Trinity Management Services Organization 401(k) Plan

Notes to Financial Statements

December 13, 2019

1. Description of the Plan

The following description of the Trinity Management Services Organization 401(k) Plan (the Plan) provides general information about the Plan's provisions. Trinity Management Services Organization (the Company) is the plan sponsor. The Company became part of the Catholic Health Initiatives (CHI) controlled group on February 1, 2016. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan covering substantially all employees of the Company, except for union employees and certain nonresident aliens. Employees become eligible to start making pretax deferrals into the Plan and to receive discretionary matching and discretionary employer contributions upon attainment of age 21.

The Trinity Health System Committee for Defined Contribution Plans was responsible for the general administration of the Plan through October 2017, at which time the Company's Board of Directors approved the delegation of all administrative, investment, and fiduciary responsibilities to the CHI Retirement Plans Sub-committee. In early 2019, CHI completed its merger with Dignity Health to form a new \$29 billion health system called CommonSpirit Health (CommonSpirit). The Plan was administered by the CHI Retirement Plans Sub-committee until October 16, 2019. The Plan is administered by the CommonSpirit Health Retirement Plans Sub-committee after October 16, 2019 until December 13, 2019. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective January 1, 2018, the Plan was amended to freeze all contributions. Participants in the Plan became eligible to participate in the Catholic Health Initiatives 401(k) Retirement Savings Plan.

Effective December 13, 2019, the Plan merged into the Catholic Health Initiatives 401(k) Retirement Savings Plan. Account balances of approximately \$3.3 million were transferred out of the Plan in connection with this merger.

Participant Accounts

Each participant's account was credited with the participant's contributions and the Company's matching and discretionary employer contributions and allocations of plan earnings, and was

1. Description of the Plan (continued)

charged with an allocation of administrative expenses. Plan earnings were allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses were based on the participant's account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Participants directed their account balances into various investment options offered by the Plan and could change their investment options on a daily basis.

Vesting

Participants were immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary employer contributions made prior to January 1, 2018, was based on years of continuous service. A participant was 100% vested after three years of credited service.

Forfeitures

Upon termination of employment, participants forfeited their nonvested balances. If a participant was rehired within a five-year period, the forfeited contributions were reinstated. Forfeited balances of terminated participants' nonvested accounts were used to reduce future company contributions or to pay plan expenses. Unallocated forfeited balances as of December 13, 2019 and December 31, 2018 were \$0 and \$3,391, respectively. During 2019, the Plan used \$2,540.63 to pay administrative expenses.

Administrative Expenses

The Plan's administrative expenses were paid by either the Plan or the Company, as provided by the Plan's provisions.

Payment of Benefits

The benefit to which a participant was entitled was the balance in the participant's account. Distributions from the participant's account could be paid out when a participant attained age 59½, separated from service, retired, or died. Hardship withdrawals were allowed for participants incurring an immediate and heavy financial need, as defined by the Plan.

1. Description of the Plan (continued)

Participant Loans

Participants could borrow from their accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Generally, the term of a loan could not exceed five years. The loans were secured by the balance in the participant's account and bore interest at a rate commensurate with local prevailing rates at the date of issuance as determined by the plan administrator. If a participant terminated employment with the Company, he or she could continue to make loan payments through a pre-authorized check agreement. If the loan was not repaid, it was automatically treated as a distribution to the participant after three months.

2. Significant Accounting Policies

Basis of Accounting

The Plan reports its financial statements on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. All participant loans previously held by the Plan were loans that were held in collateral against the market value of the annuity for each specified participant. Prior to the liquidation and merger of the Plan on December 13, 2019, all loans were either paid in full or were withdrawn from the final balance of the annuity.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought, sold, and held during the year.

3. Investments

All investment information disclosed in the accompanying financial statements, including investments held and notes receivable from participants at December 13, 2019 and December 31, 2018, and net appreciation in fair value of investments, interest income from fixed annuity contracts, and interest income from notes receivable from participants for the period from January 1, 2019 to December 13, 2019, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Brighthouse Life Insurance Company, the custodian of the Plan.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Trinity Management Services Organization 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for each general type of asset measured at fair value:

Variable annuities: Valued at fair value based on the net asset value (NAV) or price per share as of the end of the year. Participants’ distributions will be charged a 5% surrender fee for amounts withdrawn from any participant contributions to the Plan that were held for less than six years in the Plan.

Trinity Management Services Organization 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Fixed annuities: Valued at fair value based on the discounted value of expected cash flows. These contracts are credited an interest rate that generally varies with each deposit. There is no specific formula used to credit interest rates, and the interest rates are not tied to the performance of a set of assets. The interest rates are credited based upon a number of factors, including, but not limited to, the level of net investment income that the issuer can earn on its newly purchased general account assets, the absolute level of interest rates, the shape of the yield curve, how interest rates have moved since the inception of the contract, and interest rates on alternative investments. The fixed annuities have a minimum guaranteed interest rate of 3.50%. Participants' distributions will be charged a 7.00% surrender fee for amounts withdrawn from any participant contributions to the Plan that were held less than six years in the Plan.

The Sub-committee is responsible for determining the Plan's valuation policies and analyzing information provided by the investment custodians and issuers that is used to determine the fair value of the Plan's investments. For instruments categorized within Level 3 of the fair value hierarchy, the Sub-committee evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data.

5. Related-Party and Party-in-Interest Transactions

Certain of the Plan's investments are managed by the trustees of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

6. Tax Status

The underlying prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the written form of the underlying prototype document is qualified under Section 401 of the Internal Revenue Code (the Code). Any employer adopting this form of the plan will be considered to have a plan qualified under Section 401 of the Code, and, therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code, and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

8. Subsequent Events

Management evaluated subsequent events for the Plan through August 6, 2020, the date the accompanying financial statements were available to be issued.
