NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Paradigm Management Team, LLC 401(k) Plan (the "Plan") provides only general information. Refer to Plan documents for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Paradigm Management Team, LLC (the "Company") who have three months of service. The Plan is subject to the provisions of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The original Plan and related trust were effective May 1, 1996 and restated August 17, 2010.

Some administrative functions are performed by employees of the Company. No compensation is remitted to the Company for these services.

Plan assets are held and managed by Fidelity Management Trust Company, which invests contributions and Plan earnings, makes investment transactions as directed by the participants, and provides certain recordkeeping services. They act as the third-party administrator for the Plan, and perform certain plan administration and annual ERISA compliance testing.

Eligibility

Employees may become a participant of the Plan when they have reached three months of service. An eligible employee may enter the plan on the next quarterly entry date after all entry requirements have been met.

Contributions

Each year, participants may contribute up to 60% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (i.e. rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company matches 100% of the first 10% of base compensation that a participant contributes to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

NOTE 1: DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with participant's contributions, Company's contributions, and allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100% vested after six years of credited service. Participants vest in the Plan as follows:

Years of Service	Vesting Percentage
Less than 2	0
2	20
3	40
4	60
5	80
6	100

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances, as defined. At December 31, 2019 and 2018, outstanding loans had an interest rate between 4.25% and 7.0%. Principal and interest are paid ratably through payroll deductions.

Benefits Payments

Upon termination of service due to death, disability, retirement, or termination, a participant is entitled to 100% of his/her vested account balance, reduced by any participant loan outstanding. Participant accounts with balances up to $1,000 are settled with lump-sum distributions. Participants with a balance greater than $1,000 may elect a distribution, rollover, or leave their balances in the Plan.

NOTE 1: DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $85,269 and $51,021. These accounts will be used to reduce future administrative expenses and future employer contributions. Also, in 2019, administrative expenses and employer contributions were reduced by $13,350 and $148,642 respectively from forfeited nonvested accounts.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the Accounting Standards Codification (ASC) and related Accounting Standards Updates (ASUs).

Use of Estimates

The preparation U.S. GAAP financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments generally are reported at fair value, but may also be reported net asset value (NAV). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Plan managements determines the Plan's valuation policies utilizing information provided by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contributions to the applicable participants before March 15, 2020.

Payments of Benefits

Distributions to participants are recorded when paid.

Expenses

Expenses attributable to the general Plan administration were paid by the Plan and allocated among the accounts of all participants, in proportion to their account balances, unless paid by the Employer. During the year ended December 31, 2019, expenses of $19,225 were paid by the Plan and allocated to participant accounts.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that these changes could materially affect amounts reported in the Plan's financial statements.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued September 4, 2020. See Note 9 for relevant disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

NOTE 3: INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations and Disclosure under ERISA. The following financial information included in the Plan's financial statements has been derived from information certified to be complete and accurate by the Trustee under such regulation:

a) Total investments, at fair value, included in the statements of net assets available for benefits at December 31, 2019 and 2018.
b) Notes receivable from participants, included in the statements of net assets available for benefits at December 31, 2019 and 2018.
c) Investment income information included in the statement of changes in net assets available for benefits for the year ended December 31, 2019.
d) All amounts included in Note 4, Fair Value Measurements (Unaudited).
e) All information included in the supplemental schedule of assets (held at end of year) as of December 31, 2019.

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED)

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are:
    - Observable; or
    - Can be corroborated by observable market data.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED) (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market: Valued at net asset value as computed by adding the value of the fund's investments, cash, and other assets, subtracting its liabilities, and diving the result by the number of shares outstanding. Investment has no unfunded commitments and is able to be redeemed daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED) (CONTINUED)

(A) Investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Net Assets Available for Benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluated the significance of transfer between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no significant transfers in or out of Levels 1, 2 or 3.

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED) (CONTINUED)

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes information related to the Money Market measured at fair value based on NAV per share as of December 31, 2019 and 2018, respectively. The Money Market is maintained by the investment company and holds investments in accordance with a stated set of fund objectives.

NOTE 5: TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Tax positions are recognized only if it is "more likely than not" that the tax position be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax position is recorded. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6: RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of mutual funds managed by Fidelity Investments, LLC, an affiliate of Fidelity Management Trust Company. Fidelity Management Trust Company acts as trustee for the Plan's assets. Transactions in these investments qualify as party-in-interest transactions that are exempt from the prohibited transaction rules.

The Company absorbs certain administrative costs of operating the Plan.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE 8: RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2019 and 2018, to the Plan's Form 5500:

Net assets available for benefits per the Form 5500	**$ 11,544,388**	$ 8,698,031

The following is a reconciliation of the excess contributions paid to participants per the financial statements and deemed distributions for the year ended December 31, 2019, to Form 5500:

December 31,	**2019**
Net increase in net assets available for benefits per the financial statements	**$ 2,849,048**

Prior year excess contributions refunded in the current year	**(25,966)**
Excess contributions to be refunded	**45,648**
Net income per schedule H of Form 5500	**$ 2,868,730**

Amounts allocated as excess contributions due to participants are not recorded on the Plan's Form 5500, even though they have been calculated and approved for payment prior to year-end, but not yet paid as of the date.

NOTE 9: SUBSEQUENT EVENTS

Management of the Plan evaluated all events or transactions that occurred after December 31, 2019 through September 4, 2020, the date the Plan's financial statements were available to be issued. The following items occurred:

In March 2020, the World Health Organization made the assessment that the outbreak of a novel coronavirus (COVID-19) can be characterized as a pandemic. As a result, broad domestic and international stock market indices have declined and the Plan's fair value of investments has declined similarly. Such declines in the fair value of investments held by the Plan have impacted participants' account balances and may affect the amounts reported in future financial statements.

NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Paradigm Management Team, LLC 401(k) Plan (the "Plan") provides only general information. Refer to Plan documents for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Paradigm Management Team, LLC (the "Company") who have three months of service. The Plan is subject to the provisions of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The original Plan and related trust were effective May 1, 1996 and restated August 17, 2010.

Some administrative functions are performed by employees of the Company. No compensation is remitted to the Company for these services.

Plan assets are held and managed by Fidelity Management Trust Company, which invests contributions and Plan earnings, makes investment transactions as directed by the participants, and provides certain recordkeeping services. They act as the third-party administrator for the Plan, and perform certain plan administration and annual ERISA compliance testing.

Eligibility

Employees may become a participant of the Plan when they have reached three months of service. An eligible employee may enter the plan on the next quarterly entry date after all entry requirements have been met.

Contributions

Each year, participants may contribute up to 60% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (i.e. rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company matches 100% of the first 10% of base compensation that a participant contributes to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

NOTE 1: DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with participant's contributions, Company's contributions, and allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100% vested after six years of credited service. Participants vest in the Plan as follows:

Years of Service	Vesting Percentage
Less than 2	0
2	20
3	40
4	60
5	80
6	100

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances, as defined. At December 31, 2019 and 2018, outstanding loans had an interest rate between 4.25% and 7.0%. Principal and interest are paid ratably through payroll deductions.

Benefits Payments

Upon termination of service due to death, disability, retirement, or termination, a participant is entitled to 100% of his/her vested account balance, reduced by any participant loan outstanding. Participant accounts with balances up to $1,000 are settled with lump-sum distributions. Participants with a balance greater than $1,000 may elect a distribution, rollover, or leave their balances in the Plan.

NOTE 1: DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $85,269 and $51,021. These accounts will be used to reduce future administrative expenses and future employer contributions. Also, in 2019, administrative expenses and employer contributions were reduced by $13,350 and $148,642 respectively from forfeited nonvested accounts.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the Accounting Standards Codification (ASC) and related Accounting Standards Updates (ASUs).

Use of Estimates

The preparation U.S. GAAP financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments generally are reported at fair value, but may also be reported net asset value (NAV). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Plan managements determines the Plan's valuation policies utilizing information provided by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contributions to the applicable participants before March 15, 2020.

Payments of Benefits

Distributions to participants are recorded when paid.

Expenses

Expenses attributable to the general Plan administration were paid by the Plan and allocated among the accounts of all participants, in proportion to their account balances, unless paid by the Employer. During the year ended December 31, 2019, expenses of $19,225 were paid by the Plan and allocated to participant accounts.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that these changes could materially affect amounts reported in the Plan's financial statements.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued September 4, 2020. See Note 9 for relevant disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

NOTE 3: INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations and Disclosure under ERISA. The following financial information included in the Plan's financial statements has been derived from information certified to be complete and accurate by the Trustee under such regulation:

a) Total investments, at fair value, included in the statements of net assets available for benefits at December 31, 2019 and 2018.
b) Notes receivable from participants, included in the statements of net assets available for benefits at December 31, 2019 and 2018.
c) Investment income information included in the statement of changes in net assets available for benefits for the year ended December 31, 2019.
d) All amounts included in Note 4, Fair Value Measurements (Unaudited).
e) All information included in the supplemental schedule of assets (held at end of year) as of December 31, 2019.

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED)

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are:
    - Observable; or
    - Can be corroborated by observable market data.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED) (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market: Valued at net asset value as computed by adding the value of the fund's investments, cash, and other assets, subtracting its liabilities, and diving the result by the number of shares outstanding. Investment has no unfunded commitments and is able to be redeemed daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED) (CONTINUED)

Description	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total

Total Investments				$ 11,280,110

Description	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total

Mutual funds:	$ 8,150,734	$ -	$ -	8,150,734
Total at fair value	$ 8,150,734	$ -	$ -	$ 8,150,734
Money market [(A)]				$ 304,020
Total Investments				$ 8,454,754

(A) Investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Net Assets Available for Benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluated the significance of transfer between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no significant transfers in or out of Levels 1, 2 or 3.

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED) (CONTINUED)

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes information related to the Money Market measured at fair value based on NAV per share as of December 31, 2019 and 2018, respectively. The Money Market is maintained by the investment company and holds investments in accordance with a stated set of fund objectives.

Year-End	Fair Value	Unfunded Commitments	Redemption Frequency (if currently elidible)	Redemption Notice Period
December 31, 2019	$ 313,445	$ -	Daily	Daily
December 31, 2018	$ 304,020	$ -	Daily	Daily

NOTE 5: TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Tax positions are recognized only if it is "more likely than not" that the tax position be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax position is recorded. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6: RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of mutual funds managed by Fidelity Investments, LLC, an affiliate of Fidelity Management Trust Company. The Company absorbs certain administrative costs of operating the Plan.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE 9: SUBSEQUENT EVENTS

Management of the Plan evaluated all events or transactions that occurred after December 31, 2019 through September 4, 2020, the date the Plan's financial statements were available to be issued. The following items occurred:

In March 2020, the World Health Organization made the assessment that the outbreak of a novel coronavirus (COVID-19) can be characterized as a pandemic. As a result, broad domestic and international stock market indices have declined and the Plan's fair value of investments has declined similarly.
