Independent Auditors' Report

The Plan Administrator
S&ME, Inc. Employee Stock Ownership Plan:

We have audited the accompanying financial statements of S&ME, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for plan benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of S&ME, Inc. Employee Stock Ownership Plan as of December 31, 2019 and 2018, and the changes in its net assets available for plan benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2019, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

(1) Description of Plan

The following description of the S&ME, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement and related amendments for a complete description of the Plan's provisions.

(a) General

The Plan, a defined contribution plan, was established by S&ME, Inc. (the "Company") effective January 1, 1995 and was most recently amended and restated in full effective January 1, 2015. The Company has appointed as trustees the employee members of the Board of Directors of S&ME, Inc. (the "Trustees"), who are responsible for investment of the assets of the Plan, and has appointed the Company to be the Plan administrator (the "Administrator"). The Plan is designed to comply with the Internal Revenue Code of 1986 (the "IRC"), as amended, and is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

The purpose of the Plan is to enable eligible employees to acquire a proprietary interest in the common stock of the Company. The Plan is for the exclusive benefit of the eligible employees and their beneficiaries.

(b) Eligibility

Effective January 1, 2010, the Plan was amended to change eligibility requirements to attainment of age twenty-one and completion of six months of service. Employees become participants of the Plan on the first day of each quarter coinciding with or following the date the employee meets the eligibility requirements. An employee may, subject to approval by the Company, elect not to participate in the Plan.

(c) Contributions

Contributions to the Plan are made solely at the discretion of the Company. Participants do not make contributions to the Plan. Company contributions can be made in the form of cash, Company stock or other property, as determined by the Company. Company contributions are limited by the maximum amount allowable as a deduction under the provisions of IRC Section 404; however, this amount may be exceeded in order to provide for top heavy minimum allocations.

(1) Description of Plan, Continued

(d) Participant Accounts

Each participant's account is credited with an allocation of the Company's contribution, forfeitures and Plan earnings (losses) annually, as of the anniversary date of the Plan. Company contributions are allocated to participant accounts based upon the proportion of each participant's compensation for the year to the total compensation of all participants for such year. Forfeitures, if any, will be treated in the same manner as additional discretionary contributions for the Plan year in which the forfeiture occurs. Plan earnings (losses) are allocated each anniversary date prior to contributions and forfeitures, based upon the proportion of each participant's and former participant's nonsegregated accounts to the total of all accounts. Beginning in 2015, the Plan was amended to annually, on December 31st, rebalance each participant's account so that the percentage of each participant's account that is invested in Company stock is identical (for example, 95%) and the percentage of each participant's account that is invested in cash is identical (for example, 5%).

(e) Vesting

Participants vest in their account balance based upon the number of years of continuous service. Vesting occurs at a rate of twenty percent per year beginning after the second year. Participant accounts become fully vested after six years of continuous service.

(f) Payment of Benefits

The Plan provides retirement benefits for participants who reach normal retirement age, which is defined as the later of the date the participant attains age 55 or the fifth anniversary of Plan participation. Upon termination of employment, retirement, death or disability, a participant generally receives annual payments over a five-year period. Participant account balances that are less than $1,000 are distributed by the Company following termination of employment. As of December 31, 2019, the sum of annual payments that may be required to be paid over the next five years if elected by terminated participants totals approximately $6,700,000.

(g) Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Generally speaking, participants who have completed ten years of service as a participant and attained age 55 may elect this distribution option, with the option extending for a period of six years. During the first five years of the six-year period, participants may diversify a total of up to 25% of the value of the Company stock allocated to their account. During the sixth year of the six-year period, participants may diversify an additional portion of the Company stock allocated to their account so that up to 50% of the Company stock allocated to their account is diversified. However, on March 21, 2019, the Plan was amended to extend the provisions applicable to the sixth year of the six-year period to all years until the year of the participant's retirement, death or disability. Participants who elect to diversify receive a cash distribution that may be transferred to another qualified plan.

(1) Description of Plan, Continued

(h) Investments

The Plan is designed to invest primarily in Company common stock. The Administrator may, but has never exercised its right under the Plan to, direct the Trustees to invest funds in cash or cash equivalents or other property. Company common stock is valued at estimated fair value as of December 31 of each year.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and present the net assets available for plan benefits and changes in those net assets.

(b) Investments

The common shares of the Company are reported at estimated fair value as determined using an annual independent appraisal.

The Plan presents in the statements of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

(c) Benefits

Benefits are recorded when paid.

(d) Administrative Costs

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative costs are paid by the Company at the Company's discretion. In 2019 and 2018, the Company paid administrative expenses on behalf of the Plan totaling $117,897 and $58,460, respectively.

(e) Forfeited Accounts

Forfeitures of nonvested account balances are reallocated to participant accounts in the same manner as Company contributions (see note 1(d)). During 2019 and 2018, forfeitures allocated to participant accounts totaled $247,842 and $223,234, respectively.

(2) Summary of Significant Accounting Policies, Continued

(f) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions (primarily related to the valuation of the Company common stock) that affect the reported amounts of net assets available for plan benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in the net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

(g) Party-in-Interest

The Plan invests primarily in Company common stock managed by the Trustees. The income of the Plan is derived principally from this investment and from contributions by the Company; therefore, these transactions qualify as party-in-interest transactions that are allowable under ERISA.

(h) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance for fair value measurements establishes a hierarchy which encourages an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs are unobservable and have the lowest priority.

The following is a description of the valuation techniques used by the Plan to measure different financial instruments at fair value and the level within the fair value hierarchy in which the financial instrument is categorized.

Level 3 Fair Value Measurements

The fair value of the common stock of the plan sponsor is determined using an annual appraisal prepared by an independent appraiser retained by the Trustees and based on a market valuation approach, including a discount to reflect a factor for the minority interest and the lack of liquidity of the Company's common stock. Company management accumulates data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which the Plan Trustees, along with Company management, review in detail and discuss. Ultimately, the fair value is determined by the Plan Trustees.

(3) Investments

The investment in common stock of the plan sponsor is stated below:

Number of shares	Description	Fair value
	2019	
208,800	S&ME, Inc. Company Common Stock	$ 46,144,800
	2018	
208,800	S&ME, Inc. Company Common Stock	$ 46,144,800

All investments of the Plan are nonparticipant-directed.

(4) Fair Value Measurements

The Plan's investment in common stock of the Company is reported at fair value in the accompanying statements of net assets available for plan benefits. The following table provides further details of the changes in the Level 3 fair value measurement for the Company common stock during 2019 and 2018:

	2019	2018
Balance, beginning of year	$ 46,144,800	50,738,400
Net unrealized losses included in changes in net assets available for plan benefits	-	(4,593,600)
Balance, end of year	$ 46,144,800	46,144,800

(5) Federal Income Taxes

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated September 16, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. No provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

(6) Plan Termination

Although the Company has not expressed any intent to terminate the Plan, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

(7) Risks and Uncertainties

Financial instruments, which potentially subject the Plan to concentration of credit risk, consist of investment in Company common stock, cash in banks and employer contribution receivable. Investment securities are exposed to various risks such as market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

Cash is held in a bank, and under expanded coverage available to employee benefit plan accounts, is fully insured by the Federal Deposit Insurance Corporation (FDIC).

Employer contribution receivable amounts as of December 31st are paid to the Plan in the following year.

(8) Subsequent Events

In March 2020, the World Health Organization declared the global novel coronavirus disease 2019 (COVID-19) outbreak a pandemic. The extent of COVID-19's effect on the Plan's assets and investment performance will depend on future developments, including the duration, spread and intensity of the pandemic, and the impact on the value of the Company's common stock, all of which are uncertain and difficult to predict considering the rapidly evolving landscape. As a result, it is not currently possible to ascertain the overall impact of COVID-19 on the Plan's net assets. However, the pandemic could have a material adverse effect on the Plan's investments, net assets available for plan benefits, and changes in net assets available for plan benefits.

The date to which events occurring after December 31, 2019, the date of the most recent statement of net assets available for plan benefits, have been evaluated for possible adjustment to the financial statements or disclosure is August 26, 2020, the date the financial statements were available to be issued.
