On October 31, 2017, the Board of Directors of The Dispatch Printing Company, the Plan sponsor, approved the termination of the Plan effective March 1, 2018. In August 2019, employer members RadioOhio Incorporated, VideoOhio, Incorporated, VideoIndiana, Inc. and WBNS TV, Inc. were acquired by TEGNA, Inc. in a stock purchase transaction.

In March 2019, an annuity contract for \$178,784,944 was purchased with plan assets. As part of this purchase, the pension benefits for all vested participants under the Plan were irrevocably transferred from the Plan to the annuity contract.

As a result of excess funds remaining after the liquidation of all vested participant balances from the Plan, the Plan Sponsor elected to transfer excess funds into their two 401(k) plans and utilize these funds for future employer contributions. Total funds transferred out of the Plan during 2019 were \$1,060,000. The remaining \$1,440,458 of cash on hand reverted to the Plan sponsor during November 2019.

Pension Benefits

Participants are eligible for normal monthly retirement benefit payments upon reaching age 65 and are 100% vested in the normal monthly retirement benefit payments after five years of service. The Plan was amended and restated as of December 1, 2007 for the purpose of ceasing all benefit accruals as of December 31, 2007, which shall only apply to employees who terminate employment with the employer members on or after December 1, 2007. The Plan provides retirees with monthly benefit payments based on average monthly compensation, as defined in the Plan document, and years of credited service, up to a maximum of 30 years.

A death benefit shall be paid to the beneficiary of a participant with three or more years of credited service who dies while employed. In addition, deferred and immediate early retirement, disability, deferred withdrawal benefits and optional forms of benefit payments are available under certain circumstances.

Plan Description (continued)

Pension Benefits (continued)

As a result of the Plan termination on March 1, 2018, all participants with vested account balances over \$5,000 were given the choice of receiving a lump-sum payment in November 2018 or having an annuity purchased on their behalf. Those with vested account balances under \$5,000, as well as those participants with vested account balances over \$5,000 that elected to receive the lump sum payment, received a lump-sum payment in November 2018 and the annuity purchase transaction was completed in March 2019.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). Effective October 31, 2017, The Dispatch Printing Company Board of Directors adopted a resolution to terminate the Plan. As a result, the Plan's financial statements for the years ended November 30, 2019 and 2018 have been prepared on the liquidation basis of accounting. This basis of accounting is considered appropriate when, among other things, liquidation of an entity is probable and the net realizable value of assets are reasonably determinable. Under the liquidation basis of accounting, assets are stated at their estimated net realized cash value and liabilities are stated at their anticipated settlement amounts. The estimated net realizable cash value for investments as of November 30, 2019 would be fair value.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Trust Funds Managed by the Trustee

Under the terms of the trust agreements between Huntington National Bank (Huntington), the trustee, and the Plan, the trustee manages the trust funds on behalf of the Plan. The trustee has been granted discretionary authority concerning purchases and sales of investments in the trust funds. The trustee has reported to the administrative committee the trust investments and trust transactions at both cost and fair value.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. For additional disclosure regarding fair value of investments, see the *Fair Value Measurements* footnote herein.

Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are recognized when incurred. Expenses of maintaining the Plan are paid by the Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died and present employees or their beneficiaries.

Benefits are determined in the manner prescribed by the Plan document. Benefits payable under all circumstances, retirement, death and termination of employment, are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discount of interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used are as follows for the plan years beginning:

	December 1, 2017
Life expectancy of participants	RP-2014 Mortality Table
Retirement age	No earlier than age 55. All participants are assumed to be retired upon reaching the age of 65.
Investment return	3.40%

Actuarial Present Value of Accumulated Plan Benefits (continued)

As of December 31, 2007, no participants earned additional accruals in the Plan and therefore, credited service and average monthly earnings were frozen as of December 31, 2007. As a result of the decision to terminate the Plan, the vesting of benefits was accelerated and actuarial assumptions were adjusted to determine the actuarial present value of benefits. This resulted in increases to the actuarial present value of benefits, the effects of which are included in Plan amendments and change of assumptions activity in the tables below.

Actuarial valuation information for the Plan as of December 1, 2017 is presented below:

	2017
Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 165,517,664
Active members not currently receiving payments	45,403,131
Deferred vested benefits	43,301,633
	254,222,428
Non-vested benefits	1,385,840
Total actuarial present value of accumulated plan benefits	\$ 255,608,268

Actuarial valuation information for the Plan for the years beginning December 1, 2017 is presented below:

	2017
Actuarial present value of accumulated plan benefits at beginning of year	\$ 172,518,186
(Decrease) increase during the year attributed to:	
Benefits accumulated, net of actuarial experience gain/loss	(154,695)
Increase for interest due to the decrease in the discount period	10,835,683
Benefits paid	(11,630,711)
Plan amendments	16,722,035
Change of assumptions	67,317,770
Net increase	83,090,082
Actuarial present value of accumulated plan benefits at end of year	\$ 255,608,268

Given the liquidation of the Plan, an actuarial valuation was not performed for the Plan year beginning December 1, 2018.

Minimum funding requirements as set forth in ERISA have been met. There were no contributions made by the employer members in 2019 or 2018.

Fair Value Measurements

U.S. GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
- Level 2 Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 Level 3 are significant unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2019 and 2018.

Cash Equivalents: Valued at the closing price of shares held by the Plan at year-end as reported by the trustee.

Common/Collective Trusts: Valued at the net asset value (NAV) provided by the administrator of the fund. Issues and redemptions of units are recorded upon receipt of unit holder's instructions based on the determined NAV per unit, which is determined daily. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. For this fund, there are no unfunded commitments, redemption restrictions, and participants can transact daily.

Others: Valued at the price of shares of the underlying investments reported by the trustee. The fair value is determined using an income or market approach that considers multiple inputs including specific contract terms, interest rate yield curves, interest rates, credit curves, recovery rates and current credit spreads.

Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of November 30, 2018			
	Level 1	Level 2	Level 3	Total
Cash equivalents	\$ -	\$ 9,854,622	\$ -	\$ 9,854,622
Others	-	446,330	-	446,330
Investments in the fair value hierarchy	-	10,300,952	-	10,300,952
Investments measured at net asset value*	-	-	-	168,024,432
Total assets at fair value	\$ -	\$ 10,300,952	\$ -	\$ 178,325,384

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Plan Termination

The Plan was terminated effective March 1, 2018. All accrued benefits to the extent funded as of the date of termination have become fully vested. The Plan's net assets available for benefits have been allocated by the Plan Committee in a manner which the Plan Committee in its sole discretion deems to be a nondiscriminatory and reasonable manner following the priorities provided under ERISA Section 4044 to the extent desired by the Plan Committee or required under the applicable sections of the Code and ERISA, and any underlying regulations. There was no priority order of claims to plan assets. Under the provisions of ERISA, participants and beneficiaries may be eligible for continuation of benefits under insurance provided by the Pension Benefit Guaranty Corporation.

Tax Status

The Plan obtained its latest determination letter on September 19, 2018, in which the Internal Revenue Service (IRS) states that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. In addition, this termination letter stated that the termination of the plan does not affect its qualification for federal tax purposes.

Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of November 30, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Party-In-Interest Transactions

Certain Plan investments are managed by Huntington National Bank, the trustee and one of the investment managers of the Plan, and these transactions qualify as party-in-interest. Other investment managers for the Plan include Towers Watson Investment Services, Wellington Management Company, and T. Rowe Price Trust Company, and these transactions qualify as party-in-interest. GBQ Partners LLC performs auditing and tax services for the Plan, and these transactions qualify as party-in-interest. Towers Watson Delaware Inc. performs actuarial and investment advisory services for the Plan and these transactions qualify as party-in-interest. Fees paid by the Plan to the above entities for administrative expenses were \$624,958 and \$1,490,876 for the years ended November 30, 2019 and 2018, respectively.

Concentration of Credit Risk

As of November 30, 2018, 79% of net assets available for benefits are made up of two common collective trust funds, the State Street Global Advisors U.S. Government Bond Index Non-Lending Fund and the Willis Towers Watson Group Trust Long Credit Fund.

Subsequent Events

The Plan has evaluated subsequent events through the date of the Independent Auditor's report, the date on which the financial statements were available to be issued.
