Notes to Financial Statements

December 31, 2019 and 2018

1. Description of the Plan

The following description of the Wilbert, Inc. 401(k) Retirement Savings Plan ("Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) provision, covering full-time eligible employees of Wilbert, Inc. (the "Company"). Employees must have completed three months of service and not be covered by a collective bargaining agreement in order to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants of the Plan may elect to make before-tax contributions of up to 60 percent of annual compensation, subject to a statutory maximum amount. The Company makes a safe harbor matching contribution to the Plan equal to 100 percent of the first 3 percent of the participant's compensation contributed and 50 percent of the next 2 percent of the participant's compensation contributed. Participant contributions in excess of 5 percent of compensation are not matched by the Employer. The Employer may also make a discretionary contribution to the Plan. No discretionary contributions were made in 2019.

Participants may direct the contributions into various mutual funds and common trust funds, which are provided as investment options. Participants may change their investment allocations at any time by contacting the Trustee directly.

Vesting

Participants are immediately vested in their contributions, Company safe harbor contributions and discretionary contributions plus actual earnings thereon.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and investment earnings and charged with withdrawals, investment losses and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Allocation of administrative expenses of the Plan is based upon participants' account balances.

Notes Receivable from Participants

Notes receivable from participants are pre-approved by the Plan Administrator and are allowed for any purpose. Participants may apply for one loan per plan year, but may only have one loan outstanding at any given time. Loans are collateralized by a participant's vested account balance and may be granted for a minimum amount of \$1,000 up to the lesser of 50 percent of a participant's vested account balance or \$50,000. Interest on loans is determined by the Plan Administrator based upon prevailing interest rates. Interest rates ranged from 5.50% to 7.50% at December 31, 2019. Loans are generally repayable in equal installments over a period not to exceed five years, unless the loan is for the purchase of a principal residence in which case the repayment period may not exceed ten years.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect one of several alternative forms of payment depending on marital status at the time distribution commences. For termination of services due to other reasons or financial hardship withdrawals, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Qualified matching Company contributions may only be distributed because of death, disability, separation from service, age 59-1/2, or termination of the Plan without establishment of a successor plan.

Forfeited Accounts

Forfeitures of participant non-vested account balances are used to reduce the Company's contributions to the Plan. Forfeitures were not significant to the Plan for the year ended December 31, 2019.

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan, subject to the provisions of ERISA. In the event the Plan is terminated, all participants would become 100% vested in their accounts and not subject to forfeiture.

2. Summary of Significant Accounting PoliciesBasis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures or contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) in the fair value of its investments consists of the realized gains (losses) and the unrealized appreciation (depreciation) on investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses can be paid by the Plan or the Company, as provided by the Plan document. The Plan sponsor elected to pay certain administrative expenses for the year ended December 31, 2019.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through August 28, 2020, the date the financial statements were available to be issued. During the first quarter of 2020, a coronavirus pandemic (COVID-19) emerged globally. As a result of the spread of COVID-19, economic uncertainties have arisen which have resulted in significant volatility in the investment markets and has affected and may continue to affect the Plan's investments. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

3. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs and information other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Common trust funds: Valued at the net asset value of shares / units held by the Plan at year end based upon quoted prices in public markets for the underlying investments. These investments can be redeemed immediately without notice.

Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	December 31, 2019	
	Fair Value	Level 1
Mutual funds	<u>\$ 28,947,421</u>	<u>\$ 28,947,421</u>
Total assets in the fair value hierarchy	<u>28,947,421</u>	<u>\$ 28,947,421</u>
Common trust funds, measured at net asset value	<u>1,682,168</u>	
Investments at fair value	<u>\$ 30,629,589</u>	
	December 31, 2018	
	Fair Value	Level 1
Mutual funds	<u>\$ 26,588,618</u>	<u>\$ 26,588,618</u>
Total assets in the fair value hierarchy	<u>26,588,618</u>	<u>\$ 26,588,618</u>
Common trust funds, measured at net asset value	<u>1,884,290</u>	
Investments at fair value	<u>\$ 28,472,908</u>	

Investments that were measured at net asset value per share or unit have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the investments at fair value in the statements of net assets available for benefits.

4. Information Certified by Trustee

The following is a summary of the Plan's financial information and data included in the Plan's financial statements and supplemental schedule which was certified by Fidelity Management Trust Company, the custodian, as of December 31, 2019 and 2018 and for the year ended December 31, 2019, as complete and accurate, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- Investments at fair value
- Notes receivable from participants
- Investment income
- Interest income on notes receivable from participants

5. Related Party Transactions

The Plan's investments are mutual funds and a common trust fund managed by Fidelity. Fidelity is the trustee of the Plan and, therefore, these transactions are party-in-interest transactions.

6. Tax Status

The prototype plan agreement, adopted by the Plan, has received a favorable determination letter from the Internal Revenue Service dated March 31, 2014 indicating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan is required to evaluate each of its tax positions to determine if they are more likely than not to be sustained if the taxing authority examines the respective position. The Plan has evaluated each of its tax positions and has determined that no additional provision or liability for income taxes is necessary.

7. Reconciliation of Financial Statements to Form 5500

Notes to Financial Statements

December 31, 2019 and 2018

1. Description of the Plan

The following description of the Wilbert, Inc. 401(k) Retirement Savings Plan ("Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) provision, covering full-time eligible employees of Wilbert, Inc. (the "Company"). Employees must have completed three months of service and not be covered by a collective bargaining agreement in order to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants of the Plan may elect to make before-tax contributions of up to 60 percent of annual compensation, subject to a statutory maximum amount. The Company makes a safe harbor matching contribution to the Plan equal to 100 percent of the first 3 percent of the participant's compensation contributed and 50 percent of the next 2 percent of the participant's compensation contributed. Participant contributions in excess of 5 percent of compensation are not matched by the Employer. The Employer may also make a discretionary contribution to the Plan. No discretionary contributions were made in 2019.

Participants may direct the contributions into various mutual funds and common trust funds, which are provided as investment options. Participants may change their investment allocations at any time by contacting the Trustee directly.

Vesting

Participants are immediately vested in their contributions, Company safe harbor contributions and discretionary contributions plus actual earnings thereon.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and investment earnings and charged with withdrawals, investment losses and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Allocation of administrative expenses of the Plan is based upon participants' account balances.

Notes Receivable from Participants

Notes receivable from participants are pre-approved by the Plan Administrator and are allowed for any purpose. Participants may apply for one loan per plan year, but may only have one loan outstanding at any given time. Loans are collateralized by a participant's vested account balance and may be granted for a minimum amount of \$1,000 up to the lesser of 50 percent of a participant's vested account balance or \$50,000. Interest on loans is determined by the Plan Administrator based upon prevailing interest rates. Interest rates ranged from 5.50% to 7.50% at December 31, 2019. Loans are generally repayable in equal installments over a period not to exceed five years, unless the loan is for the purchase of a principal residence in which case the repayment period may not exceed ten years.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect one of several alternative forms of payment depending on marital status at the time distribution commences. For termination of services due to other reasons or financial hardship withdrawals, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Qualified matching Company contributions may only be distributed because of death, disability, separation from service, age 59-1/2, or termination of the Plan without establishment of a successor plan.

Forfeited Accounts

Forfeitures of participant non-vested account balances are used to reduce the Company's contributions to the Plan. Forfeitures were not significant to the Plan for the year ended December 31, 2019.

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan, subject to the provisions of ERISA. In the event the Plan is terminated, all participants would become 100% vested in their accounts and not subject to forfeiture.

2. Summary of Significant Accounting PoliciesBasis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures or contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) in the fair value of its investments consists of the realized gains (losses) and the unrealized appreciation (depreciation) on investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses can be paid by the Plan or the Company, as provided by the Plan document. The Plan sponsor elected to pay certain administrative expenses for the year ended December 31, 2019.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through August 28, 2020, the date the financial statements were available to be issued. During the first quarter of 2020, a coronavirus pandemic (COVID-19) emerged globally. As a result of the spread of COVID-19, economic uncertainties have arisen which have resulted in significant volatility in the investment markets and has affected and may continue to affect the Plan's investments. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

3. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs and information other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Common trust funds: Valued at the net asset value of shares / units held by the Plan at year end based upon quoted prices in public markets for the underlying investments. These investments can be redeemed immediately without notice.

Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	December 31, 2019	
	Fair Value	Level 1
Mutual funds	<u>\$ 28,947,421</u>	<u>\$ 28,947,421</u>
Total assets in the fair value hierarchy	<u>28,947,421</u>	<u>\$ 28,947,421</u>
Common trust funds, measured at net asset value	<u>1,682,168</u>	
Investments at fair value	<u>\$ 30,629,589</u>	
	December 31, 2018	
	Fair Value	Level 1
Mutual funds	<u>\$ 26,588,618</u>	<u>\$ 26,588,618</u>
Total assets in the fair value hierarchy	<u>26,588,618</u>	<u>\$ 26,588,618</u>
Common trust funds, measured at net asset value	<u>1,884,290</u>	
Investments at fair value	<u>\$ 28,472,908</u>	

Investments that were measured at net asset value per share or unit have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the investments at fair value in the statements of net assets available for benefits.

4. Information Certified by Trustee

The following is a summary of the Plan's financial information and data included in the Plan's financial statements and supplemental schedule which was certified by Fidelity Management Trust Company, the custodian, as of December 31, 2019 and 2018 and for the year ended December 31, 2019, as complete and accurate, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- Investments at fair value
- Notes receivable from participants
- Investment income
- Interest income on notes receivable from participants

5. Related Party Transactions

The Plan's investments are mutual funds and a common trust fund managed by Fidelity. Fidelity is the trustee of the Plan and, therefore, these transactions are party-in-interest transactions.

6. Tax Status

The prototype plan agreement, adopted by the Plan, has received a favorable determination letter from the Internal Revenue Service dated March 31, 2014 indicating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan is required to evaluate each of its tax positions to determine if they are more likely than not to be sustained if the taxing authority examines the respective position. The Plan has evaluated each of its tax positions and has determined that no additional provision or liability for income taxes is necessary.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying financial statements to Form 5500 as of December 31:

	<u>2019</u>	<u>2018</u>

Net assets available for benefits per Form 5500	<u>\$ 31,484,339</u>	<u>\$ 29,300,780</u>

The following is a reconciliation of net increase (decrease) in net assets available for benefits per the accompanying financial statements to net income (loss) per the Form 5500 for the year ended December 31, 2019:
