Allison Transmission Hourly Employee Savings Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 1: Description of the Plan

The following description of Allison Transmission Hourly Employee Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator. Any inconsistencies between the Plan Document and the *Summary Plan Description* would be governed by the Plan Document.

General

The Plan is a defined-contribution plan sponsored by Allison Transmission, Inc. (Company). The Plan was created for the benefit of its hourly employees who have at least 90 days of service and are covered by the collective bargaining agreement between the Company and the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Fidelity Management Trust Company is the trustee of the Plan. The Company serves as Plan Administrator.

Contributions

The Plan permits eligible employees through a payroll deferral election to have the Company make annual contributions from 1% to 75% of eligible compensation. Eligible employees may also elect to have the Company contribute up to 100%, in 10% increments, of their unused vacation pay and iComp payment in lieu of receiving the payment directly. Employee rollover, Roth, catch-up and after-tax contributions are also permitted.

For all employees with a hire date after February 1, 2008, the Company makes matching contributions of 100% of employees' deferred savings, Roth savings and after-tax contributions that do not exceed 6% of the employees' eligible weekly earnings for each pay period. The Company also makes a \$1 per "compensated hour" contribution for all employees hired on or after August 8, 2007 and before February 2, 2008, as these employees are not eligible for certain other benefits. Contributions are subject to certain limitations.

The Plan Document includes an automatic deferral feature whereby a participant is treated as electing to defer 3% of eligible compensation unless the participant made an affirmative election otherwise. The feature is effective for employees hired on or after October 16, 2009, or for employees who had never contributed to, or elected to contribute to, the Plan. The automatic enrollment provisions have automatic increase provisions of 1% of the employee's eligible weekly earnings each Plan year on September 1 up to a maximum of 10% of the employee's eligible weekly earnings.

Participant Investment Account Options

Investment account options available include various funds within the Allison Transmission Master Trust (Master Trust). Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer contributions and Plan earnings and is charged with an allocation of administrative expenses, if applicable, and only as allowed by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled are the benefits that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their deferred savings, deferred savings catch-up, after-tax, Roth, Roth catch-up, iComp, suggestion award, unused vacation pay, qualified nonelective, and rollover contributions, plus earnings thereon. Vesting in the matching and corporation contributions plus earnings thereon is based on years of continuous service. A participant is fully vested after three years of continuous service, including service with General Motors Corporation for hourly transferred employees, or upon death or turning age 65. The nonvested balance is forfeited upon termination of service. The nonvested balance is forfeited upon the earlier of a complete distribution of vested benefits due to a termination of service or five one year breaks in service, whichever comes first. Forfeitures are used to reduce Plan expenses and then Company contributions.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a single lump-sum amount, partial withdrawal, installment payments or deferred payment. Withdrawals may also be made when a participant attains age 59½ or demonstrates financial hardship as defined by the Plan Document. An employee may withdraw all or a portion of his account balance attributable to after-tax or rollover contributions at any time. Prior to a withdrawal of pre-tax deferrals, catch-up contributions or Roth contributions, a participant must withdraw all available after-tax contributions.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$7,619 and \$3,552, respectively. These accounts will be used to reduce Plan expenses and then future employer contributions. Also, in 2019 and 2018, employer contributions were reduced by \$63,435 and \$15,859, respectively, from forfeited nonvested accounts.

Notes Receivable From Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants, former participants and surviving spouses. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. A participant may have no more than five loans outstanding at any one time. Effective January 18, 2018, a participant may have no more than three loans outstanding at any one time. A participant with more than three loans outstanding on the effective date may continue to have such loans outstanding over their then-current terms. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings for active participants unless the participant is paying the loan in full. Payments by former participants and surviving spouses are made in monthly installments. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Notes receivable from participants are reported at amortized principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as benefit payments based upon the terms of the Plan Document.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Subsequent Events

As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which have resulted in volatility in the investment markets. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

In April 2020, the Plan implemented changes related to the Coronavirus Aid, Relief and Economic Security (CARES) Act, which provides relief to individuals impacted by the COVID-19 crisis.

New features available to Plan participants (subject to certain restrictions):

- Coronavirus Related Distributions up to \$100,000, with no mandatory 20% federal tax withholding and the 10% early withdrawal penalty is waived. The participant can repay the amount of the distribution as a rollover within three years and can pay taxes pro-rata over a 3-year period.

Subsequent events have been evaluated through September 22, 2020, which is the date the financial statements were available to be issued.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. Quoted market prices are used to value investments in the Master Trust. The fair value of the Plan's interest in the collective trusts in the Master Trust are valued at the net asset value per share (NAV) utilizing the practical expedient.

The New York Life Anchor Account is carried at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administrative expenses. The objective of this fund is to provide investors stable returns and competitive rates over the long term. Redemption is at the discretion of the participants.

The Plan presents in its statements of changes in net assets available for benefits an allocation of the Master Trust's net appreciation or depreciation in the fair value of its investments, which consist of realized gains or losses and unrealized appreciation or depreciation on those investments as well as interest and dividend income. This amount is reflected within the Plan's interest in Allison Transmission Master Trust investment income (loss).

Plan Tax Status

The Plan obtained its latest determination letter on February 7, 2014, in which the Internal Revenue Service (IRS) stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Notes to Financial Statements December 31, 2019 and 2018

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses and Participant Revenue Credits

Administrative expenses may be paid by the Company or the Plan. The trust agreement between the Plan and the trustee was amended on January 1, 2019 to change the fee structure and allow for a quarterly participant revenue credit. Under the amended trust agreement, the Plan invests in certain investment products of the trustee that allow for a participant revenue credit each quarter. The participant revenue credits received from these investments is reported as other income and for the year ended December 31, 2019 was \$55,492.

Note 3: Change in Accounting Principle

The Plan adopted ASU 2017-06, *Plan Accounting: Employee Benefit Plan Master Trust Reporting*. The new accounting guidance clarifies presentation requirements for the Plan's interest in the master trust and requires more detailed disclosures of the Plan's interest in the master trust. This change was applied retrospectively to all periods presented.

Note 4: Certification of Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2019 and 2018
- Investment income (loss) and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018
- Investment information included in the accompanying schedule of assets (held at year end) as of December 31, 2019

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and one other Allison Transmission, Inc.-sponsored retirement plan. The Plan's investments are held by Fidelity Management Trust Company. The Plan's interest in the Master Trust's investment income (loss) is not proportionate to its interest in the net assets due to the ability of participants to select investment options within the Master Trust.

The following tables present the net assets of the Master Trust and the Plan's interest as of December 31, 2019 and 2018:

		2019

Note 6: Disclosures About Fair Value of Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets in the Master Trust measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2019 and 2018:

	Fair Value	2019 Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Master Trust investments				
Mutual funds	\$ 262,700,051	\$ 262,700,051	\$ -	\$ -
Total assets in the fair value hierarchy	262,700,051	<u>\$ 262,700,051</u>	<u>\$ -</u>	<u>\$ -</u>

		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Master Trust investments				
Mutual funds	\$ 207,431,113	\$ 207,431,113	\$ -	\$ -
Total assets in the fair value hierarchy	207,431,113	\$ 207,431,113	\$ -	\$ -
Investments measured at net asset value (A)	82,492,844			
Investments at fair value	\$ 289,923,957			

- (A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2019. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include Master Trust mutual funds. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There are no Level 2 or Level 3 securities.

Note 7: Contract With Insurance Company

The Plan entered into a fully benefit-responsive investment contract with New York Life Insurance Company (New York Life) on June 4, 2019. New York Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal that is guaranteed to the Plan. New York Life also guarantees the interest rate to be no less than 0%.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by New York Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the *Employee Retirement Income Security Act of 1974*. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 8: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan trustee. During 2019 and 2018, the Plan paid \$153,875 and \$59,678 of administrative fees to the trustee, respectively. Additional fees paid to parties-in-interest totaled \$0 and \$12,974 for 2019 and 2018, respectively. During 2018, the Plan received \$13,074 of revenue sharing reimbursements used to offset fees. The Company provides certain administrative services at no cost to the Plan.

Notes to Financial Statements December 31, 2019 and 2018

Note 9: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2019 and 2018, to Form 5500:

	<u>2019</u>	<u>2018</u>
Net assets available for benefits per the financial statements	\$ 117,500,132	\$ 100,032,857
Amounts of defaulted loans	<u>(155,455)</u>	<u>(140,646)</u>
Net assets available for benefits per Form 5500	<u><u>\$ 117,344,677</u></u>	<u><u>\$ 99,892,211</u></u>

During 2019, an additional difference between the Form 5500 filed with the Internal Revenue Service and the accompanying financial statements relates to an immaterial classification difference between administrative expenses and other income for participant revenue credits received by the Plan during 2019. This classification difference has no impact on net assets available for benefits or net increase.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
