Note 1 - Description of Plan

The Plan is a defined contribution plan sponsored by Texas Oil & Chemical Co. II, Inc. (the "Company"). The Company is a wholly owned subsidiary of Trecora Resources, which trades on the New York Stock Exchange under ticker symbol TREC. The following provides only general information and participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which became effective on September 1, 1978, as amended and restated effective January 1, 2018, is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC"). The plan has been amended to conform with updated ERISA and IRC regulations.

Employee Contributions

Participants may contribute up to 100% of their compensation, as defined. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. Participants' salary deferral contributions are subject to IRC limitations, which was $19,000 in 2019. The Plan allows catch-up contributions (within the meaning of Section 414(v) of the IRC) for participants who have reached age 50 by the end of the plan year. Participants are only permitted to make catch-up contributions if they have made their maximum salary deferral contribution for the year. Effective January 1, 2015, the Plan automatically enrolls all newly eligible participants into the Plan at a 3% deferral rate.

Employer Contributions

The Company makes matching contributions equal to 100% of the participant's deferral up to the first 6% of the participant's eligible compensation. In addition, each year the Company may, at its discretion, make a profit-sharing contribution for the plan year not to exceed certain limitations prescribed by the IRC. The Company did not make a profit-sharing contribution for the year ended December 31, 2019.

Participant Accounts

Each participant's account reflects the participant's contribution, the Company's matching and profit-sharing contributions, Plan earnings or losses on the account, an allocation of the Company's discretionary contribution, if any, based on participant compensation and a charge for any distributions and direct expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan – (Continued)

Vesting

Participants are immediately vested in their contributions and rollover accounts, plus actual earnings thereon. Effective January 1, 2015, vesting in the Company's matching contributions is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0 %
2 or more	100 %

Company matching contributions remitted to the Plan in 2014 or before are subject to a six year vesting schedule.

Vesting in the Company's profit-sharing contributions, if any, is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6 or more	100 %

Administrative Expenses

In accordance with the Plan, administrative expenses may be paid out of the Plan unless paid by the Company.

Participant Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in 1% increments in various investment options offered by the Plan. The Plan currently offers shares of pooled separate accounts, guaranteed interest accounts and mutual funds as investment options for participants. The Plan previously offered an investment option of Trecora Resources common stock for participants, however, effective January 1, 2019 this option was discontinued for new contributions. Participants can change their investment options daily.

Note 1 - Description of Plan – (Continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000, minus the highest outstanding note receivable balance during the immediately preceding twelve months. The notes receivable are secured by the balance in the participant's account. All notes are considered a directed investment from the participant's Plan account with all principal and interest credited to the participant's account. A maximum of one loan outstanding is allowed per participant at a time. Each loan shall bear a reasonable fixed rate of interest to be determined by the Administrator. Interest rates ranged from 5.25% to 7.50% as of December 31, 2019 and 1899. Notes receivable are to be repaid within five years. Principal and interest are paid ratably through periodic payroll deductions.

Notes receivable are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. Participant loans are considered delinquent if any payment or principal and interest, or any portion thereof, remains unpaid for more than 90 days after due.

Payment of Benefits

Upon termination of service, the participant or their beneficiary has the option to choose a lump sum payment, installment payment, or to purchase an annuity equal to the value of the participant's vested interest in his or her account. A participant may elect to withdraw all or a portion of their vested account balance while employed after reaching age 59 1/2.

Forfeitures

Forfeitures can be used to reduce future employer contributions or to pay administrative expenses. See Note 3.

Voting Rights

Each participant is entitled to exercise voting rights attributable to any Trecora Resources shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote in the best interest of plan participants' shares for which instructions have not been given by a participant. As discussed above, Trecora Resources is no longer available for purchase inside the Plan.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America and are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates. See Note 4 for discussion of significant estimates used to measure fair value of investments.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Benefits Paid to Participants

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Risks and Uncertainties

The Plan and its participants invest in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur at any given time, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies – (Continued)

Asset Management Fees

Plan participants are charged for asset management fees based on fund balances. Asset management fees are accrued daily by the Trustee based on participant balances in each fund and are included in net appreciation.

New accounting pronouncement

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820), Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* ("ASU 2018-13"). The standard is effective for fiscal years beginning after December 15, 2019. The amendments modify the disclosure requirements on fair value measurements in FASB Accounting Standards Codification 820. Management continues to evaluate the impact of the adoption of ASU 2018-13 and anticipates that its potential effect on the Plan's financial statement disclosures will be immaterial.

Subsequent Events

Management of the Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through August 17, 2020, the date which the financial statements were issued. See Note 11.

Note 3 - Nonparticipant-Directed Investments

Note 4 - Fair Value Measurements

Financial Accounting Standards Board Statement Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) establishes a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Employer security: Valued at the closing price reported on the active market on which the individual security is traded.

Note 4 - Fair Value Measurements – (Continued)

Guaranteed interest contracts: Fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other death, disability, termination or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

Mutual funds: Valued at the closing price reported on the active market on which the Fund is traded.

Separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Employer securities (Note 7)	$ **3,496,835**	**-**	**-**	$ **3,496,835**
Guaranteed interest contracts	**-**	**-**	**907,998**	**907,998**

Total Assets in the fair value hierarchy	$ **5,187,632**	**-**	**907,998**	$ **6,095,630**
Separate accounts measured at NAV (a)				**21,351,534**
				$ **27,447,164**

Note 4 - Fair Value Measurements – (Continued)

	December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Employer securities (Note 7)	$ 3,606,241	$ -	$ -	$ 3,606,241
Guaranteed interest contracts	-	-	1,515,218	1,515,218
Mutual funds	1,953,111	-	-	1,953,111
Total Assets in the fair value hierarchy	$ 5,559,352	$ -	$ 1,515,218	$ 7,074,570
Separate accounts measured at NAV (a)				18,784,497
				$ 25,859,067

(a) In accordance with Accounting Standards Codification Subtopic 820-10, certain investments that were measured at net asset value per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of their fair value hierarchy to the Statement of Net Assets Available for Benefits.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets, Guaranteed Interest Contracts, for the years ended December 31, 2019 and 1899.

	December 31,

Note 7 - Related-Party Transactions

The Plan owned 489,068 and 462,339 shares of Trecora Resources (Note 1) common stock valued at $3,496,835 and $3,606,241 at December 31, 2019 and 1899, respectively.

Certain plan investments in shares of pooled separate accounts and guaranteed interest contracts are managed by Principal Insurance Company and qualifying employer securities are held by Principal Trust Company. Principal Insurance Company and Principal Trust Company are also the trustees, custodians and record keepers as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA and applicable exemptions promulgated thereunder.

Note 8 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 13, 2015, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not, would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019 and 1899, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Net Asset Value (NAV) Per Share – (Continued)

(a) The investment seeks to provide a high level of current income consistent with safety and liquidity. The fund invests primarily in securities issued by the U.S. government, its agencies or instrumentalities or securities that are rated AAA by S&P, AAA by Fitch, or Aaa by Moody's.

(b) The investment seeks a total return consisting of long-term growth of capital and current income. The fund invests in underlying Principal domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. It allocates the assets more conservatively over time.

(c) The investment seeks current income and, as a secondary objective, capital appreciation. The fund invests in underlying Principal domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors primarily seeking current income and secondarily capital appreciation. Its asset allocation is designed for investors who are approximately 15 years beyond the normal retirement age of 65.

(d) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets in equity securities of companies with market capitalizations within the range of companies in the Russell 1000 Growth Index at the time of purchase. It may also invest in initial public offerings and foreign securities. It invests in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average.

(e) The investment seeks long-term growth of capital. The fund invests at least 80% of net assets in common stocks of companies that compose the S&P 500 Index. It uses an indexing strategy, or a passive investment approach designed to track the performance of the S&P 500.

(f) The investment seeks long-term growth of capital. The fund invests at least 80% of net assets in equity securities of companies with medium market capitalizations (those with market capitalizations similar to companies in the Russell Midcap Value Index) at the time of purchase. It invests in value equity securities; the value orientation selection emphasizes buying securities that appear to be undervalued.

(g) The investment normally invests the majority of assets in common stocks of companies that compose the S&P MidCap 400 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P MidCap 400 Index. Over the long-term, management seeks a very close correlation between the performance of the Separate Account before expenses and that of the S&P MidCap 400 Index.

Note 9 - Net Asset Value (NAV) Per Share – (Continued)

(h) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets in equity securities of companies with small market capitalizations (those with market capitalizations similar to companies in the Russell 2000 Index) at the time of purchase. It invests in equity securities with value and /or growth characteristics and constructs an investment portfolio that has a "blend" of equity securities with these characteristics.

(i) The investment seeks long-term growth of capital. The fund invests primarily in equity securities of companies domiciled in any of the nations of the world including those in countries with emerging markets. It has no limitation on the percentage of assets that are invested in any one country or denominated in any one currency, but the fund typically invests in at least 30 countries.

(j) The pooled separate account invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. Certain high need payments, such as death, disability, certain eligible retirements, and hardship withdrawals were not subject to the withdrawal limitation. Other withdrawal requests were subject to the limitation until certain liquidity levels were achieved.

(k) The investment seeks to provide long-term capital growth by investing primarily in the shares of companies domiciled in developed (ex-U.S.) and emerging market countries.

(l) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets, plus any borrowings for investment purposes, in companies with large market capitalizations at the time of each purchase. The pooled separate account invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued.

(m) The investment seeks to provide a high level of current income consistent with preservation of capital. The fund invests primarily in a diversified pool of fixed-income securities including corporate securities, U.S. government securities, and mortgage-backed securities, up to 35% of which may be in below investment grade bonds which are rated at the time of purchase Ba1 or lower by Moody's and BB+ or lower by S&P. It maintains an average portfolio duration that is within 25% of the duration of the Barclays U.S. Aggregate Bond Index.

(n) The investment seeks to provide long-term growth of capital. The fund invests primarily in equity securities of companies with any market capitalization but has a greater exposure to large market capitalization companies than small or medium market capitalization companies. It invests in equity securities with value and/or growth characteristics and constructs an investment portfolio that has a "blend" of equity securities with these characteristics. Investing in value equity securities is an investment strategy that emphasizes buying equity securities that appear to be undervalued.

Note 9 - Net Asset Value (NAV) Per Share – (Continued)

(o) The investment seeks a relatively high level of current income and long term growth of income and capital by investing primarily in the common stocks of U.S. large cap companies. The benchmark is the Russell 1000 Value Index. The strategy typically invests in 80-100 companies.

(p) The investment seeks as high a level of current income as is considered consistent with preservation of principal and maintenance of liquidity. It invests in a portfolio of high quality, short-term money market instruments. The investments are U.S. dollar denominated securities which the sub-advisor believes present minimal credit risks. The sub-advisor maintains a dollar weighted average portfolio maturity of 60 days or less.

(q) The investment option invests primarily in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and US government and agency-backed securities. Value is added primarily through sector allocation and security selection. The Separate Account may enter into reverse repurchase agreements to attempt to enhance portfolio return and income.

Note 11 - Subsequent Events

On March 11, 2020, the World Health Organization declared the novel strain of coronavirus ("COVID-19") a global pandemic and recommended containment and mitigation measures worldwide. The pandemic has significantly impacted the economic conditions in the U.S., accelerating during the first half of March, as federal, state and local governments react to the public health crisis, creating significant uncertainties in the economy. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, the Company is not able to estimate the effects, if any, of the COVID-19 outbreak on its results of operations, financial condition, or liquidity for the remainder of fiscal year 2020 and 2021.

This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

Note 11 - Subsequent Events – (Continued)

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act, also known as the CARES Act, was signed into law. The CARES Act contains several provisions that temporarily impact 401(k) plans, such as the waiver of required minimum distributions, a new hardship withdrawal option, increased loan limits, and a loan payment pause option. The Company has incorporated these provisions into the Plan.
