ZHI 401(k) Retirement Savings Plan

Notes to Financial Statements

December 31, 2019

1. Description of the Plan

The following description of the ZHI 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution, voluntary employee savings plan qualified under Section 401(a) of the Internal Revenue Code (the Code). Employees of participating subsidiaries of Zachry Holdings, Inc. (Employers) who are 18 years of age or older are generally eligible to participate in the Plan. The Plan is for the exclusive benefit of the participants and their beneficiaries. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Employers maintain a separate Life Insurance Trust for the sole purpose of holding life insurance contracts allocated to the accounts of certain participants under the Zachry Employees' Retirement and Benefit Plan, which was subsequently merged into the Plan. Participants can elect to transfer funds out of the Life Insurance Trust into another fund option; however, no new funds can be invested in the Life Insurance Trust.

Contributions

Participants can contribute up to 50% of their compensation to the Plan (either as an elective pretax contribution or as a Roth contribution), limited by Internal Revenue Service (IRS) regulations. Participants who have attained the age of 50 may make catch-up contributions up to 50% of their compensation. Participants can also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Employers fully match the first 3% and 50% of the next 3% of the participant's compensation contributed. All contributions are participant-directed into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employers' contributions and (b) plan earnings or losses and is charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Employer matching contributions made after January 1, 2016, are immediately vested.

Employer matching contributions made to the Plan after January 1, 2002, but prior to January 1, 2016, vest according to the following schedule:

Years of Service	Vested Percentage
Less than 2	–%
2 but less than 3	20
3 but less than 4	40
4 but less than 5	60
5 or more	100

Employer annual retirement benefit contributions (discontinued as of December 31, 2015) made to participants after January 1, 2007, vest over a five-year graded schedule (similar to the schedule above). Employer annual retirement benefit contributions made to participants prior to January 1, 2007, vest over a five-year cliff schedule.

An active participant becomes fully vested upon retirement on or after reaching normal retirement age, as defined by the Plan, upon death, or upon disability. Forfeitures of non-vested accounts are used to reduce future contributions by the Employers, to restore forfeitures in certain instances, or to pay plan administrative expenses.

Participant Loans and Hardship Withdrawals

Participants can borrow money from the vested present value of their accounts with a minimum loan of $1,000 and a maximum loan of the lower of $50,000 less any outstanding loan balance over the previous 12 months or 50% of the participant's vested account balance. The loan repayment terms are generally up to five years, unless the loan was used to acquire a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates.

1. Description of the Plan (continued)

Subject to the Code limitations, participants may make hardship withdrawals from a portion of their 401(k) contributions to pay for an immediate and heavy financial need.

Payment of Benefits

In the event of death, disability, or retirement on or after reaching normal retirement age, a participant is eligible to receive a lump-sum amount or equal installment payments of the participant's account. In-service withdrawals before age 62 of the participant's vested retirement benefit account balance are allowed once per year and may not be more than 25% of the retirement benefit account balance. This 25% limitation is applied cumulatively during the participant's entire employment with the Employer and participating employers. In-service withdrawals on or after age 62 may be made once per year from the vested portion of the participant's account. In the event of termination of employment with the Employers for any other reason, the participant is entitled to the vested portion of the account.

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. If a participant is rehired within a five-year period, the forfeited contributions are reinstated. Forfeited balances of terminated participants' non-vested accounts are used to reduce future plan contributions. Unallocated forfeited balances as of December 31, 2019 and 2018, were $617,542 and $502,907, respectively, and forfeitures used to reduce plan contributions for 2019 were approximately $740,257.

Administrative Expenses

Certain administrative expenses are paid by the Employers.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

2. Summary of Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedules. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

Risks and Uncertainties

The Plan provides for investments in various investment securities, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 3 for further discussion of fair value measurements.

The fair values of mutual funds are the current market values of the units or shares held by the Plan at year-end. The current market values are determined by quoted prices in an active market. The fair value of common collective trust funds is measured at fair value measured using the net asset value practical expedient.

2. Summary of Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

Accounting Standards Codification Topic, ASC 820, *Fair Value Measurement* (ASC 820), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted market prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation techniques and inputs described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different techniques and inputs or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the techniques and inputs used at December 31, 2019 and 2018.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Assets at Fair Value			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 875,755,490**	**$ –**	**$ –**	**$ 875,755,490**

	$ 875,755,490	**$ –**	**$ 84,494**	**875,839,984**
Investments measured at net asset value:				
Stable value fund[a]				**11,882,780**
Total investments at fair value				**$ 887,722,764**

3. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 706,048,850	$ –	$ –	$ 706,048,850
Cash surrender value of participants' life insurance	–	–	110,737	110,737
	$ 706,048,850	$ –	$ 110,737	706,159,587
Investments measured at net asset value:				
Stable value fund[a]				14,146,379
Total investments at fair value				$ 720,305,966

[a] This category includes common/collective trust funds that are designed to deliver safety and stability by preserving principal and accumulating earnings. These funds are primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund. The fair value of this fund is based on the net asset value practical expedient as reported by the issuer of the fund.

3. Fair Value Measurements (continued)

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2019:

	Cash Surrender Value of Participants' Life Insurance
Balance, beginning of year	$ 110,737
Unrealized loss	(5,361)
Surrenders/death claims	(15,417)
Premiums paid	(5,465)
Balance, end of year	$ 84,494

4. Investments

Except for the investment in cash surrender value of participants' life insurance and the change in cash surrender value of participants' life insurance, all investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held and notes receivable from participants at December 31, 2019 and 2018, and interest and dividends, net appreciation in fair value of investments, and interest income on notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company (Fidelity), the trustee of the Plan.

5. Plan Termination

Although they have not expressed any intent to do so, the Employers have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

6. Tax Status

The Plan has received a determination letter from the IRS dated June 13, 2016, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination from the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related-Party Transactions

Certain of the Plan's investments are managed by Fidelity. Fidelity is the trustee of the Plan, and, therefore, these transactions qualify as party-in-interest transactions. All of these transactions are exempt from the prohibited transaction rules.

8. Subsequent Events

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 (COVID-19) as a pandemic, and the President of the United States declared the COVID-19 outbreak a national emergency. The COVID-19 pandemic has led to volatility in financial markets and has affected and may continue to affect the Plan's assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

The Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act) were enacted. These laws would enable the Plan to, among others, allow certain eligible individuals to receive coronavirus-related distributions and relief for loan repayments, increase participant loan amounts for certain loans, suspend required minimum distributions for the 2020 plan year, and delay the

8. Subsequent Events (continued)

commencement date for required minimum distributions. The Plan has implemented relief for loan repayments allowing for deferral through the end of the year and has waived required minimum distributions for the 2020 plan year.

The additional optional features within these acts have been assessed but have not been implemented by the Plan to date.

Effective July 2, 2020, the Plan was amended to remove the safe harbor matching employer contributions effective for paychecks after July 2, 2020 and has subsequently lost the safe harbor status for the 2020 plan year. The loss of safe harbor status will require the Plan to complete and pass the actual deferral percentage and actual contribution percentage nondiscrimination testing for the 2020 plan year, and for each plan year thereafter unless and until safe harbor status is restored.

Written amendments to the Plan to reflect these operational changes will be adopted in accordance with applicable law and IRS guidance.

A lawsuit was filed on August 21, 2020, alleging breaches of fiduciary duties related to the Plan. The Plan was not named in the lawsuit. Because the filing has just occurred, materiality cannot be ascertained at this time.

No other subsequent events were identified through September 17, 2020, the date the accompanying financial statements were available to be issued.
