Actuarial Certification and Disclosures

M-Kov, Inc. Defined Benefit Plan

For the plan year January 1, 2019 through December 31, 2019

Valuation date: December 31, 2019

The Actuarial Report is applicable to the plan year indicated above and is intended for use by the Plan Sponsor, ERISA Plan Administrator and Trustee(s) of the above referenced plan. The Actuarial Report is comprised of the Actuarial Communications and Documents listed below:

- Valuation Report include Plan Provisions and applied Actuarial Assumptions and Methods
- Form 5500 Schedule SB and its attachments
- AFTAP Certification(s)
- Pension Benefit Guarantee Corporation (PBGC) Premium Certificate (where applicable)
- Contribution letter/communication
- Any other written, electronic or oral communications with respect to actuarial services

The Actuarial Report reflects the Pension Protection Act of 2006 including changes made by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA), the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010 (PRA 2010), Moving Ahead for Progress in the 21st Century Act (MAP-21), the Cooperative and Small Employer Charity Pension Flexibility Act of 2014 (CSEC Act), the Highway and Transportation Funding Act of 2014 (HATFA), and the Bipartisan Budget Act of 2015 (BBA'15) and any other amendments to the funding rules that are enacted. All Plan Sponsor/Employer, Employee and plan asset data including employer contribution dates and amounts along with the plan and trust documents used in the valuation, have been furnished by the Plan Sponsor, ERISA Plan Administrator, Trustee(s), and/or representatives of these parties. The Form 5500 Schedule SB attachments labeled Part V- Statement of Actuarial Assumptions/Methods and Summary of Plan Provisions identify the methods, procedures and assumptions used to render the actuarial opinion for the plan year. The prescribed funding method, interest and mortality rates, along with the plan asset value and valuation date allowable under Internal Revenue Code Section 430 are noted and have been selected by the Plan Sponsor. In addition, the valuation report includes this information along with other specific participant data used to render the actuarial findings.

The scope of the requested Actuarial Report is to provide to the intended users the minimum required contribution for the plan year based on estimated benefits of the plan participants as of the valuation date. The valuation report is intended to support the compliance of the Plan with Internal Revenue Code Sections 412, 430 and 436. The Form 5500 Schedule SB and its attachments supplies the results of the Plan Sponsor's funding for the plan year. The AFTAP certification(s) states the funding position which indicates any benefit restrictions as required under Internal Revenue Code Section 436.

Although the scope of this Actuarial Report is as stated above, there are events and anomalies that are hereby identified to disclose risks associated with their impact on the plan and its cost. The assessment and disclosure of these risk and the actual future results may reasonably be expected to differ. These risks can impact pension obligations, actuarially determined contributions and funded status of this plan.

Investment Risk - As the return on the plan trust assets is subject to market return, should the actual rate of return be lower than the expected return the cost of the plan will rise and vice versa.

Asset/liability Mismatch Risk - The changes in assets are not tied to the changes in the value of liabilities.

Interest Risk - As the prescribed interest segment rates mandated under Section 430 are 24-month averaged rates further constrained to stated corridors change, the valuing of liabilities of the plan benefits are adjusted. If the segment rates are higher than previous years, the impact will be to lower the stated liabilities owed by the plan. This may not align with the payable liabilities and thus, the plan liabilities may need to be review on a plan termination basis. This amount has been estimated by the shortfall on a plan termination basis provided by the Required Contribution

Longevity and other Demographic Risks - Cessation from employment due to termination, disability or death prior to the assumed retirement date under the plan may greatly sway the total liabilities payable from the plan. However, due to the small plan population, including these more unlikely events under this plan may greatly overstate the plan liabilities and likely cause the plan to be over funded. Thus, these decrements are not considered as in all likelihood, any unfunded benefits owed under the plan may be foregone by the substantial owner.

Actual retirement of plan participants may not directly align with the assumed retirement assumption(s) used to value the liabilities for the minimum required contribution. Typically, if a participant retires earlier than normal retirement, the liabilities will be lower than expected.

Contribution Risk- The minimum required contribution as stated in this valuation is mandated. Should this amount go unfunded, certainly the liabilities of this plan will become less covered by its trust assets. The current plan funding policy indicates that the minimum required contribution will be funded; thus, this valuation has not considered the possibility of unpaid contributions. If the Plan Sponsor knows of events that might impact its abilities to fund the minimum required contribution; these events should be discussed and evaluated as to how they may or may not impact the overall funded status of the plan.

Understand that the above risks may not be independent of one another. Thus, it is important to discuss upcoming changes in the Plan Sponsor's business and financials to better identify associated risks with the sponsored plan and the pension liabilities. Please consult with me in regards to any impending changes as soon as possible so corresponding measures may be taken to align the pension plan obligations with these variations.

Also understand that this valuation did not assess the likelihood or consequences of potential future changes in applicable law that would impact future benefits or funding of the plan. Should applicable law be changed, these changes will be addressed in separate actuarial communications.

This Actuarial Report is not to be used or relied upon for FAS Accounting purposes, Participant Distribution amounts, Plan Termination estimates, or any other purpose not specified.

I, the Responsible Actuary for the Actuarial Communications, have relied upon the Plan Sponsor, ERISA Plan Administrator, Trustee(s), and/or their representatives, for the accuracy of all data. However, I have performed quality checks as to the reasonableness of the data under the Actuarial Standards of Practice (ASOP) No. 23. If the information provided is not accurate, the results of the Actuarial Report may not be correct in the determination of the minimum required contribution along with the Plan's compliance with the terms of Internal Revenue Code Sections aforementioned. Actual future changes in the pension laws and regulations, plan benefit formula, asset value and participant data after the valuation date are not considered in this Actuarial Report. The Plan Sponsor should communicate to me any potential change in business and/or employment roster in order to access the impact to the Plan and its funding. I am a member of the ASPPA College of Pension Actuaries and American Society of Pension Professionals and Actuaries (ASPPA), I am enrolled by the Joint Board for the Enrollment of Actuaries. I am qualified to practice with

respect to qualified retirement plans and to render the actuarial opinion contained in the Actuarial Report under the American Academy of Actuaries qualification standards. In preparing the Actuarial Report, there was no deviation from the guidance of any Actuarial Standard of Practice. In providing my actuarial opinion, there is no known relationship between the intended users, the plan or its advisors and my firm and/or me that would impair the objectivity of my findings. Based on the intended use of the Actuarial Report, there are no constraints that have been placed on the report or its finding.

Please note that to the extent the Actuarial Communications contain tax advice, such advice is not intended or written to be used, and cannot be used by any taxpayer, for the purpose of avoiding any penalties that may be imposed under the Internal Revenue Code or in promoting, marketing or recommending any entity, investment plan or arrangement to any tax payer.

To the best of my knowledge, the actuarial opinion and information provided in the Actuarial Report is complete and accurate and prepared in accordance with the applicable laws and regulations and generally accepted actuarial principals. The prescribed assumptions and methods were used; however, I am unable to judge the reasonableness of these prescribed assumptions and methods without performing a substantial amount of additional work which is beyond the scope of the requested assignment. Any other assumptions used in the valuation was reasonably related to the experience of the Plan and represents my best estimate of the anticipated experience of the Plan. It is intended that the content of this Actuarial Report includes the required content under Actuarial Standard of Practice Nos. 4, 41 and 51; however, should addition information need to be disclosed please contact me directly.

Description of Weighted Average Retirement Age

M-Kov, Inc. Defined Benefit Plan

EIN/PN: 20-1234567/002

For the plan year January 1, 2019 through December 31, 2019

The age reported is the average of the assumed retirement ages for all active participants as of the valuation date rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% of his/her assumed retirement age.
