Note 1. Description of the Plan

The following description of the Metagenics, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1991 to qualify as a defined contribution plan for eligible employees of Metagenics, Inc. (the "Company" or "Employer"). The Plan has a pre-tax salary reduction provision as defined under Section 401(k) of the Internal Revenue Code (the "IRC"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Eligibility

Each of the Company's employees is eligible to participate in the Plan upon attaining the age of 18, except for leased and seasonal employees. Seasonal employees may become eligible upon attaining the age of 21 and completion of 1,000 hours of service during a 12-month eligibility computation period and leased employees are not eligible to participate in the Plan. Employees may enter the Plan on the first day of each month coincident with or following the date the eligibility requirements are satisfied.

Contributions

The Company's eligible employees may make elective deferral contributions each year on a pre-tax basis by salary reduction on a percentage of up to 100% of their compensation, as defined by the Plan, subject to the limitations set forth by the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, also subject to IRC limitations. Participants have the option to designate all or any portion of their elective deferral contributions to be withheld on an after-tax basis as Roth elective deferral contributions.

The Plan adopted "Safe Harbor" provisions which include a qualified automatic contribution arrangement ("QACA"). Under this feature, newly hired eligible employees are automatically enrolled in the Plan with a minimum 6% pre-tax deferral rate. New hires can opt out upon a written request.

The Company makes a safe harbor matching contribution (QACA Fixed Match) based on the following formulas:

1. 100% safe harbor matching contribution on the first 1% of participant deferral contributions.
2. 50% safe harbor matching contribution on the next 5% of participant deferral contributions.

Note 1. Description of the Plan (continued)

The Company may also make a discretionary contribution without regard to the Company's current or accumulated profits as determined each year by resolution of the Company's board of directors. The discretionary contribution is allocated to the Employer Contribution Account for all eligible employees or to only non-highly compensated participants, in proportion to each eligible employee's compensation as a ratio of all eligible employees' compensation.

The Company may also make a discretionary matching contribution. The matching contribution is allocated to the Employer Contribution Account for all eligible employees based on a percentage of the participant's elective deferral.

Participant Allocations

Each participant's account is credited with the participant's allocation of (a) the Company's safe-harbor and discretionary contributions, (b) the participant's contribution, and (c) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations of the Company discretionary profit-sharing contributions are based on the participant's compensation and the total compensation of all participants. Other allocations are based on participant's earnings or account balances as defined by the Plan.

Participant Directed Accounts

A participant may choose among various funds in which his or her respective contribution and Company contribution may be invested subject to the limitations described in the Plan. The Company's contribution is allocated among investment options on the same basis as the participant's contributions are allocated.

Vesting

Participants are 100% vested in their contributions and earnings on their contributions.

Participants become vested in their Company safe harbor matching contributions (QACA Fixed Match) and earnings thereon as follows:

Years of Vesting Service	Percent Vested
Less than one year	0%
At least one year	50%
At least two years or more	100%

Note 1. Description of the Plan (continued)

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Company discretionary and matching contribution accounts and earnings on Company contributions are used to reduce the Plan's ordinary and necessary administrative expenses, with remaining amounts used to reduce future Company contributions. During the year ended December 31, 2019, approximately $73,800 and $49,300 of forfeitures were used to reduce Plan expenses and Company contributions, respectively. As of December 31, 2019 and 2018, there were approximately $8,500 and $91,400, respectively, of unallocated forfeitures available.

Payment of Benefits

Upon termination of service, death, disability, or reaching retirement age, a participant may elect to receive a lump sum payment equal to the value of the participant's vested interest in their account. Normal retirement under the Plan is age 65, and early retirement is the date the participant attains age 60 and completes 5 years of vesting service.

In addition to the option of a lump sum payment, participants who had money purchase pension assets transferred into the Plan also have the option of receiving payment in the form of an annuity.

Terminated participants with a total vested benefit of less than $5,000 are subject to an involuntary cash-out distribution even if the participant does not consent to a distribution. Any distribution greater than $1,000 but less than $5,000 that is made without the participant's consent will be rolled over to an individual retirement plan with an affiliate of the Plan's trustee.

In-service withdrawals are permitted at any time from a participant's rollover contribution account. Upon attainment of age 59 ½, in-service withdrawals are permitted from all of a participant's vested account balances. In the event of undue financial hardship, in-service withdrawals, subject to a minimum $500 amount, are permitted from a participant's deferral contribution account as well as the vested portion of their profit sharing and match accounts.

Contribution Funding

The Company makes contributions to the Plan for employee and Company safe harbor matching contributions after each pay period. Company discretionary contributions, if any, are funded subsequent to year end.

Safe Harbor Election

The Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan must meet certain requirements relating to employer contributions and vesting schedule and meet the applicable "Safe Harbor" requirements. If the Plan meets the "Safe Harbor" requirements it is not subject to the ADP or ACP discrimination tests required by the IRC.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets. Other than unallocated forfeitures discussed in Note 1, the net assets of the Plan are allocated entirely to individual participants' accounts.

Investment Valuation and Income Recognition

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest are paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measured them at their unpaid principal balance plus any accrued interest.

Note 2. Summary of Significant Accounting Policies (continued)

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan. Expenses related to the administration of notes receivable from participants, distributions and asset based recordkeeping fees are charged directly to participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

The Plan entered into an agreement with Fidelity Management Trust Company in which the Plan is credited with revenue sharing amounts paid by certain investment funds held in the Plan. These amounts are eligible to be used to pay Plan administrative fees related to unallocated revenue sharing credits and/or allocated to participants. As of December 31, 2019 and 2018, there were approximately $3,800 and $1,000, respectively, of unallocated revenue sharing credits available. For the year ended December 31, 2019, approximately $15,300 in revenue sharing credits are included as a reduction of administrative expenses.

Subsequent Events

The Company has evaluated all events subsequent to December 31, 2019, the date of the statement of net assets available for benefits, through the date of the Independent Auditor's Report, the date which the financial statements were available to be issued and noted the following events occurring subsequent to year end:

In December 2019, a novel strain of coronavirus was reported in Wuhan, China. The World Health Organization has declared the outbreak to constitute a "Public Health Emergency of International Concern." The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of businesses, schools and public gatherings. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. As a result of the business disruption caused by the COVID-19 pandemic, the Company has experienced a significant reduction in its workforce in 2020. With the significant reduction of the Company's workforce, the Plan may have incurred a partial plan termination in 2020. If a partial plan termination has occurred, the respective participants affected by the partial plan termination would become 100% vested. If the Company is able to rehire a majority of the workforce once the business disruption eases, the partial plan termination issue may be mitigated.

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security ("CARES") Act was enacted and signed into law. Certain provisions of the CARES Act allows qualified retirement plans to adopt specific provisions of the CARES Act to provide relief to certain participants. Any provisions adopted will require subsequent amendment of the plan document. The Plan has subsequently applied the following provisions of the CARES Act to the administration of the Plan in 2020:

- In-service withdrawals are allowed for participants affected by the COVID-19 pandemic up to $100,000 which are not subject to the "early withdrawal" penalty.

- Participant loan repayments have been deferred through December 31, 2020 for electing participants that have been affected by the COVID-19 pandemic.

Note 2. Summary of Significant Accounting Policies (continued)

- Required Minimum Distributions have been suspended for the 2020 Plan year, unless a participant specifically requests the distribution or has a systemic withdrawal already in place.

Note 3. Information Certified by the Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule:

The participant loans are certified by the trustee, and are included as investments on the supplemental schedule, Form 5500 Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA*

Note 4. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2019 and 2018:

Money market fund: This investment is valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

Mutual funds: These investments are valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

Common/collective trust funds: These investments are public investment securities. Other than the investment in the stable asset fund, these funds are valued using the Net Asset Value ("NAV") as the practical expedient as provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Note 4. Fair Value Measurements (continued)

The stable asset fund is valued at NAV as a practical expedient based on contract value, which represents invested principal plus accrued interest, less expenses thereon. In determining contract value, the fund manager considers such factors as the benefit responsiveness of the contract, the ability of the parties to the contract to perform in accordance with the terms of the contract and the likelihood of default by the issuer of an investment security. While the fair value of the investments in this common/collective trust is determined by the investee's trustee based on the fair value of the underlying securities within the investment, at the fund level, the fair value of the investment as reported by the investment custodian at the Plan level is based on NAV as the practical expedient which is contract value. Contract value is the relevant fair value for such an investment as that is the value of that participant's transactions are reported.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following are the Plan's financial instruments carried at fair value categorized by the fair value hierarchy as of December 31, 2019 and 2018:

	Fair Value Measurements Using Input Type			
December 31, 2019	**Level 1**	**Level 2**	**Level 3**	**Total**
Money market fund	$ 3,792	$ ---	$ ---	$ 3,792
Mutual funds	20,586,763	---	---	20,586,763
Total investments categorized in the fair value hierarchy	$ 20,590,555	$ ---	$ ---	20,590,555
Common/collective trust funds valued at NAV*				21,297,376
Total investments, at fair value				$ 41,887,931

Note 4. Fair Value Measurements (continued)

	Fair Value Measurements Using Input Type			
December 31, 2018	**Level 1**	**Level 2**	**Level 3**	**Total**
Money market fund	$ 1,031	$ ---	$ ---	$ 1,031
Mutual funds	18,424,382	---	---	18,424,382
Total investments categorized in the fair value hierarchy	$18,425,413	$ ---	$ ---	18,425,413
Common/collective trust funds valued at NAV*				15,697,339
Total investments, at fair value				$ 34,122,752

**Certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the Statements of Net Assets Available for Benefits.*

The common/collective trust funds offered under the Plan are subject to a daily redemption frequency. The Wells Fargo Stable Value common/collective trust fund offered under the Plan is subject to a 90-day redemption restriction period to competing investment funds and at the Plan level is subject to a 12-month redemption notice period. The LA Core Bond and FlexPath common/collective trust funds offered under the Plan require a 5-day redemption notice by the Plan sponsor for withdrawals in excess of $1 million. There are no other redemption restrictions, redemption notice requirements or unfunded commitments related to common/collective trust funds as of December 31, 2019 and 2018.

Note 5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Tax Status

The Plan has adopted a volume submitter plan document which has received a favorable opinion letter dated March 31, 2014 from the Internal Revenue Service ("IRS"). The IRS opinion letter provides that an employer adopting the prototype plan document may rely on the opinion letter with respect to the qualification of the Plan under Internal Revenue Code Section 401(a). The Plan has been amended since receiving the opinion letter. However, the plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 8. Party-In-Interest Transactions

Certain Plan assets are invested in products sold by and managed by Fidelity Investments. Fidelity Management Trust Company, the trustee of the Plan, is a wholly owned subsidiary of Fidelity Investments.

Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to the trustee, other investment custodians and investment advisors.

Additionally, as noted in Note 2, certain administrative expenses related to participant initiated transactions are paid directly to Fidelity Management Trust Company.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

Note 9. Reconciliation of Financial Statements to the Form 5500

Due to timing differences, the financial statements for the years ending December 31, 2019 and 2018 reflect a difference in net change in net assets available for benefits as compared to the Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2019	December 31, 2018
Net assets available for benefits per financial statements	$ 42,865,989	$ 34,851,658
Less: Employer contributions receivable at year end	(146,629)	---
