Note 1 – Description of the Plan

The following brief description of ADS 401(K) Plan (Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all non-union employees of Alarm Detection Systems, Inc. ("Company") who have completed two months of service. It is subject to the provision of the Employee Retirement Income Security Act of 1974, as amended. ("ERISA").

Contributions

Each year, participants may contribute in either dollars or whole percentages pre-tax compensation as defined by the plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Participants who have attained the age of 50 before the end of the Plan's year are eligible to make catch-up contributions. Participants may also transfer (rollover) amounts representing distributions from other qualified plans. The Company, in its sole discretion, may make a matching contribution to each participant. The matching contribution shall be contributed to each eligible participant in accordance with the nondiscriminatory formula determined by the Company. Matching contributions will be calculated on a bi-weekly basis. All contributions are participant directed into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts may be used to reduce future Company contributions or pay reasonable plan expenses.

Vesting

Participants' contributions and earnings thereon are immediately fully vested. A participant's portion of the Company's contributions and related investment income vests according to the following schedule:

Full Years of Service	Vested Percentage
Less than 2 years	- %
2 years	20
3 years	40
4 years	60
5 years	80
6 years	100

Note 1 – Description of the Plan (continued)

Investment options
The assets of the Plan, both employee and employer, are allocated to the various funds at the direction of the participant. The Plan offers various investment options. A participant may maintain their entire account in one of the funds or may elect to split their account among the funds in accordance with the Plan.

Participants may change their investment direction of future contributions and may elect to transfer their existing account balances from one fund to another daily.

Payment of benefits
On termination of services due to disability, retirement, or other reasons, a participant may elect to receive the value of the participant's vested interest as a single lump-sum distribution or installment payments over a period of not more than the participant's life expectancy (or the assumed life expectancy of the participant's beneficiary) only if the vesting account balance exceeds $5,000. On termination of services due to death, the beneficiary of death benefit exceeding $5,000 may elect payment in a single lump-sum distribution or annual installments at least equal to required minimum distribution amounts.

Notes receivable from participants
Participant loans are permitted in accordance with the Plan's established loan procedures as follows: All loans will be limited to 50% of the participant's vested account balance, provided such loan does not exceed $50,000. Loans will only be permitted for certain reasons as established by the Company. Loans are secured by a maximum of 50% of the participant's vested account balance. Loans shall bear an interest rate of 1% over the prime rate on the first business day of the month before the loan is originated. The interest rate is fixed for the life of the loan. Principal and interest payments will be made bi-weekly through payroll withholding.

Forfeited accounts
As of December 31, 2019 and 2018, forfeited non-vested accounts totaled $158 and $3,748, respectively. These accounts will be used to reduce future employer contributions or pay reasonable plan expenses. During 2019 and 2018, employer contributions were reduced by $18,920 and $20,469, respectively, from forfeited non-vested accounts.

Plan termination
The Company anticipates that the Plan will continue without interruption but reserves the right to discontinue the Plan. In the event that the Plan is terminated, all participants shall be fully vested, and each participant will be entitled to a distribution equal to his or her contributions and his or her share of Company contributions, investment income and loss, and unrealized appreciation or depreciation in the fair value of investments.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2 – Summary of Significant Accounting Policies (continued)

Investment valuation using fair value measurements
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Investment transactions and investment income
Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Use of estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payment of benefits
Benefit distributions are recorded when paid.

Operating expenses and investment fees
The Company pays a portion of the administrative expenses on behalf of the Plan. Expenses that are paid by the Company are excluded from these financial statements. Additionally, the Company pays certain embedded investment expenses under a revenue sharing agreement as such each Plan participants are credited back based on the participant's average daily balance during the month for each investment option and multiplying that figure by each investment option's Revenue Sharing rate.

Note 3 – Tax Status

The Internal Revenue Service ruled November 19, 2001, that the Plan qualified under Section 401(a) of the IRC and, therefore, the related trust is not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue service. The Plan is subject to routine audits by taxing authorities, however, there are currently no audits for any tax period in progress.

Note 4 – Information Certified by Trustee

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan management instructed the plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fifth Third Institutional Services, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee with information in the plan's financial statements and supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year).

The investments held and participant loans receivable at December 31, 2019 and 2018 are as follows:

December 31,	2019	2018
Investments		
Mutual Funds	$ 24,973,349	$ 20,226,821
Receivables		
Notes receivable from participants	100,924	138,516
Total Assets	$ 25,074,273	$ 20,365,337

Investment income and interest on participant loans are as follows:

Year Ended December 31,	2019	2018
Investment Income		
Interest and dividends	$ 1,349,921	$ 1,489,224
Net realized and unrealized appreciation (depreciation) in fair value of investments	3,660,474	(2,387,614)
Total investment income	$ 5,010,395	$ (898,390)
Interest on participant loans	$ 6,806	$ 9,062

Note 5 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 5 – Fair Value Measurements (continued)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 - Inputs are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2019 and 2018.

- Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held in the fund are deemed to be actively traded.

The follow tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

		Fair Value Measurements at Reporting Date Using:		
		Quoted Prices in Active Markets for Identical Assets	Significant Other Oberservable Inputs	Significant Unobservable Inputs
December 31, 2019	Fair Value	(Level 1)	(Level 2)	(Level 3)

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 – Subsequent Events

The Plan has evaluated subsequent events through September 1, 2020 the date the financial statements were available to be issued.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (Covid-19) as a pandemic, which continues to spread throughout the United States. The pandemic has significantly disrupted financial markets, economies, and other events subsequent to December 31, 2019. As stated in Note 6 - Risk and Uncertainties, investment securities are exposed to various risks such as interest rate, market, and credit risks. It is reasonably possible that changes in risks in the near term could materially affect participants' account balances.

Additionally, In March 2020, Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was passed. Among its provisions, the CARES Act made changes to withdrawal rules, loan rules and early distribution rules.

The extent of the impact of the COVID-19 pandemic on the Plan's participant account balances and the net assets available for benefits cannot be reasonably estimated at this time.
