Independent Auditor's Report

To the Plan Administrator
The Budd-UAW Consolidated
Retirement Benefit Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Budd-UAW Consolidated Retirement Benefit Plan (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of November 30, 2019 and 2018 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended November 30, 2019 and 2018 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Note 1 - Plan Description

The following description of The Budd-UAW Consolidated Retirement Benefit Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan previously sponsored by The Budd Company, Inc. Effective August 1, 2016, thyssenkrupp North America, Inc. (the "Company") became the plan sponsor pursuant to a court-approved Chapter 11 bankruptcy proceeding involving The Budd Company, Inc. The Company is the parent company of The Budd Company, Inc. and is a member of its controlled group. During 2019, the plan sponsor changed its name to thyssenkrupp North America, LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In December 2006, The Budd Company, Inc. closed its operating facility located in Detroit, Michigan, at which time all impacted employees became fully vested. This plant employed substantially all active employees covered under the Plan.

Eligibility and Vesting

Employees become fully vested upon completion of five years of service. Employees who terminate service before becoming fully vested forfeit all benefits under the Plan.

Pension Benefits

Normal retirement is permitted at age 65 and after eight years of credited service. The Plan permits early retirement based on certain age and credited service requirements. Monthly benefits are based on years of credited service and the base wage class applicable to the participant. The Plan also contains provisions for disability, deferred vesting, and surviving spouse benefits.

During 2018, a lump-sum payment option was offered to all terminated vested participants in the Plan. Total payments under the option during 2018 were approximately $2,440,000. There were no lump-sum payment options offered during 2019.

Death Benefits

In certain circumstances, if an active or terminated employee who has a vested interest in the Plan dies prior to their normal retirement age, the surviving spouse or designated beneficiary shall receive a survivor benefit, as defined in the Plan.

Funding Policy

Contributions are made by the Company in actuarially determined amounts. The Company’s policy is to make contributions necessary to satisfy ERISA funding standards. The Company will also, from time to time, make additional contributions, with the total not to exceed the maximum contribution deductible under the Internal Revenue Code. Annual contributions meet the minimum funding requirements of ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the ThyssenKrupp North America, Inc. Master Trust (the "Master Trust") is based on the beginning of the year value of the Plan's interest in the investment units held by the Master Trust, plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value.

Note 2 - Summary of Significant Accounting Policies (Continued)

The common collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. The government securities and corporate debt securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

Investments in partnerships are valued at net asset value per share (or its equivalent) of the funds based on audited financial statements of the funds, where available, with adjustments to account for partnership activity and other applicable valuation adjustments. The money market funds and interest-bearing cash are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices reported in active markets. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Basis of Presentation

The Plan prepares its financial statements on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). Under the modified cash basis of accounting, contributions and investment income (loss) are recognized when received, benefit payment and expenses are recorded when paid, and investments are recognized at fair market value.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses associated with the Plan are paid by the Plan, unless voluntarily paid by the Company. During 2019 and 2018, all expenses were paid by the Plan.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits - modified cash basis.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncement

During 2019, the Plan adopted Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. As a result of the adoption of ASU No. 2017-06, additional disclosures related to the Plan's interest in the Master Trust have been made. This standard was adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Upcoming Accounting Pronouncement

In August 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which primarily removes and modifies Level 3 fair value measurement disclosures. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. Management does not expect the adoption of this ASU to have a significant impact on the Plan's financial statements.

Note 3 - Unaudited Investment Information

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee") holds the Master Trust's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including master trust information included in Note 5, are based solely on information certified by the Trustee.

Certain assets of the Master Trust are in investment funds managed by The Bank of New York Mellon/BNY Mellon, N.A. or its affiliates. Since The Bank of New York Mellon/BNY Mellon, N.A. is the Trustee of the Plan, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. The market value of these investments was approximately $36,000,000 and $41,000,000 at November 30, 2019 and 2018, respectively.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered to the valuation date. These include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries.

The normal individual retirement benefit is calculated based on the participant's years of credited service and base wage class applicable to the participant.

The actuarial present value of accumulated plan benefits is determined by the independent actuary, Willis Towers Watson, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The valuation was made as of December 1, 2018.

The more significant actuarial assumptions underlying the actuarial computations at December 1, 2018 are as follows:

Actuarial cost method	- Traditional unit credit cost method
Interest rate	- 6.80 percent
Mortality basis	- RP-2014 Blue Collar Mortality Rates at 2011 increased by 10.9 percent and based on employee rates for nonannuitant and annuitant rates for those in payment
Retirement	- Based upon a defined table of ages and percentages

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 1, 2018 is as follows:

Actuarial present value of accumulated plan benefits - Vested benefits:	
Participants currently receiving benefit payments	$ 258,030,917
Other vested participants	8,088,861
Total actuarial present value of accumulated plan benefits	$ 266,119,778

The following schedule summarizes the components of the net decrease in actuarial present value of accumulated plan benefits for the year ended December 1, 2018:

Actuarial present value of accumulated plan benefits - Beginning of year	$ 286,280,815
Increase (decrease) during the year attributable to:	
Actuarial losses	622,625
Interest due to the decrease in the discount period	17,742,044
Benefits paid	(34,923,943)
Changes in actuarial assumptions	(3,601,763)
Net decrease	(20,161,037)
Actuarial present value of accumulated plan benefits - End of year	$ 266,119,778

During the year ended December 1, 2018, the actuarial present value of accumulated plan benefits decreased by $3,601,763 as a result of changing the interest rate from 6.60 percent to 6.80 percent. The above schedules do not reflect the plan merger executed on December 31, 2019 and disclosed in Note 9.

Note 5 - Interest in Master Trust

The Plan's investments are in various investment units held by the Master Trust, which was established for the investment of assets of the Plan and several other pension plans sponsored by affiliated participating employers of thyssenkrupp North America, LLC. The assets of the Master Trust are held by the Trustee. Investment income (loss) is allocated to the individual plans based upon the plans' individual ownership of that associated investment unit. Administrative expenses relating to the Master Trust are allocated to the individual plans based upon their share in the net assets of the Master Trust

Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon month-end balances invested by each plan.

Note 5 - Interest in Master Trust (Continued)

The fair values of the investments held within various investment units by the Master Trust at November 30, 2019 and 2018 are as follows:

	2019		2018	
	Master Trust Balances	Plan's Interest in Master Trust Balances	Master Trust Balances	Plan's Interest in Master Trust Balances

Net assets of the Master Trust	$659,901,095	$278,821,228	$620,921,385	$265,470,362

The investment income (loss) for the Master Trust for the years ended November 30, 2019 and 2018 is as follows:

	2019	2018
Net realized and unrealized gains (losses) in fair value of investments	$ 85,225,470	$ (38,171,179)
Interest and dividends	15,544,155	15,969,161
Gain on derivative instruments	1,501,111	195,290
Securities lending income	72,616	147,044
Net investment income (loss)	$ 102,343,352	$ (21,859,684)

During 2018, various participating plans offered lump-sum buyout windows for certain participants that caused higher benefit payments in 2018, which resulted in decreased assets in the Master Trust.

Note 5 - Interest in Master Trust (Continued)

Securities Lending

The Master Trust participates in a securities lending program with the Trustee for its U.S. and non-U.S. securities held in custody with the Trustee. The program allows up to $100,000,000 of the qualified assets to be on loan at any given time. These securities are lent to certain unrelated third-party brokers in exchange for cash and noncash collaterals. At November 30, 2019, U.S. assets on loan were collateralized at 102 percent of the assets' market value. There were no non-U.S. assets on loan at November 30, 2019. Both the collateral and the securities loaned are marked to market on a daily basis, with additional collateral obtained or refunded as necessary. In the event that the loaned securities are not returned by the borrower, the bank will, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the Plan's accounts with cash equal to the fair value of the loaned securities.

The net assets of the Master Trust reflect, as an asset, the collateral received under the securities lending arrangement with an offsetting liability representing the Master Trust's obligation to return the collateral to the borrower. The collateral received from borrowers totaled $35,963,082 and $41,379,277 as of November 30, 2019 and 2018, respectively. At November 30, 2019 and 2018, the entire balance received consisted of cash collateral, which was invested in a money market fund. In the event that a loaned security is called, the Master Trust will receive the market value of the asset in cash. The market value of loaned securities totaled $35,179,145 and $40,441,210 at November 30, 2019 and 2018, respectively.

Although the Plan's securities lending activities are collateralized as described above, and although the terms of the securities lending agreement with the custodial bank require the bank to comply with government rules and regulations related to the lending of securities held by ERISA plans, the securities lending program involves both market and credit risk. In this context, market risk refers to the possibility that the borrower of securities will be unable to collateralize the loan upon a sudden material change in the fair value of the loaned securities or the collateral, or that the bank's investment of collateral received from the borrowers of the Plan's securities may be subject to unfavorable market fluctuations. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

Derivative Instruments

The Master Trust is party to certain agreements, which are designed to manage exposures to foreign exchange and interest rate risks. The interest rate and foreign currency instruments are used for the purpose of hedging changes in the fair value of assets and the actuarial present value of accumulated plan benefits that result from interest rate changes and currency fluctuations or as an efficient substitute for traditional securities.

The notional amount represents the contract amount, not the amount at risk. The notional amount of interest rate instruments was approximately $13,900,000 and $12,800,000 at November 30, 2019 and 2018, respectively. Management has elected to present derivative information on a gross basis when subject to master netting arrangements. The estimated fair value of derivative instruments at November 30, 2019 and 2018 is insignificant. For the years ended November 30, 2019 and 2018, gains of approximately $1,500,000 and approximately $195,000, respectively, attributable to derivative instruments were recognized as investment income in the statement of changes in net assets available for benefits - modified cash basis.

The investment managers, on behalf of the Master Trust, manage its foreign currency and interest rate counterparty credit risks by limiting exposure to and by monitoring the financial condition of each counterparty. In the unlikely event that a counterparty fails to meet the terms of a foreign currency or an interest rate instrument, the Master Trust’s risk is limited to the fair value of the instrument offset by the value of any collateral held.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at November 30, 2019 and 2018 and valuation techniques used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Master Trust's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2019 and 2018.

Investments in Entities that Calculate Net Asset Value per Share

The Master Trust holds shares or interests in investment companies at year end for which the fair value of the investment held is estimated based on net asset value per share (or its equivalent) of the investment company.

At year end, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

	2019	2018			
	Fair Value	Fair Value	Unfunded Commitments	Redemption Frequency, if Eligible	Redemption Notice Period (in Business Days)
Common collective trust funds:					
Equity investments (1)	$ 155,037,072	$ 77,271,628	$ -	Daily	1-2
Balanced investments (2)	59,810,652	52,893,510	-	Monthly	30
Partnerships:					
GMO Multi-Strategy Fund (Offshore), L.P. (3)	15,788,322	15,937,715	-	Monthly	5
Western Asset Global Multi Strategy, LLC (4)	32,777,749	30,955,159	-	Daily	15
Total	$ 263,413,795	$ 177,058,012	$ -		

(1) This class represents investments in actively managed common collective trust funds that invest primarily in equity securities, which may include common stocks, options, and futures.

(2) This class represents investments in actively managed common collective trust funds with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) GMO Multi-Strategy Fund (Offshore), L.P. invests in various investment funds seeking a variety of investment strategies, including common stock, depository receipts, bonds (including sovereign debt of emerging countries), commodities, currencies, forwards, futures, options, and swap agreements.

Note 6 - Fair Value Measurements (Continued)

(4) Western Asset Global Multi Strategy, LLC invests primarily in global fixed-income securities in both developed and emerging market countries that are generally rated at least BBB by Standard & Poor's or equivalent quality.

Note 7 - Tax Status

The Plan obtained its latest determination letter on April 10, 2017 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (the "PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 9 - Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 10, 2020, which is the date the financial statements were available to be issued.

Effective December 31, 2019, The Budd Company Pension Plan for Executive and Administrative Employees, also sponsored by the Company, merged into the Plan pursuant to the terms of a plan amendment. Accordingly, assets of approximately $249,280,000 and participant accumulated plan benefits of approximately $272,000,000 were transferred into the Plan on this date. Also effective December 31, 2019, the Plan was amended and renamed The Budd Company Employee Pension Plan.

Annual rates of increase

■ Compensation:	N/A
■ Future Social Security wage bases	N/A
■ Statutory limits on compensation	It is assumed that maximum benefit and plan compensation limitations under the Internal Revenue Code will not increase in the future.

Administrative expenses	Administrative expense are estimated based on prior experience and the current year's expected PBGC monthly premium. The amount included in the current year's Target Normal Cost is $3,868,420.

SCHEDULE SB ATTACHMENTS

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees. Layoffs and leaves of absence are assumed to be permanent.
Mortality	
Target Liabilities	
■ Healthy	Separate rates for non-annuitants (Based on RP-2000 "Employees" table without collar adjustments projected to 2033 using Scale AA) and annuitants (Based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2025 using scale AA).
■ Disabled	Alternative disabled life mortality tables defined under Revenue Ruling 96-7.
Disability	Employees who were on LTD at plant shutdown have been identified by the plan administrator. They are assumed to commence benefits on the valuation date as disabled retirees under this plan. No other future disablements have been assumed.
Retirement	Events triggering eligibility for retirement under Section 7.1-C of the plan (Mutual Consent Early Retirement) are assumed to have occurred with respect to Philadelphia and Detroit. All employees have ceased employment. We have assumed that eligible participants will retire at their earliest eligibility age. Detroit and Philadelphia employees eligible for Mutual Consent Early Retirement have been identified as such by the plan administrator.
Temporary benefits for disability	15% of those becoming disabled are assumed to qualify for temporary benefits.
Representative termination rates not due to disability, retirement or mortality	None, as there are no active employees remaining.

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

■ Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 60
■ Deferred vested benefit	Age 60 (age 55 if eligible for Mutual Consent Early Retirement)
■ Disability benefit	Upon disablement
■ Retirement benefit	Upon termination of employment

Form of payment	80% of male participants and 25% of female participants not yet in payment status are assumed to elect a 95/60 contingent Annuity Option (as outlined in Appendix B). The remaining participants (20% male, 75% female) are assumed to elect a life annuity.
Percent married	80% of males; 25% of females are assumed to be married.
Spouse age	Male spouses are assumed to be 3 years older than female spouses.
At-risk assumptions	Not applicable
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2017 plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with thyssenkrupp North America, Inc. regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with thyssenkrupp North America, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.
Benefits not included in valuation	The Supplemental Benefit restrictions outlined in Appendix B were not considered in the valuation.
PBGC premium funding target	For purposes of determining the PBGC Premium Funding Target, the Alternative Premium Funding Target was determined using the assumptions described above.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h). Note that the plan sponsor has decided, as allowed by regulation §1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	N/A as there are no Deferred Mutual Consent/LTD Employees remaining.
Retirement	N/A as there are no Deferred Mutual Consent/LTD Employees remaining.
Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities is based on observed experience over recent periods with annual review.
Percent married	The assumed percentage married is based on a blending of marital statuses of recent retirees and changes expected to occur in marriage patterns of retirement age individuals in the future.
Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

SCHEDULE SB ATTACHMENTS

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of August 2017 to August 2018 and subsequently revised by applying the corridors of HATFA to determine minimum funding requirements and benefit restrictions. However, as required by MAP-21, such rates have not been reflected in Section 2.6: Calculation of estimated maximum deductible contribution.

The required mortality used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The assumed plan-related expenses added to the target normal cost was changed from $2,753,371 to $3,868,420.

Change in methods since prior valuation

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56..

SCHEDULE SB ATTACHMENTS

Survivor's Benefit

Eligibility:

(a) Active Employee: Surviving Spouse of a vested employee who dies before payments have commenced.

(b) Retired Employee: Surviving Spouse of employee who retired under the plan having elected the survivor benefit.

Benefit:

(a) Active Employee:

i. If eligible for early retirement, 60% of the benefit the employee would have received had the employee retired on the first day of the month coinciding with or immediately following the day of his death, and had elected the survivor benefit.

ii. If not eligible for early retirement, the surviving spouse receives 50% of the benefit the participant would have received had the participant terminated on the date he died, survived to his earliest retirement age, and elected an immediate lifetime benefit. Monthly payments will begin on what would have been the participant's earliest retirement date and continue for the spouse's life.

(b) Retired Employee: 95% of regular benefit paid to the employee during his lifetime, and 60% is paid to the Surviving Spouse for life; the 95% factor is adjusted if the spouse's age differs more than 5 years from the employee's.

(c) 30 Years Service or Age plus Credited Service Total 85 or More: For active or retired employees with 30 or more years of Credited Service, or retiring after age 55 with age plus credited service totaling 85 or more, the survivor's benefit is computed without reduction for age.

(d) Benefit Increases: Monthly survivor's benefits reflect increase applicable to living retirees.

(e) Duplication Clause: The Survivor Benefit may not be paid concurrently with group insurance Transition or Bridge Benefits.

Revocation of Election:

(a) The election of benefit shall be voided if either the employee or the Surviving Spouse dies before the effective date of election;

(b) The election of benefit shall be voided (and the full benefit restored) if the Surviving Spouse of the employee dies after the benefit commences.

Employee Contributions

SCHEDULE SB ATTACHMENTS

(a) Life Income Option.

(b) Survivor's Benefit (Surviving Spouses only, per above).

Special Age 65 Benefit

Eligibility: Retiree or Surviving Spouse receiving benefits following normal or early (but not deferred vested) retirement, and who is age 65 or over or otherwise eligible for Medicare Part B.

Benefit: $60.00 per month after age 65, or earlier eligibility for Medicare Part B. The benefit is the lesser of the rate given above or the actual Medicare Part B premium.

Changes in Plan Provisions Since Prior Valuation

Deferred vested participants were offered a one-time option to take a lump sum of their entire vested benefit as of December 1, 2017. The liability for the participants who elected the lump sum is calculated as the amount of the lump sum paid to them - totaling $2,426,164. The liability for participants who did not elect the lump sum is calculated based on the assumptions and provisions in this report.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Change in Method

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.
