To the Trustee
CAD Enterprises, Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of CAD Enterprises, Inc. 401(k) Plan, which comprise the statements of net assets available for benefits as of January 9, 2020 and December 31, 2019, and the related statements of changes in net assets available for benefits for the period from January 1, 2020 to January 9, 2020, and for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 3*, which was certified by Transamerica Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of January 9, 2020 and December 31, 2019, and for the period from January 1, 2020 to January 9, 2020, and for the year ended December 31, 2019, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in *Note 1* to the financial statements, on October 29, 2019, the Trustee of CAD Enterprises, Inc. 401(k) Plan voted to merge into the Crawford United 401(k) Plan as of January 1, 2020. The CAD Enterprises, Inc. 401(k) Plan transferred its net assets into the Crawford United 401(k) Plan and ceased operations as of January 9, 2020.

Other Matter

The supplemental schedules of assets (held at end of year) and delinquent participant contributions as of and for the year ended December 31, 2019 and for the period ended January 9, 2020, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

CAD Enterprises, Inc. 401(k) Plan

Notes to Financial Statements

January 9, 2020 and December 31, 2019

Note 1 – Plan Description

The following description of the CAD Enterprises, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General:

The Plan's sponsor is CAD Enterprises, Inc. (the Company). The Plan was a defined contribution plan originally effective January 1, 2007. The Plan was amended throughout the years to comply with tax legislation and was most recently amended effective January 1, 2019. The Plan excluded non-resident aliens, leased employees, and employees covered by a collective bargaining agreement. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustee was responsible for the oversight of the Plan, and the Trustee and plan administrator determined the appropriateness of the Plan's investment offerings and monitored investment performance.

Plan amendments:

On July 1, 2018, CAD Enterprises, Inc. was purchased by Crawford United Corporation. Effective January 1, 2019, the Plan was amended and restated to align certain plan provisions with the Crawford United 401(k) Plan in preparation for merging the CAD Enterprises, Inc. 401(k) Plan into the Crawford United 401(k) Plan. These amendments included the following changes:

- Reduced the service requirement from one year to one month
- Adopted a 2% auto enrollment feature
- Added Roth contributions as a deferral option
- Added a 100% vested discretionary employer matching contribution

Outgoing plan merger:

On October 29, 2019, the Plan sponsor's Board of Directors approved a consent to merge the Plan with the Crawford United 401(k) Plan effective January 1, 2020. As part of the merger agreement, the Board of Directors elected to fully vest all affected participants at that time. All Plan assets were transferred out of the Plan on January 9, 2020, at which point the Plan ceased all further operations.

Eligibility:

Employees of CAD Enterprises, Inc. (the Company) were eligible to participate in the deferral component of the Plan after completing one month of eligible service beginning on the employee's date of hire. Participants were eligible for employer discretionary matching contributions and profit sharing contributions if they met the eligibility requirements above.

Contributions:

The Plan included a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants were permitted to elect to have a percentage, subject to Plan provisions, of their compensation contributed as pre-tax 401(k) or Roth contributions to the Plan. Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions. Beginning January 1, 2019, the Plan adopted an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 2% and contributions were invested in the designated default fund until changed by the participant.

The Company may, at its discretion, contribute a match, profit sharing, or non-elective contribution, as determined and authorized by the Company. In 2019, the Company contributed a matching contribution equal to 50% of each participant's contribution up to 6% of the participant's eligible compensation. There were no employer contributions for the period ended January 9, 2020.

CAD Enterprises, Inc. 401(k) Plan

Notes to Financial Statements

January 9, 2020 and December 31, 2019

Note 1 – Plan Description (Continued)

Contributions (continued):

Participants were also allowed to contribute amounts representing distributions from other defined benefit or defined contribution plans (rollover). Participants directed the investment of contributions into various investment options offered by the Plan. Contributions were subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts:

Each participant's account was credited with the participant's contributions, the Company's contributions, and an allocation of Plan earnings or losses. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings or account balances, or participant transactions, as defined. The benefit to which a participant was entitled was the balance of the participant's vested account balance.

Vesting:

Participants were immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions and actual earnings thereon were based on years of credited service. For employer contributions made prior to January 1, 2019, a participant was 20% vested after two years of credited service with an additional 20% vesting per year until the participant is 100% vested after six years of credited service. Participants were 100% vested in any employer contributions made on or after January 1, 2019. Notwithstanding the above, a participant became fully vested upon reaching normal retirement age, death, or permanent disability. All active participants became 100% vested in all employer contributions, regardless of years of service, as of October 29, 2019.

Notes receivable from participants:

Participants could borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance from their fund account. The notes were secured by the balance in the participant's account and bore interest between 4.25% and 6.50%. The note must have been repaid over a period not to exceed five years. Principal and interest were paid ratably through payroll deductions.

Payment of benefits:

Benefits began at retirement age, termination of employment, total and permanent disability, or death of the participant. Distribution of benefits could be made in one lump sum payment, annuity payments, installments, or could be rolled-over to an IRA provider or to another qualified retirement plan. The Plan allowed for in-service distributions if a participant reached age 59½. If a participant terminated employment other than by retirement, disability or death, the vested portion of the participant's account could be distributed upon termination and anytime thereafter. If a participant terminated employment and the participant's account balance did not exceed \$1,000, the Plan administrator could authorize the benefit payment without the participant's consent. If the balance of the terminated participant's account was between \$1,000 and \$5,000, the Plan Sponsor could have authorized that the benefit payment be rolled into an individual retirement account in the participant's name.

Forfeited accounts:

Forfeitures were used by the Plan to reduce employer contributions or to pay plan administrative expenses. There were \$0 and \$100,666 of unallocated forfeitures as of January 9, 2020 and December 31, 2019, respectively. There were \$0 and \$2,344 of forfeitures used to reduce employer matching contributions for the period ended January 9, 2020 and the year ended December 31, 2019, respectively. There were \$0 and \$14,602 of forfeitures used to pay plan administrative expenses for the period ended January 9, 2020 and the year ended December 31, 2019, respectively.

Note 2 – Summary of Significant Accounting Policies

A summary of the Plan's significant accounting policies follows:

Basis of accounting:

The financial statements of the Plan were prepared on the accrual basis of accounting.

Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments were reported at fair value (except for fully benefit-responsive investment contracts, which were reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustee and plan administrator determined the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses has been recorded as of January 9, 2020 and December 31, 2019. Delinquent notes receivable were recorded as distributions on the basis of the terms of the Plan document.

Payment of benefits:

Benefits were recorded when paid.

Administrative expenses:

The Plan's expenses were paid either by the Plan or the Company, as provided by the Plan document. Expenses paid directly by the Company were excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that were paid by the Plan were recorded as deductions in the accompanying statements of changes in net assets available for benefits. Investment management expenses that were paid through revenue sharing agreements are also included in administrative expenses. Certain investment related expenses were included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent events:

Plan management has evaluated subsequent events through August 28, 2020, which is the date the financial statements were available to be issued.

Note 3 – Information Certified and Provided by the Custodian

Transamerica Life Insurance Company (TLIC), the custodian of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of January 9, 2020 and December 31, 2019, the statements of changes in net assets available for benefits for the period from January 1, 2020 to January 9, 2020 and for the year ended December 31, 2019, and the supplemental schedule of assets (held at end of year) as of December 31, 2019.

Note 4 – Fair Value Measurement

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 9, 2020 and December 31, 2019.

Pooled separate accounts: Valued at the net asset value (NAV) or equivalent based on units of the pooled separate accounts. The NAV, as provided by the custodian, is used a practical expedient to estimate fair value. The NAV is generally based on the fair value of the underlying investments held by the pooled separate account less its liabilities. There are no unfunded commitments or redemption restrictions associated with these investments.

The Plan did not hold any assets as of January 9, 2020 due to the outgoing merger of the Plan as described in Note 1.

Notes to Financial Statements

January 9, 2020 and December 31, 2019

Note 4 – Fair Value Measurement (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2019			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts*	\$ -	\$ -	\$ -	\$ 3,641,951

* In accordance with ASC 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the fair value of the Plan's assets at the end of each respective year.

Note 5 – Group Annuity Contract

The Plan participated in the Transamerica Stable Value Option (SVO). The SVO is an insurance company issued general account backed group annuity contract. There are no specific securities in the general account that back the investment in this account.

This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. Contract value, as reported to the Plan by TLIC, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants generally could have withdrawn assets from the SVO without restrictions, however TLIC may have imposed a surrender charge at the contract level in the event of a full contract discontinuance or a partial contract discontinuance. The issuer requires a minimum 30 day notice to terminate the contract and liquidate the investment in an orderly fashion without incurring a surrender charge. The Sponsor provided the notice timely and thus no surrender charge was incurred when the contract was liquidated on January 9, 2020.

The contract was a group annuity insurance product issued by TLIC and was backed by the full faith and creditworthiness of the issuer. There were no reserves against contract value for credit risk of the contract issuer or otherwise. Deposits made to the contract were deposited in TLIC's general account. Payment obligations under the contract represented an insurance claim supported by all general account assets. The contract did not operate like a mutual fund, variable annuity product, or conventional fixed rate individual annuity product. Expenses related to the contract were calculated by TLIC and incorporated into the contract's crediting rate. Past interest rates were not indicative of future interest rates.

The SVO has a portfolio investment rate design in which all deposits are credited with the same interest rate on a daily basis, and with no set maturity. The effective guaranteed credited interest rate is set on a semi-annual basis and is announced at least 45 days in advance. The guaranteed rate of interest shall not change during the six month period for which it is effective. The crediting interest rate for the investment contracts as of January 9, 2020 and December 31, 2019 was 1.55% and 1.60%, respectively.

Note 5 – Group Annuity Contract (continued)

Certain events may have limited the ability of the Plan to transact at contract value with the issuer. Such events included (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events were probable of occurring that might have limited the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allowed the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events included (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

Note 6 – Party-in-Interest Transactions

The Plan investments were managed by TLIC. TLIC was the custodian and record keeper as defined by the Plan, and therefore, these transactions qualified as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions were party-in-interest transactions under ERISA.

Note 7 – Tax Status

The Plan placed reliance on an opinion letter dated March 31, 2014, from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter opinion letter has been relied upon by the Plan. The volume submitter plan has been amended since receiving the opinion letter. However, the Trustee believes that the Plan was designed and operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America required Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there were no audits for any tax periods in progress up through the date of merger.

During 2019, the Plan sponsor inadvertently failed to deposit \$14,612 of participant deferrals within the required timeframe as stated by the United States Department of Labor (DOL) regulations. All lost earnings and applicable excise taxes were paid in 2020.

Note 8 – Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
