Description of Plan

The following description of ***Braun Northwest, Inc. 401(k) Plan*** provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of Braun Northwest, Inc. who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute a portion of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investments of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Employer made a discretionary matching contribution of 50% of the employee contributions up to 5% of gross wages. To participate in employer matching, an eligible employee must be credited with one year of service and be age twenty-one or older on the applicable entry date.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and (b) Plan earnings (losses) and charged with an allocation of administrative expenses (if applicable). Allocations are based on participant earnings and account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance. Each participant employs an investment strategy for its account that is consistent with their needs determination.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer contribution portion of their accounts is based on years of service. A participant is 100% vested in employer and non-elective contributions after six years of credited service. During the year ended December 31, 2019, forfeitures credited back to the Plan were \$10,390 and \$9,610 of this amount was used to pay employer expenses.

Payment of Benefits. On termination of service due to death, disability, or retirement, a participant will receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited Accounts. At December 31, 2019 and 2018, forfeited non-vested accounts totaled \$13,411 and \$12,402, respectively. These amounts will be used to reduce future employer contributions as stipulated in the Plan document.

Summary of Significant Accounting Policies

Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note below for discussion of fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains (losses) on investments bought and sold as well as held during the year. Dividends from mutual funds are predominately reinvested into the primary mutual fund and predated as investment income.

Payment of Benefits. Plan benefits are recorded when paid.

Operating Expenses. Operating expenses that the sponsoring employer elects not to pay shall be paid by the Plan.

Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statement of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs are observable inputs other than quoted prices for the assets, either directly or indirectly observable, that reflect assumptions market participants would use to price the asset based on market data obtained from sources independent of the Plan; Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The Plan has no Level 2 or 3 assets.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end.

Braun Northwest, Inc. sponsors the ***Braun Northwest, Inc. 401(k) Plan*** (the Plan). As sponsor, Braun Northwest, Inc. is responsible for adherence to the Plan document including enrollment, salary deferrals, administrative, and other functional aspects of the Plan operation.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants will be 100% vested in their accounts.

Tax Status

The Plan is a prototype plan adopted through Fidelity Management and Research Company. This is in accordance with U.S. Treasury Internal Revenue Service Announcement 2001-77. The Plan was originally adopted by the employer in July 1995. Although the Plan has been amended to comply with legislative and regulatory changes, the Plan Administrator believes that the Plan is designed and currently operated in compliance with applicable requirements of the Internal Revenue Code and therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require that the Plan Administrator evaluate tax positions taken by the Plan and recognize tax liability for any uncertain positions that more than likely would not be sustained upon examination by the Internal Revenue Code. Management believes no such amount is required. The Plan is subject to routine audit by authorities; however, there are currently no audits for any periods in progress. All years not closed by statute are available for examination.

Risk and Uncertainties

The Plan invests primarily in mutual funds as described above. The Plan has investment risk associated with the underlying investments including interest rate, market, and credit risk. Due

to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

On March 11, 2020, the World Health Organization (WHO) recognized COVID-19 as a global pandemic, prompting many national, regional, and local governments to implement preventative measures, such as travel and business restrictions, temporary store closures, wide-sweeping quarantines, and stay-at-home orders. As a result, COVID-19 and the related restrictive measures have had significant adverse impact upon many sectors of the economy.
