## Note 1 - Description of Plan

The following description of Legrand North America 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan, formed with an effective date of August 1, 2006, that covers employees of Legrand North America Inc., Pass & Seymour, Inc., The Wiremold Company, The Watt Stopper, Inc., Ortronics, Inc., Cablofil, Inc., Legrand Home Systems, Inc., Legrand Holdings, Inc., Middle Atlantic Products Inc., Raritan Americas Inc., and effective January 1, 2019, Legrand AV Inc. and Lastar Inc. (collectively referred to as the "Company"). Effective January 1, 2020, employees of Finelite, Inc., Legrand Connectrac, LLC and Server Technology, Inc. are covered under the Plan.

Employees that were employed by the Company on or prior to August 1, 2006 were able to participate in the Plan effective August 1, 2006. Those employees hired after August 1, 2006 must complete six months of service before becoming eligible to participate in the Plan. Once becoming eligible, participants are given the opportunity to elect or decline participation in the Plan. If a participant fails to make an affirmative election to participate or decline participation in the Plan, the participant will be deemed to have elected to participate in the Plan and authorized a pre-tax salary reduction contribution of 3% of compensation until the participant elects to make a change. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Retirement Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Effective January 1, 2019, employees of Lastar, Inc. who participated in Legrand Savings Plan, merged into the Plan. The total amount of the assets transferred was $16,453,286 including notes receivable from participants of $646,052.

During 2019, participant account balances from employees of The Wattstopper, Inc. who participated in the Landrum Professional Employer Services Retirement Savings Plan at Slavic 401(k) transferred into the Plan. The total amount of the assets transferred was $459,660.

Effective December 31, 2019, the assets of Finelite, Inc. 401(k) Plan and assets of certain employees of Legrand Connectrac, LLC, who participated in the Strong Product Group 401(k) Plan, merged into the Plan. The total amount of the assets transferred of $22,801,599 and $1,371,037, respectively, were recorded as transfer receivable to the Plan as of December 31, 2019.

Effective December 31, 2019, certain employees of Server Technology, Inc. who participated in Legrand Savings Plan, merged into the Plan. The total amount of assets transferred of $17,851,340 has been recorded as an asset transfer receivable as of December 31, 2019.

The plan assets and notes receivable from each of these transfers are as follows:

| | Plan assets | Notes receivable from participants | Total transfer |
|---|---|---|---|
| Finelite, Inc. 401(k) Plan | $ 22,065,653 | $ 735,946 | $ 22,801,599 |
| Strong Product Group 401(k) Plan (Legrand Connectrac, LLC) | 1,332,347 | 38,690 | 1,371,037 |
| Legrand Savings Plan (Lastar, Inc.) | 15,807,234 | 646,052 | 16,453,286 |
| Legrand Savings Plan (Server Technology, Inc.) | 17,628,657 | 222,683 | 17,851,340 |
| Landrum Professional Employer Services Retirement Savings Plan at Slavic 401(k) (The Watt Stopper, Inc.) | 459,660 | - | 459,660 |
| | $ 57,293,551 | $ 1,643,371 | $ 58,936,922 |

**Contributions**
Each year, participants may make salary deferral contributions to the Plan based upon a percentage of their pre-tax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of insurance company pooled separate accounts, mutual funds and a guaranteed income fund as investment options for participants.

The Company contributes a "safe harbor" matching contribution as follows:

| Salary reduction contribution | Matching contribution |
|---|---|
| 1.0% of Compensation | 2.0% of Compensation |
| 2.0% of Compensation | 4.0% of Compensation |
| 3.0% of Compensation | 5.5% of Compensation |
| 4.0% of Compensation | 6.0% of Compensation |
| 5.0% of Compensation | 6.5% of Compensation |
| 6.0% of Compensation | 7.0% of Compensation |

Effective January 1, 2011, discretionary Company contributions are no longer allowed. Participants direct the investment of Company contributions.

**Participant accounts**
Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting**
Participants are vested immediately in their contributions and Company matching contributions plus actual earnings thereon. Participants from a former plan of any participating employer who had an account balance on July 31, 2006 and became a participant in the Plan on August 1, 2006 became 100% vested in all Company contributions. In the event of death, total and permanent disability or retirement, participants shall become 100% vested. For all other participants that became eligible

after August 1, 2006, vesting in the Company discretionary contribution portion of their account is based on years of service. A participant is 100% vested after five years of credited service as follows:

| Years of service | Vested percentage |
|---|---|
| Less than 1 year | 0% |
| 1 but less than 2 years | 20% |
| 2 but less than 3 years | 40% |
| 3 but less than 4 years | 60% |
| 4 but less than 5 years | 80% |
| 5 years or more | 100% |

Company contributions of certain participant accounts that were transferred into the Plan as a result of prior mergers will continue to vest according to the vesting schedule of the applicable plan prior to the plan merger.

**Notes receivable from participants**
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is determined based on the prime rate, as defined, plus 1.00% as of the loan origination date. Principal and interest are paid ratably through payroll deductions.

**Payment of benefits**
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or systematic installments. Participants with an account balance less than $5,000 will receive the vested interest in their account as a lump-sum distribution. If an election is not made by the participant, it will be rolled over to an IRA. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals from participants' salary deferral, who are less than 59½ years of age, may be made in the event of a financial hardship, in accordance with the provisions specified in the Plan.

Participants who are at least 59½ years of age are eligible to make in-service withdrawals, in accordance with the provisions of the Plan.

**Revenue credit account**
The Plan has established a revenue credit account to cover Plan expenses. The revenue credit account is treated as a Plan asset and must be used only for legitimate Plan expenses. Unused amounts for expenses may be allocated to participant accounts. During 2019, the custodian contributed $86,262 into the revenue credit account. The balance in the account totaled $191 at December 31, 2019 and 2018. During 2019, the Company used $86,262 from the account to pay Plan expenses.

**Forfeited accounts**
At December 31, 2019 and 2018, forfeited non-vested accounts totaled $135,460 and $2,271, respectively. These accounts will be first used to reinstate previous forfeitures, if applicable, then to reduce future employer contributions. During 2019, employer contributions were reduced by $34,820 from forfeited non-vested accounts.

## Note 2 - Summary of accounting policies

### Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

### Investment valuation and income recognition
The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the custodian and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### Payment of benefits
Benefits are recorded when paid.

### Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation in fair value of investments. Administrative expenses paid by the Plan are paid net of any revenue credits that reimburse or directly pay the fees of a service provider or other expense of administering the Plan.

### Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

### Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### Subsequent events
The Plan has evaluated events and transactions for potential recognition or disclosure through August 24, 2020, the date the financial statements were available to be issued.

## Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued at the accumulation unit value, which is based on the value of underlying assets of the account. The accumulation unit value is deemed equivalent to net asset value ("NAV"), which is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. In accordance with Subtopic 820-10, investments measured at NAV per share (or is equivalent) are not classified in the fair value hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

| | Assets at fair value as of December 31, 2019 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Mutual funds | $ 187,537,592 | $ - | $ - | $ 187,537,592 |
| Pooled separate accounts (a) | - | - | - | 103,665,604 |
| Total investments at fair value | $ 187,537,592 | $ - | $ - | $ 291,203,196 |

| | Assets at fair value as of December 31, 2018 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Mutual funds | $ 142,440,047 | $ - | $ - | $ 142,440,047 |
| Pooled separate accounts (a) | - | - | - | 80,572,032 |
| Total investments at fair value | $ 142,440,047 | $ - | $ - | $ 223,012,079 |

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset per value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For years ended December 31, 2019 and 2018, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

## Note 4 - Fully benefit-responsive investment contract

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The balance in the traditional investment contract as of December 31, 2019 and 2018 was $64,291,215 and $54,136,343, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.5%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

**Note 5 - Certified investments**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2019 and 2018, and investment income (loss) and interest income on notes receivable from participants for the year ended December 31, 2019, that are disclosed in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i), were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement and Insurance Company ("PRIAC"), the custodian, and Prudential Bank & Trust FSB, the trustee, of the Plan.

**Note 6 - Related party and party-in-interest transactions**

Plan investments include units of participation in pooled separate accounts and a guaranteed income fund account managed by PRIAC. PRIAC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fees incurred by the Plan for administrative fees amounted to $109,667 for the year ended December 31, 2019. The Plan allows participants to take loans against their account balances, which are also considered exempt party-in-interest transactions.

## Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

## Note 8 - Tax status

The Plan has obtained its latest determination letter dated October 22, 2015, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## Note 10 - Subsequent event

In early 2020, an outbreak of a novel strain of coronavirus ("COVID-19") emerged globally. As a result, events have occurred domestically in United States and globally, including mandates from federal, state and local authorities, leading to an overall decline in economic activity. The ultimate impact of COVID-19 on the financial performance of the Plan's investments cannot be reasonably estimated at this time.

## Note 1 - Description of Plan

The following description of Legrand North America 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan, formed with an effective date of August 1, 2006, that covers employees of Legrand North America Inc., Pass & Seymour, Inc., The Wiremold Company, The Watt Stopper, Inc., Ortronics, Inc., Cablofil, Inc., Legrand Home Systems, Inc., Legrand Holdings, Inc., Middle Atlantic Products Inc., Raritan Americas Inc., and effective January 1, 2019, Legrand AV Inc. and Lastar Inc. (collectively referred to as the "Company"). Effective January 1, 2020, employees of Finelite, Inc., Legrand Connectrac, LLC and Server Technology, Inc. are covered under the Plan.

Employees that were employed by the Company on or prior to August 1, 2006 were able to participate in the Plan effective August 1, 2006. Those employees hired after August 1, 2006 must complete six months of service before becoming eligible to participate in the Plan. Once becoming eligible, participants are given the opportunity to elect or decline participation in the Plan. If a participant fails to make an affirmative election to participate or decline participation in the Plan, the participant will be deemed to have elected to participate in the Plan and authorized a pre-tax salary reduction contribution of 3% of compensation until the participant elects to make a change. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Retirement Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Effective January 1, 2019, employees of Lastar, Inc. who participated in Legrand Savings Plan, merged into the Plan. The total amount of the assets transferred was $16,453,286 including notes receivable from participants of $646,052.

During 2019, participant account balances from employees of The Wattstopper, Inc. who participated in the Landrum Professional Employer Services Retirement Savings Plan at Slavic 401(k) transferred into the Plan. The total amount of the assets transferred was $459,660.

Effective December 31, 2019, the assets of Finelite, Inc. 401(k) Plan and assets of certain employees of Legrand Connectrac, LLC, who participated in the Strong Product Group 401(k) Plan, merged into the Plan. The total amount of the assets transferred of $22,801,599 and $1,371,037, respectively, were recorded as transfer receivable to the Plan as of December 31, 2019.

Effective December 31, 2019, certain employees of Server Technology, Inc. who participated in Legrand Savings Plan, merged into the Plan. The total amount of assets transferred of $17,851,340 has been recorded as an asset transfer receivable as of December 31, 2019.

The plan assets and notes receivable from each of these transfers are as follows:

| | Plan assets | Notes receivable from participants | Total transfer |
|---|---|---|---|
| Finelite, Inc. 401(k) Plan | $ 22,065,653 | $ 735,946 | $ 22,801,599 |
| Strong Product Group 401(k) Plan (Legrand Connectrac, LLC) | 1,332,347 | 38,690 | 1,371,037 |
| Legrand Savings Plan (Lastar, Inc.) | 15,807,234 | 646,052 | 16,453,286 |
| Legrand Savings Plan (Server Technology, Inc.) | 17,628,657 | 222,683 | 17,851,340 |
| Landrum Professional Employer Services Retirement Savings Plan at Slavic 401(k) (The Watt Stopper, Inc.) | 459,660 | - | 459,660 |
| | $ 57,293,551 | $ 1,643,371 | $ 58,936,922 |

**Contributions**
Each year, participants may make salary deferral contributions to the Plan based upon a percentage of their pre-tax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of insurance company pooled separate accounts, mutual funds and a guaranteed income fund as investment options for participants.

The Company contributes a "safe harbor" matching contribution as follows:

| Salary reduction contribution | Matching contribution |
|---|---|
| 1.0% of Compensation | 2.0% of Compensation |
| 2.0% of Compensation | 4.0% of Compensation |
| 3.0% of Compensation | 5.5% of Compensation |
| 4.0% of Compensation | 6.0% of Compensation |
| 5.0% of Compensation | 6.5% of Compensation |
| 6.0% of Compensation | 7.0% of Compensation |

Effective January 1, 2011, discretionary Company contributions are no longer allowed. Participants direct the investment of Company contributions.

**Participant accounts**
Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting**
Participants are vested immediately in their contributions and Company matching contributions plus actual earnings thereon. Participants from a former plan of any participating employer who had an account balance on July 31, 2006 and became a participant in the Plan on August 1, 2006 became 100% vested in all Company contributions. In the event of death, total and permanent disability or retirement, participants shall become 100% vested. For all other participants that became eligible

after August 1, 2006, vesting in the Company discretionary contribution portion of their account is based on years of service. A participant is 100% vested after five years of credited service as follows:

| Years of service | Vested percentage |
|---|---|
| Less than 1 year | 0% |
| 1 but less than 2 years | 20% |
| 2 but less than 3 years | 40% |
| 3 but less than 4 years | 60% |
| 4 but less than 5 years | 80% |
| 5 years or more | 100% |

Company contributions of certain participant accounts that were transferred into the Plan as a result of prior mergers will continue to vest according to the vesting schedule of the applicable plan prior to the plan merger.

**Notes receivable from participants**
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is determined based on the prime rate, as defined, plus 1.00% as of the loan origination date. Principal and interest are paid ratably through payroll deductions.

**Payment of benefits**
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or systematic installments. Participants with an account balance less than $5,000 will receive the vested interest in their account as a lump-sum distribution. If an election is not made by the participant, it will be rolled over to an IRA. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals from participants' salary deferral, who are less than 59½ years of age, may be made in the event of a financial hardship, in accordance with the provisions specified in the Plan.

Participants who are at least 59½ years of age are eligible to make in-service withdrawals, in accordance with the provisions of the Plan.

**Revenue credit account**
The Plan has established a revenue credit account to cover Plan expenses. The revenue credit account is treated as a Plan asset and must be used only for legitimate Plan expenses. Unused amounts for expenses may be allocated to participant accounts. During 2019, the custodian contributed $86,262 into the revenue credit account. The balance in the account totaled $191 at December 31, 2019 and 2018. During 2019, the Company used $86,262 from the account to pay Plan expenses.

**Forfeited accounts**
At December 31, 2019 and 2018, forfeited non-vested accounts totaled $135,460 and $2,271, respectively. These accounts will be first used to reinstate previous forfeitures, if applicable, then to reduce future employer contributions. During 2019, employer contributions were reduced by $34,820 from forfeited non-vested accounts.

## Note 2 - Summary of accounting policies

### Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

### Investment valuation and income recognition
The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the custodian and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### Payment of benefits
Benefits are recorded when paid.

### Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation in fair value of investments. Administrative expenses paid by the Plan are paid net of any revenue credits that reimburse or directly pay the fees of a service provider or other expense of administering the Plan.

### Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

### Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### Subsequent events
The Plan has evaluated events and transactions for potential recognition or disclosure through August 24, 2020, the date the financial statements were available to be issued.

## Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued at the accumulation unit value, which is based on the value of underlying assets of the account. The accumulation unit value is deemed equivalent to net asset value ("NAV"), which is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. In accordance with Subtopic 820-10, investments measured at NAV per share (or is equivalent) are not classified in the fair value hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

| | Assets at fair value as of December 31, 2019 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Mutual funds | $ 187,537,592 | $ - | $ - | $ 187,537,592 |
| Pooled separate accounts (a) | - | - | - | 103,665,604 |
| Total investments at fair value | $ 187,537,592 | $ - | $ - | $ 291,203,196 |

| | Assets at fair value as of December 31, 2018 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Mutual funds | $ 142,440,047 | $ - | $ - | $ 142,440,047 |
| Pooled separate accounts (a) | - | - | - | 80,572,032 |
| Total investments at fair value | $ 142,440,047 | $ - | $ - | $ 223,012,079 |

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset per value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For years ended December 31, 2019 and 2018, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

## Note 4 - Fully benefit-responsive investment contract

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The balance in the traditional investment contract as of December 31, 2019 and 2018 was $64,291,215 and $54,136,343, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.5%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

**Note 5 - Certified investments**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2019 and 2018, and investment income (loss) and interest income on notes receivable from participants for the year ended December 31, 2019, that are disclosed in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i), were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement and Insurance Company ("PRIAC"), the custodian, and Prudential Bank & Trust FSB, the trustee, of the Plan.

**Note 6 - Related party and party-in-interest transactions**

Plan investments include units of participation in pooled separate accounts and a guaranteed income fund account managed by PRIAC. PRIAC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fees incurred by the Plan for administrative fees amounted to $109,667 for the year ended December 31, 2019. The Plan allows participants to take loans against their account balances, which are also considered exempt party-in-interest transactions.

## Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

## Note 8 - Tax status

The Plan has obtained its latest determination letter dated October 22, 2015, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## Note 10 - Subsequent event

In early 2020, an outbreak of a novel strain of coronavirus ("COVID-19") emerged globally. As a result, events have occurred domestically in United States and globally, including mandates from federal, state and local authorities, leading to an overall decline in economic activity. The ultimate impact of COVID-19 on the financial performance of the Plan's investments cannot be reasonably estimated at this time.

## Note 1 - Description of Plan

The following description of Legrand North America 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan, formed with an effective date of August 1, 2006, that covers employees of Legrand North America Inc., Pass & Seymour, Inc., The Wiremold Company, The Watt Stopper, Inc., Ortronics, Inc., Cablofil, Inc., Legrand Home Systems, Inc., Legrand Holdings, Inc., Middle Atlantic Products Inc., Raritan Americas Inc., and effective January 1, 2019, Legrand AV Inc. and Lastar Inc. (collectively referred to as the "Company"). Effective January 1, 2020, employees of Finelite, Inc., Legrand Connectrac, LLC and Server Technology, Inc. are covered under the Plan.

Employees that were employed by the Company on or prior to August 1, 2006 were able to participate in the Plan effective August 1, 2006. Those employees hired after August 1, 2006 must complete six months of service before becoming eligible to participate in the Plan. Once becoming eligible, participants are given the opportunity to elect or decline participation in the Plan. If a participant fails to make an affirmative election to participate or decline participation in the Plan, the participant will be deemed to have elected to participate in the Plan and authorized a pre-tax salary reduction contribution of 3% of compensation until the participant elects to make a change. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Retirement Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Effective January 1, 2019, employees of Lastar, Inc. who participated in Legrand Savings Plan, merged into the Plan. The total amount of the assets transferred was $16,453,286 including notes receivable from participants of $646,052.

During 2019, participant account balances from employees of The Wattstopper, Inc. who participated in the Landrum Professional Employer Services Retirement Savings Plan at Slavic 401(k) transferred into the Plan. The total amount of the assets transferred was $459,660.

Effective December 31, 2019, the assets of Finelite, Inc. 401(k) Plan and assets of certain employees of Legrand Connectrac, LLC, who participated in the Strong Product Group 401(k) Plan, merged into the Plan. The total amount of the assets transferred of $22,801,599 and $1,371,037, respectively, were recorded as transfer receivable to the Plan as of December 31, 2019.

Effective December 31, 2019, certain employees of Server Technology, Inc. who participated in Legrand Savings Plan, merged into the Plan. The total amount of assets transferred of $17,851,340 has been recorded as an asset transfer receivable as of December 31, 2019.

The plan assets and notes receivable from each of these transfers are as follows:

| | Plan assets | Notes receivable from participants | Total transfer |
|---|---|---|---|
| Finelite, Inc. 401(k) Plan | $ 22,065,653 | $ 735,946 | $ 22,801,599 |
| Strong Product Group 401(k) Plan (Legrand Connectrac, LLC) | 1,332,347 | 38,690 | 1,371,037 |
| Legrand Savings Plan (Lastar, Inc.) | 15,807,234 | 646,052 | 16,453,286 |
| Legrand Savings Plan (Server Technology, Inc.) | 17,628,657 | 222,683 | 17,851,340 |
| Landrum Professional Employer Services Retirement Savings Plan at Slavic 401(k) (The Watt Stopper, Inc.) | 459,660 | - | 459,660 |
| | $ 57,293,551 | $ 1,643,371 | $ 58,936,922 |

**Contributions**
Each year, participants may make salary deferral contributions to the Plan based upon a percentage of their pre-tax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of insurance company pooled separate accounts, mutual funds and a guaranteed income fund as investment options for participants.

The Company contributes a "safe harbor" matching contribution as follows:

| Salary reduction contribution | Matching contribution |
|---|---|
| 1.0% of Compensation | 2.0% of Compensation |
| 2.0% of Compensation | 4.0% of Compensation |
| 3.0% of Compensation | 5.5% of Compensation |
| 4.0% of Compensation | 6.0% of Compensation |
| 5.0% of Compensation | 6.5% of Compensation |
| 6.0% of Compensation | 7.0% of Compensation |

Effective January 1, 2011, discretionary Company contributions are no longer allowed. Participants direct the investment of Company contributions.

**Participant accounts**
Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting**
Participants are vested immediately in their contributions and Company matching contributions plus actual earnings thereon. Participants from a former plan of any participating employer who had an account balance on July 31, 2006 and became a participant in the Plan on August 1, 2006 became 100% vested in all Company contributions. In the event of death, total and permanent disability or retirement, participants shall become 100% vested. For all other participants that became eligible

after August 1, 2006, vesting in the Company discretionary contribution portion of their account is based on years of service. A participant is 100% vested after five years of credited service as follows:

| Years of service | Vested percentage |
|---|---|
| Less than 1 year | 0% |
| 1 but less than 2 years | 20% |
| 2 but less than 3 years | 40% |
| 3 but less than 4 years | 60% |
| 4 but less than 5 years | 80% |
| 5 years or more | 100% |

Company contributions of certain participant accounts that were transferred into the Plan as a result of prior mergers will continue to vest according to the vesting schedule of the applicable plan prior to the plan merger.

**Notes receivable from participants**
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is determined based on the prime rate, as defined, plus 1.00% as of the loan origination date. Principal and interest are paid ratably through payroll deductions.

**Payment of benefits**
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or systematic installments. Participants with an account balance less than $5,000 will receive the vested interest in their account as a lump-sum distribution. If an election is not made by the participant, it will be rolled over to an IRA. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals from participants' salary deferral, who are less than 59½ years of age, may be made in the event of a financial hardship, in accordance with the provisions specified in the Plan.

Participants who are at least 59½ years of age are eligible to make in-service withdrawals, in accordance with the provisions of the Plan.

**Revenue credit account**
The Plan has established a revenue credit account to cover Plan expenses. The revenue credit account is treated as a Plan asset and must be used only for legitimate Plan expenses. Unused amounts for expenses may be allocated to participant accounts. During 2019, the custodian contributed $86,262 into the revenue credit account. The balance in the account totaled $191 at December 31, 2019 and 2018. During 2019, the Company used $86,262 from the account to pay Plan expenses.

**Forfeited accounts**
At December 31, 2019 and 2018, forfeited non-vested accounts totaled $135,460 and $2,271, respectively. These accounts will be first used to reinstate previous forfeitures, if applicable, then to reduce future employer contributions. During 2019, employer contributions were reduced by $34,820 from forfeited non-vested accounts.

## Note 2 - Summary of accounting policies

### Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

### Investment valuation and income recognition
The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the custodian and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### Payment of benefits
Benefits are recorded when paid.

### Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation in fair value of investments. Administrative expenses paid by the Plan are paid net of any revenue credits that reimburse or directly pay the fees of a service provider or other expense of administering the Plan.

### Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

### Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### Subsequent events
The Plan has evaluated events and transactions for potential recognition or disclosure through August 24, 2020, the date the financial statements were available to be issued.

## Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued at the accumulation unit value, which is based on the value of underlying assets of the account. The accumulation unit value is deemed equivalent to net asset value ("NAV"), which is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. In accordance with Subtopic 820-10, investments measured at NAV per share (or is equivalent) are not classified in the fair value hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

| | Assets at fair value as of December 31, 2019 | | | |
|---|---|---|---|---|

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset per value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For years ended December 31, 2019 and 2018, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

## Note 4 - Fully benefit-responsive investment contract

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The balance in the traditional investment contract as of December 31, 2019 and 2018 was $64,291,215 and $54,136,343, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.5%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

**Note 5 - Certified investments**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2019 and 2018, and investment income (loss) and interest income on notes receivable from participants for the year ended December 31, 2019, that are disclosed in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i), were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement and Insurance Company ("PRIAC"), the custodian, and Prudential Bank & Trust FSB, the trustee, of the Plan.

**Note 6 - Related party and party-in-interest transactions**

Plan investments include units of participation in pooled separate accounts and a guaranteed income fund account managed by PRIAC. PRIAC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fees incurred by the Plan for administrative fees amounted to $109,667 for the year ended December 31, 2019. The Plan allows participants to take loans against their account balances, which are also considered exempt party-in-interest transactions.

## Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

## Note 8 - Tax status

The Plan has obtained its latest determination letter dated October 22, 2015, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## Note 10 - Subsequent event

In early 2020, an outbreak of a novel strain of coronavirus ("COVID-19") emerged globally. As a result, events have occurred domestically in United States and globally, including mandates from federal, state and local authorities, leading to an overall decline in economic activity. The ultimate impact of COVID-19 on the financial performance of the Plan's investments cannot be reasonably estimated at this time.
