National Distributing Company, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2019 and 2018

1. Description of Plan

The following description of the National Distributing Company, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document, copies of which are available from the plan administrator, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that provides savings and salary deferral benefits to eligible employees of National Distributing Company, Inc. (the Company). Employees are eligible for participation in the Plan on the first day of each calendar month coinciding with or the next month following the date after attaining age eighteen and completion of one month of service. Certain affiliates of the Company sponsor the Republic National 401(k) Plan (RNDC Plan). Participant accounts are automatically transferred between the Plan and the RNDC Plan when the participant changes employment between the respective employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and Vesting

Participants are automatically enrolled in the Plan at 9% unless they elect otherwise. Effective June 1, 2019 the Investment Committee for the Plan amended the Plan to automatically increase the deferral election by 2% for all participants who had a prior deferral election of 7% or less as of March 31, 2019, unless the participant opted out.

A participant may contribute up to 75% of their base compensation subject to Internal Revenue Service limitations of \$19,000 in 2019. Highly compensated employees are limited to deferring 8% of their compensation. An eligible employee may also elect to make voluntary after-tax contributions up to 25% of base compensation. Participants who have attained the age of 50 before the end of the plan year may make catch-up contributions of up to \$6,000 in 2019. Participants may change the amount of elective deferral contributions on a daily basis. Participants are immediately vested in their elective deferrals, after-tax contributions and earnings thereon. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

The Company makes matching contributions per pay period equal to 50% of participant contributions, up to 8% of eligible compensation contributed to the Plan. Employer matching contributions, net of forfeitures, were \$1,842,756 during the year ended December 31, 2019. Upon completion of three years of service, the participants are 100% vested in the matching contributions. An employer may make, at its discretion, a true-up matching contribution on behalf of each of its eligible employees. No significant true-up matching contribution was made in 2020 as it relates to the year ended December 31, 2019.

Notes to Financial Statements December 31, 2019 and 2018

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, any Company contributions, and earnings on the investments in their account and is charged with certain administrative expenses. Upon enrollment in the Plan, a participant may direct any contributions to any of the investment options offered by the Plan. Participants may change their investment options on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested accounts balance or \$50,000. A participant may have one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with interest rates charged by persons in the business of lending money for loans under similar circumstances. During 2019, loans had fixed rates ranging from 4.25% to 6.50% for the term of the loan not to exceed 5 years or 15 years if used for the purchase of a residence. Principal and interest are paid through payroll deductions.

Payment of Benefits

At the time of death, disability, termination of service, or retirement, the participant or their beneficiary may receive payment of the vested interest in their account in a lump-sum, partial payment, or installment distribution as defined by the Plan document. The participant's contributions may also be withdrawn for certain hardship situations.

Forfeited Accounts

Forfeitures of any non-vested employer contributions shall be used to reduce the Company's future contributions to the Plan. Forfeited accounts totaled approximately \$194,000 and \$163,000 as of December 31, 2019 and 2018, respectively. Approximately \$99,000 of forfeitures were used to reduce employer matching contributions for the Plan year ended December 31, 2019.

Administrative Expenses

Participants are charged with specific transaction charges such as loan origination and distribution fees as well as certain Plan administration fees such as audit, recordkeeping and investment advisory fees. These Plan administration fees are allocated to participants at an equal dollar amount based on the number of participants in the Plan. The Plan has an ERISA account where the custodian deposits revenue sharing payments that are used to pay the select Plan administrative expenses or allocated to participant accounts. During 2019, \$20,188 was deposited into the account and \$23,353 was used to pay Plan administrative expenses. Deposits to this account are included in additions in the accompanying statement of changes in net assets

available for benefits. Payments from this account are included in administrative expenses the year paid. The account had an available balance of \$9,627 and \$12,510 as of December 31, 2019 and 2018, respectively, which is included in the stable asset income fund on the statements of net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Contributions

Participant contributions are considered payable to the Plan upon the withholding of contributions from the participant's paycheck. The employer matching contributions are considered payable to the Plan when the related participant's contributions are payable to the Plan. Any unfunded participant or employer matching contributions are included in the participant or employer contributions receivable on the statements of net assets available for benefits as of December 31, 2019 and 2018.

Valuation of Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Net change in fair value of investments includes interest, dividends, certain Plan administrative expenses, and realized and unrealized gains and losses on those investments. Interest income is recorded when received.

Notes Receivable from Participants

Notes receivable from participants are carried at their outstanding balance. Interest income is recognized when received. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Notes to Financial Statements December 31, 2019 and 2018

Payment of Benefits

Benefit payments are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 18, 2020, which is the date the financial statements were available to be issued.

In early March 2020, COVID-19, a disease caused by a novel strain of the coronavirus, was characterized as a pandemic by the World Health Organization. The COVID-19 pandemic has negatively impacted the world economy and has resulted in significant volatility in global financial markets. The ultimate impact of the COVID-19 pandemic on the Plan's net assets available for benefits, contributions and benefit obligations remains uncertain.

The Plan permitted coronavirus-related distributions and suspension of participant loan repayments in accordance with the Coronavirus Aid, Relief and Economic Security Act (the CARES Act) and will suspend 2020 required minimum distributions payable after April 1, 2020 and allow 2020 to be disregarded for purposes of the five-year required minimum distribution deadline.

3. Information Certified by the Custodian

All information in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2019 and 2018, and the net change in fair value of investments and interest income for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great-West Trust Company, LLC, the Plan's custodian.

4. Investments

Investments are exposed to various risks, such as market, currency, interest rate and credit risks. It is at least reasonably possible that changes in their fair value will occur in the near term and that such changes could materially affect participants' account balances.

National Distributing Company, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2019 and 2018

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – other observable data, including quoted prices for identical assets in inactive markets

Level 3 – unobservable inputs

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level but rather the degree of judgment used in determining those values.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Investments in mutual funds are stated at quoted market prices for the identical security in an active market (Level 1).

The Plan invests in a stable asset income fund which invests primarily in fully benefit-responsive guaranteed investment contracts (GICs), which are general obligations of the insurance companies that issue the contracts. The stable asset income fund trades at net asset value (NAV), which is based on the contract value of the underlying GIC investments (Level 1).

Investments in collective trust funds are valued daily using NAV. The NAVs are based on the fair value of the stocks, debt instruments, mutual funds and other securities in the trusts. The collective trust funds may be traded daily at their NAV (Level 1).

Notes to Financial Statements

December 31, 2019 and 2018

The following table summarizes the Plan's investments based on the inputs used to determine their values as of December 31, 2019 and 2018:

	Level 1	
	2019	2018
Mutual funds	\$ 35,536,755	\$ 29,085,707
Collective trust funds	34,364,101	27,310,165
Stable asset income fund	6,081,148	4,582,610
Total	\$ 75,982,004	\$ 60,978,482

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

6. Income Tax Status

The Company adopted the Great-West Trust Company Defined Contribution Prototype Plan created by an affiliate of the custodian. The Internal Revenue Service has determined and informed Great-West by a letter dated March 31, 2014, that the prototype document is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has not received an individual determination letter and has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan's income tax returns for the past three years are subject to examination by taxing authorities and may change upon examination.
