The Plan provides for employer matching contributions of 100 percent of the participant's contribution not to exceed 4 percent of the related employee's gross salary from which his or her contribution was derived. The Plan also provides for employer discretionary contributions, provided that the total of all employer contributions does not exceed limitations imposed by the Internal Revenue Code. An employee is eligible for discretionary contributions if he or she is employed on the last day of the plan year and has completed 1,000 or more hours of service during the plan year. Discretionary contributions shall be 3 percent for hourly employees and 5 percent for salaried employees. Discretionary contributions paid during 2019 and 2018 were approximately \$351,000 and \$421,000, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants are immediately 100 percent vested in employee salary, employer matching, and rollover contributions and any income or loss thereon. Vesting in the Company's discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants become fully vested in employer discretionary contributions after three years of service.

NOTES TO FINANCIAL STATEMENTS

November 30, 2019 and 2018

1. Description of Plan (Continued)

Benefit Payments

Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum payment, periodic installments, or an annuity amount equal to the vested balance of a participant's account. The Plan also allows for in-service withdrawals once the participant has reached the age of 59 ½, as defined.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions and pay plan administrative expenses.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Hardship Withdrawals

Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Party-in-Interest Transactions

Certain administrative expenses are paid to Ascensus, a trustee of the Plan's assets; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Plan Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

2. Summary of Significant Accounting Policies

Modified Cash Basis

The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (U.S. GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a U.S. GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligation is incurred. Investments are recognized at fair value, which is consistent with a U.S. GAAP basis of accounting.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation

The Plan's investments are stated at fair value.

The common collective trust funds are valued at net asset value (NAV) per share or its equivalent of the fund, which is based on the fair value of the fund's underlying assets. There are no redemption restrictions or unfunded commitments on these investments. Mutual funds are valued based on quoted market prices. See note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are classified as deemed distributions when they are determined to be uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Certain administrative costs of the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (Continued)

Subsequent Events

For the purposes of recognition and disclosure in these financial statements, management of the Plan has evaluated subsequent events through September 14, 2020, which is the date these financial statements were available to be issued.

On March 11, 2020, the World Health Organization classified the coronavirus (COVID-19) outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment portfolio has experienced volatility in fair value since November 30, 2019. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

3. Investments and Notes Receivable

The Plan's investments and notes receivable from participants, related dividends and interest income and investment and loan transactions, including net appreciation (depreciation) of investments were certified by Ascensus, as Agent for Ascensus Trust, the trustee of the Plan. Therefore, in accordance with the request of the Plan's administrator and as allowed under 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to generally accepted auditing procedures by the Plan's independent public accountants.

4. Tax Status

A qualifying plan is one for which the employer may currently deduct contributions on its income tax return, the employee is not currently taxed on the contribution, and the plan income is not taxable.

The Plan is a prototype nonstandardized plan for which the Internal Revenue Service has issued a favorable opinion letter dated March 31, 2014. The Plan was most recently restated on October 24, 2017. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. Management has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

5. Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following categories.

Level 1 – Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 – Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 – Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets measured at fair value on a recurring basis at November 30 are as follows:

	Investments (at Fair Value)	Level 1
<u>2019</u>		
Mutual funds	\$12,832,785	\$12,832,785
Investments measured at NAV – common collective trust funds	<u>180,197</u>	
Total investments	<u>\$13,012,982</u>	
<u>2018</u>		
Mutual funds	\$12,325,844	\$12,325,844
Investments measured at NAV – common collective trust funds	<u>473,025</u>	
Total investments	<u>\$12,798,869</u>	

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2019 or 2018.

7. Plan Compliance

The Plan uses a profit sharing of 3% for hourly employees and 5% for salaried employees. The Plan Administrator has determined that the most recent Plan adoption agreement mistakenly did not describe this formula which previous adoption agreements did. During 2018, the Plan amended the adoption agreement retroactively to bring the adoption agreement and the Plan operations into compliance.
