Note 1 - Description of the plan:

The following description of the Graphics Atlanta, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan sponsor is Graphics Atlanta, Inc. (the Company, Plan Sponsor, or Plan Administrator). The Plan is a defined contribution plan covering substantially all employees of the Company who have attained the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute from 1% to 100% of pretax or after tax Roth annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Profit sharing amounts may be contributed at the option of the Company's Board of Directors. An employee's share of this contribution is based on a uniform percentage of included compensation. Employer matching contributions may be contributed at the option of the Company's Board of Directors in an amount and allocation determined by the Company. The Company did not make matching or profit sharing contributions to the Plan during the year ended December 31, 2019. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are 100% vested in their voluntary contributions, rollover contributions and the related investment income on those funds. Participants become vested in Company profit sharing contributions in accordance with Plan provisions based upon years of service and become fully vested after six years of continuous service. Participants are immediately 100% vested upon reaching the normal retirement age of 60, or upon disability or death while an employee of the Company.

Note 1 - Description of the plan - continued:

Forfeitures

Forfeitures of discretionary Company profit sharing contributions are used to reduce Company contributions, pay administrative expenses, or are reallocated to participants. Forfeited non-vested accounts were $8,901 and $21,942 at December 31, 2019 and 2018, respectively. Forfeitures of $14,465 were used to pay administrative expenses during 2019.

Payment of benefits

A participant is entitled to receive a lump-sum amount equal to the vested value of his or her account, upon retirement, attainment of age 59-1/2, disability, death, or termination of employment. For vested accounts that exceed $5,000, the participant must consent to the distribution before it may be made. If the vested balance does not exceed $5,000, then the distribution will be made as soon as administratively possible. A participant may request a withdrawal from the Plan while still under the employment of the Company for reasons of financial hardship, but the withdrawal is limited to the amount of the vested account balance. Participant elective contributions are suspended for six months after the participant receives a hardship withdrawal.

Notes receivable from participants

Participants may borrow from the Plan in any amount greater than $1,000 up to 50% of the participant's vested account balance, not to exceed $50,000. Note terms are for a period not exceeding five years unless for the purchase of a principal residence, in which case the administrator may permit a longer repayment term. Notes are secured by the balance in the participant's account and bear interest at rates that are commensurate with local borrowing rates. Principal and interest are paid ratably through payroll deductions.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 2 - Summary of significant accounting policies:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Stable value fund

Investments in the stable value fund are required to be reported at fair value. The stable value fund, at the fund level, is composed primarily of fully benefit-responsive investment contracts held by the fund's trustee. These contracts are not considered fully benefit-responsive to the Plan as the underlying contracts are not direct investments between the Plan and the issuer. The statements of net assets available for benefits present the fair value of the investment in the stable value fund for the Plan's proportionate share of the stable value fund. The statement of changes in net assets available for benefits is prepared on the fair value basis.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of significant accounting policies - continued:

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant's note balance is reduced and a benefit payment is recorded.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

New accounting pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820) Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement* (ASU 2018-13). ASU 2018-13 changes the fair value measurement disclosure requirements of Accounting Standards Codification 820, *Fair Value Measurement* (ASC 820). Applicability of the provisions in ASU 2018-13 can depend on whether the reporting entity is a non-public entity. New disclosure requirements under ASU 2018-13 are applicable only to other than non-public entities and not applicable to this Plan. Eliminated and modified disclosure requirements under ASU 2018-13 impact the reporting of transfers between Level 1 and Level 2 assets (defined in Note 4), Level 3 asset disclosures, and disclosures about investments in certain entities valued at net asset value. ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019. Early adoption is permitted. Entities early adopting are permitted to early adopt the eliminated or modified disclosure requirements and delay the adoption of all new disclosure requirements until the effective date. Retrospective or prospective application to periods presented varies by specified disclosure. Management has not elected to early adopt ASU 2018-13 as of December 31, 2019. Management does not believe the adoption of ASU 2018-13 will have a material impact on the Plan's financial statements.

Note 2 - Summary of significant accounting policies - continued:

Subsequent events

The Plan has evaluated subsequent events through July 31, 2020, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2019, have been incorporated into these financial statements.

Note 3 - Investments and information certified by the trustees:

Matrix Trust Company (Matrix) holds investment assets and executes investment transactions as of December 31, 2019 and for the period from November 14, 2019 through December 31, 2019. TD AmeriTrade Trust Company (TD AmeriTrade) held investment assets and executed investment transactions as of December 31, 2018 and for the period from January 1, 2019 through November 13, 2019. Certain investment information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Matrix and TD AmeriTrade.

Note 4 - Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under FASB Accounting Standards Codification No. 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

Note 4 - Fair value measurements - continued:

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

- Money market funds are stated at cost, which approximates fair value, due to the short-term nature of these instruments.
- Mutual funds are valued by obtaining quoted prices on nationally recognized securities exchanges.
- Units of participation of the stable value fund are valued at the net asset value (NAV) provided by the fund's trustee as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the stable value fund, the investment advisor reserves the right to temporarily delay withdrawal from the fund in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note 4 - Fair value measurements - continued:

The methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 22,281,039	$ -	$ -	$ 22,281,039
Total assets in the fair value hierarchy	$ 22,281,039	$ -	$ -	22,281,039
Investments measured at net asset value:*				
Stable value fund				1,469,384
Investments at fair value				$ 23,750,423

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,302,309	$ -	$ -	$ 17,302,309
Money market funds	3,328	-	-	3,328
Total assets in the fair value hierarchy	$ 17,305,637	$ -	$ -	17,305,637
Investments measured at net asset value:*				
Stable value fund				1,429,763
Investments at fair value				$ 18,735,400

*In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

There were no significant transfers between Level 1 and Level 2, or into or out of Level 3 investments during the years ended December 31, 2019 and 2018.

Note 4 - Fair value measurements - continued:

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2019 and 2018.

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Stable value fund	$ 1,469,384	None	Daily	Daily

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Stable value fund	$ 1,429,763	None	Daily	Daily

Note 5 - Related-party transactions:

Certain Plan investments are shares of mutual funds, a money market fund, and a stable value fund managed by an affiliate of Matrix and TD AmeriTrade, therefore, these transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules. The Plan uses the services of Swerdlin & Company as a third-party administrator which maintains the individual participant account allocations of the investments made at Matrix and TD AmeriTrade, and therefore, qualifies as a party-in-interest. Fees incurred by the Plan for investment management services are included in net appreciation.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 - Tax status:

The underlying prototype plan has received an opinion letter from the IRS dated March 31, 2014, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the related trust is tax-exempt. The Plan Administrator

Note 7 - Tax status - continued:

has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Reconciliation of financial statements to Form 5500:

The following schedule reconciles the net assets available for benefits disclosed in the financial statements to the Form 5500:

	December 31, 2019	December 31, 2018
Net assets available for benefits per financial statements	$ 24,094,915	$ 19,069,445
Less: Benefits payable	-	(1,981)
Net assets available for benefits per Form 5500	$ 24,094,915	$ 19,067,464

Note 9 - Subsequent Events:

Subsequent to year end, the World Health Organization declared the novel Coronavirus (COVID-19) outbreak a public health emergency. There have been mandates from international, federal, state and local authorities requiring forced closures of various schools, businesses, and other facilities and organizations. The Plan Sponsor understands that these forced closures could negatively impact the Plan. While the closures and limitations on movement, domestically and internationally, are expected to be temporary, at this time the Plan Sponsor cannot estimate the related financial statement impact. In addition, as a result of the COVID-19 pandemic, Congress passed the CARES Act which includes changes to hardship withdrawals and optional changes to participant loans and various other miscellaneous changes that could have an impact on Plan operations.
