Note 1. Plan Description

The following description of the Cardenas Markets, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: Adopted in January 2002, the Plan is a defined contribution plan covering substantially all employees of Cardenas Markets, LLC (the Company and Plan Administrator) who are 21 years of age and have 90 days of service, effective on the first day of each quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective November 21, 2016, the Plan was amended and restated, whereby substantially all of the provisions remained the same.

On November 29, 2017, the Company acquired Los Altos Ranch Market (Los Altos). Effective January 1, 2018, former Los Altos employees who participated in the retirement plan sponsored by the Northgate Gonzalez Markets, Inc. 401(k) Plan were able to participate in the Plan. The assets of Los Altos' employees were not transferred because employees were given the option to maintain their balances in the Northgate Gonzalez Markets, Inc. 401(k) Plan or roll them over to the Plan. Additionally, effective January 1, 2018, the Plan was amended to provide employees of Los Altos with prior service credit from the predecessor employer (see Note 12).

Contributions: Participants' contributions are made to the Plan by means of a salary deferral agreement, under which participants are entitled to defer up to 100% of their compensation up to statutory limits determined annually by the Internal Revenue Service (IRS). The Plan document does not provide for matching or other employer contributions; therefore, the Company does not make any discretionary or matching contributions.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of Plan earnings and expenses. Allocations are based on participant earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his/her account.

Notes receivable from participants: Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000 from their accounts. The loans are secured by the vested balance in the participant's account and bear interest at rates commensurate with prevailing rates. Principal and interest must be amortized on a level basis and are to be repaid within five years, unless the loan proceeds are used to acquire a principal residence, in which case the repayment period may be extended. In the event the scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due, the loan is considered to be in default and considered a deemed distribution.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon.

Payment of benefits: On termination of service due to death, disability, retirement or other reasons, a participant (or designated beneficiary) may elect to receive a lump-sum amount or installments equal to the value of the participant's vested interest in his or her account. Distribution of benefits to terminated participants in amounts less than $5,000 may be made at the discretion of the Plan Administrator.

Participant investment options: Participants must direct their contributions from salary deferrals into investment options as made available and determined by the Plan Administrator, which are more fully described in the Plan's literature.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Fair value measurements: The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 or 2016.

Mutual funds: The fair values of these mutual funds are determined by the mutual funds' net asset value (NAV). The NAV is calculated by dividing the fund's total net assets by the total number of shares outstanding. The fund's total net assets are determined by obtaining pricing for the individual securities within the fund minus any liabilities. The calculated NAV or price for the mutual fund is a publicly quoted price in an active market and updated at the end of each business day.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value for mutual funds and contract value for guaranteed investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (Principal), the trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued daily. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Use of estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Contributions: Contributions from the Plan participants are recorded in the year in which participant contributions are withheld from amounts paid. As of December 31, 2017 and 2016, there were $30,322 and $12,157 participant contributions receivable, respectively. All participant contributions are participant directed.

Corrective distributions: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability, with a corresponding reduction to contributions. As of December 31, 2017 and 2016, there were $14,670 and $5,017 corrective distributions payable, respectively.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account, and certain record-keeping fees paid by the Plan are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Recent accounting pronouncement: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures, and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

Note 4. Information Certified or Provided by Principal

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and the supplemental schedules, that was prepared by or derived from information provided by Principal and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Principal that the information provided to the Plan Administrator by Principal related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and the supplemental schedules, related to the following assets:

	2017	2016
Investments at fair value:		
Mutual funds (registered investment companies)	$ 1,828,770	$ 1,350,917
Investments at contract value:		
Guaranteed investment contract	1,354,273	1,076,536
Notes receivable from participants	180,633	114,990

Principal also certified the completeness and accuracy of interest and dividend investment income of $33,092, net appreciation on investments of $250,603 and interest from participant notes receivable of $6,936 for the year ended December 31, 2017.

Note 5. Fair Value Measurements

The following tables set forth, by level in the fair value hierarchy, the Plan's assets at fair value at December 31:

	2017			
Investment Category	Fair Value	Level 1	Level 2	Level 3
Equity securities:				
Mutual funds	$ 1,828,770	$ 1,828,770	$ -	$ -
Investments at fair value	$ 1,828,770	$ 1,828,770	$ -	$ -

	2016			
Investment Category	Fair Value	Level 1	Level 2	Level 3
Equity securities:				
Mutual funds	$ 1,350,917	$ 1,350,917	$ -	$ -
Investments at fair value	$ 1,350,917	$ 1,350,917	$ -	$ -

There were no transfers in or out of Levels 1, 2 or 3 during the years ended December 31, 2017 or 2016.

Note 6. Investment Contract With Insurance Company

As of December 31, 2017 and 2016, the Plan's investment options included a fixed-income investment contract issued by Principal Life Insurance Company, which was determined to be fully benefit responsive. This contract is an evergreen product as it has no maturity date. It does not operate like a mutual fund, variable annuity product or conventional fixed-rate individual annuity product.

Note 6. Investment Contract With Insurance Company (Continued)

The Plan owns a promise to receive interest at crediting rates that are announced in advance and guaranteed for a specific period of time as outlined in the group annuity contract. The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer and not on the value of the securities within the insurer's general account. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan. There are no reserves against the contract value for credit risk of the contract issuer or otherwise. Contract value represents deposits made to the contract, plus earnings at guaranteed credit rates, less withdrawals, if any.

The interest crediting rate is based on the earnings of the underlying assets and is subject to a minimum rate provision, but may never fall below 1% after deduction for any expenses. The crediting interest rate is reset per contract provisions. Past interest rates are not indicative of future interest rates. Key factors that could influence future interest crediting rates are changes in economic and market conditions, interest rates, and default or credit failures of the securities in the insurer's general assets.

The contract has a surrender charge of 5% if the Plan terminates its interest in the contract without 12 months' advance notice. There are no events that allow the issuer to terminate the contract and that require the Plan Sponsor to settle at an amount different than contract value.

Note 7. Tax Status

The Plan has adopted a nonstandardized form of a prototype plan sponsored by Principal Life Insurance Company. The prototype plan has received an opinion letter from the IRS dated March 31, 2014, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the initial adoption of the prototype plan document. The Plan Administrator believes the Plan is designed in compliance with the applicable provisions of the Internal Revenue Code (IRC) and will take all reasonable actions necessary to maintain the qualified status of the Plan and operate the Plan in compliance with the provisions of the IRC.

Note 8. Related-Party Activity and Administrative Expenses

Certain Plan investments comprise mutual funds and a guaranteed investment contract managed by Principal. Principal is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Certain administrative functions are performed by employees of the Company. No such officer or employee receives compensation from the Plan. The Company may pay some administrative expenses of the Plan. Certain other administrative expenses for the Plan are paid directly by the Plan.

Note 9. Risks and Uncertainties

The Plan's participants invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Differences Between These Financial Statements and the Financial Information Required on the Form 5500

Net increase in net assets available for benefits as presented in these financial statements	$ 829,745
2016 corrective distribution	(5,017)
2017 corrective distribution	14,670
Net increase in net assets available for benefits per the Form 5500	$ 839,398

Note 11. Nonexempt Transactions

During 2017, the Plan Sponsor inadvertently failed to deposit $15,282 of participant deferrals and loan repayments within the required time frame as stated by the DOL's regulations. The Plan Sponsor intends to reimburse the Plan for lost interest. The Plan Sponsor intends to file Form 5330 and pay the applicable excise tax. The excise tax payments will be made from the Plan Sponsor's assets and not from the assets of the Plan.

Note 12. Subsequent Events

The Plan Administrator has evaluated subsequent events through September 13, 2019, the date the financial statements were available to be issued.

Effective January 1, 2018, Los Altos' employees were able participate in the Plan. The Plan was also amended effective January 1, 2018, to provide employees of Los Altos with prior service credit from the predecessor employer.

We are not able to attach the audited financial statements, as required, because the Company is still compiling the information. During the 2017 Plan year, we experienced significant turnover in Plan management and thus, our books and records have not been made available on a timely manner. We are filing Form 5500 without the required financial statements to ensure timely filing. Upon completion of the audit, we will promptly amend the form 5500 to include all required information.
