1. Description Of The Plan

The following description of Mid America 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

St. Charles Nissan, Inc., Mid America Motors, Inc., Mid America Collision Repair, Inc. (MACR), and Pegasus Management Holdings, LLC (collectively referred to as the Company) adopted the Plan to provide participants an opportunity to defer a portion of their compensation to provide supplementary retirement income and a measure of economic security. The Plan, which became effective January 1, 1985, is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Principal Life Insurance Company (Principal) is the Plan's recordkeeper.

Eligibility

Employees of the Company who have completed six months of service and are age 18 or older are eligible to participate in the Plan. Participants are automatically enrolled at a default salary deferral contribution of 6% of compensation. Participants have the option of changing their elections on a semi-annual basis or opting out of participation at anytime.

Contributions

Participants are allowed to contribute to the Plan up to 100% of their annual compensation, as defined in the Plan Agreement, on a tax-deferred basis, up to the maximum set by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Company may contribute discretionary matching contributions each year. The Company contributed a matching contribution of 12.5% of the first 6% of eligible compensation contributed by participants for 2019 and 2018.

In addition, at the end of each Plan year, the Company's Board of Directors may authorize a profit-sharing contribution. The Company did not make a discretionary profit sharing contribution for 2019 or 2018.

Forfeitures

Forfeited nonvested accounts may be used to reduce Company contributions, Plan administrative expenses or both. Forfeitures used to reduce administrative expenses during 2019 and 2018 amounted to $3,112 and $2,730, respectively. No forfeitures were used to reduce Company contributions during 2019 or 2018. There were no forfeited amounts available for future use at December 31, 2019 or December 31, 2018.

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of the total value of the participant's vested account balance. Loans are for a period not exceeding five years, or not to exceed 30 years for the purchase of a primary residence. Loans bear interest at a fixed rate of interest based on prevailing market rates. Loans are repaid through payroll withholdings, including principal and interest.

Vesting

Participants are immediately vested in their deferral contributions plus actual earnings (losses) thereon. Vesting in the remainder of their accounts is based on years of service. A participant is 20% vested after two years of service, increasing 20% each year to 100% vested after six years of service.

Participant Accounts

Each participant's account is credited with the employee's contributions, the Company's contributions, and an allocation of Plan earnings (losses). The allocation of earnings or losses is determined by the earnings (losses) of the participant's investment selection based on each participant's account balance, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants in the Plan may direct the investment of their accounts among a variety of investment options. The investment options at December 31, 2019 and 2018 consist of pooled separate accounts and guaranteed interest accounts.

Payment Of Benefits

Upon termination of service due to death, disability, retirement, or separation from the Company, a participant may elect to receive either a lump-sum distribution or one of several forms of annuities, as defined in the Plan Document.

In-Service Withdrawals

Participants who attain the age of 59-1/2 may withdraw any portion of their vested account balance. In certain circumstances, a participant may elect a hardship distribution, as defined in the Plan Document.

Administrative Expenses

Significant expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to contract administration, notes receivable from participants, distributions and recordkeeping are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The guaranteed interest accounts are not considered fully benefit-responsive and as such, the amounts reported on the statement of net assets available for benefits and the statement of changes in net assets available for benefits are presented at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to participant contributions.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments, and interest income for the years ended December 31, 2019 and 2018, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Principal. The Plan's independent auditors have not audited this information.

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts

Valued at the net asset value (NAV) of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. The NAV, as provided by Principal, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Pooled separate accounts are comprised primarily of shares of mutual funds that are traded on an active market. Pooled separate accounts may be redeemed by participants daily at NAV with no advanced redemption notice required. There are no unfunded commitments.

Guaranteed Interest Accounts

Fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates. Contract value represents contributions plus earnings, less withdrawals and expenses. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through utilizing interest rates applied.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Guaranteed interest accounts	$ —	$ —	$ 257,910	$ 257,910
Total Assets In The Fair Value Hierarchy	$ —	$ —	$ 257,910	257,910
Pooled separate accounts measured at net asset value per share(a)				8,279,907
Total Assets At Fair Value				$ 8,537,817

	December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Guaranteed interest accounts	$ —	$ —	$ 261,414	$ 261,414
Total Assets In The Fair Value Hierarchy	$ —	$ —	$ 261,414	261,414
Pooled separate accounts measured at net asset value per unit (a)				7,143,258
Total Assets At Fair Value				$ 7,404,672

(a) Investments in pooled separate accounts are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient, and therefore have not been categorized in the fair value hierarchy. The fair value amounts presented on this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2019 and 2018:

	Guaranteed Interest Accounts
Balance - January 1, 2018	$ 347,234
Interest credited	2,536

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2019:

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2018:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range Of Significant Input Values
Guaranteed Interest Accounts	$ 261,414	Market Value Adjustment	Composite Guaranteed Rate	0.48% - 1.21%
			Current Rate on December 31, 2018	2.96% - 3.10%

There have been no changes in the valuation methodologies used at December 31, 2019 or 2018.

5. Party In Interest Transactions

Plan investments consist of pooled separate accounts and guaranteed interest accounts managed by Principal. The Plan also paid Principal administration fees totaling $7,332 and $10,354 for the years ended December 31, 2019 and 2018, respectively. These transactions qualify as exempt party in interest transactions under ERISA.

6. Income Tax Status

The Company adopted the Principal Financial Group Prototype Basic Savings Plan. The prototype plan sponsor has obtained an opinion letter dated March 31, 2014 in which the IRS stated that the restated prototype Plan Document was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter. The Plan has been amended since the date of the opinion letter; however, the Plan Administrator believes that the Plan is currently being operated in accordance with the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation Of Financial Statements To Form 5500
