Simrad North America 401(k) Plan Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Simrad North America 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution and profit sharing plan covering substantially all employees of Simrad North America, Inc.; Kongsberg Underwater Technology, Inc.; Kongsberg Maritime, Inc.; Kongsberg Defense Corp.; Kongsberg Digital, Inc.; Kongsberg Digital Simulation, Inc.; Hydroid, Inc.; and Kongsberg GeoSpatial Inc., (collectively, the Companies). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Companies are the Plan's sponsor and Simrad North America, Inc. serves as Plan administrator.

Eligibility – Employees of the Companies are eligible to participate in the Plan upon reaching age 21 and after completing three months of service.

Contributions – Participants may elect to contribute up to 100% of their eligible pre-tax annual compensation, as defined by the Plan agreement. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other qualified plans.

The Companies provide a matching contribution equal to 100% of each participant's contribution up to a maximum of 5% of eligible compensation. The Companies may also, at their discretion, make a profit sharing contribution. Participants must be employed on the last day of the year and have worked 1,000 hours during the year to be eligible for the discretionary profit sharing contribution. The Companies did not make a discretionary profit sharing contribution to the Plan for the year ended December 31, 2019.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of employer contributions and Plan earnings. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in their contributions and the Companies' contributions plus actual earnings thereon. Vesting in the discretionary profit sharing contribution portion of their accounts plus actual earnings thereon is based on the number of years of service, as defined by the Plan agreement. A participant becomes 20% vested in the discretionary profit sharing contribution after one year of service and ratably thereafter until 100% vested after five years of service.

Simrad North America 401(k) Plan

Notes to Financial Statements

Note 1 – Description of Plan (continued)

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loans are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the Plan administrator. Loan terms range from one to five years, unless the loan is used to acquire a principal residence. Principal and interest are paid ratably through payroll deductions. As of December 31, 2019, interest rates on outstanding loans are 3.25%–5.50% with various maturities through June 2025.

Payment of benefits – On termination of service due to death, disability, or retirement, participants may elect to receive a lump-sum amount or payment in annual installments. For termination of service due to other reasons, participants may receive the value of their vested account balance as a lump-sum distribution.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and used to reduce future employer matching contributions or pay Plan expenses. For the years ended December 31, 2019 and 2018, forfeited nonvested accounts totaled \$265 and \$718, respectively. During the year ended December 31, 2019, the employer matching contributions were reduced by \$1,730 from forfeited nonvested accounts.

Administrative expenses – In addition to expenses paid by the Plan, certain administrative expenses are paid by the Companies.

Plan termination – Although they have not expressed any intention to do so, the Companies may terminate the Plan at any time. If the Plan is terminated, all amounts credited to participants' accounts become fully vested.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates – The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation – Investments are stated at fair value as certified by Principal Life Insurance Company and Principal Trust Company (collectively, the Trustees). Principal Life Insurance Company certifies the fair value of the pooled separate accounts and collective trust held by the Plan while Principal Trust Company certifies the fair value of the mutual funds held by the Plan.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Note 2 – Summary of Significant Accounting Policies (continued)

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the Plan agreement.

Payment of benefits – Benefits are recorded when paid.

Subsequent events – The Plan has evaluated subsequent events through September 16, 2020, which is the date the financial statements were available to be issued. See Note 9 for disclosure of subsequent events.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Simrad North America 401(k) Plan

Notes to Financial Statements

Note 3 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds – Shares of mutual funds are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Stable value fund – A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued using the NAV practical expedient, an estimate of fair value. This NAV practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Pooled Separate Accounts – Units held in pooled separate accounts (PSAs) are valued using the NAV practical expedient of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a PSA is calculated based on a compilation of primarily observable market information.

The following tables disclose by level the fair value hierarchy as of December 31:

Fair Value Measurement as of December 31, 2019			
	Level 1	Level 2	Level 3
Mutual funds	\$ 18,435,299	\$ -	\$ -

Simrad North America 401(k) Plan

Notes to Financial Statements

Note 4 – Tax Status

The Plan is based on a prototype defined contribution plan that received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, which stated the prototype plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan and the Plan have been amended since the date of the opinion letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 6 – Party-In-Interest Transactions

Plan investments include units of pooled separate accounts and a collective trust managed by The Principal Financial Group. The Trustees are affiliates of The Principal Financial Group and, therefore, transactions with these entities qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services to The Principal Financial Group were \$119,657 for the year ended December 31, 2019.

Note 7 – Information Certified by the Trustees

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustees have certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018.
- Net appreciation in fair value of investments, interest and dividends, and other income reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.
- Investments reflected on the schedule of assets (held at end of year), except for participant loans.

Simrad North America 401(k) Plan

Notes to Financial Statements

Note 8 – Delinquent Contributions

As disclosed in the accompanying supplemental schedule, certain employee deferrals were not remitted to the Plan within the timeframe required by the Department of Labor. These employee deferrals are related to the 2009 and 2012 Plan years and have not been corrected.

Note 9 – Subsequent Events

On March 11, 2020, the World Health Organization officially declared COVID-19, the disease caused by the novel coronavirus, a pandemic, which triggered volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment portfolio has incurred a significant volatility in fair value since December 31, 2019. However, because the values of the Plan's individual investments have been and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.

The Company adopted select provisions of the Coronavirus Aid, Relief and Economic Security (CARES) Act. This includes: penalty free distributions up to \$100,000 increased new loan limits, suspension of loan payments for up to a year and relief from the minimum required distribution for 2020. Participants may elect to utilize these options as they wish. The Plan is in the process of being formally amended for these provisions.

On March 26, 2020, the Company sold Hydroid, Inc. to an unrelated party. Participants from the Hydroid location were classified as terminated effective March 26, 2020, and can withdraw their vested balance or rollover into a qualified plan.
