1. Description of Plan

The following description of the Ed Herrington, Inc. 401(k) Profit Sharing Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan covering all eligible employees of Ed Herrington, Inc. (the Company). The Plan operates as a non-standardized prototype defined contribution plan and includes a 401(k) feature. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a percentage of their annual wages on a pretax basis, or as Roth contributions on a ratable basis, as weekly payroll deductions throughout the Plan year, as defined in the Plan. Participants age 50 and over are also permitted to make additional "catch up" contributions as defined by the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). Participants may also contribute amounts representing distributions from other qualified retirement plans as specified in the Plan document. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants prior to December 1, 2014 have their deferral rate set at 2 percent, after December 1, 2014 the initial deferral rate is 3% with an automatic increase of 1% after each following Plan year, with a maximum automatic contribution of 5% of eligible compensation through November 2019. As of December 1, 2019 the plan was amended to make the auto enrollment percentage 5%. Contributions are invested in a designated fund until changed by the participant.

Employer matching contributions to the Plan are made at the discretion of the Company's Board of Directors. Employer matching contributions may only be made for participants who make elective deferrals for the Plan year. As defined by ERISA, a safe harbor contribution is a minimum contribution made by the Company that allows the Plan to be exempt from certain nondiscrimination tests. For the Plan year ending November 30, 2014 the Plan was administered as a discretionary match plan that is subject to nondiscrimination testing of the 401(k) elective deferrals (the ADP test), among others defined under ERISA. To be eligible for the discretionary contributions employee must be 18 years of age and completed one year of service.

The Plan was re-stated as of December 1, 2014 to provide for a safe harbor plan match of 100% of the first 3% and 50% of the next 2%, per weekly contribution, effective December 1, 2014.

Additional amounts may be contributed as a profit sharing contribution at the discretion of the Company's Board of Directors. There were no profit sharing contributions made to the Plan for the years ended November 30, 2019 and 2018. All contributions to the Plan are subject to IRS limitations.

Participants direct the investment of these contributions into various investment options among a predetermined group of investment options offered by the Plan. In addition, the Plan allows for contributions to be invested in self-directed investment options outside the predetermined group of investment options, as determined by the participant.

1. Description of Plan (Continued)

Eligibility for Plan Benefits

Employees are eligible to enter the Plan the first of the next month, if they have attained the age of 18 and have completed three months of service.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation, if any, of (a) the Company's matching and discretionary contributions and (b) Plan earnings or losses; and may be charged with an allocation of administrative expenses. Allocations of the Company's discretionary contributions and Plan earnings are based on a formula which takes into account the participant's vested account.

Vesting

Participants are immediately vested in their contributions. The Company's matching contributions, if any and any employer discretionary profit sharing contributions plus actual earnings thereon, are subject to a vesting schedule, as follows. Vesting in the Company's matching contributions made pursuant to a safe harbor election are immediately 100% vested. A participant shall have a vested and nonforfeitable interest in the Company's contribution portion of his or her account determined by the number of years of service as follows:

Years of Service	Vesting %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Note terms range from 1-5 years, or a reasonable number of years determined by the Plan administrator for the purchase of a primary residence. The notes are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing borrowing rates as determined by the Plan administrator. The current Plan interest rate for notes range from 4.25% to 6.50% per annum, based on the origination date of the note. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a fixed number of years not to exceed the participant's (or participant's beneficiary's) life expectancy. For termination of service due to other reasons, a participant will receive the value of vested interest in his or her account as a lump-sum distribution, upon request. Lump-sum payments will be automatically distributed for participant vested account balances which are $5,000 or less. The Plan also allows for in-service distributions to participants who have attained age 59 1/2 and for financial hardship as defined by the Plan document.

1. Description of Plan (Continued)

Forfeited Accounts

Any forfeited nonvested accounts are used to pay administrative expenses, reduce future employer contributions or are allocated as employer contributions. There were forfeited amounts of $69 and $65 for years ended November 30, 2019 and 2018, respectively. Forfeitures used to pay administrative expenses totaled $0 and $0 for the years ended November 30, 2019 and 2018, respectively.

Administrative and Related Expenses

Certain expenses for accounting, legal reporting, and other services incurred in the administration of the Plan are paid by the Company. Administrative expenses paid by the Plan totaled $37,580 and $33,827 for the years ended November 30, 2019 and 2018, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administration to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of November 30, 2019 or 2018. If a participant ceases to make loan payments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Delinquent participant loans are reclassified as distributions, 30 days after termination of employment.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s Investment Committee determines the Plan’s valuation policies utilizing information provided by the trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Subsequent Event

The Plan has evaluated subsequent events through September 11, 2020 the date the financial statements were available to be issued.

3. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quotes prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2019 compared to November 30, 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

3. Fair Value Measurements (Continued)

Investment in collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Fair market value for the Met Life Stable Value funds is calculated using a proprietary per share NAV methodology. The Met Life Stable Value Fund is designed to preserve principal while generating earnings at rates competitive over time with short-term high quality fixed income investments.

Participants within the collective trust will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2019.

Investment Type	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,428,396	$ -	$ -	$ 11,428,396

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provision of ERISA. In the event of Plan termination, participants will become 100% vested in their employer accounts, and the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

5. Tax Status

Effective December 1, 1964, a non-standardized form of a prototype plan sponsored by Ed Herrington, Inc. was adopted. The Internal Revenue Service has determined and informed the Company by letter dated January 26, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan as been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code (IRC) and therefore, believes that the Plan is qualified and the related trust is tax-exempt. Consequently, no provision for income taxes has been included in the Plan's financial statements. The Plan administrator believes that no uncertain tax positions have been identified, and the Plan is no longer subject to income tax examinations for years prior to November 30, 2016.

6. Information Certified by Trustee (unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Below is a summary of the unaudited information regarding the Plan as of November 30, 2019 and 2018 included in the Plan's accompanying financial statements and supplemental schedule that were prepared by or derived from information prepared by Ascensus Trust Company, the Trustee of the Plan and furnished to the Plan administrator. We have been informed by the plan administrator that Ascensus Trust Company held the plan's investment assets and executed investment transactions from December 1, 2017 to November 30, 2019. The Plan administrator has obtained certifications from the Trustees that such information is complete and accurate.

7. Related Party Transactions

The Company paid certain administrative expenses on behalf of the Plan. Administration expenses of $37,580 and $33,827 were paid directly by the Plan for the years ended November 30, 2019 and 2018. The Plan had notes receivable from participants of $278,425 and $305,234 at November 30, 2019 and 2018, respectively. The Company's contribution to the Plan for the year ended November 30, 2019 and 2018 was $276,651 and $252,044, respectively.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. In addition, several of the mutual funds offered are managed by Vanguard and Putnam Fiduciary Trust Company, the Trustees of the Plan.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation to Annual Return (Form 5500)

The following is a reconciliation between the financial statements and Form 5500 "Annual Return/Report of Employee Benefit Plan" that is filed with the Employee Benefits Security Administration of the Department of Labor for November 30:

	2019	2018
Net increase in net assets available for plan benefits, per financial statements	$ 1,803,522	$ 652,022

Equals: Net income per Form 5500	$ 1,810,535	$ 630,942

	2019	2018
Net assets available for plan benefits, per financial statements	$ 14,946,366	$ 13,142,844
Current Year AR	(14,067)	(21,080)
Equals: Net assets available for benefits, per Form 5500	$ 14,932,299	$ 13,121,764

10. Subsequent Event

Subsequent to November 30, 2019, the stock market has fluctuated due to growing concerns of the COVID-19 pandemic. However, as the values of individual investments fluctuate with market conditions, the amount of losses, if any, that my eventually be realized cannot be determined. These conditions could materially impact participant account balances.
