1. Description Of Plan

The following description of the Krayden, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Krayden, Inc. (the Company) who are age 21 or older and have completed 90 days of consecutive employment. Employees become eligible on the first day of the calendar month following their completion of the above requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

John Hancock Life Insurance Company (USA) (the Custodian) is the Plan's Custodian and recordkeeper.

Contributions

Contributions to the Plan include participant contributions authorized by participants, rollovers from other qualified retirement plans, nonelective contributions made by the Company and discretionary matching contributions made by the Company.

Participants may contribute up to 100% of their compensation, not to exceed the dollar limit set by law, to the Plan. Participants have the option of deferring their compensation on a pre-tax or post-tax basis. Participants may also roll over amounts representing distributions from other qualified retirement plans.

Company matching contributions and nonelective contributions are at the option of the Company's Board of Directors. Participants must complete one year of service (1,000 hours during a 12-month year) and must be employed on the last day of the Plan year to be eligible for the Company discretionary matching contribution and nonelective contribution. Effective February 1, 2019, the Plan was amended to change the eligibility requirement to 6 months of service (1 hour during a 6-month period). During the year ended December 31, 2019, the Company made a matching contribution to each eligible participant's account equal to 50% of the amount contributed by the participant up to 3% of participant compensation. No nonelective Company contributions were made during the year ended December 31, 2019.

Participant Accounts

Participant accounts are credited with participant contributions, the Company's contributions, an allocation of Plan earnings and administrative expenses. The allocation of earnings is determined by the earnings of the participant's investment selection based on each participant's account balance and the investments selected by the participant.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of the various investment options offered by the Plan. Participants may change their investment options at any time.

Vesting

Participants are fully vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and nonelective contribution portion of their accounts plus actual earnings thereon is based on years of continuous service and is determined as follows:

Years Of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable From Participants

A participant may borrow from their account the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. Participants with loans that originated prior to December 5, 2019 may have up to three loans outstanding at any given time. Effective December 6, 2019, the Plan was amended to allow participants to have only 1 loan outstanding at any given time. Loans are secured by the participant's vested account and bear interest at the Prime interest rate plus 2 percentage points. The loans are to be repaid over a 5-year period unless they are for the purchase of a principal residence, which allow for up to a 10-year period. Principal and interest are collected ratably through bi-weekly payroll deductions.

Payment Of Benefits

Upon termination of employment or attaining the age of 59½, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or have the payment made as a direct rollover to an individual retirement account or to another employer's tax qualified plan in an amount equal to the vested value of his or her account.

In-Service Distributions

Active participants who experience a qualifying financial hardship may withdraw all or part of their vested account. Hardship withdrawals will be approved only if they conform to Plan provisions and established Internal Revenue Code (IRC) safe harbor withdrawal provisions.

Administrative Expenses

Significant administrative expenses of the Plan may be paid directly by the Company if sufficient forfeiture amounts are not available within the Plan. Administrative expenses paid by the Plan included recordkeeper fees, service fees and transaction fees.

Forfeited Accounts

Forfeitures of nonvested benefits are used to further reduce Company contributions and to pay Plan expenses. As of December 31, 2019 and 2018, there was not a balance in the forfeited nonvested accounts. There were no forfeitures utilized during the year ended December 31, 2019.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting year. Actual results could differ from those estimates.

Risks And Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation And Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The net appreciation represents the difference between the aggregate fair value of investments at year end and the values at the beginning of the year, and includes any realized gains and losses in shares that were bought and sold during the year. Purchases and sales of investments are recorded on a trade-date basis.

Payment Of Benefits

Benefits are recorded when paid.

Notes Receivable From Participants

Noted receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest.

3. Information Certified By The Custodian

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the years ended December 31, 2019 and 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified by the Custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certification from the Custodian that the information provided to the Plan Administrator related to the following information is complete and accurate to the best of their knowledge and belief. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule. The Plan Administrator obtained certifications from the Custodian related to the following assets as of December 31:

	2019	2018
Investments - at fair value		
Pooled separate accounts	**$ 5,966,313**	$ 4,603,726
Notes receivable from participants	**194,415**	87,262

The Custodian also certified to the completeness and accuracy to the best of their knowledge and belief related to the following investment gains and interest income on notes receivable from participants for the year ended December 31, 2019:

Net appreciation in fair value of investments	$ 1,076,150
Interest income on notes receivable from participants	10,221

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted prices for identical or similar assets or liabilities in inactive markets,
- Inputs other than quoted prices that are observable for the asset or liability and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Pooled Separate Accounts

Valued at the net asset value (NAV) of units held by the Plan at year end. NAV, as provided by the administrator of the pooled separate accounts, is used as a practical expedient to estimate fair value. NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are primarily comprised of shares of registered investment companies held through subaccounts of a separate account of an insurance company at December 31, 2019 and 2018. The Plan has concluded that NAV, as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments. The investments are redeemable daily at the adjusted NAV under agreements with the insurance company, and there are no unfunded commitments related to these investments. However, it is possible that the redemption rights may be restricted or eliminated in the future. All of the pooled separate accounts held by the Plan file annual reports on Form 5500 as direct filing entities.

Investments in pooled separate accounts are measured at fair value using the NAV per share (or its equivalent) practical expedient and, therefore, have not been classified in the fair value hierarchy.

The method described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Of Investments In Entities That Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2019 and 2018:

Investment Type	Fair Value 2019	Fair Value 2018	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Intermediate term bond	$ 504,839	$ 387,280	None	Daily	None
Balanced	886,478	556,080	None	Daily	None
Large cap	814,068	679,793	None	Daily	None
Mid cap	365,603	277,866	None	Daily	None
Small cap	305,742	300,200	None	Daily	None
Foreign	303,789	200,101	None	Daily	None
Managed asset allocation	2,785,794	2,202,406	None	Daily	None
	$ 5,966,313	$ 4,603,726			

There have been no changes in the methodology used at December 31, 2019 or 2018.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Tax Status

The Plan uses a volume submitter defined contribution plan. The volume submitter has obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service (the IRS) stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax years in progress.

7. Parties In Interest Transactions

Plan investments consist of certain pooled separate accounts managed by the Custodian. These transactions qualify as party in interest transactions allowable under ERISA.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. In addition, the Company pays certain outside administrative expenses of the Plan.

Certain participants in the Plan have outstanding loans with the Plan as of December 31, 2019. These loans are considered party in interest transactions in accordance with the Department of Labor guidelines.

8. Subsequent Events

Management evaluates subsequent events through the date the financial statements were available for issue, which is the date of the Independent Auditors' Report.
