FAST ENTERPRISES, LLC
PROFIT SHARING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of the Fast Enterprises, LLC. Profit Sharing 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. **General** - The Plan is a defined contribution plan covering all full-time employees of Fast Enterprises, LLC (Company/Employer) who have three months of service. Three months of service is defined as having worked 41.75 hours per month for three months. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2015 the Plan was restated.

2. **Contributions** – Each year, participants may contribute a percentage of annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may elect to make a discretionary matching contribution, a profit-sharing contribution or other non-elective contribution determined annually. During the years ended December 31, 2019 and 2018 the Company made discretionary contributions of $3,661,690 and $2,886,254 to the Plan, respectively. Contributions are subject to certain IRS limitations.

3. **Participant Accounts** – Each participant's account is credited with the participant's contribution and Company's contribution and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. **Vesting** – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on a graduated vesting schedule which is determined by continuous years of service. The Plan utilizes a graduated vesting schedule allowing a participant to become 100% vested after five years of credited service.

5. **Payment of Benefits** – On termination of service due to death, disability, or retirement, a Participant or Beneficiary may elect to receive either a lump–sum amount equal to the value of the Participant's vested interest in their account, or installment payments. For termination of service due to other reasons, a Participant may receive the value of the vested interest in their account as a lump-sum distribution.

6. **Costs of Plan Administration** – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the employer are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

7. **Forfeited Non-vested Accounts** - When a participant terminates prior to fully vesting, the non-vested portion of the participant's account is used to reduce employer contributions. At December 31, 2019, and December 31, 2018, forfeited non-vested account balances totaled $51,692 and $23,484, respectively. In 2019 and 2018, $28,481 and $17,086 from forfeited accounts were used to reduce employer contributions, respectively.

B. Summary of Significant Accounting Policies:

The following are the significant accounting policies followed by the Plan:

1. **Basis of Accounting** – The financial statements of the Plan are prepared using the accrual method of accounting.

2. **Estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. **Investment Valuation and Income Recognition** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note J for discussion of fair value measurements.

   Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

4. **Payments of Benefits** – Benefits are recorded when paid.

5. **Subsequent Events** – The Plan has evaluated subsequent events through September 14, 2020, the date the financial statements were available to be issued. In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) originated in Wuhan, China and has since spread to other countries, including the U.S. On March 11, 2020, the World Health Organization characterized COVID-19 as a pandemic. In addition, multiple jurisdictions in the U.S. have declared a state of emergency. It is anticipated that impacts to the Plan investments will continue for some time. Additional impacts may include the ability of the Participants to contribute to the Plan. The future effects of these issues are unknown.

C. Plan Amendment:

Effective January 1, 2015 the Plan was restated to comply with the requirements of the Pension Protection Act of 2006 (PPA), the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART Act), the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA) and other applicable guidance. The Plan was amended June 3, 2016 to clarify the definition of compensation. The Plan was amended effective October 1, 2016 to include Fast Data Services, LLC, Fast LP and Fast Management Company as participating employers. The Plan was amended effective October 1, 2019 to allow after-tax employee contributions and in-plan Roth conversions. The Plan was also amended effective October 15, 2019 to include Fast Hosting Services LLC as a participating employer.

D. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

E. Tax Status of Plan:

The Plan uses a pre-approved Plan document sponsored by Pinnacle Pension Services, Inc., which received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2014, stating that the pre-approved document satisfies the applicable provisions of the IRC. The Plan itself has not received an opinion letter from the IRS; however, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirement of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

F. Reconciliation of Financial Statements to Form 5500:

For the years ended December 31, 2019 and December 31, 2018 there were no reconciling items between the Financial Statements and Form 5500.

G. Information prepared and certified by custodian:

The following information included in the accompanying financial statements and the information used to complete the supplemental schedule, Schedule H, Line 4i, Form 5500, was obtained from data that was prepared or derived from, and certified to as complete and accurate by the custodian:

	2019	2018
Investments, at fair value	$ 126,609,632	$ 85,730,031
Net appreciation (depreciation) in fair value of investments	$ 22,103,351	$ (5,853,208)
Interest	72,650	63,633
	$ 22,176,001	$ (5,789,575)

H. Concentration of Credit Risk:

Financial instruments that potentially subject the Plan to concentrations of credit risk consist of cash and short-term investments and marketable securities. The amount of exposure to any one specific investment has been limited by investing in mutual funds that use a diverse investment portfolio to limit risk.

I. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially alter participants' account balances and the amounts reported in the statements of net assets available for benefits.

J. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at the closing net asset value (or unit value) of the units held by the Plan at year end based on information reported by VOYA.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

J. **Fair Value Measurements, continued:**

The following table sets forth by level, within the fair value hierarchy, the plan's investments at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
	$ -	-	-	$ -
	$ -	-	-	$ -
Investments measured at net asset value *				126,609,632
Investments at fair value				$ 126,609,632

Assets at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
	$ -	-	-	$ -
	$ -	-	-	$ -
Investments measured at net asset value *				85,730,031
Investments at fair value				$ 85,730,031

*In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented on the statements of net assets available for benefits.

K. **Fair Value of Investments in Entities that Use NAV Practical Expedient:**

The following table summarizes investments measured at fair value based on NAV per share as of December 31:

December 31, 2019	*Fair Value*	*Unfunded Commitments*	*Redemption Frequency (If Currently Eligible)*	*Redemption Notice Period*
Pooled separate accounts	$ 126,609,632	n/a	Daily	n/a

December 31, 2018	*Fair Value*	*Unfunded Commitments*	*Redemption Frequency (If Currently Eligible)*	*Redemption Notice Period*
Pooled separate accounts	$ 85,730,031	n/a	Daily	n/a

Pooled separate accounts consist of various investment options (i.e. common stock, mutual funds, short-term securities, real estate) and are valued based on the investments held. While the majority of the underlying asset values are quoted prices, the net asset value of the pooled separate accounts are not publicly quoted.

L. **Related Party and Party-In-Interest Transactions:**

Certain Plan investments are managed by VOYA. VOYA is the custodian for the Plan and therefore, these transactions qualify as party-in-interest transactions.
