Employees, including temporary employees, are immediately eligible to enter the Plan upon their date of hire. The Plan is subject to the provisions of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

[2] Contributions:

Participants may contribute up to 75% of pre-tax annual compensation, up to a maximum of $19,000 in 2019, and may make catch-up contributions, as defined by the Plan. In addition, participants may contribute up to 15% of after-tax compensation, as defined by the Plan. In no event may participant pre-tax and after-tax contributions exceed any statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan provides for automatic enrollment and auto escalation features whereby participants are automatically enrolled in the Plan at a contribution rate of 6%. Effective March 31, 2019, the plan was amended to allow the Plan administrator to establish reasonable procedures to implement an automatic escalation provision, including adjustments to the maximum automatic escalation level, and to allow employees to opt-out of the annual automatic escalation features of the Plan. Participants may change their contribution percentages daily. Participants direct the investment of participant and employer contributions. The Company matches 50% of the participant's pre-tax contributions, up to 6% of base compensation. The Plan also allows for two types of discretionary profit sharing contributions as follows: (1) additional discretionary profit sharing contributions, and (2) supplemental union profit sharing contributions. Additional discretionary profit sharing contributions may be made at the discretion of the Company's Board of Directors. In general, to be eligible, a participant must work 1,000 hours in the given Plan year and be employed on the last day of the Plan year. There were no additional discretionary profit sharing contributions made in 2019. The Plan also allows for supplemental union profit sharing contributions for certain unions as defined in the Plan document and in accordance with the respective collective bargaining agreements. In general, to be eligible, a participant must be a member of the defined unions (and hired on or before the effective dates of the respective collective bargaining agreements, which range from September 11, 2014 to October 19, 2014), complete 1,000 hours of service during the Plan year and be employed on the last day of the Plan year. A 9% supplemental union profit sharing contribution was made in 2019.

[3] Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contributions, and (b) Plan earnings, and may be charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[4] Vesting:

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contributions portion of their accounts, plus actual earnings thereon, is as follows:

Years of Service	Vesting
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

[5] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts, a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Interest rates on outstanding loan balances ranged from 4.25% to 9.25% during the year. Delinquent notes receivable from participants are reclassified as distributions, based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

[6] Payment of benefits:

Upon termination of service for any reason, excluding death, a participant may elect to receive a single lump sum cash payment in an amount equal to the value of the participant’s vested interest in his or her account.

If the value of the account of a participant who retired, terminated employment, became disabled, or died, is $1,000 or less, the Plan administrator may distribute the participant's account without his/her consent in the form of a single lump sum cash payment.

[7] Forfeitures:

Forfeited non-vested accounts may be used to reduce future Company contributions and pay Plan expenses. During the year ended December 31, 2019, forfeitures of approximately $267,000 were used to reduce employer contributions. Forfeited non-vested accounts available to reduce future employer contributions and pay Plan expenses at December 31, 2019 and 2018 were approximately $91,000 and $59,000, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared on the accrual method of accounting.

[2] Subsequent events:

The Plan has evaluated subsequent events through September 10, 2020, the date the financial statements were available to be issued.

The Coronavirus Aid, Relief, and Economic Security ("CARES") Act was signed into law on March 27, 2020. The Plan Sponsor decided to implement the following provisions of the CARES Act and the Plan will be formally amended prior to December 31, 2022, as required by the Act. Participants who meet specific conditions, are eligible to take a COVID-19 related distribution up to $100,000 without a 10% early withdrawal penalty. Eligible distributions can be taken from January 1, 2020 through December 31, 2020, and may be repaid within three years. The repayments will be treated as tax-free rollovers into the participant's account. Participants who meet specific conditions, are eligible to take a COVID-19 related loan up to $100,000 (an increase from $50,000 previously allowed), for the period March 27, 2020 to September 23, 2020. In addition, the Act requires eligible participants with loan repayments due between March 27, 2020 and December 31, 2020 be allowed to delay loan repayments for up to one year. The Act also provides that Required Minimum Distributions for defined contribution plans be temporarily suspended for 2020.

[3] Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

[4] Payment of benefits:

Benefits are recorded when paid.

[5] Plan expenses:

The Plan pays administrative expenses to the extent that they are not paid by the Company. Administrative expenses paid by the Plan for recordkeeping and investment advisory services were approximately $13,000 during the year ended December 31, 2019.

[6] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Great-West Trust Company, LLC ("Great-West"), the trustee of the Plan, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available as of December 31, 2019 and 2018, the statement of changes in net assets available for benefits for the year ended December 31, 2019 and the supplemental schedule of assets (held at end of year) as of December 31, 2019.

NOTE D - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2019 and 2018.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts – Valued at the NAV of units of the trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment advisor reserves the right to temporarily delay withdrawal from the trusts in order to ensure that securities' liquidations will be carried out in an orderly business manner.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2019 and 2018:

	Investment Assets at Fair Value as of December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 14,658,591**	**$ -**	**$ -**	**$ 14,658,591**
Investments measured at net asset value (A)				**74,390,319**
Total investment assets at fair value				**$ 89,048,910**

	Investment Assets at Fair Value as of December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 9,297,274	$ -	$ -	$ 9,297,274
Investments measured at net asset value (A)				66,507,773
Total investment assets at fair value				$ 75,805,047

(A) The Plan investments in Putnam Advantage Common Collective Trusts and the Putnam Stable value fund that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE E - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 20, 2013, that the Plan is qualified under the Internal Revenue Code ("IRC") and therefore the related trust is exempt from taxation. The Plan has been amended since receipt of the letter and the Plan administrator believes that the Plan continues to be designed, and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

NOTE E - TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

NOTE F - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of mutual funds and common collective trusts managed by Putnam, whose parent company is Great-West, therefore, these transactions qualify as party-in-interest transactions. Total fees paid to trustees, investment advisors and other Plan service providers were approximately $13,000 for the year ended December 31, 2019.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks, Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2019 may not necessarily be indicative of amounts that could be realized in a current market exchange.

The extent of the impact of the coronavirus ("COVID-19") outbreak on the financial performance of the Plan’s investments will depend on future developments, including the duration and spread of the outbreak and related advisories and restrictions, and the impact of COVID-19 on the financial markets and the overall economy, all of which are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Plan’s investment results may be materially adversely affected.

COVID-19 poses risks to the Company as well, given that such public health epidemics, if sustained, could impact Company employees, customers, and supply chain in affected regions. However, because of the essential nature of the business, the Company does not believe the coronavirus pandemic will have a material impact on estimates, assumptions and forecasts used in the preparation of the financial statements, nor its ability to make required Plan contributions.

NOTE H - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE I - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.
