NOTE 1 DESCRIPTION OF PLAN

The following description of the Florida Eye Clinic 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Florida Eye Clinic Ambulatory Surgical Center and Florida Eye Clinic, P.A. (entities under common control collectively known as the "Company"). Employees who have attained three consecutive months of service become eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was established on January 1, 1996 and has been amended from time to time thereafter. The plan was established for the purpose of providing eligible employees of the Company and their beneficiaries funds for retirement.

Plan Administration

Florida Eye Clinic, P.A. is the Plan Sponsor and contracts the administration and recordkeeping services from a third-party administrator, ADP, LLC ("ADP"), who controls and manages the operation and administration of the Plan. The Plan's assets are maintained by Reliance Trust Company (Trustee). Contributions are held and managed by the Trustee, who invests cash received, interest and dividend income, and makes distributions to participants (subject to the direction of the Company and the participants).

Contributions

Each year, participants in the Plan may voluntarily contribute up to 80% of their pre-tax annual compensation, as defined by the Plan, within the limits prescribed by the Internal Revenue Service (IRS). Employees of the Company are automatically enrolled into the Plan with a 5% automatic deferral with 1% annual increases, up to 10%, unless the employee elects otherwise. Starting January 1, 2020, the Plan's automatic deferral provision will have an annual increase of up to 15%. The Company matches contributions in an amount equal to 25% of the first 10% of participants' contribution and may make discretionary profit sharing contributions. Participants may also roll over amounts representing distributions from other qualified defined contribution plans.

Participant Accounts

Each participant account is credited with the participant's contribution and allocation of Plan earnings or losses including market value adjustments on Plan investments. Allocations of earnings and losses are based on the proportion of the participant's account balance to the total account balances of all participants, as defined in the Plan document. All participant contributions are participant-directed and may be invested in one fund or allocated among different funds. Participants may change the allocation of contributions among funds pursuant to Plan provisions.

Vesting of Benefits

Participants are immediately fully vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in the remainder of their accounts is based on years of credited service. Participants' accounts begin to vest in employer matching contributions after completing one year of service, at a rate of 20% per year, becoming fully vested after five years of service. Participants' accounts begin to vest in discretionary profit sharing contributions after completing two years of service, at a rate of 20% per year, becoming fully vested after six years of service. Participant accounts become fully vested upon death, disability, attainment of normal retirement age (defined by the Plan as 65), or upon termination of the Plan.

Investment Options

Upon enrollment in the Plan, participants may direct employee and employer contributions into various investment options offered by the Plan. Participants may change their investment options periodically as permitted by the Plan.

Notes Receivable from Participants

Plan participants may borrow from their fund accounts a minimum of $500 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. A participant can only have one loan currently outstanding from the Plan. The Plan will not permit subsequent loans to a participant following a default of a previous unpaid loan. The loans, which are collateralized by the balance in the participant's account, will bear interest rate equal to prime plus 1%, fixed at the time of borrowing. Principal and interest are paid ratably through regular payroll deductions. The portion of interest included in each note payment made by a participant is recognized as interest income in the participant's individual account. All loans are required to be repaid within a period of five years, except loans to acquire the participant's principal residence which must be repaid in a reasonable period of time, the term for a home loan will be established by the plan administrator at the time of the loan.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Distributions of a participant's account are made upon retirement from the Company, termination from service from the Company, death, permanent or total disability, or in cases of financial hardship. The normal retirement age, as defined by the Plan, is the date at which participants reach the age of 65. Participants still employed who have reached the age of 59 ½ are eligible to withdraw all or a portion of their vested accounts. If a participant terminates before retirement, the participant will receive either a lump-sum payment of his or her account balance or, if the account exceeds $5,000, the participant may elect any distribution date up to the required minimum distribution age. Starting January 1, 2020, a participant may delay any distribution up to the age 72. The period may not extend beyond the life expectancy of the participant or the joint life expectancy of the participant and his beneficiary.

Forfeitures

Nonvested amounts remaining after the distribution of terminated participant's vested account balance are forfeited. Forfeitures of terminated participants' nonvested accounts are available to pay certain Plan fees and/or to reduce the Company's matching contributions. During the year ended December 31, 2019, the Plan used approximately $14,000 of forfeited funds for such purposes. At December 31, 2019 and 2018, the Plan had approximately $30 and $980, respectively, in the forfeiture balance.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Interest income is recorded when earned and dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investment and unrealized appreciation or depreciation is recognized at period end when carrying values of the related investments are adjusted to their fair values. Purchase and sales of investments are recorded on the settlement date.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value. No allowance for credit losses is recorded as repayments of principal and interest are received primarily through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent notes receivable from participants are recorded as deemed loan distributions based on terms of the Plan document.

At December 31, 2019 the loans carried interest at rates ranging between 5.25% and 6.50% and had maturities through October 2024.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefits Paid to Participants
Benefit are recorded when paid.

Deemed Loan Distributions
Deemed loan distributions are recorded when the participant defaults on the loan. There were approximately $2,000 in deemed distributions during the year ended December 31, 2019.

Corrective Distributions
Corrective distributions are recorded when the Plan's third party administrator determines adjustments are necessary during the plan year based on consideration of the Plan's compliance with ERISA requirements. Contributions are presented net of corrective distributions.

Administrative Expenses
Administrative expenses, including loan fees, are charged directly to the participant's accounts or paid by the Company.

Subsequent Events
Plan management has evaluated subsequent events through the date of the independent auditor's report, the date which the accompanying financial statements were available to be issued. Based on such evaluation, other than (1) the adoption of the SECURE Act (noted below), (2) the COVID-19 pandemic (noted below), and (3) the adoption of the CARES Act (noted below), no other events have occurred that in the opinion of management warrant disclosures in or adjustments to the financial statements.

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement (SECURE) Act was signed into law, providing a number of changes in existing law to make it easier for many employers to offer retirement plans and for employees to save for retirement. Most provisions of the SECURE Act became effective on January 1, 2020. The Company has assessed the effect of the SECURE Act provisions to the Plan and has disclosed material plan changes throughout Note 1, as applicable, if any.

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets that may result in a substantial decline in the value of the investments. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law, providing certain relief related to the economic fallout of the COVID-19 pandemic in the United States. The CARES Act has several provisions, if adopted by the Plan, that enable plan sponsors to provide plan participants with access to funds in defined contribution retirement plans to pay for unanticipated costs associated with the coronavirus pandemic. The Company has assessed the effect of the CARES Act provisions to the Plan and has disclosed material plan changes throughout Note 1, as applicable if any.

NOTE 3 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset of liability.

NOTE 3 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Inputs to the valuation methodology are unobservable and significant to fair value measurement.

The assets' or liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

Registered Investment Companies
The fair values of registered investments companies is based on quoted market prices in the active market where the individual securities are traded, as of the last trading day of the plan year.

Common Collective Trust
The value is based on the market value of the common value of the underlying assets less its liabilities, but the common collective trust are not publicly quoted prices in active markets. The net asset value (NAV) per share is used as a practical expedient. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan management believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments reported at fair value based on the level 1 valuation methodology and net asset value (NAV) as practical expedient were as follows as of December 31:

	2019	2018
Registered Investment Companies (level 1)	$ 6,607,827	$ 4,711,040
Total assets in the fair value hierarchy	6,607,827	4,711,040
Common Collective Trust (NAV)	401,190	376,341
Total investments, at fair value	$ 7,009,017	$ 5,087,381

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018:

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
December 31, 2019:				
Common collective trusts	$ 401,190	n/a	Daily	None
December 31, 2018:				
Common collective trusts	$ 376,341	n/a	Daily	None

NOTE 4 SUMMARY OF INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has received certification of the financial information and data from the Trustee in accordance with Section 2520.103-5 of the United States DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The Trustee has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related interest income in the accompanying financial statements as of December 31, 2019 and 2018, and the year ended December 31, 2019 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2019.

NOTE 5 PARTY-IN-INTEREST

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments were held and managed by the Trustee, as defined by the Plan and, therefore, those transactions qualify as party-in-interest.

The Trustee provides certain administrative services for the Plan for which fees are charged to the Plan and amounted to approximately $19,000 for the year ended December 31, 2019.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Additionally, certain administrative expenses such as audit and legal fees are paid by the Company at its discretion.

NOTE 6 PLAN TERMINATION AND AMENDMENTS

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Company also has the rights to amend any or all provisions of the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the net assets of the Plan must be allocated among the participants and beneficiaries of the Plan in order provided for by ERISA.

NOTE 7 INCOME TAX STATUS

The Plan has adopted a prototype defined contribution plan. The current prototype plan obtained a favorable opinion letter dated July 16, 2014, in which the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The prototype plan has been amended since receiving the opinion letter, however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of and for the year ended December 31, 2019, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's income tax returns remain subject to examination by the Internal Revenue Service for three years from the date of filing.
