Tooling Dynamics, LLC Retirement Savings Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 1 - Description of Plan

The following description of the Tooling Dynamics, LLC Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all eligible employees of Tooling Dynamics, LLC (the Company). All employees who have completed six months of service and are age 21 or older are eligible to participate January 1, April 1, July 1, or October 1 after such requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to the maximum percentage allowable of pre-tax annual compensation, as defined in the Plan, not to exceed the maximum permitted by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and individual retirement accounts. Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan.

The Company provides for a matching contribution of an amount equal to 25% of each participant's elective contribution for the year, not to exceed 10% of each participant's compensation. In addition, the Company may make a discretionary contribution, which would be allocated per the plan document, provided the participant completed 500 hours of service during the plan year and was employed on the last day of the plan year. No discretionary contributions were made for 2019 or 2018. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Tooling Dynamics, LLC Retirement Savings Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 1 - Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service. A participant is 100% vested after six years of credited service based on the following vesting schedule:

Years of Service	Vesting Percentage
Less than 2	0 %
2	20
3	40
4	60
5	80
6 or more	100

The Plan permits early retirement at age 55 upon completion of six years of service. Regardless of the number of years of service, a participant's account balance becomes fully vested when a participant dies, becomes permanently disabled, or retires.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years unless the loan is to acquire the participant's principal residence, in which case the loan term may exceed five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or in installments under a systematic withdrawal plan. A participant that has attained the age of 59.5 may withdraw all or a portion of their vested account balance.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$7,864 and \$1,153, respectively. These accounts will first be used to reduce the Company's matching contribution and then used to reduce the Company's nonelective contribution to the Plan, if any. During 2019 and 2018, \$1,153 and \$1,424, respectively, of forfeited nonvested accounts were used to reduce the Company's matching contribution.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable and the distribution of benefit payments are charged directly to the participant's account and are included as administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 2 - Summary of Significant Accounting Policies (continued)

Revenue-Sharing Arrangements

The Plan invests in various registered investment companies with revenue-sharing agreements. Net investment returns from these registered investment companies reflect certain fees paid by the investment funds to their affiliated investment advisors, transfer agents, and recordkeeper. These fees are deducted prior to allocation of the Plan's investment earnings activity and thus are not separately identifiable as an expense. Revenues received from the recordkeeper of the Plan on behalf of the Plan pursuant to the revenue-sharing arrangements are allocated to the Plan funds from which they are received and then allocated to the participants holding those funds. The revenues received offset the administrative expenses charged to the participant accounts. The revenues received from the revenue-sharing arrangements were \$6,700 and \$5,455 for the years ended December 31, 2019 and 2018, respectively, and are reported in the Plan's financial statements in other income.

Note 3 - Information Certified and Provided by Fulton Bank, N.A.

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2019 and 2018. Under that section, no auditing procedures are required to be performed with respect to the information certified by Fulton Bank, N.A., the trustee of the Plan. The trustee has certified the completeness and accuracy of all investments, accrued investment income, and notes receivable from participants reported in the accompanying statement of net assets available for benefits as of December 31, 2019 and 2018, the supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2019, and the related investment activity and interest income on notes receivable from participants reported in the statement of changes in net assets available for benefits for the years ended December 31, 2019 and 2018.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Tooling Dynamics, LLC Retirement Savings Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 4 - Fair Value Measurements (continued)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

Registered investment companies are valued at the net asset value of shares held by the Plan at year-end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Fair Value Measurements at December 31, 2019				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Registered investment companies	\$ 8,016,542	\$ -	\$ -	\$ 8,016,542
Fair Value Measurements at December 31, 2018				
Registered investment companies	\$ 6,527,987	\$ -	\$ -	\$ 6,527,987

Note 4 - Fair Value Measurements (continued)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers in or out of Level 3 for the years ended December 31, 2019 and 2018.

Note 5 - Tax Status

The Company adopted a nonstandardized prototype plan sponsored by Fulton Bank, N.A. Fulton Financial Advisors Division. The prototype plan has received an opinion letter from the IRS, dated March 31, 2014, stating that the prototype plan is qualified under the appropriate section of the Internal Revenue Code (IRC). The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal, state, or local tax authorities for years before 2016.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company contribution portion of their account.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
