VANDER-BEND RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the VANDER-BEND RETIREMENT PLAN (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution Plan covering all eligible employees of Vander-Bend Manufacturing, Inc. (the "Company"). Employees are eligible who have attained eighteen years of age, have completed 1 year of service, and are not members of a collective bargaining agreement or non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and certain provisions of the Internal Revenue Code ("IRC").

The Plan provides for a Plan administrator who is responsible for keeping accurate and complete records with regard to the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant Contributions – Participants may voluntarily contribute between 1% and 75% of their annual compensation, limited to $19,000 of pretax compensation for the year ended December 31, 2019. A participant may increase or decrease the amount of contributions at the beginning of each Plan quarter (January 1, April 1, July 1 and October 1). Additionally, participants age 50 and older may make catch up contributions limited to $6,000 for the year ended December 31, 2019. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Employer Contributions – The Company may make discretionary matching contributions based on a percentage of employee deferrals up to a maximum percentage of gross compensation, which is determined annually by the Company. The Company may also make an annual discretionary profit sharing contribution, subject to limitations imposed by applicable provisions of the IRC. To be eligible to receive the profit sharing contribution, the participant must either: a) be employed on the last day of the Plan year or, b) for those participants not employed on the last day of the Plan year, completed more than 500 hours of service during the Plan year. There were no discretionary contributions for the year ended December 31, 2019.

Participant Accounts – Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of the Company's profit sharing contributions and Plan investment earnings or losses, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that may be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Vesting – Participants are immediately vested in their voluntary contributions and rollover contributions, plus actual earnings thereon. Vesting in the Company's contributions is based on years of continuous service.

Vesting is based on a graded scale as follows:

Years of Credited Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%
7	100%

Notes Receivable from Participants – Participants may borrow from their vested account balances provided they meet the Plan's eligibility requirements. The minimum loan amount is $1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance or $50,000. A participant may only have three loans outstanding at any time. The loans are secured by the balance in the participant's accounts and the duration of the loan is not to exceed five years, except for loans used to finance the purchase of a primary residence. Interest rates are based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate shall remain fixed throughout the life of the loan. Principal and interest are paid ratably through payroll deductions. Any outstanding loan will become due and payable upon termination of employment.

Investment Options – Upon enrollment in the Plan, a participant may direct his or her account balance into the various investments offered through the Plan.

Payment of Benefits – Upon termination of service due to death, disability, retirement, or other reason, a participant may receive a lump-sum distribution, a direct rollover distribution into a qualified plan, or a single sum distribution payment of a portion of the participant's account. Additionally, a participant may request a hardship distribution subject to the requirements of the Plan. If a terminated participant's account balance is less than $5,000 and the Plan does not receive distribution instructions, the account will be rolled over into an individual retirement plan on behalf of the participant as determined by the Plan administrator. A participant may also elect to receive a pre-retirement distribution if the participant is 100% vested in the amount being distributed, and has reached 59½ years of age.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Forfeited Accounts – The non-vested portion of a terminated participant's account balance is forfeited. Forfeited accounts can be applied to reduce employer contributions or to fund certain administrative expenses. As of December 31, 2019 and 2018, forfeited non-vested accounts amounted to $3 and $1,670, respectively. During the year ended December 31, 2019, $1,667 in forfeitures were used to fund administrative expenses.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Payments of Benefits – Benefits are recorded when paid.

Expenses – The Plan permits the payment of Plan expenses to be made from the Plan's assets, which will be funded from forfeitures, or will be proportionately allocated to the accounts of all participants in the Plan. Such expenses include fees paid to the trustee, third-party consultants and recordkeeper. Further, certain expenses specifically incurred by and attributable to a participant will be paid out of the related participant's account. Investment related expenses are included in net depreciation of fair value of investments.

Concentrations – As of December 31, 2019 and 2018, two investments accounted for approximately 31% of total investments.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: Valued at the NAV of shares of a collective trust held by the Plan at year-end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require three business days' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Total Assets in the Fair Value Hierarchy:				
Mutual Funds	$ 11,933,746	$ -	$ -	$ 11,933,746
Investments Measured at Net Asset Value:				
Collective Trust				547,731
Investments at Fair Value				$ 12,481,477

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Total Assets in the Fair Value Hierarchy:				
Mutual Funds	$ 9,782,666	$ -	$ -	$ 9,782,666
Investments Measured at Net Asset Value:				
Collective Trust				616,438
Investments at Fair Value				$ 10,399,104

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2019 and 2018:

Collective Trust Fund	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2019	$547,731	N/A	Daily	3 Business Days
December 31, 2018	$616,438	N/A	Daily	3 Business Days

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Matrix Trust Company, has certified the completeness and accuracy of all investments presented on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018, the supplemental Schedule H, Line 4i: Schedule of Assets (Held at End of Year) as of December 31, 2019, and the related investment and interest income presented in the statement of changes in net assets available for benefits for the year ended December 31, 2019.

NOTE 5 – TAX STATUS

The Plan is a defined contribution plan designed to qualify as a tax-exempt plan under the IRC. A favorable opinion letter from the Internal Revenue Service was received on March 31, 2014 regarding the qualified status of the prototype plan on which the terms of the Plan were based. The Plan has not filed for a determination letter, however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and, therefore believes that the Plan is qualified.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Participants may borrow from their vested account balance. Such loan transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan, and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

The Plan holds investments in mutual funds. The plan recordkeeper receives revenue from mutual fund service providers which is used to offset amounts paid by the plan sponsor for administrative services. Because these expenses are paid through this revenue sharing arrangement, they are included in net depreciation in fair value of investments.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS (Continued)

Lockton Investment Advisors, LLC ("Lockton") provides certain advisory services to the Plan pursuant to an Advisory Services Agreement between the Company and Lockton. Revenue from investment fund service providers that would be paid to an advisor are sent back to Matrix Trust Company. This revenue is then used to offset certain amounts owed to Lockton for its advisory services. If the revenue received by the Plan from such investment fund service providers exceeds the amount owed under the Advisory Services Agreement, Matrix Trust Company remits the excess to the Plan's trust on a monthly basis. Such amounts may be applied to pay plan administrative expenses. During 2019, approximately $14,000 was paid to Lockton from revenue sharing, and approximately $1,500 was received from revenue sharing and used to pay other plan administrative expenses.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 9 – SUBSEQUENT EVENTS

On March 11, 2020, the World Health Organization declared a pandemic related to the rapidly spreading COVID-19 outbreak, which has led to a global health emergency. The pandemic has caused volatility in financial markets and has affected, and may continue to affect, the market price of the Plan's investments. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain. Accordingly, the ultimate financial effects cannot be reasonably estimated at this time.

Subsequent events have been evaluated through September 1, 2020, which is the date the financial statements were available to be issued.
