Independent Auditors' Report

To the Plan Administrator and Plan Participants of
the Quaker Chemical Corporation Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Quaker Chemical Corporation Pension Plan (the Plan), which comprise the statement of net assets available for benefits as of November 30, 2019 (in liquidation), and the related statement of changes in net assets available for benefits for the year ended November 30, 2019 (in liquidation), and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by PNC Bank, the Trustee of the Plan, except for comparing such information with the related information included in the 2019 financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of November 30, 2019, and for the year then ended, that the information provided to the plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2019 financial statements. Accordingly, we do not express an opinion on the accompanying 2019 financial statements.

Emphasis of Matter

As discussed in Notes 1 and 3 to the financial statements, on December 20, 2018, the Plan's Board of Directors made the decision to terminate the Plan, effective January 31, 2019. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing plan basis to the liquidation basis for the year ended November 30, 2019. Our disclaimer of opinion is not modified with respect to this matter.

Other Matter, Supplemental Schedules

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) and Schedule H, Line 4(j) - Schedule of Reportable Transactions as of or for the year ended November 30, 2019 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Other Matter, 2018 Financial Statements

The financial statements of the Plan as of and for the year ended November 30, 2018 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform, and they did not perform any auditing procedures with respect to the information certified by the Trustee, and Principal Life Insurance Company, the Custodian. Their report, dated September 5, 2019, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee and Custodian, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2019 financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Quaker Chemical Corporation Pension Plan

Notes to Financial Statements

November 30, 2019 (in Liquidation) and 2018 (Ongoing)

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Quaker Chemical Corporation Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is maintained by Quaker Chemical Corporation (doing business as Quaker Houghton)(the "Company") and is a noncontributory pension plan. Prior to December 31, 2005, the Plan covered substantially all employees of the Company who had at least one year of eligible service and had attained age 21. Effective December 31, 2005, the Plan was amended to freeze benefit accruals with respect to participants who were not part of a collective bargaining unit. Effective after November 30, 2013, the Plan was further amended to freeze benefit accruals for the remaining members of a collective bargaining unit. The Plan is administered by the Global Pension Committee, which is appointed by the Company's Board of Directors. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Termination

The Board of Directors of the Company adopted resolutions to terminate the Plan effective January 31, 2019. The Company completed the termination during 2020. Refer to Note 3 for more information.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses, including investment manager fees for investment management and other services, actuary fees, and the Pension Benefit Guaranty Corporation ("PBGC") premium, incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net increase (decrease) of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Pension Benefits

Prior to January 1, 2001, pension benefits were determined based solely on a participant's average salary and length of service. Effective January 1, 2001, the Plan implemented a cash balance feature, whereby a credit was provided to a participant's cash balance account for a plan year in an amount equal to a designated percentage of eligible compensation as determined by adding the participant's age to years of credited service (both as of the beginning of the plan year) in accordance with the following schedule:

<u>Age Plus Years of Service</u>	<u>Percent of Compensation</u>
Less than 40	3.0%
40 to 59	4.0%
50 to 59	5.0%
60 to 69	6.0%
70 or more	7.0%

However, a contribution credit was provided to a participant's cash balance account for a plan year only if the participant completed at least 1,000 hours of service in the plan year, began participating, retired or died in that plan year. Also, the contribution credit was reduced if the participant was credited with fewer than 12 months of service in the plan year. Effective December 31, 2005, no additional contribution credits were made for participants who were not part of a collective bargaining unit, and, also, no additional contribution credits were made for the remaining participants who were part of a collective bargaining unit effective after November 30, 2013. See the General section for further information.

The cash balance account of each participant is credited with interest each plan year, using a percentage equal to the average annual interest rate applicable to 30-year Treasury securities for the second month proceeding the first day of the plan year. However, a participant's actual accrued benefit may vary due to transition rules from the Plan's former benefit calculation.

All accrued pension benefits became fully vested after an employee had completed 3 years of vesting service or upon reaching age 65. However, for employees who terminated before December 1, 2008, full vesting required 5 years of vesting service or attainment of age 65.

Pension benefits accrued prior to 1973, are paid by Principal Life Insurance Company ("Principal"), a wholly owned subsidiary of Principal Financial Group, Inc, in accordance with a group annuity contract. This contract is supported by investments in pooled separate accounts of Principal.

Participants are entitled to monthly pension benefit payments and, in certain cases, lump sum distributions. The normal form of payment is a straight life annuity for unmarried participants and a 50% joint and survivor annuity for married participants, beginning

Quaker Chemical Corporation Pension Plan

Notes to Financial Statements – Continued

November 30, 2019 (in Liquidation) and 2018 (Ongoing)

at the normal retirement age of 65. Participants ages 60-64 are eligible to receive early retirement benefits if they have completed 10 years of vesting service. Participants are entitled to receive their vested cash balance account prior to age 60 if they terminate employment.

If a participant is vested in his or her benefit under the Plan and dies before the benefit commencement date, the participant's beneficiary will receive the total vested Plan benefit (or in the case of a participant's surviving spouse, the "minimum spouse's death benefit," as provided by the Plan, if greater). This benefit is paid in a lump sum except that if the participant was married and his or her spouse is the beneficiary, the surviving spouse may, under certain circumstances, elect to receive the benefit as an annuity for his or her lifetime and may defer payment up to the date that the participant would have reached age 65. If the participant dies after the benefit commencement date, the beneficiary is entitled to receive the survivor benefit (if any) under the form of benefit elected by the participant. If a participant becomes totally and permanently disabled before the applicable Plan freeze date, he or she will continue to receive contribution credits until the earliest of the various time periods provided under the Plan. However, no contribution credits were made after the applicable Plan freeze date.

If a participant terminates employment and their vested benefit does not exceed \$5,000, the participant will receive a single lump sum payment as soon as practicable following termination.

Plan Amendments

The Plan was amended pursuant to Amendment No. 2 effective April 1, 2018 to include certain technical language to comply with the final regulations regarding disability claims under ERISA.

The Plan was amended pursuant to Amendment No. 3 effective January 31, 2019 to make certain changes to terminate the Plan.

Additionally, the Plan was amended pursuant to Amendment No. 4 effective December 1, 2017 to make required changes in connection with the Plan's termination.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

As a result of the termination of the Plan, management considers liquidation to be imminent and therefore, the financial statements of the Plan as of and for the year ended November 30, 2019 are presented on the liquidation basis of accounting. The financial statements of the Plan as of and for the year ended November 30, 2018 are prepared on the ongoing accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities, including the actuarial present value of accumulated plan benefits at the date of the financial statements and changes in the present value of actuarial accumulated plan benefits. Actual results could differ from those estimates.

Cash Equivalents

Cash equivalents are comprised of highly liquid investments, which have original maturities of three months or less. At times, the cash and cash equivalent balances may exceed federally insured limits. The Plan mitigates this risk by monitoring cash balances and investing excess funds as necessary. At November 30, 2019 and 2018, the total uninsured cash balance held at financial institutions was \$195,625 and 200,000, respectively.

Investment Valuation and Income Recognition

The Plan's investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Global Pension Committee and Plan management determine the Plan's valuation policies utilizing information provided by its investment advisors, custodians, trustees and insurance company. See Note 5 for a discussion of fair value measurements.

Security transactions are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends on registered investment companies and common stocks are recorded on the ex-dividend date; capital gain distributions are recorded in dividend income. Income from pooled separate accounts is included in the separate account value and is reflected as unrealized appreciation. Net increase in the Plan's investments include the Plan's realized and unrealized gains and losses on investments bought and sold as well as held during the year.

November 30, 2019 (in Liquidation) and 2018 (Ongoing)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan were accumulated based on formulas described above during each year of credited service through November 30, 2013, the final benefit accrual date. Benefits payable under all circumstances - retirement, disability, death and termination of employment are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by consulting an independent actuary, Mercer, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for disability, death, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial methods and assumptions used in the actuarial valuation as of December 1, 2018 are as follows:

Expected rate of return	- 4.75%
Mortality basis	- No collar RP 2014 employee and retiree mortality tables, adjusted to remove post-2006 improvement projections, and projected generationally using Mercer's modified version of the MP-2018 projection scale
Retirement age	- Graduated retirement rates between ages 60 and 70, with a weighted average retirement age of 64

All foregoing actuarial methods and assumptions are consistent with the prior year, except for updates to the expected rate of return, and are based on the presumption that the Plan will continue. The Company has adopted resolutions to terminate the Plan effective January 31, 2019. The computations of the actuarial present value of accumulated plan benefits were made as of December 1, 2018. See Note 8 for additional information.

Payment of Benefits

Benefit payments to participants are recorded when paid.

NOTE 3 – PLAN TERMINATION

The Board of Directors of the Company adopted resolutions to terminate the Plan on December 20, 2018 effective January 31, 2019. In connection with the termination of the Plan, the Company adopted Amendments No. 3 and 4 to the Plan to make certain changes. The Company requested a favorable determination letter from the Internal Revenue Service to confirm the Plan's qualified status through the date of the Plan's termination, and received a favorable determination letter dated September 12, 2019.

The Company completed the termination during 2020. In order to terminate Plan in accordance with Internal Revenue Service ("I.R.S.") and PBGC requirements, the Company was required to fully fund the Plan on a termination basis and the amount necessary to do so was approximately \$1.8 million, subject to final true up adjustments. In July 2020, the Company finalized the amount of the liability and related annuity payments and received a refund in premium of approximately \$1.9 million in August 2020.

NOTE 4 – RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks such as interest rate, credit and overall market volatility. Due to risks associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits. The Plan therefore invests in various investment securities so as to mitigate these risks.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 5 – FAIR VALUE MEASUREMENTS

The Plan applies the guidance of the Financial Accounting Standards Board regarding fair value measurements, which establishes a common definition for fair value. Specifically, the guidance utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

Commingled Funds

Commingled funds represent pooled institutional investments, including primarily collective investment trusts. These commingled funds are not available on an exchange or in an active market and these investments are valued using their net asset value ("NAV"), which is generally based on the underlying asset values of the pooled investments held in the trusts. At November 30, 2019 and 2018, there were no unfunded commitments or redemption periods.

Pooled Separate Accounts

Pooled separate accounts consist of insurance annuity contracts and are valued based on the reported unit value at year end. Units of the pooled separate account are not traded on an exchange or in an active market and these investments are valued using their NAV. At November 30, 2018, there were no unfunded commitments or redemption periods. There were no pooled separate account values as of November 30, 2019.

Registered Investment Companies

The shares of registered investment companies, which represent the NAV of shares held by the Plan, are valued based on quoted market prices on an exchange in an active market and are classified as Level 1 investments.

The valuation methodologies described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no significant changes in methodologies used or transfers between levels during the years ended November 30, 2019 and 2018.

November 30, 2019 (in Liquidation) and 2018 (Ongoing)

As of November 30, 2019 and 2018, the Plan's investments measured at fair value on a recurring basis were as follows (there were no nonrecurring fair value measurements at November 30, 2019 and 2018):

	Total Fair Value	Fair Value Measurements at November 30, 2019 Using Fair Value Hierarchy		
		Level 1	Level 2	Level 3
<u>Investments</u>

Pooled separate accounts measured at NAV*	1,428,205			
Total Investments	\$ 48,746,060	\$ 755,679	\$ —	\$ —

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amount presented in these tables are intended to permit reconciliation of the fair value hierarchies to the line items presented in the Statements of Net Assets Available for Benefits. There are currently no redemption restrictions, and the redemption frequency is daily. Unfunded commitments are not applicable for these investments.

NOTE 6 – INFORMATION CERTIFIED BY TRUSTEE AND CUSTODIAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2019 and 2018. Accordingly, PNC Bank ("PNC") has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of November 30, 2019 and 2018, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of November 30, 2019, and the related investment activity in the Statements of Changes in Net Assets Available for Benefits for the years ended November 30, 2019 and 2018. Principal has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of November 30, 2018 and the related investment activity in the Statements of Changes in Net Assets Available for Benefits for the year ended November 30, 2018.

NOTE 7 - FUNDING POLICY

Employer contributions are funded based upon amounts required under the provisions of ERISA as determined by the actuary, Mercer, and are designed to fund the Plan's normal service costs. There were no Company contributions for both 2019 and 2018 based on the minimum funding requirements of ERISA.

NOTE 8 – ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated Plan benefits as of December 1, 2018 is as follows:

Vested benefits:

Inactive participants currently receiving payments	\$ 31,313,734
Active Participants	8,036,951
Inactive participants with deferred benefits	4,513,431
Total vested benefits	43,864,116
Non-vested benefits	134,362
Total present value of accumulated Plan benefits	\$ 43,998,478

Quaker Chemical Corporation Pension Plan

Notes to Financial Statements – Continued

November 30, 2019 (in Liquidation) and 2018 (Ongoing)

The changes in the actuarial present value of accumulated Plan benefits are as follows:

Actuarial present value of accumulated Plan benefits, at the beginning of the year	\$ 42,000,706
Increase (decrease) due to:	
Benefits accumulated and (gains)/losses	475,556
Increase for interest due to decrease in discount period	2,297,254
Benefits paid	(3,781,816)
Change in actuarial assumptions	3,006,778
Net decrease	1,997,772
Actuarial present value of accumulated Plan benefits, at end of year	<u>\$ 43,998,478</u>

Actuarial assumptions for the above table are for the actuarial valuation as of December 1, 2018 and are based on the presumption that the Plan will continue. The Company has adopted resolutions to terminate the Plan effective January 31, 2019. As a result, the actuarial present value of accumulated Plan benefits as of December 1, 2019 was \$54,631,299. The final termination of the plan has occurred prior to the date of these financial statements during 2020. Although the Company was required to fund any obligation in excess of the market value of the Plan assets, the market value of Plan assets at the time of final termination satisfied all final benefit obligations.

NOTE 9 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

During both the years ended November 30, 2019 and 2018, the Plan invested in the Principal Life Bond and Mortgage Fund, which is managed by Principal, the custodian of the assets. Transactions in such investments qualify as party-in-interest transactions and are exempt from the prohibited transaction rules. As described in Note 1, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are also considered party-in-interest transactions.

NOTE 10 – TAX STATUS

The I.R.S. determined and informed the Company by letter dated September 12, 2019, which updates the letter dated September 20, 2016, that the Plan and related trust, as then designed, were qualified under Internal Revenue Code (“IRC”) Section 401(a). The Plan has since been amended to adopt Amendment No. 4, an amendment required by the I.R.S. in the favorable determination letter dated September 12, 2019. Therefore, the Plan administrator continues to believe the Plan is designed and being operated in compliance with the applicable requirements of the IRC. The Plan administrator has not identified any uncertain tax positions which would require adjustment to or disclosure in the Plan’s financial statements. The I.R.S. has the ability to examine the Plan’s tax return filings for all open tax years, which is generally the three prior years; however, there are currently no audits for any tax periods in progress.

NOTE 11 – SUBSEQUENT EVENTS

The Plan evaluated subsequent events through September 11, 2020, the date the financial statements were issued, and there were no subsequent events, other than the Plan termination described in Note 3, which impacted the Plan’s Net Assets Available for Benefits or the Plan’s Changes in Net Assets Available for Benefits as of and for the year ended November 30, 2019 or which require additional disclosure.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for Economic Assumptions**

- Discount Rate – Interest rates are prescribed by the IRS.
- Mortality – The mortality assumption is prescribed by the IRS.
- Cash balance interest accumulation rate – This assumption has been set based on expected, long term growth and a review of historical and expected 30 year Treasury Bond rates in effect during October preceding each plan year, not to be less than 3.79%.
- Basis used to compute minimum cash balance for grandfathered participants – This assumption has been set based on the review of historical and expected high quality bond yields and the mortality table used under the plan for lump sum conversions.
- Expected investment return – The expected rate of return on plan assets is based on analysis of historical and simulated investment return using capital market assumption published in Mercer Investment Consulting's Capital Market Outlook for the plan's target asset mix, net of an adjustment of 12 basis points for investment expenses assumed to be paid from plan assets.
- Expenses – Expense amounts have been set based on a review of historical and expected expenses paid by the plan.

Unpredictable contingent event assumptions	Not applicable	

Rationale for Demographic Assumptions

- All demographic assumptions have been set based on review of historical experience and expectations for future demographic experience.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** Participants on long-term disability are included with inactive participants with deferred benefits using the assumption that they are permanently disabled.

Actuarial Methods**Asset Methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date, adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Status of the plan	<p>Participation in the plan is frozen effective December 1, 2005 to employees who are not covered under a collective bargaining agreement. Benefits are frozen effective December 1, 2005 for employees not covered under a collective bargaining agreement with the exception of interest on the retirement account balance.</p> <p>Participation in the plan is frozen effective December 1, 2005 for collectively bargained employees. Benefits are frozen effective November 30, 2013 for collectively bargained employees with the exception of interest on the retirement account balance.</p>
Significant events that occurred during the year	None
Definitions	
• Eligibility	<p>Age 21 and one year of service for any employee of the company except:</p> <ul style="list-style-type: none"> • Those who are compensated on a commission only basis; • Those who are covered under a collective bargaining agreement (unless the agreement provides for plan coverage); • Those working for an affiliate who did not adopt this plan; • Any employee of AC Products other than the President of AC Products. <p>Participation in the plan is frozen effective December 1, 2005 for employees who are not covered under a collective bargaining agreement.</p> <p>Participation in the plan is frozen effective February 11, 2013 for collectively bargained employees.</p>

Schedule SB, Part V — Summary of Plan Provisions

- Accrued benefit

Through December 31, 2000:

A life annuity equal to the sum of (a.) and (b.):

(a.) Past Service Benefit

1.1% of participant's highest average earnings, plus .5% of his/her highest average earnings in excess of 1996 covered compensation, multiplied by the participant's years of service from the earlier of (1.) age 21 and one year of service and (2.) the date of eligibility to December 1, 1996.

Highest average earnings is the highest three consecutive years of compensation through 1996 including overtime, shift differential, bonuses and commissions.

In no event will the accrued benefit as of December 1, 1996 be less than the benefit which was accrued before this benefit update.

(b.) Future Service Benefit

For each year of service after December 1, 1996 the future service benefit depends on total years of service as follows:

Before 35 year total service mark:

1.15% of annual pay plus .6% of annual pay over current year covered compensation.

After 35 years of total service:

1.3% of annual pay.

Since January 1, 2001:

A single sum equal to the retirement account balance beginning January 1, 2001.

Each participant is allocated at the end of each plan year, a percent of annual pay. The percent is based on the sum of the participant's chronological age and credited service at the beginning of the plan year. The formula is:

Age + Service	Allocation
Less than 40	3%
40-49	4%
50-59	5%
60-69	6%
70 or more	7%

Schedule SB, Part V — Summary of Plan Provisions

- Accrued benefit (continued)

Interest is credited to the account annually. The effective annual interest rate used to compute interest credits during a plan year is the 30-year Treasury Bond rate in effect during the October preceding the plan year, not to be less than 3.79%.

For participants age 50 or more with at least 10 years of vesting service on January 1, 2001, the minimum account balance is the lump sum value of accumulated accruals based on the prior plan formula. The lump sum value is computed using the interest and mortality assumptions prescribed in Code Section 417(e)(3) for plan years beginning in 2008, as required under the Pension Protection Act of 2006.

The accrued benefit is frozen as of December 31, 2005 for participants who are not covered under a collective bargaining agreement. Accrued benefit is frozen as of November 30, 2013 for collectively bargained employees.

Retirement account balances will continue to accumulate with interest.

Normal retirement

- | | |
|---------------|----------------------|
| • Eligibility | Age 65 |
| • Benefit | The accrued benefit. |

Early retirement

- | | |
|---------------|--|
| • Eligibility | Age 60 and 10 years of service |

| • Eligibility | 3 years of service or age 65 |
| • Benefit | Accrued benefit payable at normal retirement |

Schedule SB, Part V — Summary of Plan Provisions

Disability	
• Eligibility	Total and permanent disability
• Benefit	A participant continues to be credited with service for vesting and benefit accrual. While disabled, he or she receives one year of service for each full year of service accrued before becoming disabled. However, service accruals cease at normal retirement date.
Pre-retirement death	
• Eligibility	Participants with a vested accrued benefit.
• Benefit	<p>If the participant is married, the surviving spouse will be the beneficiary. If the participant is not married a properly designated beneficiary or the estate will be the beneficiary.</p> <p>The beneficiary will receive the value of the total vested accrued benefit (benefits earned through December 31, 2000, as well as benefits earned since January 1, 2001) as a lump sum as soon as administratively possible. A surviving spouse may receive the benefit as a single life annuity paid immediately or deferred up to the date the participant would have reached Normal Retirement Age.</p>
Form of benefits	
• Automatic form for unmarried participants	Single life annuity
• Automatic form for married participants	50% Joint and Survivor annuity
• Optional forms	<ul style="list-style-type: none"> — Single life annuity — 5-year certain and life annuity — 10-year certain and life annuity — 75% Joint and Survivor annuity — 100% Joint and Survivor annuity — Lump sum (cash balance formula)
• Optional form conversion factors	Factors for converting benefits from the normal form of payment are described in Appendix A of the plan document.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2018, the limit is \$220,000.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as amended and restated effective December 1, 2015, as well as amendment No. 1, adopted April 24, 2017 and amendment No. 2, adopted November 30, 2018, are included in this valuation.

- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **Benefits not included:** The disability benefit is valued implicitly. No explicit disability incidence rate is included in the actuarial assumptions.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

Unpredictable contingent event benefits: The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Plan Provision Changes Since Prior Valuation

- Maximum benefit amounts under IRS rules were updated from 2017 to 2018.

Significant Events

- The expected plan termination date is January 31, 2019. The plan termination will not impact the minimum required contribution for the plan year beginning December 1, 2018, since it is zero, but it would impact the maximum tax-deductible contribution determination.
