CAITAC GARMENT PROCESSING, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS AS OF DECEMBER 31, 2019 AND 2018 AND FOR THE YEAR ENDED DECEMBER 31, 2019

1. DESCRIPTION OF PLAN

The following description of the Caitac Garment Processing, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established on January 1, 2000, covering all employees of Caitac Garment Processing, Inc. (the "Company") who have one year of service with a minimum of 1,000 hours of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All of the Plan assets were held in a separate account with Reliance Trust Company ("RTC"), the trustee.

Participation and Contributions – All employees, who have attained age 21, are eligible to participate in the Plan on the first day of the month following the completion of one year of service.

The Plan provides that eligible employees electing to become participants can contribute to the Plan through payroll deductions of up to 70% of their compensation per year, not to exceed the dollar limits set by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions at any time during the year of up to a limit of additional $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Amounts contributed by employees are excluded from the participants' taxable income until such amounts are received by them as distributions from the Plan.

The investment options currently available under the Plan include collective investment funds and mutual funds that principally invest in a combination of stocks and bonds. The objective of these funds is to provide a rate of return on all amounts invested based on fund performance.

Participants have complete discretion over their investments among these funds and may invest entirely in one fund, or a combination of funds. Participants may change payroll deferral elections or transfer all or any portion of their current account from one fund to another.

The Plan also provides that the Company, when extending the benefits of the Plan to any employee, may place limitations on the amounts of employee contributions to comply with certain statutory limitations.

Company Contributions – The Company may make contributions to the Plan at the discretion of the Company's Board of Directors. The Company contributions made on behalf of participants are allocated to their individual accounts based upon the investment allocations elected by participants. No contributions were made by the Company during 2019.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions plus actual earnings thereon takes place over a five-year period with 20% vesting for each full year of service.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $500 up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by individual participants' accounts and the term period not extending beyond five years from the date of the loan, unless the loan is used to acquire the principal residence of the participant. Loans to acquire a principal residence must be repaid within a period not to exceed 30 years. As of December 31, 2019 and 2018, there were outstanding participant loans of $42,597 and $56,902, respectively. The loans bear interest at the rates range 5.50% to 7.50% in 2019 and 5.50% to 7.00% for 2018, respectively.

Payment of Benefits – Upon termination of service, participants may elect to receive either a lump sum distribution or convert the value of his or her account balance into an annuity. Other withdrawals and loans from the Plan can be made under certain circumstances, as defined in the Plan's provisions.

Forfeited Accounts – Nonvested Company contributions forfeited by participants upon termination are available to reduce administrative expenses of the Plan, if directed by the Plan administrator, or to reduce future payments of the Company's matching contribution. There were no forfeited nonvested accounts as of December 31, 2019 and 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition – Investments are reported at fair value, except for fully benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Invesco Stable Asset Fund – Invesco Stable Asset Fund is a common trust fund. The fund may invest in a diversified portfolio of guaranteed investment contracts, bank investment contracts, synthetic investment contracts and/or separate account contracts. Although the underlying investment contracts of the fund are fully benefit responsive, they are not direct investments, and thus the fund is reported at fair value. The fair value of the fund is determined based on calculated net asset value per share ("NAV"). Participant-initiated withdrawals may be made at any time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent participant notes receivable are recorded as a benefit payment based upon the terms of the Plan document.

Payment of Benefits – Benefit payments to participants are recorded upon distribution. There were no individuals who elected to withdraw from the Plan, but who had not been paid as of December 31, 2019 and 2018.

Liabilities – The Plan may have liabilities related to amounts owed for securities purchased, refund of excess contributions, or other administrative expenses. The liability as of December 31, 2018 represents corrective distributions to participants for the contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") during the year ended December 31, 2018. The Plan fully distributed the 2018 excess contributions to the participants during the year ended December 31, 2019. The Plan has no liabilities as of December 31, 2019.

Administrative Expenses – Certain costs and expenses of the Plan are paid by the Plan or the Company, if the Company so elects. Personnel and facilities of the Company are used by the Plan for its administrative, accounting, and other activities at no charge to the Plan.

Subsequent Events – The Company evaluated all events subsequent to the balance sheet date of December 31, 2019, through the date of the financial statements were available to be issued, August 19, 2020.

Recent Accounting Pronouncements – In August 2018, the FASB issued new accounting guidance related to changes in requirements for fair value measurements disclosures. The new guidance, among other things, removed the existing disclosure requirements for transfers between Level 1 and Level 2 of the fair value hierarchy and modified the existing disclosures for certain entities that calculate net asset value to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly. The guidance is effective for nonpublic entities for fiscal years beginning after December 15, 2019, with retrospective application to all periods presented. Entities are permitted to early adopt either the entire standard or only the provisions that eliminate or modify the requirements. The Plan is currently evaluating the impact of adopting this new accounting standard on its financial statements.

3. FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Automatic Data Processing, Inc. ("ADP"), the record keeper. ADP received an opinion letter from IRS dated July 8, 2014, which states that the prototype document is in compliance with the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements. U.S. GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress for the Plan. The Plan's management believes it is no longer subject to U.S. federal income tax examination for years prior to 2016.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

5. INVESTMENTS CERTIFIED BY THE TRUSTEE

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest income, and dividends for the year ended December 31, 2019 were prepared by RTC, the trustee, and furnished to the Plan administrator. The Plan administrator has obtained certifications from RTC that such information is complete and accurate.

6. FAIR VALUE MEASUREMENTS

In accordance with the authoritative accounting guidance on fair value measurements and disclosures in conformity with U.S. GAAP, the Plan discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3).

Level 1 – quoted prices in active markets for identical securities — Investments whose values are based on quoted market prices in active markets, and whose values are therefore classified as Level 1 prices, include active listed equities.

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.) — Investments that trade in markets that are not considered to be active, but whose values are based on quoted market prices, dealer quotations or valuations provided by alternative pricing sources supported by observable inputs are classified as Level 2 prices. These generally include certain U.S. government and sovereign obligations, most government agency securities, investment-grade corporate bonds, certain mortgage products, less liquid listed equities, state, municipal, and provincial obligations, and collective trust funds. In addition, international securities whose markets close hours before the valuation of the holdings in the different investment funds may require revised valuations due to significant movement in the U.S. markets occurring after the daily close of the foreign markets. As investments whose values are classified as Level 2 prices include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or nontransferability, which are generally based on available market information.

Level 3 – significant unobservable inputs (including each investment fund options own assumptions in determining the fair value of its investments) — Investments whose values are classified as Level 3 prices have significant unobservable inputs, as they may trade infrequently or not at all. When observable prices are not available for these securities, the investment funds use one or more valuation techniques for which sufficient and reliable data is available. The inputs used in estimating the value of Level 3 prices may include the original transaction price, quoted prices for similar securities or assets in active markets, completed or pending third-party transactions in the underlying investment or comparable issuers, and changes in financial ratios or cash flows. Level 3 prices may also be adjusted to reflect illiquidity and/or non-transferability, with the amount of such discount estimated in the absence of market information. Assumptions used by the Plan due to the lack of observable inputs may significantly impact the resulting fair value and therefore the Plan's results of operations.

Valuation of Investments – Mutual funds are valued at the last reported sale price or official closing price as reported by an independent pricing service on the primary market or exchange on which they are traded and are categorized as Level 1 in the hierarchy. In the event there were no sales during the day or closing prices are not available, securities are valued at the last quoted bid price or may be valued using the last available price and categorized as Level 2 in the hierarchy. Collective and common trusts are valued using NAV practical expedient, as provided by the trustee, and are not categorized within the fair value hierarchy.

6. FAIR VALUE MEASUREMENTS (CONTINUTED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following are the major categories of assets and liabilities measured at fair value on a recurring basis as of December 31, 2019 and 2018:

December 31, 2019

Investment Category	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Investment at fair value – Mutual Funds	$ 850,473	$ 850,473	$ -	$ -

December 31, 2018

Investment Category	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Investment at fair value – Mutual Funds	$ 621,428	$ 621,428	$ -	$ -

As disclosed in Note 2, the fair value of the Plan's investment in the Invesco Stable Asset Fund is determined using the NAV practical expedient. The following table summarizes relevant information about the investment:

December 31, 2019

Name of Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Invesco Stable Asset Fund	$ 10,209	None	Six times a year	One day

December 31, 2018

Name of Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Invesco Stable Asset Fund	$ 200,028	None	Six times a year	One day

7. SUBSEQUENT EVENTS

In March 2020, the World Health Organization declared a global pandemic of a novel strain of coronavirus, known as COVID-19. In an effort to mitigate the continued spread of the virus, federal, state and local governments, as well as certain private entities started mandating various restrictions, including travel restrictions, mandated social distancing and shelter-in-place orders. In addition, this pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was enacted into law. Among other things, the CARES Act includes several relief provisions available to tax-qualified retirement plans and their participants. The Plan is currently evaluating the impact of the CARES Act on its financial statements.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments were funds managed by the trustee during the year ended December 31, 2019. Transactions with the trustee qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.
