ABX Air, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of ABX Air, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established August 15, 2003, as a trustee, noncontributory defined contribution profit sharing plan for employee retirement for eligible employees of ABX Air, Inc. (the Company). The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

A crew member is eligible to participate in the Plan following twelve (12) months of employment, as defined in the Plan, provided that such employee is covered under a collective bargaining agreement between the Company and the International Brotherhood of Teamsters Local 1224.

In addition, employees who are not covered under the collective bargaining agreement but actively participated in the Airborne Express Profit Sharing Plan immediately prior to the effective date of this Plan and were employed on the effective date of the Plan are also eligible to participate in the Plan. However, these participants are not eligible to receive profit sharing contributions.

Contributions

Discretionary profit sharing contributions may be made to eligible employees who are in the service of the Company on the last day of the plan year. Such contributions are allocated to participant accounts based upon the ratio of the participant's compensation to total compensation of all eligible participants. No discretionary profit sharing contributions were made for the year ended December 31, 2019. Contributions are subject to regulatory limitations.

Benefits Paid to Participants

On termination of service, the value of a participant's individual account is payable, at each participant's or beneficiary's option, in a single lump sum payment equal to the value of the participant's vested account balance or in other forms of payment as allowed by the Plan.

Investments

The Plan provides that profit sharing contributions be invested for the benefit of the participants in a general account. The allocation of contributions and investments between investment categories is at the direction of the Advisory Committee.

Participants who have attained age 55, completed five years of service, and declared their intent to retire within 18 months may elect a one-time transfer of their account balance to the Special Retirement Fund (SRF). Amounts allocated to the SRF are invested in money market securities, certificates of deposit, or guaranteed investment contracts at the direction of the Advisory Committee.

Note 1 – Description of Plan (continued)

Vesting

Participants vest in the Company's profit sharing contributions and related earnings after three years of service, at which time they are 100% vested.

Forfeitures

The nonvested portion of account balances of terminated employees is allocated to the participants with profit sharing account balances in the same manner in which the Company's profit sharing contributions are allocated.

Participant Accounts

Each participant's account is credited with allocations of the Company's contributions and earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined by the Plan.

Termination of the Plan

Although there is no current intention to do so, the Plan may be terminated at the option of the Board of Directors of the Company. In the event of Plan termination, all assets become fully vested and are paid directly to the participant or transferred into another qualified plan or account.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation

Investments are reported at fair value. The Plan's trustee, Northern Trust Company (the Trustee), certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

ABX Air, Inc. Profit Sharing Plan

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Plan interest in Master Trust investment income consists of an allocation of dividends, interest, and both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of Benefits

Benefits are recorded when paid. As of December 31, 2019 and 2018, benefit claims totaling \$67,861 and \$163,634, respectively, had been received from participants for payment during the following year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Subsequent Events

The Plan has evaluated subsequent events through September 21, 2020, which is the date the financial statements were available to be issued. See Note 10.

Note 3 – Interplan Transfers

The assets transferred from the Plan and shown on the financial statements as interplan transfers are attributable to employees who have changed employment status and have transferred individual account balances to the ABX Air, Inc. Retirement Income Plan (RIP) or ABX Air, Inc. Pilots Minimum Monthly Retirement Income Plan (PMMRIP).

Note 4 – Tax Status

The Internal Revenue Service determined and informed the Company by a letter dated September 30, 2016, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The ABX Air, Inc. Defined Benefit Master Trust (the Master Trust) holds the assets of the Plan, the PMMRIP and the RIP. The assets of the Master Trust are held by the Trustee.

The accompanying statements of net assets available for benefits reflect the Plan's apportioned share of the underlying plan assets and liabilities of the Master Trust. Allocations of net income from the Master Trust are based on the Plan's net assets at the beginning of the year with adjustments for contributions and benefit payments made during the year. Note 7 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.
- Level 2** Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 7 – Fair Value Measurements (continued)

Following are descriptions of valuation methodologies used for the Master Trust's assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds – Shares of mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trusts – Units held in collective trusts (CT) are valued using the net asset value practical expedient (NAV practical expedient) of the CT as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a CT is calculated based on compilation of primarily observable market information.

Common Stocks – Common stocks are valued at the closing price reported on the active markets on which the individual securities are traded.

Corporate and Government Obligations – Investments in U.S. Treasury obligations are valued at closing prices as quoted on active markets. Quoted market prices are generally not available for corporate, municipal, government agency, and mortgage-backed securities. These investments are valued using pricing models maximizing the use of observable inputs for similar securities which includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Private Equity Limited Partnership – NB Crossroads LP

The NB Crossroads Fund XVIII – Plan Asset Allocation LP (NB Crossroads LP) is a limited partnership formed July 21, 2006 for the purpose of acquiring, holding, selling, and exchanging interests in limited partnerships or other pooled investment vehicles that make investments in buyouts, special situations, and venture capital investment funds, as well as securities.

The interest in the NB Crossroads LP is valued using the Master Trust's proportionate share of the fair value of NB Crossroads LP's underlying investments and other assets. The fair value of NB Crossroads LP's investments represents the value reported by the general partner based on the cost of securities, prices of recent third party transactions, subsequent developments concerning the companies to which the securities relate, and financial data and projections provided to the general partner. The partnership interest for the NB Crossroads LP is classified within level 3 of the valuation hierarchy and is allocated only to PMMRIP and RIP.

Transfers of the Master Trust's partnership interest in the Crossroads LP may be made with written approval of the investment advisor.

Private Equity Limited Liability Company – Columbia LLC

Columbia Institutional High Yield Fixed Income Private Fund, LLC (Columbia LLC) is a limited liability company formed March 27, 2012 for the purpose of investing in high yield debt securities issued by domestic and international business entities, including corporate bonds, bank debts, and government bonds.

The interest in the Columbia LLC is valued using the Master Trust's proportionate share of the fair value of Columbia LLC's underlying investments and other assets. The fair value of Columbia LLC's investments is reported at fair value based on quoted market prices, when available, as well as factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data. The interest for the Columbia LLC is classified within Level 3 of the valuation hierarchy and is allocated only to the Plan.

The Master Trust has no outstanding commitments to the Columbia LLC. A member may ordinarily withdraw all or part of its capital account at the end of any calendar month upon 30 days' notice, subject to the managing members' right to suspend withdrawals.

Note 8 – Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risk. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of investments in the near term could materially affect participants' account balances and the amounts reported in the financial statements.

Note 9 – Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The plan administrator has obtained a certification from the Trustee that the following information is complete and accurate:

- Plan interest in Master Trust in the statements of net assets available for benefits as of December 31, 2019 and 2018.
- Plan interest in Master Trust investment income included in the statement of changes in net assets available for benefits for the year ended December 31, 2019.

Note 10 – Subsequent Event

During March 2020, the World Health Organization classified a global health emergency stemming from a new strain of coronavirus that was spreading globally (COVID-19) as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. Because the values of the individual investments in the Master Trust have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.
