Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Vintners Distributors, Inc. Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Transamerica Financial Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the custodian as of December 31, 2019 and 2018, and for the years then ended, that the information provided to the Plan Administrator by the custodian is complete and accurate.

1. DESCRIPTION OF PLAN

The following description of the Vintners Distributors, Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering employees of Vintners Distributors, Inc., Nakash Enterprises, LLC, and West Coast Convenience (collectively referred to as the "Companies") who have completed a year of employment with 1,000 hours of service, and have reached age 18. The Plan excludes non-resident aliens and leased employees, as defined in the Plan document. The Board of Trustees is responsible for oversight of the Plan. The Retirement Plan Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

The Plan is subject to the provisions of Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC"), as amended.

Contributions:

Participants may elect to contribute on a before-tax basis, after-tax basis or a combination of both, up to 100% of annual covered compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Each year, the Companies will make a "Safe Harbor" matching contribution equal to 100% of the first 3% of participants' compensation elected to be contributed to the Plan, and 50% of the next 2% of participants' compensation elected to be contributed to the Plan. Total "Safe Harbor" matching contributions for the years ended December 31, 2019 and 2018 were $232,264 and $239,517, respectively.

The Companies may make a discretionary matching contribution and profit sharing contribution each year as determined by the governing body of the Companies. There were no discretionary matching and profit sharing contributions for the years ended December 31, 2019 and 2018.

Investment Options:

Participants direct the investment of their contributions and their pro rata share of employer contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and traditional investment contracts as investment options for participants. The types of pooled separate accounts include, but are not limited to, fixed income funds, balanced funds, growth funds, blend funds, foreign/international funds, target date retirement funds, and asset allocation funds. Participants can change their investment options at any time.

1. DESCRIPTION OF PLAN (continued)

Participant Accounts:

Individual accounts are maintained for each Plan participant to reflect the participant's contribution, related Companies' matching contribution as well as allocations of the Companies' discretionary matching contribution and profit sharing contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Vesting*:**

Participants are immediately vested in their own contributions and the safe harbor matching contributions plus actual earnings thereon. Vesting of the Companies' discretionary matching and profit sharing contributions are based on years of continuous service. If a participant terminates employment prior to normal retirement (age 65) for any reason other than death or permanent disability, the portion of the Companies' discretionary matching and profit sharing contributions that are vested is as follows:

Years of Service	Vested Percentage
0 – 1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant Withdrawals and Payment of Benefits:

Participants may withdraw all or any portion of their after-tax contributions. Participants may make full or partial withdrawals of funds in any of their accounts upon attaining age 59 ½.

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

1. DESCRIPTION OF PLAN (continued)

Forfeited Accounts:

As of December 31, 2019 and 2018, forfeited non-vested accounts totaled $0 and $1,537, respectively. Forfeited accounts will be used to reduce any employer contributions. In 2019, $12,419 was added to the forfeiture account, and $13,958 amounts were used to reduce employer contributions and Plan expenses. In 2018, $1,301 was added to the forfeiture account, and $0 amounts were used to reduce employer contributions and Plan expenses.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting:

The financial statements are prepared on the accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

Other than the fully benefit-responsive investment contract measured at contract value (see Note 5), the Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's realized and unrealized gains or losses on investments bought and sold as well as held during the year.

Excess Contributions Payable:

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability. As of December 31, 2019 and 2018 there were no excess contributions payable.

Payment of Benefits:

Benefits are recorded when paid.

2. SUMMARY OF ACCOUNTING POLICIES (continued)

Administrative Expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are either included in net appreciation (depreciation) of fair value of investments or in administrative expenses.

Recent Accounting Pronouncements:

In August 2018, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU No. 2018-13”) which amends ASC 820 to add, remove, and modify fair value measurement disclosure requirements. ASU No. 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019. The manner of adoption varies, with certain provisions applied on retrospectively, while others applied prospectively. Adoption of ASU No. 2018-13 is not expected to have a significant effect on the Plan's financial statements.

Subsequent Events:

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment portfolio incurred a significant decline in fair value since December 31, 2019, with subsequent recoveries in fair values through September 3, 2020. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

The Plan has evaluated subsequent events through September 3, 2020, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

Certain information related to investments from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments, and interest and dividends for the years ended December 31, 2019 and 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Transamerica Financial Life Insurance Company (“Transamerica”), the custodian of the Plan.

4. FAIR VALUE MEASUREMENTS

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts ("PSAs"): For those PSAs investing in mutual funds or domestic equity securities, the investments are valued using quoted prices in active markets for identical assets. For those PSAs directly investing in fixed maturity securities, the investments are values based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 8,899,465	$ -	$ 8,899,465
Total assets at fair value	$ -	$ 8,899,465	$ -	$ 8,899,465

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 6,541,741	$ -	$ 6,541,741
Total assets at fair value	$ -	$ 6,541,741	$ -	$ 6,541,741

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management has evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels during the years ended December 31, 2019 and 2018.

5. INVESTMENT CONTRACT

The Plan holds an investment contract that comprises a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The following represents the disaggregation of contract value for the investment contract held by the Plan.

	2019	2018
Traditional investment contract	$ 134,491	$ 146,662

5. INVESTMENT CONTRACT (continued)

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a semi-annual basis for resetting. Unlike a traditional guaranteed investment contract with a defined maturity date, evergreen contracts such as the one held by the Plan do not have a specified maturity date. Therefore, unlike a traditional guaranteed investment contract, there are no known scheduled cash flows associated with this contract.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Transamerica, the custodian of the Plan. Fees incurred by the Plan for the investment management services are included in either net (deprecation) appreciation in fair value of the investments or in administrative expenses. These transactions are party-in-interest transactions under ERISA. The Plan made direct payments to the custodian of $5,145 and $7,843 for the years ended December 31, 2019 and 2018, respectively. The Plan Sponsor pays directly any other fees related to the Plan's operations, including, but not limited to: audit and legal fees.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8. TAX STATUS

The Companies adopted the prototype plan issued by Transamerica on January 1, 2012. The IRS has determined and informed the Companies by a letter dated March 31, 2014, that the prototype plan is designed in accordance with applicable sections of the IRC. Although the prototype plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2017.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. As of December 31, 2019 and 2018, one investment represented 10.3% and 11.7%, respectively, of the net assets available for benefits.

Additionally, the Plan provides investment options that hold securities of foreign companies, which may involve special risks and considerations not typically associated with investing in securities of U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.
