1. Description of Plan and Significant Accounting Policies

General

The EVERSANA 401(k) Plan ("Plan") is a defined contribution plan offered to all eligible full-time employees of EVERSANA ("Company") who are at least 21 years of age. Previously, the Plan was the Dohmen Life Science Services, LLC 401(k) Plan. On January 1, 2019, Dohmen Life Science Services, LLC completed a merger with six other organizations and the new company & plan sponsor was organized as EVERSANA. The name of the Plan was changed to the EVERSANA 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The following are descriptions of the more significant characteristics of the Plan. For a complete description, participants should refer to the Summary Plan Description.

Contributions

The Plan provides for all participant contributions to be made with tax-deferred or after-tax Roth dollars under Section 401(k) of the Internal Revenue Code (IRC). The tax-deferred contributions are excluded from the participant's current wages for federal income tax purposes. The maximum employee contribution as determined by the IRC for 2019 was \$19,000 with an additional \$6,000 of catch-up contributions allowed for participants age 50 and older.

The Company offers a discretionary matching contribution equal to 50% of eligible participant salary deferrals that do not exceed 6% of compensation. At its discretion, the Company may also make a discretionary nonelective contribution on behalf of participants. To be eligible for the Company contributions, a participant must have completed 6 months of service during the year the contribution is made. In addition, participants must also have to have completed 501 hours of service and be employed on the last day of the Plan year to receive the discretionary nonelective contribution.

No federal income tax is paid on the tax-deferred contributions and growth thereon until the participant withdraws them from the Plan.

Contributions from participants are recorded when the Company makes payroll deductions from Plan participants.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company contributions and investment earnings. Allocations of the Company contributions and forfeited balances are based on the ratio of a participant's compensation to the compensation of all participants eligible to share in the Company contributions. Allocations of investment earnings are based on the participant's account balance (in each fund) in relation to all account balances.

Vesting

Participants are immediately vested in their tax-deferred contributions, after-tax Roth contributions, rollover contributions, safe harbor matching contributions, discretionary matching contributions and related earnings. Participants who leave the Plan because of death, normal retirement, or disability retirement, as defined in the Plan, are considered 100% vested. Participants become 100% vested in their discretionary nonelective contributions, if made, and related earnings after five years of service. As a result of the merger detailed above, different vesting schedules may apply to contributions credited to participants while they were employed with a previous employer. Participants should refer to the Summary Plan Description for complete details.

Notes Receivable from Participants

Notes receivable from participants represent the loans to participants for the purchase of a primary residence, education expenses, medical expenses, or to prevent eviction or foreclosure. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account; bear interest at rates between 4.25% and 8.75% which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of benefits

Benefits are recorded when paid. On termination of service due to death, disability or retirement, a participant may elect to receive a lump sum amount equal to the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Participants may also receive distributions while they are still employed by the Company. Distributions available to participants while they are still employed by the Company may be subject to certain income tax penalties for withdrawals or distributions prior to age 59 ½.

Forfeited Accounts

When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined in the Plan, represents a forfeiture. Forfeitures of non-vested Company contributions are to be retained in the Plan and used to offset Plan expenses or future Company contributions. At December 31, 2019, forfeited non-vested accounts totaled \$4,409. During the year ended December 31, 2019, there were \$162,079 of forfeitures used to offset Company contributions.

Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Options

Participants may direct their contributions and Company contributions and redistribute accumulated contributions between various investment options maintained by the Plan.

The Plan is designed to satisfy the requirements under Section 404(c) of ERISA, and therefore provides that participants may choose to direct contributions, and all or part of their account balances, among any of the Plan's investment alternatives on a daily basis.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis.

Valuation of Investments

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices that are observable for securities, either directly or indirectly. Examples include matrix pricing utilizing yield curves, prepayment speeds, credit risks, etc.; quoted prices for similar assets in active markets; and inputs derived from observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses and unrealized appreciation and depreciation of plan assets are reported in the statements of changes in net assets available for benefits as net appreciation in fair value of investments.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of shares of a bank collective trust held by the Plan at year-end. The NAV is based on the fair value of the underlying investments held by the fund. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Administrative Expenses

Administrative expenses of the Plan are generally paid by the Plan and include audit fees, transaction fees paid to a third party administrator, and investment broker advice fees.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Information Certified by Third Party

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from Fidelity Management Trust Company (Fidelity), that all of the information provided by them is complete and accurate. All investment related amounts and information disclosed in the accompanying financial statements, notes to financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018, the net appreciation in fair value of investments, interest and dividends are presented in reliance solely upon those certifications.

The Plan's independent auditors did not perform any auditing procedures generally accepted in the United States of America with respect to the above information, except for comparing such information as certified by the Trustee to the related amounts included in the accompanying financial statements, notes to financial statements and supplemental schedule.

3. Investments

The following summarizes the classification of investments by classification and method of valuation in accordance with U.S. GAAP:

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. Tax Status

The Plan is a prototype plan adopted from the prototype plan sponsor. The prototype plan sponsor has received a notification letter from the Internal Revenue Service (IRS) which indicates that the form of the prototype plan is acceptable under the IRC. The Plan has not received a determination letter from the IRS. However, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Department of Labor or IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Risks and Uncertainties

The Plan's investments are exposed to various risks of loss, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

6. Party-in-Interest Transactions

All transactions involving Fidelity, the Company or plan participants are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

7. Subsequent Events

Management of the Plan has evaluated all subsequent events through September 2, 2020 for possible inclusion as a disclosure in the notes to the financial statements. The COVID-19 outbreak in the United States occurred subsequent to the Plan's year end. One of the effects of the outbreak has been uncertainty in the markets that in some cases has resulted in significant declines in investment values. Management expects these declines to be temporary. As a result, the Plan's financial statements have not been adjusted for any such declines in value.

Additionally, on March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was passed. The CARES Act contains several provisions related to retirement plans including waiving the 10% early withdrawal penalty tax for distributions up to \$100,000 per year for individuals meeting certain COVID-19 conditions, increasing loan limits and delaying existing loan repayments, and waiving required minimum distributions for 2020.

8. Reconciliation of Financial Statements to Schedule H of Form 5500
