Kirksey Architects, Inc. DBA Kirksey 401(k) and Profit Sharing Plan

Notes to Financial Statements

December 31, 2019

Note 1 - Description of the Plan

The following brief description of the Kirksey Architects, Inc. DBA Kirksey 401(k) and Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the *Plan Document* for more information, which is available from the Plan administrator.

General

The Plan, adopted effective January 1, 1994, with its latest amendment effective January 1, 2019, is a defined contribution and profit sharing plan covering substantially all employees of Kirksey Architects, Inc. DBA Kirksey (the "Company"). Employees must be over the age of 21 to participate. To be eligible for discretionary profit sharing contributions, employees must be employed on the last day of the Plan year. Fidelity Management Trust Company ("Trustee") is the Plan trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Participants may make pre-tax contributions to the Plan equal to the lesser of 75% of their annual compensation or the maximum amount permitted by Internal Revenue Code ("IRC") Section 402. Participants may also make voluntary contributions to the Plan on an after-tax basis, subject to certain limitations. Employees are automatically enrolled in the Plan at 6% of the employee's eligible compensation (as defined in the *Plan Document*) upon meeting the eligibility requirements. Unless an employee elects otherwise, deferral contributions for participants having automatic enrollment contributions made on their behalf will be increased annually by 1%. Employees may elect a different percentage or elect not to participate by notifying the Company or Trustee. Prior to January 1, 2019, the Company determined annually what percentage of the participants' contributions would be matched. Participants' contributions were matched by the Company at 20%. Effective January 1, 2019, the Company elected to adopt the safe harbor provisions under ERISA and make nonelective contributions equal to 3% of each eligible participant's eligible compensation. The Company may also make discretionary contributions determined annually. For the respective 2019 and 2018 Plan years, additional discretionary employer contributions of $0 and $272,635 were made during 2020 and 2019, respectively. The participants may elect to invest all contributions in any combination of investment choices offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contribution, employer contributions, an allocation of Plan earnings/losses, and administrative expenses, if any. Allocations are based on participant compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes receivable from participants

Notes receivable from participants are not permitted under the Plan.

Note 1 - Description of the Plan (Continued)

Benefit payments

A participant may withdraw all or a portion of his/her vested account balance in the event of retirement, hardship, termination of employment, death or disability. Upon termination of service, if the vested account balance exceeds $5,000, the participant may elect to receive a lump-sum payment or may defer the payment of his/her benefit until the participant attains the age of 65. If the value of the participant's account is less than $1,000, the payment will be made in cash in a single lump sum. If the participant's account balance is between $1,000 and $5,000 and the participant does not affirmatively consent to receive a distribution, the balance will be rolled into an individual retirement account established on behalf of the participant. Any taxable distribution paid directly to the participant will be subject to mandatory federal income tax withholding of 20% of the requested distribution.

Vesting

Participants are immediately vested in their contributions, nonelective safe harbor employer contributions, and the actual earnings thereon. A participant is vested in all employer discretionary contributions and earnings thereon as follows:

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants are 100% vested upon normal retirement age regardless of their years of service.

Forfeitures

The Plan provides that nonvested portions of employer contributions that are forfeited by terminated participants are used to reduce employer contributions for the Plan year in which such forfeitures occur or to pay administrative expenses of the Plan. Forfeitures of $19,132 and $29,030 were used during 2019 and 2018, respectively, to offset employer contributions for the respective Plan years. During 2019, forfeitures of $27,365 were used to offset employer discretionary contributions to the Plan for the 2018 Plan year while no similar offset occurred in 2020. As of December 31, 2019 and 2018, there were $3,983 and $27,813, respectively, in forfeitures available to be used.

Administrative expenses

All administrative expenses, unless paid by the Company, are paid by the Plan.

Note 1 - Description of the Plan (Continued)

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon such termination, all participants would be 100% vested in their accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates that may affect the amounts reported in the financial statements and accompanying notes and schedule. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 regarding fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Unrealized appreciation or depreciation in the fair value of investments held at year-end is determined using the fair value at the beginning of the year or the purchase price if the investment is acquired during the year. The realized gain or loss on the sale of investments is determined using historical cost. Upon the sale of an investment, the current year unrealized appreciation or depreciation is adjusted for unrealized gains and losses recognized in prior years. Unrealized appreciation or depreciation and realized gains and losses are reported as net appreciation or depreciation in fair value of investments in the statement of changes in net assets available for benefits.

Participant withdrawals

Participant withdrawals are recorded upon distribution.

Risks and uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances. Plan participants bear the risk of any investment losses.

Note 3 - Fair Value Measurements

The Plan uses a hierarchy for grouping assets and liabilities, based on the significance of inputs. The hierarchy of fair value measurements is described below:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – inputs other than level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of these assets or liabilities; or
- Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds – these investments are valued daily using quoted market prices.
- Common/collective trust – the fair value of this investment is determined by the net asset value which represents the exit price. The investment is traded in principal-to-principal markets with little publicly-released pricing information and invests in a diversified pool of high quality bonds backed by investment contracts in an attempt to maintain principal value. The stable value contracts make participant-directed payments at book value, with the exception of transfers to a competing fund. The contracts do not allow a direct transfer from the stable value fund to a competing fund, because the transfer to a competing fund is viewed as non-diversifiable. Instead, a participant wishing to transfer from the stable value fund to a competing fund needs to first transfer the assets to a non-competing fund for 90 days and then complete the transfer of assets to the competing fund. Certain employer-driven events may result in withdrawals not being covered at book value or may be subject to a 12-month waiting period. The common/collective trust allows for daily redemptions but may require advance notice in certain circumstances. There are no unfunded commitments for the investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the valuation methods are considered appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's mutual funds are measured at level 1 as of December 31, 2019 and 2018. The Plan's common/collective trust is measured at net asset value per share (or its equivalent) as a practical expedient and has not been classified in the fair value hierarchy.

Note 4 - Information Certified by the Trustee (Unaudited)

For 2019 and 2018, the financial information included in the Plan financial statements and Schedule H, line 4i, except for contributions receivable, contributions, and participant withdrawals, has been derived from information certified as complete and accurate by the Trustee, in accordance with Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 5 - Income Tax Status

The volume submitter plan adopted by the Company received its latest favorable advisory letter dated March 31, 2014, in which the Internal Revenue Service (the "IRS") stated that the plan, as then designed, was in compliance with the applicable requirements of the IRC. The volume submitter plan has not been amended, however, certain employer adoptions in the adoption agreement were most recently amended on January 1, 2019. Amendments to the adoption agreement do not affect the Plan's tax status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax provisions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds which are managed by the Trustee of the Plan. Transactions with these investments qualify as party-in-interest transactions.

Note 7 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31:
