EXTANT AEROSPACE EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

A. Description of the plan:

The following description of the Extant Aerospace Employee Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan was a defined contribution plan covering all employees of Extant Aerospace (the "Company"), who were age eighteen or older and not leased employees or temporary employees as defined in the Plan document. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Due to the purchase of the Plan sponsor by TransDigm Group Incorporated during 2018, Plan participants ceased participating in the Plan as of December 31, 2019 and began participating in the TransDigm, Inc. 401(k) Plan ("TransDigm") effective December 31, 2019. The Plan merged into TransDigm to form a single plan effective December 31, 2019 and as a result, all participant account balances were transferred to TransDigm on December 31, 2019. Net assets transferred from the Plan on December 31, 2019 totaled \$12,859,080.

Until December 31, 2019, the Plan custodian was Fidelity Management Trust Company.

Contributions:

Participants were permitted to contribute up to 90% of compensation, as defined in the Plan, subject to Internal Revenue Code limitations. Participants who attained the age of fifty before the end of the Plan year were eligible to make catch-up contributions. The Company's contributions to the Plan were at its discretion. It was the Company's policy to match 100% of employees' contributions up to 6% of eligible compensation. Participants directed the investment of their accounts into various investment options offered by the Plan.

Voluntary "rollover" contributions were accepted by the Plan under certain terms and conditions.

EXTANT AEROSPACE EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2019 AND 2018

A. Description of the plan (continued):

Participant accounts:

Each participant's account was credited with the participant's contributions and allocations of (a) the Company's contributions, (b) forfeitures of terminated participants' nonvested accounts and (c) Plan earnings. Allocations were based on participant compensation or account balances as defined in the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting:

Participants were immediately vested in all their contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings was based on years of service. Effective June 3, 2019, the Plan was amended to allow for separate vesting schedules for nonelective employer contributions and matching employer contributions. Per the amendment, nonelective employer contributions vested at 20% annually starting with two years of service, until fully vested upon completion of six years of credited service. Matching employer contributions vested at 20% after the first year of service, 50% after the second year of service and 100% after the third year of service. Prior to the amendment, both nonelective employer contributions and matching employer contributions vested at 20% annually starting with two years of service, until fully vested upon completion of six years of credited service. Any participant employed at the date of total and permanent disability, death or the attainment of normal retirement age, as defined, was deemed to be 100% vested.

Participant notes receivable:

Participants were permitted to borrow from their account a minimum of \$1,000 up to a maximum of \$50,000 reduced by the highest outstanding loan balance in the participant's account or 50% of their vested account balance, whichever is less. Loan terms were not permitted to exceed five years. The loans were secured by the balance in the participants' accounts and bear interest at rates commensurate with local prevailing rates, as determined by the plan administrator at the time of issuance. Principal and interest were repaid ratably through payroll deductions.

EXTANT AEROSPACE EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2019 AND 2018

A. Description of the plan (continued):

Forfeited accounts:

Forfeited accounts represented non-vested Company contributions forfeited by employees who terminated their employment or withdrew from the Plan. Forfeitures were retained by the Plan and were first used to reduce future administrative expenses then used to reduce future Company contributions. At December 31, 2019 and 2018, there were \$0 and \$95,889, respectively, of forfeited non-vested accounts comprised of prior years' employer contributions. During 2019 and 2018, forfeitures used to pay for Plan expenses or employer contributions were \$115,647 and \$192,504, respectively.

Payment of benefits:

Upon termination of service, death, disability or retirement, a participant was permitted to elect to receive a lump-sum payment equal to the vested value of his or her account.

Participants who continued in the employment of the Company were permitted to request a pre-retirement distribution of defined amounts under certain hardship conditions, as defined in the Plan.

The Plan also allowed for in-service distributions of the participant's vested accounts upon reaching the age of 59 1/2, as defined by the Plan.

B. Summary of significant accounting policies:

Basis of accounting:

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles (GAAP).

Use of estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

EXTANT AEROSPACE EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2019 AND 2018

B. Summary of significant accounting policies (continued):

Investment valuation and income recognition:

The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis.

The change in fair value of investments and realized gains (losses) were reflected in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. The realized gains or losses on investments were the difference between the proceeds received and the fair value of the investment sold at the beginning of the Plan year.

Participant notes receivable:

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of benefits:

Benefits were recorded when paid.

C. Information prepared and certified by the custodian:

The plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The investment information included in the accompanying financial statements and supplemental schedule was obtained from data that was certified as complete and accurate to the plan administrator by Fidelity Management Trust Company ("Fidelity"), the custodian of the Plan prior to the merger on December 31, 2019 and at December 31, 2018. Incorporation of this financial information in the accompanying financial statements and supplemental schedule was based solely on those certifications.

C. Information prepared and certified by the custodian (continued):

The investment income reported in the statement of changes in net assets available for benefits for the year ended December 31, 2019 was certified by Fidelity.

D. Fair value measurements:

The Fair Value Measurements and Disclosures Topic of FASB ASC required disclosure of a fair value hierarchy of inputs the Plan used to value an asset or a liability.

The three levels of the fair value hierarchy are described as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities. For the Plan, Level 1 inputs include marketable securities that are actively traded.

Level 2: Inputs other than Level 1 that are observable, either directly or indirectly. The Plan did not have any Level 2 assets at December 31, 2019 or 2018.

Level 3: Inputs that represent financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. The Plan did not have any Level 3 assets at December 31, 2019 or 2018.

The determination of where assets and liabilities fall within this fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during the years ended December 31, 2019 and 2018.

D. Fair value measurements (continued):

Mutual Funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan were open-ended funds that were registered with the U.S. Securities and Exchange Commission. These funds were required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Stable Value Collective Trust: A stable value fund that was composed primarily of fully benefit-responsive investment contracts that were valued at the net asset value of units of the bank collective trust. The net asset value was used as a practical expedient to estimate fair value. The practical expedient would not be used if it was determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) could occur daily. If the Plan initiated a full redemption of the collective trust, the issuer reserved the right to require twelve months' notification in order to ensure that securities liquidations would be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believed its valuation methods was appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

As of December 31, 2019 (date of merger), the Plan held no investments. The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Total
Mutual funds	\$ 11,246,862	\$ 11,246,862
Total assets in the fair value hierarchy	11,246,862	11,246,862
Investments measured at net asset value		721,256
Investments at fair value	\$ 11,246,862	\$ 11,968,118

D. Fair value measurements (continued):

The following table summarizes investments for which fair value was measured using the net asset value per share practical expedient as of December 31, 2018:

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Stable value collective trust	\$ 721,256	n/a	daily	12 months

E. Risks and uncertainties:

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the statement of net assets available for benefits.

F. Plan termination:

Prior to the transfer of Plan assets to TransDigm, the Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan had terminated, participants would have become 100% vested in their accounts.

G. Administrative expenses:

Administrative expenses associated with custody and recordkeeping were paid through forfeited accounts or by the Company. Loan and other transaction fees were charged to participants. The Company provided certain accounting and management services to the Plan at no charge.

H. Tax status:

The Plan adopted a prototype plan that had been determined by the Internal Revenue Service, in an opinion letter dated March 31, 2014, to be in accordance with applicable sections of the Code. The Plan was subsequently amended; however, the plan administrator believed that the Plan was designed and operated in accordance with the applicable requirements of the Code. Therefore, no provision for income taxes was included in the Plan's financial statements.

I. Related party transactions:

Certain Plan investments were shares of funds managed by Fidelity Trust Management Company, the custodian as defined by the Plan through December 31, 2019 and, therefore, these transactions qualified as exempt party-in-interest transactions.

J. Subsequent events:

Subsequent events were evaluated through September 10, 2020, which is the date the financial statements were available to be issued.
