement Insurance and Annuity Company. During 2019, contributions to the account totaled \$8,249, which is included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits. Funds in the account are reallocated to participants or may be used to pay expenses. During 2019, no unallocated assets were used. Unallocated assets at December 31, 2019 or 2018 amounted to \$8,308 and \$0, respectively.

Distribution of Benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Benefits may be distributed to participants upon termination of employment by reason of retirement, disability, death or other severance of employment. Distributions under the Plan will be paid in lump sums.

A participant may also request a withdrawal upon attainment of age 59 1/2 or upon demonstration by the participant to the plan administrator that the participant is suffering from "hardship". Hardship is defined in applicable regulations promulgated or to be promulgated pursuant to Section 401(k) of the Internal Revenue Code or standards established by the Secretary of the Treasury or his delegate. Participants may also withdraw their rollover contributions at any time.

Notes Receivable from Participants

The Plan does not allow participant loans.

NOTES TO FINANCIAL STATEMENTS

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Substantially all administrative expenses are paid by the Plan unless paid by the Company. Certain participant transaction fees and administrative fees are paid through the plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

INFILTRATOR WATER TECHNOLOGIES LLC 401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

C. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts - Valued at the net asset value of units of a pooled separate account. The net asset value, as provided by the contract issuer, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The Plan holds no investments that are required to be leveled within the fair value hierarchy as of December 31, 2019 and 2018.

	<u>2019</u>	<u>2018</u>
Investments measured at net asset value(1):		
Pooled separate accounts	<u>\$ 13,334,957</u>	<u>\$ 10,813,226</u>
Investments at fair value:	<u>\$ 13,334,957</u>	<u>\$ 10,813,226</u>

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Pooled separate accounts can be redeemed daily and have no unfunded commitments.

INFILTRATOR WATER TECHNOLOGIES LLC 401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

Accounting standards require disclosure of investment strategies for investments valued using net asset value as a practical expedient to estimate fair value if the investment does not file a Form 5500 with the DOL as direct filing entity ("DFE"). The following table discloses investment strategies for such investments:

	2019	2018
Investments measured		
at net asset value (non-DFE's):		
Pooled separate accounts:

INFILTRATOR WATER TECHNOLOGIES LLC 401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

D. INVESTMENTS AT CONTRACT VALUE:

The Plan holds a traditional investment contract issued by ING Life Insurance and Annuity Company ("the contract issuer"). The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

With traditional investment contracts, the Plan owns only the contract itself. These contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.00% for the Voya Fixed Account A and not less than 3.00% for the Voya Fixed Account. Such interest rates are reviewed on an annual basis for resetting. This contract does not have a maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Full surrenders from the Fixed Fund can be paid by Voya in equal principal payments, with interest, over a period not to exceed 60 months, or in a single payment adjusted by a market value adjustment.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that would also limit the ability of the Plan to transact at contract value with the participants.

INFILTRATOR WATER TECHNOLOGIES LLC 401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

E. PARTIES-IN-INTEREST TRANSACTIONS:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the custodian are considered party-in-interest transactions.

F. TAX STATUS:

The Internal Revenue Service ("IRS") has determined and informed the sponsor of the volume submitter plan document adopted by the Company by a letter dated March 31, 2014 that the volume submitter plan document and related trust are designed in accordance with applicable sections of the internal Revenue Code ("IRC"). The Plan document has been amended since receiving the opinion letter. However, the plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. COMPLIANCE AND ERISA:

The plan administrator has elected the method of compliance permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, no auditing procedures with respect to the information certified by Voya Retirement Insurance and Annuity Company, the custodian of the Plan, were performed by the independent auditors except for comparing the information to the financial statements and supplemental schedules. The custodian has certified as to the completeness and accuracy of the investments held by the Plan as of December 31, 2019 and 2018, the investment earnings and other investment-related transactions of the Plan for the year ended December 31, 2019, and the information contained in the Schedule of Assets (Held at End of Year).

H. PLAN TERMINATION:

Although the Plan was established with the intention that it will continue indefinitely, the Company retains the right to discontinue its contributions at any time or to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, all participants will become 100% vested in their accounts.
