NOTES TO FINANCIAL STATEMENTS

South Shore Transportation 401(k) Plan

1 Description of Plan

The following description of the South Shore Transportation 401(k) Plan (“Plan”) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which began March 2, 1990, is a defined contribution plan covering all non-union employees of South Shore Transportation, Inc. (“Company”) who meet the hour and age requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective January 1, 2015, the Plan was restated to include all previous amendments to the Plan.

Eligibility:

All employees of the Company age 21 and older and who are employed full-time for 60 days are eligible to participate in the Plan on the first day of the month following or coinciding with the date on which the employee has completed 60 days of full-time service.

Contributions:

Cash or Deferred Option 401(k) – Participants may elect a portion of their compensation from 1% to 100% to be contributed to the Plan by the Company. The Plan also allows for catch up contributions for participants that meet certain criteria.

Employer Contributions – The Company may make contributions to each eligible participant’s account by matching a percentage of the participant’s elective deferral for the Plan year. The matching percentage is determined annually at the discretion of Company management. For 2019 and 2018, the Company matched 100% of the first 6% contributed by each participant.

Qualified Non-Elective Contributions – The Company may also make a qualified non-elective contribution on a discretionary basis. This additional contribution, if any, will be allocated to only non-highly compensated participants in proportion to each eligible employee’s compensation as a ratio of all eligible employees’ compensation. For 2019 and 2018, the Company made no such contributions.

The Company may also make additional profit sharing contributions. Such additional contributions, if any, shall be allocated to each participant in proportion to his or her compensation for the calendar year. For 2019 and 2018, the Company made no such contributions.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code, as defined in the Plan agreement.

NOTES TO FINANCIAL STATEMENTS

South Shore Transportation 401(k) Plan

1 Description of Plan, Continued

Investment Options:

Upon enrollment in the Plan, a participant may direct any contributions to any of the investment options offered by the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for guaranteed investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to guaranteed investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Recent Accounting Pronouncements:

In August 2018, the FASB issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement ("ASU 2018-13"). The new standard removes or modifies certain existing disclosure requirements and adds additional disclosure requirements related to fair value measurement. The Plan elected to early adopt ASU 2018-13 for the year ended December 31, 2019. The effect of the adoption is an overall reduction in the disclosures related to fair value measurement.

Valuation of Investments:

Investments are stated at fair value. Pooled separate accounts are reported at fair market value as of year-end. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. Participants can transact with the pooled separate accounts daily and there are no unfunded commitments. The fair value of the guaranteed investment contract (VOYA Fixed Account) is based on the fair value of the underlying assets of the contract (contract value of the fund approximates fair value).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold and held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

South Shore Transportation 401(k) Plan

2 Summary of Significant Accounting Policies, Continued

Administrative Fees:

Substantially all administrative fees are paid by the Company.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties:

The Plan's assets include investments in pooled separate accounts and guaranteed investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 10, 2020, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets.
- * Quoted prices for identical or similar assets or liabilities in inactive markets.
- * Inputs other than quoted prices that are observable for the asset or liability.

NOTES TO FINANCIAL STATEMENTS

South Shore Transportation 401(k) Plan

3 Fair Value Measurements, Continued

- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled Separate Accounts:

The fair value of the pooled separate accounts is based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on commercial quotation services. The fair value is allocated among the contract holders based on a unit value. These fall into the Level 2 category of the valuation hierarchy.

Guaranteed Interest Contract (VOYA Fixed Account):

The fair value of the guaranteed interest account is based on the underlying assets of the contract (contract value of the fund approximates fair value). The fair value is expressed in units. The guaranteed interest account is not fully benefit responsive and is classified in the Level 3 category of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy on a recurring basis, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

4 Tax Status

On March 31, 2014, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2019, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.
