Report on the Financial Statements

We have audited the accompanying financial statements of the AI. Neyer Employee Stock Ownership Plan and Trust (the Plan), which comprise the statements of net assets available for benefits as December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the year ended December 31, 2019, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2019 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. PLAN DESCRIPTION:

The Al. Neyer Employee Stock Ownership Plan and Trust (the “Plan”) is a defined contribution plan covering substantially all employees of Al. Neyer Corporation and certain subsidiaries. (“Sponsor” or the “Company”). The following description of the Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan. The primary purpose of the Plan is to allow participants to acquire stock ownership interests in the Company. The Plan holds 100% of the outstanding common stock of the Company. The Company also elected S-corporation status.

Eligibility

Generally, all eligible employees may participate in the Plan on the earlier of the completion of 1,000 hours of service during the Plan Year or the completion of one year of service.

Contributions

The Company, at the approval of the Company’s Board of Directors, may make contributions to the Plan. Contributions can be in the form of cash and/or shares of Company stock, as determined by the Company’s Board of Directors. The Plan does not permit employee contributions.

Payment of benefits

Upon normal retirement, disability or death, benefits are paid in a single lump sum in cash as soon as administratively feasible after the last day of the Plan year in which the retirement, disability or death occurs. If termination is for other reasons, generally the vested portion will be paid no later than the close of the fifth Plan year (or longer for balances in excess of \$1,050,000) after the year of termination, unless the vested balance does not exceed \$1,000, in which case the distribution will be made as soon as administratively feasible. If the balance exceeds \$1,000, the participant may elect to receive a distribution beginning no later than on or after the close of the fifth Plan year after termination, in substantially equal annual installments over a period of five years.

Voting rights

Participants are entitled to exercise voting rights attributable to those shares allocated to their accounts and are notified by the trustee prior to the time that such rights are to be exercised. Participant voting rights are exercised through the trustee, subject to provisions described in the Plan document.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant’s account will be credited annually with their allocable share of Company contributions of cash or stock (including fractional shares), any stock dividends on the Company stock, and with any forfeitures of Company stock. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant’s eligible compensation, relative to total eligible compensation.

Vesting

If a participant’s employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Provided the participant has at least one hour of service under the Plan, the participant’s Plan benefit will be vested based on the following schedule:

<u>Years of Service</u>	<u>Non-forfeitable Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Put option

The Plan makes participant distributions in the form of cash only. Shares of stock are not distributed. As such, there is currently no put option required.

Diversification

Diversification is offered to participants over a six-year period to those who have attained the age of 55 and have completed at least 10 years of participation in the Plan. In each of the first five years, a participant may diversify up to 25% their account balance. In the sixth year, the percentage changes to 50%. No withdrawal election shall be permitted if the balance in such Company stock account has a fair market value of \$500 or less, unless and until the balance in the account as of a subsequent allocation date in the election period exceeds \$500.

Forfeitures

Employer contributions are forfeited by participants upon termination before becoming vested. Forfeited amounts are first used to restore any participant's account that is reemployed. After that, forfeitures are used to pay a contribution required to be restored to a lost participant or to pay the reasonable expenses of administering the Plan. Any remaining forfeitures will be allocated to remaining participants in accordance with Plan provisions. As of December 31, 2019 and 2018, there were no unallocated forfeitures.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following is a brief description of the significant accounting policies of the Plan.

Basis of accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement

date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefits are recorded when distributed.

Amounts allocated to accounts of participants who, at the financial statement date, have elected to withdraw from the Plan but have not been paid approximated \$115,500 at December 31, 2019.

Administrative expenses

The Sponsor pays most Plan administrative expenses and such expenses are excluded from these financial statements. If the Sponsor does not pay such expenses, the trustee shall pay them from the Plan assets.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. INVESTMENTS:

The Plan's investment in the Company's common shares is as follows at December 31:

	<u>2019</u>	<u>2018</u>
Number of shares	191,427	170,334
Cost	\$ 4,470,891	3,570,962
Estimated fair value	\$ 10,800,314	7,266,278

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in methodologies used at December 31, 2019 and 2018.

Common stock: The fair value of the AI. Neyer Corporation common stock held by the Plan is valued based on an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of the company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company.

Cash and cash equivalents: The carrying value approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018.

Investments at fair value as of December 31, 2019

The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date \$ 2,634,036

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

<u>Asset</u>	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Unobservable Input</u>
Al. Neyer Corporation common stock	\$ 10,800,314	Discounted Cash Flow	Weighted average cost of capital Long-term growth rate in sales Discount for lack of marketability
		Market Comparable Entities	Various pricing multiples Discount for lack of marketability

5. TAX STATUS:

The Plan obtained its latest determination letter dated January 23, 2015, in which the IRS stated that the Plan, as then designed with recommended amendments, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PLAN TERMINATION:

The Company intends to continue the Plan indefinitely for the benefit of the participants but reserves the right to terminate the Plan at any time by resolution of its Board of Directors. In the event the Plan is terminated, participants become fully vested in their capital accumulation accounts, and Plan assets are distributed to participants in accordance with the Plan agreement.

7. RISKS AND UNCERTAINTIES:

Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that change in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements and supplemental schedules.

8. RELATED PARTY TRANSACTIONS:

The Plan invests in Company common stock. These transactions qualify as party-in-interest transactions. As noted in footnote 2, the Company pays most of the plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

9. SUBSEQUENT EVENT:

Subsequent to the date of the financial statements, an outbreak of a novel strain of coronavirus (COVID-19) has disrupted supply chains and affected production and sales across a range of industries. The extent of the impact of COVID-19 on the Plan Sponsor's performance and the Plan's investments will depend on certain developments, including the duration and spread of the outbreak. Impact to the Plan cannot be predicted, and the extent to which COVID-19 may impact the statement of net assets available for benefits is uncertain at this time.
