DWH Owners Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of DWH Owners Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Argent Trust Company (Argent), the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2019 and 2018, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter—Significant Concentration
As disclosed in Notes 4 and 6 to the financial statements, the fair value of the Plan's investment in DWH Stock Plan, Inc.'s common stock, representing approximately 100% of the Plan's assets as of December 31, 2019 and 2018, has been determined by an independent appraiser in the absence of a readily determinable fair value. Because of the inherent uncertainty of valuation, the value may differ significantly from the value that would have been used had a ready market for the investments existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Other Matter—Report on Supplementary Information
The supplemental schedule, schedule H, line 4i—schedule of assets (held at end of year), as of December 31, 2019, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of DWH Owners Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General and eligibility: DWH Stock Plan, Inc. (the Company or Plan Sponsor) originally established the Plan effective as of July 1, 2018. The Plan was amended and restated on December 31, 2018, effective as of July 1, 2018, and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended. The Plan was then amended and restated on December 17, 2019, effective January 1, 2019, to revise the fail safe language for passing the ratio percentage test under IRC Section 410(b)(1)(B) by reason of application of the Special Allocation Formula of the Plan.

The Plan is a defined contribution plan whereby eligible employees of Weekley Homes, LLC and its related and participating employers (as defined and collectively referred to as the Employer) are permitted to participate in the Plan. The Company has designated the ESOP Committee to act as the Plan Administrator. The Plan Administrator maintains trust fund records on a Plan year basis.

The Plan purchased Company common shares using the proceeds from a loan (see *Note 5*) from the Company, and holds the stock in a trust established under the Plan. The borrowings are to be repaid over an original period of forty years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

Eligibility: Employees of the Employer are generally eligible to participate in the Plan. Those who are not eligible include: leased employees, union employees, those who are not on the payroll of the Company, employees with compensation in excess of $120,000 that have an equity interest in Weekley Homes Holding Company, LLC, and employees not employed on the last working day of the Plan.

After completing two years of service, employees of Weekley Homes, LLC are transferred into the DWH Owners, Inc. entity, which is 100% owned by DWH Stock Plan, Inc. Employees in DWH Owners, Inc. have met eligibility requirements for participation.

Unallocated and allocated shares: The borrowings are collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2019 and 2018 and for the year ended December 31, 2019, present separately the assets and liabilities and changes therein pertaining to:

- The accounts of employees with vested rights in allocated employer stock (allocated)
- Employer stock not yet allocated to employees (unallocated)

Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

The Plan is dependent on the Company's ability to provide contributions to the plan sufficient to service the debt of the Plan (Note 7). The Company provides employees to Weekley Homes, LLC, who is engaged in the design, construction and sale of single-family homes in various geographic locations around the United States of America. A significant downturn in those geographic locations could have a material adverse effect on the Company, its stock value and its ability to repay the related debt.

Note 1. Plan Description (Continued)

Employer contributions: The Company makes an annual contribution to the Plan, which equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additionally, the Company may from time to time contribute cash or the Company stock to the Plan as determined by the Company's board of directors. Employee contributions are not permitted.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participant's beginning of the year account balances.

Vesting: Participants become 100% vested upon completion of two years of service. An employee is transferred into the DWH Owners, Inc. entity after their first two years of service. Therefore, employees in DWH Owners, Inc. are 100% vested in the Company's contributions and earnings. A year of service means a plan year in which an employee receives credit for 1,000 hours of service; credit for an hour of service is given for each hour that an employee is paid or entitled to be paid for services to the Company. years of service with the Employer prior to the effective date of the Plan, July 1, 2018, will also be credited for vesting purposes of the Plan.

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants is not readily tradable on an established market or is subject to trading limitations that include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The Participant shall have the right to sell his or her Company stock to the Company at any time during the two option periods, at a price equal to the fair market value of the stock as of the most recent valuation date. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash for the owned shares.

Payment of benefits: No distributions from the Plan will be made until a participant retires, becomes permanently disabled, dies (in which case, payment shall be made to the participant's beneficiary or, if none, their legal representatives), or otherwise terminates employment with the Company. Benefit payments are paid out in the form of cash. Participants will be paid their vested balances over a five-year period after a one-year break-in-service period (the waiting period) if their vested balance at the end of their termination year is greater than $5,000. If the participant's vested balance is less than $5,000, distributions are made in a lump-sum in the year following termination. In-service distributions are permitted for those participants meeting the age requirements, subject to certain criteria as defined by the Plan agreement.

At December 31, 2019 and 2018, the Plan's assets include $298,720 and $15,169, respectively, allocated to accounts of terminated or retired participants who have not yet been paid. At December 31, 2019 and 2018, $298,720 and $15,169, respectively, of the Plan's assets were vested and payable to terminated employees.

Note 1. Plan Description (Continued)

Voting rights: The trustee votes all shares of Company stock held by the Plan with respect to corporate matters upon which Company shareholders are entitled to vote. In the case of any shareholder vote that is required for approval or disapproval of corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all the assets of the Company, each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the trustee prior to the time that such rights are to be exercised, to the extent that the trustee determines that the participant decision is in the financial best interest of the Plan. The trustee is permitted to vote any allocated share for which a participant has not exercised their voting rights.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The first year diversification is allowed is 2028.

Plan termination: The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the plan administrator shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the unallocated stock account to the extent it determines such sale to be necessary in order to repay the loan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The common shares of the Company are valued annually at their estimated fair value as of December 31 by independent appraisers appointed by the trustee. Fair value was determined to be $26.26 and $9.21 per share as of December 31, 2019 and 2018, respectively. The ESOP Committee reviewed the appraisal and found it to be reasonable. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses related to changes in the fair value of common stock year over year.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Note 2. Summary of Significant Accounting Policies (Continued)

Allocations: The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Administrative expenses: Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. Officers of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company, and are excluded from these financial statements.

Recent accounting pronouncements: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement: Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. This amendment to the Accounting Standards Codification (ASC) Topic 820, Fair Value Measurement, requires disclosure of the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements for public entities. This amendment also removes the disclosure requirements for the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the policy for timing of transfers between levels and the valuation process for Level 3 fair valued measurements. Furthermore, for investments in certain entities that calculate net asset value, an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly. The amendment also clarifies that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurements as of the reporting date. This amendment is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Note 3. Administration of Plan Assets

At December 31, 2019, the third-party trustee of the Plan holds the Plan's assets, which consist principally of Company common shares. Company contributions are held and managed by the trustee, who invests cash received, interest and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal on the loan, which is paid through contributions as determined by the Company.

Note 4. Information Certified and Provided by Argent

The following is a summary of the Plan's asset and income information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by the trustee, Argent Trust Company (Argent), and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income, are complete and accurate to the best of their knowledge. Accordingly as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2019		2018	
Investment Type	Allocated	Unallocated	Allocated	Unallocated
DWH Owners Plan:				
Number of common stock shares	207,682	776,739	191,038	808,962
Cost	$ 1,912,755	$ 7,153,769	$ 191,038	$ 808,962
Fair value	$ 5,453,739	$ 20,397,175	$ 1,759,461	$ 7,450,539
Total fair value	$ 5,453,739	$ 20,397,175	$ 1,759,461	$ 7,450,539
Investment income, net appreciation in fair value of investments	$ 3,540,984	$ 13,243,406		

Note 5. Loan Payable

In July 2018, the Plan entered into a $1,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase 1,000,000 shares of the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid by December 31, 2057. The loan bears interest at the rate of 3.05%. The loan was amended on June 5, 2019 due to a substantial prepayment on the loan payable. The amendment adjusted the annual installments of principal and interest based on the adjusted note balance as of December 31, 2019.

The scheduled payments required for the loan at December 31, 2019 are as follows (the 2020 future payments includes the prepayment of $21,294 made in 2020):

2020	$ 35,398
2021	9,751
2022	10,049
2023	10,355
2024	10,619
Thereafter	610,663
	$ 686,835

Note 6. Fair Value Measurements

ASC 820, Fair Value Measurement and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

- **DWH Stock Plan, Inc. common stock:** Valued at estimated fair value as determined by an independent appraiser. The Company's stock is not available for purchase in public markets. Accordingly, an independent appraisal was conducted taking into consideration historical financial data, current business operations, future prospects for the Company, projected cash flows and other factors pertinent to the valuation of investments.

Fair value determinations for Level 3 measurements of securities are the responsibility of management. Management contracts with a pricing specialist to generate fair value estimates on an annual basis. Management challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Note 6. Fair Value Measurements (Continued)

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2019 and 2018:

		Fair Value Measurements Using		
Investment Type	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2019:				
DWH Stock Plan, Inc. common stock	$ 25,850,914	$ -	$ -	$ 25,850,914
December 31, 2018:				
DWH Stock Plan, Inc. common stock	$ 9,210,000	$ -	$ -	$ 9,210,000

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 reconciliation: The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	DWH Stock Plan, Inc.
Balance, December 31, 2018	$ 9,210,000
Total net appreciation included in net assets available for benefits	16,784,390
Total sales of common stock	(143,476)
Balance, December 31, 2019	$ 25,850,914

Net appreciation for items reflected in the table above are included in net increase in net assets available for benefits in the accompanying statements of changes in net assets available for benefits.

Note 6. Fair Value Measurements (Continued)

Unobservable (Level 3) inputs: The following table presents quantitative and qualitative information about unobservable inputs used in recurring Level 3 fair value measurements.

	Fair Value at December 31, 2019	Valuation Technique	Unobservable Inputs
DWH Stock Plan, Inc. common stock	$ 25,850,914	Discounted cash flows	Weighted-average cost of capital Long-term revenue growth rate Long-term pretax operating margin Discount for lack of marketability

	Fair Value at December 31, 2018	Valuation Technique	Unobservable Inputs
DWH Stock Plan, Inc. common stock	$ 9,210,000	Discounted cash flows	Weighted-average cost of capital Long-term revenue growth rate Long-term pretax operating margin Discount for lack of marketability

Note 7. Tax Status

The Plan has received a determination letter dated December 12, 2018, in which the Internal Revenue Service (IRS) stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC) and therefore not subject to tax. The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as credit and market risk. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investment, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the accompanying 2019 statement of net assets available for benefits.

Note 9. Related-Party and Party-In-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons. The Plan invests in Company common stock and borrows money from the Company. The Plan has a number of service providers. Such providers are parties in interest under ERISA. The Company provides certain administrative services at no cost to the Plan.

Note 10. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has had a significant adverse impact on investment portfolios. The fair value of the Company's stock held by the Plan, and allocated to individual participant accounts, is stated at fair value based on the closing price of $26.26 per share of Company common stock at December 31, 2019. The investment in Company stock is exposed to the risks of further changes in the value of this stock, based on the income and loss of the underlying homebuilding entity. Such changes could materially affect participants' account balances and the amounts reported in the financial statements. However, the effects are uncertain as of date of the financial statements. Therefore, the Plan's financial statements do not include any adjustment that might result from this uncertainty.

Subsequent events have been evaluated through September 1, 2020, which is the date the financial statements were available to be issued.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of DWH Owners Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Argent Trust Company (Argent), the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2019 and 2018, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter—Significant Concentration
As disclosed in Notes 4 and 6 to the financial statements, the fair value of the Plan's investment in DWH Stock Plan, Inc.'s common stock, representing approximately 100% of the Plan's assets as of December 31, 2019 and 2018, has been determined by an independent appraiser in the absence of a readily determinable fair value. Because of the inherent uncertainty of valuation, the value may differ significantly from the value that would have been used had a ready market for the investments existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Other Matter—Report on Supplementary Information
The supplemental schedule, schedule H, line 4i—schedule of assets (held at end of year), as of December 31, 2019, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of DWH Owners Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General and eligibility: DWH Stock Plan, Inc. (the Company or Plan Sponsor) originally established the Plan effective as of July 1, 2018. The Plan was amended and restated on December 31, 2018, effective as of July 1, 2018, and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended. The Plan was then amended and restated on December 17, 2019, effective January 1, 2019, to revise the fail safe language for passing the ratio percentage test under IRC Section 410(b)(1)(B) by reason of application of the Special Allocation Formula of the Plan.

The Plan is a defined contribution plan whereby eligible employees of Weekley Homes, LLC and its related and participating employers (as defined and collectively referred to as the Employer) are permitted to participate in the Plan. The Company has designated the ESOP Committee to act as the Plan Administrator. The Plan Administrator maintains trust fund records on a Plan year basis.

The Plan purchased Company common shares using the proceeds from a loan (see *Note 5*) from the Company, and holds the stock in a trust established under the Plan. The borrowings are to be repaid over an original period of forty years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

Eligibility: Employees of the Employer are generally eligible to participate in the Plan. Those who are not eligible include: leased employees, union employees, those who are not on the payroll of the Company, employees with compensation in excess of $120,000 that have an equity interest in Weekley Homes Holding Company, LLC, and employees not employed on the last working day of the Plan.

After completing two years of service, employees of Weekley Homes, LLC are transferred into the DWH Owners, Inc. entity, which is 100% owned by DWH Stock Plan, Inc. Employees in DWH Owners, Inc. have met eligibility requirements for participation.

Unallocated and allocated shares: The borrowings are collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2019 and 2018 and for the year ended December 31, 2019, present separately the assets and liabilities and changes therein pertaining to:

- The accounts of employees with vested rights in allocated employer stock (allocated)
- Employer stock not yet allocated to employees (unallocated)

Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

The Plan is dependent on the Company's ability to provide contributions to the plan sufficient to service the debt of the Plan (Note 7). The Company provides employees to Weekley Homes, LLC, who is engaged in the design, construction and sale of single-family homes in various geographic locations around the United States of America. A significant downturn in those geographic locations could have a material adverse effect on the Company, its stock value and its ability to repay the related debt.

Note 1. Plan Description (Continued)

Employer contributions: The Company makes an annual contribution to the Plan, which equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additionally, the Company may from time to time contribute cash or the Company stock to the Plan as determined by the Company's board of directors. Employee contributions are not permitted.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participant's beginning of the year account balances.

Vesting: Participants become 100% vested upon completion of two years of service. An employee is transferred into the DWH Owners, Inc. entity after their first two years of service. Therefore, employees in DWH Owners, Inc. are 100% vested in the Company's contributions and earnings. A year of service means a plan year in which an employee receives credit for 1,000 hours of service; credit for an hour of service is given for each hour that an employee is paid or entitled to be paid for services to the Company. years of service with the Employer prior to the effective date of the Plan, July 1, 2018, will also be credited for vesting purposes of the Plan.

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants is not readily tradable on an established market or is subject to trading limitations that include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The Participant shall have the right to sell his or her Company stock to the Company at any time during the two option periods, at a price equal to the fair market value of the stock as of the most recent valuation date. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash for the owned shares.

Payment of benefits: No distributions from the Plan will be made until a participant retires, becomes permanently disabled, dies (in which case, payment shall be made to the participant's beneficiary or, if none, their legal representatives), or otherwise terminates employment with the Company. Benefit payments are paid out in the form of cash. Participants will be paid their vested balances over a five-year period after a one-year break-in-service period (the waiting period) if their vested balance at the end of their termination year is greater than $5,000. If the participant's vested balance is less than $5,000, distributions are made in a lump-sum in the year following termination. In-service distributions are permitted for those participants meeting the age requirements, subject to certain criteria as defined by the Plan agreement.

At December 31, 2019 and 2018, the Plan's assets include $298,720 and $15,169, respectively, allocated to accounts of terminated or retired participants who have not yet been paid. At December 31, 2019 and 2018, $298,720 and $15,169, respectively, of the Plan's assets were vested and payable to terminated employees.

Note 1. Plan Description (Continued)

Voting rights: The trustee votes all shares of Company stock held by the Plan with respect to corporate matters upon which Company shareholders are entitled to vote. In the case of any shareholder vote that is required for approval or disapproval of corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all the assets of the Company, each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the trustee prior to the time that such rights are to be exercised, to the extent that the trustee determines that the participant decision is in the financial best interest of the Plan. The trustee is permitted to vote any allocated share for which a participant has not exercised their voting rights.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The first year diversification is allowed is 2028.

Plan termination: The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the plan administrator shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the unallocated stock account to the extent it determines such sale to be necessary in order to repay the loan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The common shares of the Company are valued annually at their estimated fair value as of December 31 by independent appraisers appointed by the trustee. Fair value was determined to be $26.26 and $9.21 per share as of December 31, 2019 and 2018, respectively. The ESOP Committee reviewed the appraisal and found it to be reasonable. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses related to changes in the fair value of common stock year over year.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Note 2. Summary of Significant Accounting Policies (Continued)

Allocations: The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Administrative expenses: Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. Officers of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company, and are excluded from these financial statements.

Recent accounting pronouncements: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement: Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. This amendment to the Accounting Standards Codification (ASC) Topic 820, Fair Value Measurement, requires disclosure of the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements for public entities. This amendment also removes the disclosure requirements for the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the policy for timing of transfers between levels and the valuation process for Level 3 fair valued measurements. Furthermore, for investments in certain entities that calculate net asset value, an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly. The amendment also clarifies that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurements as of the reporting date. This amendment is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Note 3. Administration of Plan Assets

At December 31, 2019, the third-party trustee of the Plan holds the Plan's assets, which consist principally of Company common shares. Company contributions are held and managed by the trustee, who invests cash received, interest and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal on the loan, which is paid through contributions as determined by the Company.

Note 4. Information Certified and Provided by Argent

The following is a summary of the Plan's asset and income information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by the trustee, Argent Trust Company (Argent), and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income, are complete and accurate to the best of their knowledge. Accordingly as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2019		2018	
Investment Type	Allocated	Unallocated	Allocated	Unallocated
DWH Owners Plan:				
Number of common stock shares	207,682	776,739	191,038	808,962
Cost	$ 1,912,755	$ 7,153,769	$ 191,038	$ 808,962
Fair value	$ 5,453,739	$ 20,397,175	$ 1,759,461	$ 7,450,539
Total fair value	$ 5,453,739	$ 20,397,175	$ 1,759,461	$ 7,450,539
Investment income, net appreciation in fair value of investments	$ 3,540,984	$ 13,243,406		

Note 5. Loan Payable

In July 2018, the Plan entered into a $1,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase 1,000,000 shares of the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid by December 31, 2057. The loan bears interest at the rate of 3.05%. The loan was amended on June 5, 2019 due to a substantial prepayment on the loan payable. The amendment adjusted the annual installments of principal and interest based on the adjusted note balance as of December 31, 2019.

The scheduled payments required for the loan at December 31, 2019 are as follows (the 2020 future payments includes the prepayment of $21,294 made in 2020):

2020	$ 35,398
2021	9,751
2022	10,049
2023	10,355
2024	10,619
Thereafter	610,663
	$ 686,835

Note 6. Fair Value Measurements

ASC 820, Fair Value Measurement and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

- **DWH Stock Plan, Inc. common stock:** Valued at estimated fair value as determined by an independent appraiser. The Company's stock is not available for purchase in public markets. Accordingly, an independent appraisal was conducted taking into consideration historical financial data, current business operations, future prospects for the Company, projected cash flows and other factors pertinent to the valuation of investments.

Fair value determinations for Level 3 measurements of securities are the responsibility of management. Management contracts with a pricing specialist to generate fair value estimates on an annual basis. Management challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Note 6. Fair Value Measurements (Continued)

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2019 and 2018:

		Fair Value Measurements Using		
Investment Type	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2019:				
DWH Stock Plan, Inc. common stock	$ 25,850,914	$ -	$ -	$ 25,850,914
December 31, 2018:				
DWH Stock Plan, Inc. common stock	$ 9,210,000	$ -	$ -	$ 9,210,000

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 reconciliation: The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	DWH Stock Plan, Inc.
Balance, December 31, 2018	$ 9,210,000
Total net appreciation included in net assets available for benefits	16,784,390
Total sales of common stock	(143,476)
Balance, December 31, 2019	$ 25,850,914

Net appreciation for items reflected in the table above are included in net increase in net assets available for benefits in the accompanying statements of changes in net assets available for benefits.

Note 6. Fair Value Measurements (Continued)

Unobservable (Level 3) inputs: The following table presents quantitative and qualitative information about unobservable inputs used in recurring Level 3 fair value measurements.

	Fair Value at December 31, 2019	Valuation Technique	Unobservable Inputs
DWH Stock Plan, Inc. common stock	$ 25,850,914	Discounted cash flows	Weighted-average cost of capital Long-term revenue growth rate Long-term pretax operating margin Discount for lack of marketability

	Fair Value at December 31, 2018	Valuation Technique	Unobservable Inputs
DWH Stock Plan, Inc. common stock	$ 9,210,000	Discounted cash flows	Weighted-average cost of capital Long-term revenue growth rate Long-term pretax operating margin Discount for lack of marketability

Note 7. Tax Status

The Plan has received a determination letter dated December 12, 2018, in which the Internal Revenue Service (IRS) stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC) and therefore not subject to tax. The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as credit and market risk. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investment, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the accompanying 2019 statement of net assets available for benefits.

Note 9. Related-Party and Party-In-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons. The Plan invests in Company common stock and borrows money from the Company. The Plan has a number of service providers. Such providers are parties in interest under ERISA. The Company provides certain administrative services at no cost to the Plan.

Note 10. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has had a significant adverse impact on investment portfolios. The fair value of the Company's stock held by the Plan, and allocated to individual participant accounts, is stated at fair value based on the closing price of $26.26 per share of Company common stock at December 31, 2019. The investment in Company stock is exposed to the risks of further changes in the value of this stock, based on the income and loss of the underlying homebuilding entity. Such changes could materially affect participants' account balances and the amounts reported in the financial statements. However, the effects are uncertain as of date of the financial statements. Therefore, the Plan's financial statements do not include any adjustment that might result from this uncertainty.

Subsequent events have been evaluated through September 1, 2020, which is the date the financial statements were available to be issued.
