**GPI HOURLY SAVINGS PLAN
(FOR REPRESENTED EMPLOYEES)
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018**

1. DESCRIPTION OF PLAN

The following description of the GPI Hourly Savings Plan (For Represented Employees), formerly known as Riverwood International Hourly Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Graphic Packaging International, LLC (the Company). Full-time hourly employees whose employment is covered by the terms of a collective bargaining agreement are eligible to participate in the Plan based upon eligibility as defined in the appropriate collective bargaining agreement and Plan. Rehires are eligible to participate immediately upon rehire if they have already met the service and age requirements, if applicable, as defined by the Plan. If the employee is a covered employee, such employee is eligible to participate in the Plan after completing at least 1,000 hours and meeting the applicable age and service eligibility requirements as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2018, the Plan was amended to allow participation in the Plan with respect to employees at the Company's (i) Augusta Mill facility represented by IBEW Local 1588 and USW Locals 983 and 1803, and (ii) Texarkana Mill facility represented by IBEW Local 301 and USW Locals 1148 and 1149; and to allow participation in the Plan with respect to certain non-union hourly employees who became employees of the Company in connection with a corporate transaction between the Company and International Paper Company.

Contributions

Each year, participants may elect to contribute a portion of their pre-tax annual compensation to the Plan, as outlined by the Plan's Subplan provisions. In addition, the Plan allows after-tax and Roth contributions for certain Subplans. Any participant who is age 50 by the end of the Plan year may contribute additional "catch-up" contributions. Participants may also contribute in the form of a direct rollover, amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to maximum annual contribution limits.

The Company contribution is based on matching of pre-tax contributions, as defined by the Plan. In addition, several locations are eligible for Supplemental Employer Contributions, Special Employer Contributions and Employer Automatic Contributions pursuant to the collective bargaining agreements in effect for each location, as defined by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings or losses. Participant accounts are charged with withdrawals and investment fees which are netted against the revenue allocated to them and certain loan and distribution fees. Allocations are based on participant earnings, participant contributions or account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account.

**GPI HOURLY SAVINGS PLAN
(FOR REPRESENTED EMPLOYEES)
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018**

1. DESCRIPTION OF PLAN – CONTINUED

Vesting

Participants are immediately vested in their elective deferrals, rollover contributions plus actual earnings thereon. Vesting in employer contributions varies based on the type of employer contribution which varies by location, as defined by the Plan.

Payment of Benefits

A participant is entitled to a distribution of 100% of his or her account balance upon retirement, death, or disability. Upon termination of service for any other reason or if the participant has attained the age of 59½, a participant may elect to receive the value of the vested portion of their account either as a lump-sum amount or in the form of installment payments. A participant may take a distribution in the event of financial hardship if all requirements are met as specified by the Plan document.

Notes Receivable from Participants

Certain participants may borrow from their accounts in amounts equal to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The Plan prohibits loans from being made out of the participant's Supplemental Employer Contribution portion of the participant's account. The loans are secured by the balance in the participant's account and bear varying rates of interest, which are commensurate with local prevailing rates as determined by the Plan administrator. The loans can have up to a maximum term of 57 months, unless the loan is to be used in conjunction with a purchase of a principal residence and in that case the loan can have a maximum term of 25 years. Interest rates range from 4.25% to 10.50% per annum on loans outstanding as of December 31, 2019. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

For the Plan year ended December 31, 2019, forfeitures of \$230,486 were used to reduce employer contributions. As of December 31, 2019 and 2018, forfeited nonvested accounts totaled \$7,113 and \$3,968, respectively. These accounts are available to reduce future employer contributions to the Plan or pay the Plan's administrative expenses.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan and a revenue sharing account, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company, by a letter dated May 28, 2015, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended subsequent to receipt of the determination letter. However, the Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and that the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

1. DESCRIPTION OF PLAN – CONTINUED

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become 100% vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principles and policies which significantly affect the determination of net assets available for plan benefits and results of operations are summarized below.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with GAAP.

Investment Valuation and Income Recognition

Investments in the GPI Savings Plans Master Trust (the Master Trust) in which the Plan is funded, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statement of changes in net assets available for benefits an allocation of the Master Trust's net income which consists of net appreciation in fair value of investments and interest and dividend income.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the levels of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of investment valuation.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting* (Topics 960, 962 and 965): *Employee Benefit Plan Master Trust Reporting* (ASU 2017-06). ASU 2017-06 clarifies the presentation and disclosure requirements for an employee benefit plan's interest in a master trust. The guidance in this update is effective for fiscal years beginning after December 15, 2018. ASU 2017-06 requires a retroactive adoption. The Company adopted ASU 2017-06 and the impact is reflected within Note 3.

3. INTEREST IN GPI SAVINGS PLANS MASTER TRUST

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and certain assets of another Company sponsored retirement plan. The plans participating in the Master Trust collectively own, through the Master Trust, the assets based upon investment percentages. Participant transaction activity is designated to specific plans. Accordingly, each plan's investment percentage in the Master Trust changes regularly. Income earned by the Master Trust is allocated to the various plans based upon the investment percentage on the day the income is earned. At December 31, 2019 and 2018, the Plan's interest in the net assets of the Master Trust was approximately 33% and 32%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100% allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Master Trust.

4. FAIR VALUE MEASUREMENT

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, defines fair value, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
- Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are observable as of the reporting date. These inputs include quoted prices for similar assets in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Graphic Packaging Stock Fund: The Graphic Packaging Stock Fund consists primarily of shares of the Company's common stock. The underlying common stock is valued at the last reported sales price at the end of the year or, if there were no sales that day, the last reported bid price. Effective January 1, 2004, no additional shares of Company stock may be purchased through the Plan.

Cash and cash equivalents: Valued at cost, which approximates fair value.

Common/collective trust funds: Valued at the net asset value (NAV) of units held by the Master Trust at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2019 and 2018, there are no unfunded commitments or redemption restrictions.

4. FAIR VALUE MEASUREMENT – CONTINUED

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The Mutual funds held by the Master Trust are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2019 and 2018. There were no Level 2 or 3 investments.

	<u>2019</u>	<u>2018</u>
Level 1 Investments:		
Mutual Funds	\$ 555,874,443	\$ 448,212,538

⁽¹⁾These investments that are measured at fair value using the NAV per unit (or its equivalent practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

8. SUBSEQUENT EVENTS

The outbreak of the novel coronavirus has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the novel coronavirus. Nevertheless, the novel coronavirus presents material uncertainty to the Plan, its performance, and its financial results.

Management has evaluated subsequent events through July 2, 2020, which is the date the financial statements were available to be issued and have determined that there are no additional subsequent events that require disclosure under the Subsequent Events topic of FASB ASC 855, *Subsequent Events*.
