Note 1. Plan Description

The following brief description of the Incipe, LLC d/b/a Hawk Ford of Oak Lawn 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

On February 1, 2019 the Plan was amended to include employees of Sponte Sales, Inc. dba Hawk Chrysler Dodge Jeep, Golf Mill Motors Sales, Inc. dba Golf Mill Ford and West Jeff Auto Sales dba Hawk Chevy. Additionally, effective February 1, 2019 the Sponte Sales, Inc. dba Hawk Chrysler Dodge Jeep 401(k) Plan, Golf Mill Motors Sales, Inc. dba Golf Mill Ford 401(k) Plan, West Jeff Auto Sales dba hawk Chevy 401(k) Plan, Johawk LLC dba Hawk Volkswagon 401(k) Plan and Phelia, LLC dba Hawk Chevrolet 401(k) Plan were merged into the Plan.

General: The Plan is a defined contribution plan that covers all non-union employees of Incipe, LLC d/b/a Hawk Ford of Oak Lawn, Sponte Sales, Inc. dba Hawk Chrysler Dodge Jeep, Golf Mill Motors Sales, Inc. dba Golf Mill Ford, West Jeff Auto Sales dba Hawk Chevy, Johawk LLC dba Hawk Volkswagon and Phelia, LLC dba Hawk Chevrolet, (collectively, the Company) who are age 21 or older and have completed one month of service. Eligible employees can enter the plan on the first day of the month coinciding with or next following the date the employee satisfies the Plan's eligibility requirements. The Plan is subject to the provisions of The Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year a participant may contribute a percent of annual compensation, as defined in the Plan, up to 80 percent of compensation, as defined by the Plan, or limits set in the Internal Revenue Code, whichever is lower. Participant contributions may be classified as either pre-tax or Roth. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company makes a discretionary matching contribution equal to 30 percent of participant's deferrals up to five percent of participant's compensation, as defined by the Plan, with a maximum matching contribution of $2,000 per year. The Company may also make a discretionary profit-sharing contribution to the Plan. There were no discretionary profit-sharing contributions for the year ended December 31, 2019. Participants must complete one year of employment to be eligible for Company matching and profit-sharing contributions. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of the Company's profit-sharing contribution and Plan earnings/losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Vesting: Participants are immediately 100 percent vested in their contributions and any income or loss thereon. The portion of the participant's account attributable to Company matching and profit-sharing contributions is fully vested after completion of five years of service, attainment of normal retirement age, or in the event of death or disability.

Note 1. Plan Description (continued)

Notes receivable from participants: Participants may borrow from their accounts the lesser of one-half of their vested account balance or $50,000 reduced by the participant's highest outstanding loan balance during the previous twelve months. The minimum loan available is $1,000 and a participant may only have one outstanding loan. Loan terms cannot exceed five years. Participant loans are secured by a lien on the participant's interest in the Plan and are repaid through payroll deductions. The notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In addition, in-service and hardship withdrawals are permitted in certain situations as described in the plan agreement.

Forfeited accounts: Forfeited non-vested accounts are to be applied to reduce Company matching contributions. At December 31, 2019 and 2018, the balance in forfeited non-vested accounts was $63 and $10, respectively. In 2019, employer contributions were reduced by $4,065 from forfeited non-vested accounts.

Other income: ADP, LLC, the Plan's recordkeeper, receives revenue sharing payments from shares of registered investment companies and common/collective trust funds in which Plan assets are invested. The administrative service agreement between the Plan and ADP, LLC provides that a portion of the revenue sharing payments received by ADP, LLC will be credited to the Plan. For 2019, $17,518 was credited to the Plan under this agreement and $17,507 was used to pay for Plan's expenses. The balance in the administrative budget account, which holds these revenue sharing payments was $26 and $7 at December 31, 2019 and 2018, respectively, and was available for payment of future plan expenses.

Transfers: During the year ended December 31, 2019, prior to the merger transaction, the Plan transferred funds to another plan under common ownership due to transfer of employment of participants.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Management Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Note 2. Summary of Accounting Policies (continued)

Payment of benefits: Benefits are recorded when paid. Corrective distributions payable generally represent the distribution of certain assets to employees in order for the Plan to comply with nondiscrimination rules.

Note 3. Information Certified or Provided by Reliance Trust Company

Reliance Trust Company (Reliance) the trustee, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedule related thereto. This information includes investments held and notes receivable from participants at December 31, 2019 and 2018, net appreciation/(depreciation) in fair value of investments, interest and dividends, and interest on notes receivable from participants for the year ended December 31, 2019. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The Plan Administrator, therefore has instructed independent public accountants to exclude the information certified by the trustee from the scope of their audit.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements (Continued)

Common/collective trust funds: Value based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 6,855,745	$ -	$ -	$ 6,855,745
Investments measured at net asset value (a)				264,079
Investment at fair value				$ 7,119,824

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 1,852,731	$ -	$ -	$ 1,852,731
Investments measured at net asset value (a)				5,622
Investment at fair value				$ 1,858,353

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per shares as of December 31, 2019 and 2018:

Investment	2019 Fair Value	2018 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust funds	$ 264,079	$ 5,622	$ -	Immediate	None

Note 5. Related Party Transactions

Reliance is the trustee of the Plan, therefore, transactions with Reliance qualify as part-in-interest transactions. Fees paid to Reliance amounted to $30,380 for the year ended December 31, 2019.

ADP Inc. provides certain administrative services to the Plan. Transactions with ADP Inc. qualify as party-in-interest transactions. Fees paid by the Plan for these services to ADP Inc. amounted to $3,980 for the year ended December 31, 2019.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan has adopted a non-standardized prototype plan of ADP Inc. The non-standardized prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The non-standardized prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2019 and 2018:

	2019	2018

Notes receivable from participants	(3,523)	(2,272)

Net assets available for benefits per the Form 5500	$ 7,328,884	$ 1,860,524

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2019 per the financial statements to the Form 5500:

Change in net assets available for benefits per the financial statements	$ 1,828,765
Company contributions	8,960
Participant contributions	62,631
Benefit payments	(1,251)
Change in net assets available for benefits per the Form 5500	$ 1,899,105

Note 10. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The Pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has had a significant adverse impact on investment portfolios. As a result, the Plan's investments have incurred a significant decline in fair value since December 31, 2019. The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Additionally, effective April 2020, the Plan enacted the Coronavirus Aid, Relief and Economic Security Act (C.A.R.E.S), allowing Coronavirus Related Distribution and relief of Required Minimum Distributions.

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through September 15, 2020, the date the financial statements were available to be issued.

Contributions: Each year a participant may contribute a percent of annual compensation, as defined in the Plan, up to 80 percent of compensation, as defined by the Plan, or limits set in the Internal Revenue Code, whichever is lower. Participant contributions may be classified as either pre-tax or Roth. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company makes a discretionary matching contribution equal to 30 percent of participant's deferrals up to five percent of participant's compensation, as defined by the Plan, with a maximum matching contribution of $2,000 per year. The Company may also make a discretionary profit-sharing contribution to the Plan. There were no discretionary profit-sharing contributions for the year ended December 31, 2019. Participants must complete one year of employment to be eligible for Company matching and profit-sharing contributions. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of the Company's profit-sharing contribution and Plan earnings/losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Vesting: Participants are immediately 100 percent vested in their contributions and any income or loss thereon. Note 1. Plan Description (continued)

Notes receivable from participants: Participants may borrow from their accounts the lesser of one-half of their vested account balance or $50,000 reduced by the participant's highest outstanding loan balance during the previous twelve months. The minimum loan available is $1,000 and a participant may only have one outstanding loan. Loan terms cannot exceed five years. Participant loans are secured by a lien on the participant's interest in the Plan and are repaid through payroll deductions. The notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In addition, in-service and hardship withdrawals are permitted in certain situations as described in the plan agreement.

Forfeited accounts: Forfeited non-vested accounts are to be applied to reduce Company matching contributions. At December 31, 2019 and 2018, the balance in forfeited non-vested accounts was $63 and $10, respectively. In 2019, employer contributions were reduced by $4,065 from forfeited non-vested accounts.

Other income: ADP, LLC, the Plan's recordkeeper, receives revenue sharing payments from shares of registered investment companies and common/collective trust funds in which Plan assets are invested. The administrative service agreement between the Plan and ADP, LLC provides that a portion of the revenue sharing payments received by ADP, LLC will be credited to the Plan. For 2019, $17,518 was credited to the Plan under this agreement and $17,507 was used to pay for Plan's expenses. The balance in the administrative budget account, which holds these revenue sharing payments was $26 and $7 at December 31, 2019 and 2018, respectively, and was available for payment of future plan expenses.

Transfers: During the year ended December 31, 2019, prior to the merger transaction, the Plan transferred funds to another plan under common ownership due to transfer of employment of participants.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Management Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Note 2. Summary of Accounting Policies (continued)

Payment of benefits: Benefits are recorded when paid. Corrective distributions payable generally represent the distribution of certain assets to employees in order for the Plan to comply with nondiscrimination rules.

Note 3. Information Certified or Provided by Reliance Trust Company

Reliance Trust Company (Reliance) the trustee, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedule related thereto. This information includes investments held and notes receivable from participants at December 31, 2019 and 2018, net appreciation/(depreciation) in fair value of investments, interest and dividends, and interest on notes receivable from participants for the year ended December 31, 2019. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The Plan Administrator, therefore has instructed independent public accountants to exclude the information certified by the trustee from the scope of their audit.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements (Continued)

Common/collective trust funds: Value based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 6,855,745	$ -	$ -	$ 6,855,745
Investments measured at net asset value (a)				264,079
Investment at fair value				$ 7,119,824

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 1,852,731	$ -	$ -	$ 1,852,731
Investments measured at net asset value (a)				5,622
Investment at fair value				$ 1,858,353

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per shares as of December 31, 2019 and 2018:

Investment	2019 Fair Value	2018 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust funds	$ 264,079	$ 5,622	$ -	Immediate	None

Note 5. Related Party Transactions

Reliance is the trustee of the Plan, therefore, transactions with Reliance qualify as part-in-interest transactions. Fees paid to Reliance amounted to $30,380 for the year ended December 31, 2019.

ADP Inc. provides certain administrative services to the Plan. Transactions with ADP Inc. qualify as party-in-interest transactions. Fees paid by the Plan for these services to ADP Inc. amounted to $3,980 for the year ended December 31, 2019.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan has adopted a non-standardized prototype plan of ADP Inc. The non-standardized prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The non-standardized prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2019 and 2018:

	2019	2018
Net assets available for benefits per the financial statements	$ 7,260,816	$ 1,862,796
Notes receivable from participants	(3,523)	(2,272)
Excess contributions payable	71,591	-
Net assets available for benefits per the Form 5500	$ 7,328,884	$ 1,860,524

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2019 per the financial statements to the Form 5500:

Change in net assets available for benefits per the financial statements	$ 1,828,765
Company contributions	8,960
Participant contributions	62,631
Benefit payments	(1,251)
Change in net assets available for benefits per the Form 5500	$ 1,899,105

Note 10. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The Pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has had a significant adverse impact on investment portfolios. As a result, the Plan's investments have incurred a significant decline in fair value since December 31, 2019. The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Additionally, effective April 2020, the Plan enacted the Coronavirus Aid, Relief and Economic Security Act (C.A.R.E.S), allowing Coronavirus Related Distribution and relief of Required Minimum Distributions.

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through September 15, 2020, the date the financial statements were available to be issued.
