Note 1 Description of Plan

General The following description of the Van Wagner Group, LLC Retirement Savings Plan (the "Plan," or "Retirement Savings Plan") provides only general information. Participants should refer to the Volume Submitter Plan and Trust document, related Adoption Agreement and Summary Plan Description for a more complete description of the Plan's provisions. The Plan is a defined contribution 401(k) plan covering all eligible employees of Van Wagner Group, LLC (the "Sponsor") and of affiliate employers (together the "Employer") that with the consent of the Sponsor have adopted the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Retirement Savings Plan Committee (the Plan "Administrator") is responsible for the oversight of the Plan. It determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility Eligibility is limited to full-time employees who have completed six months of service and attained age eighteen. Employees covered by collective bargaining agreements, non-resident aliens, leased, temporary and seasonal employees, are excluded from participation. Eligible employees may elect to begin participation in the Plan as of the first day of the calendar Plan year, or the first day of the seventh month of the Plan year coinciding with or next following the date that the age and service eligibility requirements are met.

Automatic Enrollment The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their pre-tax elective deferral rate set at 3 percent of eligible compensation and their contributions invested in the Plan's Qualified Default Investment Alternative ("QDIA") until changed by the participant. The Plan has selected the T. Rowe Price Target Date Retirement Fund closest to the year in which the participant turns 65 as its QDIA.

Employee Contributions Each year, participants may authorize the Employer to withhold up to 100% (to a maximum of $19,000 in 2019 and $18,500 in 2018) of eligible compensation for contribution to the Plan. Eligible compensation is statutorily limited to $280,000 in 2019 and $275,000 in 2018. Participants over 50 years of age, may make an additional annual "catch-up" contribution. The maximum annual catch-up contribution for 2019 and 2018 is $6,000. Participants also may contribute rollover amounts representing distributions or distributable amounts from other tax qualified retirement plans. Participants may elect to contribute all or a portion of their elective contributions to the Plan as pre-tax elective deferrals or after-tax Roth contributions.

Employer Contributions The Employer is obligated to contribute 3% of a participant's eligible compensation from the Employer as a safe harbor contribution. Additional discretionary profit sharing contributions may be made to the Plan solely at the option of the Employer.

Participant Accounts Each participant's Plan account is credited with the participant's contributions and allocations of the Employer's contributions, including any related earnings or losses, and may be charged with an allocation of certain administrative expenses, if any. Allocations of Employer contributions are based on participants' eligible compensation. Allocations of Employer discretionary profit sharing contributions, if any, are made to participants who are employees of the Employer as of the last day of the Plan year. Allocations of earnings or losses are based on participants' account balances. The benefit to which a participant is entitled under the Plan as of a certain date is the amount of the participant's vested Plan balances.

Vesting Participants are immediately 100% vested in all their contributions and Employer safe harbor contributions, including any related earnings or losses. Employer discretionary profit sharing contributions and any related earnings or losses vest based on years of service. For these amounts, a participant becomes 100% vested, in 20% increments, over a period of two through six completed years of service. Also for these amounts, a participant becomes 100% vested upon normal retirement age 65, total disability, death, and termination or partial termination of the Plan. In general, a participant who terminates employment with the Employer before becoming fully vested in their Plan account balance will forfeit the unvested employer contributed portion of their account balances.

Note 1 Description of Plan (continued)

Forfeitures Forfeitures of the non-vested portion of terminated participants' Plan accounts are applied to reduce Employer contributions. Activity arising from unallocated forfeitures of terminated participants' non-vested account balances for the years ended December 31, 2019 and 2018 was:

	2019	2018
Forfeiture balance available - beginning of year	$ - 0 -	$ 18,000
Increase arising from forfeitures of terminated participants' non-vested account balances	22,000	- 0 -
Amount used to reduce Employer contributions	- 0 -	(18,000)
Forfeiture balance available - end of year	$ 22,000	$ - 0 -

Notes Receivable from Participants Participants may borrow from their Plan accounts, in general, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. No more than two loans may be outstanding at any time. The minimum permitted loan is $1,000. Loans are collateralized by the balance in the participant's Plan accounts. Principal and interest are to be paid ratably through payroll deductions and are credited to the participant's Plan accounts. Loan origination fees, if any, are charged directly to the participants' accounts.

Hardship Distributions Participants may request a distribution of all or a portion of their vested Plan account balance in the event of certain defined financial hardships. Participants must first exhaust all other reasonably available resources before becoming eligible for hardship distributions.

In-service Distributions Participants who have attained age 59 ½ may request an in-service distribution of all or a portion of their vested Plan account balances, provided such request is for at least $500.

Payment of Benefits Upon termination of service with the Employer, death, or total and permanent disability, participants may receive their vested Plan account balances in substantially equal installments or as a lump sum payable in cash.

Investment Options Upon enrollment in the Plan, participants may direct the investment of contributions made on their behalf and may transfer the investment of Plan account balances among approximately 40 investment options, primarily registered investment companies ("mutual funds"). The Sponsor, or its delegate, may add or subtract from the list of investment options from time to time, in accordance with its fiduciary duties under ERISA. When participants direct their own Plan account investments, their Plan accounts are allocated earnings or losses reflective of their chosen investments. A participant's Plan account does not share in the investment performance of other participants' Plan accounts.

Plan Termination Although it has not expressed any intent to do so, Van Wagner Group, LLC, as Plan Sponsor, has the right to permanently discontinue contributions and terminate the Plan subject to the provisions of ERISA and the Internal Revenue Code of 1986, as amended (the "Code"). Should the Sponsor permanently discontinue contributions or terminate the Plan, participants will be 100% vested in all Plan accounts. Further, under some circumstances (such as a significant reduction in Plan participation from one Plan year to the next, resulting from certain events), Plan participants with respect to whom a partial Plan termination occurs will become 100% vested in all their Plan accounts.

Note 2 Summary of Significant Accounting Policies

The financial statements of the Plan are prepared using the accrual method of accounting.

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America, requires the Plan Administrator to make estimates and assumptions that may affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments are reported at fair value. The carrying value of other assets and liabilities approximates fair value because of the short-term nature of these items. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Attributes that are specific to an asset or liability, such as restrictions on the asset's sale, need to be considered when measuring fair value, if market participants would take those attributes into account when pricing the item. The Plan Administrator determines the Plan's valuation policies utilizing information provided by Reliance Trust Company, the Trustee of the Plan. See Note 3 for a discussion of fair value measurements.

Participant contributions are recorded as they are withheld from participant wages. Employer contributions are recorded in the period in which the related participant contributions are due.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. If a terminated participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a deemed distribution is recorded. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (or depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits are recorded when paid.

Mutual fund, money market fund and common collective trust expenses, including investment management and advisory services, are charges against the respective investment vehicle assets and are reflected in the respective investment’s share/unit value, dividends and net appreciation or (depreciation) in value of investments.

Certain operating and administrative expenses are absorbed by the Employer, and to that extent, are not reflected in these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Certain amounts, classifications and disclosures included in prior year financial statements, are, from time to time, restated to conform to the presentation of the current year.

Note 3 Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels.

Level 1 inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 1 inputs have the highest priority.

Level 2 inputs include:

- quoted prices for similar, but not identical, assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets (i.e., markets in which there are few transactions for the asset or liability, the prices are not current, price quotations vary substantially, either over time or among market makers, or in which little information is publicly available - for example, a principal-to-principal market);
- inputs other than quoted prices that are observable for the assets or liabilities; and
- inputs that are derived principally from, or corroborated by, observable market data, either by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs have the lowest priority. Level 3 inputs, which are unobservable and significant, are used for fair value measurement only when observable inputs are not available. Thus, these inputs apply when there is little or no market activity for the asset or liability at the measurement date.

The assets' or liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used, maximize the use of observable inputs and minimize the use of unobservable inputs.

Appropriate valuation techniques based on the available inputs are used to measure the fair value of the Plan's investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. There have been no changes in the fair value methodologies used at December 31, 2019 and 2018.

Level 1 Fair Value Measurements - The fair value of all Plan investments in money market funds and mutual funds is based on year-end quoted net asset values of the shares held by the Plan, on the active market on which the funds are traded, as certified by the Trustee. (See Note 4.) The Plan's investments in money market funds and mutual funds are deemed to be actively traded.

Level 2 Fair Value Measurements - The Plan's investment in the common collective trust ("CCT") is valued at the net asset value ("NAV") of units held. The NAV is based on the fair value of the underlying investments held by the CCT less its liabilities. CCT units held in participant accounts may be redeemed on a daily basis to fund participant benefit payments and other participant initiated withdrawals. In unusual market conditions the CCT trustee may impose restrictions on redemptions of units. Plan level liquidations such as those arising from a termination of the Plan, require notice and could result in redemption restrictions for up to 12 to 30 months.

Level 3 Fair Value Measurements - No level 3 inputs were used by the Plan.

Note 3 Fair Value Measurements (continued)

For the years ended December 31, 2019 and 2018 there were no transfers among Levels 1, 2 or 3.

The methods described above may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. Further, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Level 1	Level 2	Level 3	Total

Note 5 Parties in Interest and Related Party Transactions

Certain officers and employees of the Employer are members of the Retirement Savings Plan Committee that is designated as the Plan Administrator and is charged with the interpretation, administration and operation of the Plan. They, along with Plan service providers, the Employer, certain Employer principals and family members, and Trustee, are considered "parties in interest" pursuant to definitions within ERISA (and "disqualified persons" within the Code). In general, individuals and companies that do business with the Plan may be defined as parties in interest. Parties in interest may be restricted in their ability to be involved in transactions with the Plan and Plan fiduciaries.

Certain investments of the Plan are in shares (or units) of mutual funds, money market funds and common collective trusts. These investment vehicles may pay fees for investment advisory services, management or similar services, both to their own related mutual fund family umbrella companies and to other service providers, some of which may do business with the Plan, the Employer, the Plan Administrator, the Trustee, the custodian, or with the Plan investment advisor. These transactions qualify as exempt party in interest transactions. Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualify as exempt party-in-interest transactions.

Through arrangements with the Trustee, the Plan recaptures fees from mutual funds. Activity within the unallocated recapture account for the years ended December 31, 2019 and 2018 was:

	2019	2018
Unallocated recapture balance available - beginning of year	$ - 0 -	$ 8,000
Earnings recaptured from mutual funds	15,000	15,000
Amounts offset against Plan expenses	(11,000)	(23,000)
Unallocated recapture balance available - end of year	$ 4,000	$ - 0 -

Note 6 Risks, Concentrations and Uncertainties

Future Employer contributions to the Plan are subject to risk arising from concentration in, and financial capacity of, the sources providing those contributions.

Benefits provided by the Plan are not insured by the Pension Benefit Guaranty Corporation under ERISA. Also, the Plan's investments are not equivalent to bank deposits and are not insured or guaranteed by the FDIC. Further, all of the Plan's investments are exposed to various risks, such as interest rate and foreign exchange rate fluctuation, market volatility and credit risk. Accordingly it is at least reasonably possible in the near term, that risks would materially affect future amounts reported in the Statements of Net Assets Available for Benefits, and in the Statements of Changes in Net Assets Available for Benefits; and consequently impact participants' Plan account balances, including vested account values at retirement date or upon another distributable event.

Plan investments may directly or indirectly invest in securities with contractual cash flows. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Note 7 Tax Status

The Internal Revenue Service has issued an advisory letter dated June 1, 2015 to the sponsoring organization of the pre-approved Plan adopted by the Employer opining that the form of the pre-approved plan and related trust are designed in accordance with applicable tax qualification and tax exemption sections of the Code. The pre-approved plan and related trust have been amended since receiving the advisory letter. The Employer is not required and has not sought to apply for its own determination letter with regard to the tax qualification of the Plan. The Employer believes that the Plan is designed and currently is being operated in compliance with the applicable requirements of the Code and, therefore believes that the Plan is qualified, and the related trust is tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to examinations by taxing authorities for years before 2016. The application of tax laws and regulations to many types of transactions is susceptible to varying interpretations and accordingly, amounts and disclosures reported in the financial statements could be changed at a later date upon final determinations by the taxing authorities.

Note 8 Subsequent Events

Management has evaluated subsequent events through August 31, 2020, the date on which the financial statements were available to be issued and has determined that all material subsequent events or transactions that would require recognition or disclosure have been included in the financial statements.

The extent of the impact of the COVID-19 outbreak on the financial performance of the Plan's investments will depend on future developments, including the duration and severity of the outbreak and its impact on the financial markets and the overall economy, all of which are uncertain and cannot be predicted. If the financial markets or the overall economy are impacted for an extended period, the Plan's investment results could be materially adversely affected.

A prolonged widespread epidemic could adversely impact global economies and financial markets resulting in an economic downturn that could disrupt the demand for the Plan Employer's products and services. Such disruptions have adversely affected the Employer's profitability, cash flows, financial results and may eventually affect the ability to make required Plan contributions.
