Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficiency in net assets) of the Plan as of December 31, 2019 and 2018 and the changes in net assets (deficiency in net assets) for the year ended December 31, 2019 in accordance with accounting principles generally accepted in the United States of America.

The Original Mattress Factory Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2019 and 2018

Note 1 - Plan Description

The Original Mattress Factory Employee Stock Ownership Plan and Trust (the "Plan") is an employee stock ownership plan and trust covering generally all full-time employees, other than former stockholder employees, of The Original Mattress Factory, Inc. (the "Company") who have completed 1,000 or more hours of service and are age 21 or older.

DRMF, Inc.; HSMF, Inc.; and VAMF, Inc., along with The Original Mattress Factory, Inc. (the "Employer" or OMF), established the Plan effective January 1, 2011. Effective December 31, 2012, AHMF, Inc. entered the Plan as a new participating employer, along with DRMF, Inc.; HSMF, Inc.; and VAMF, Inc. (collectively, the "Participating Employers" or the "Companies"). The Plan operates as a leveraged employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an advisory committee, as determined by the Employer. An independent third-party trust company is the Plan's trustee (the "Trustee").

In January 2011, the Plan purchased 65,811.50 shares of the Participating Employers' common stock with a fair value of \$21,250,000 in exchange for notes totaling \$21,250,000. The borrowings were to be repaid over a period of 12 years by fully deductible contributions or the Companies' distributions to the trust fund. During 2012, the Plan amended one of the notes to extend the term and amend the interest rate.

On December 31, 2012, the Plan purchased 20,390.00 shares of AHMF, Inc. common stock with a fair value of \$8,436,150. The borrowings were to be repaid over a period of 15 years by fully deductible contributions or the Companies' distributions to the trust fund.

On July 31, 2017, OMF and related entities executed a tax-free reorganization under Internal Revenue Code Section 368(a). Pursuant to the reorganization, the existing operating S corporations that had originally comprised OMF Holding, LLC; Original Mattress Company, LLC; and 11 individual S corporations (OMF Atlanta, Inc.; OMF Charlotte, Inc.; OMF Cincinnati, Inc.; OMF Cleveland, Inc.; OMF Columbus, Inc.; OMF Orlando, Inc.; OMF Pittsburgh, Inc.; OMF Raleigh, Inc.; OMF Richmond, Inc.; OMF St. Paul, Inc.; and OMF Virginia Beach, Inc.) prior to the transaction all ultimately became wholly owned subsidiaries of the Employer. As a result of the transaction, after the reorganization, only shares of the Employer remained. Each participant's interest in the Participating Employers' shares was exchanged for an equivalent value in the Employer's shares.

Following the restructuring transaction, on July 31, 2017, The Original Mattress Factory (North) Employee Stock Ownership Plan and Trust (North Plan) merged and combined with the Plan. Immediately prior to the merger, the outstanding shares the Companies' stock in The Original Mattress Factory (North) Employee Stock Ownership Plan and Trust were valued at fair value and exchanged for an equivalent value of shares of The Original Mattress Factory, Inc. at a price of \$148 per share. Subsequent to the exchange, all assets, liabilities, participants, and their related account balances were transferred to the Plan. The outstanding notes payable totaling \$16,545,584 from the North Plan and the outstanding notes payable on the Plan totaling \$12,624,811 were subsequently refinanced effective July 31, 2017 in connection with the plan merger, resulting in a single consolidated note payable under the new plan, as further discussed in Note 6.

Also concurrent with the restructuring transaction, the Plan purchased the remaining shares held by the former majority owner of the Employer, thereby increasing the Plan's share of ownership from approximately 44 percent to approximately 74 percent. The Company received a separate note payable from the Plan for \$44,297,436.

The Original Mattress Factory Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2019 and 2018

Note 1 - Plan Description (Continued)

The borrowings are collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the Plan. As the Plan repays the notes, a percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code. Accordingly, the financial statements of the Plan for the year ended December 31, 2019 present separately the assets and liabilities and changes therein pertaining to the accounts of employees in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

These notes will be funded through company contributions or distributions to the Plan.

General

The Plan is an employee stock ownership plan and trust covering generally all full-time employees, other than former stockholder employees, of The Original Mattress Factory, Inc. (the "Company") who have completed 1,000 or more hours of service and are age 21 or older.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year and have completed 1,000 or more hours of service in the plan year will receive an allocation. Allocations are based on a participant's eligible compensation relative to total eligible compensation.

Vesting

Vesting in the Companies' contribution portion of their accounts, plus actual earnings thereon, is based on years of service in which they have completed 1,000 or more hours of service. Participants vest in contributions made by the Companies 20 percent after two years of service and another 20 percent per year thereafter until they become fully vested after six years of service.

Diversification

Participants who have attained the age of 55 and have completed at least 10 years of participation in the Plan are eligible to diversify up to 25 percent of the value of the participant's account, less any prior diversification distributions for a six-year period. During the last year of the six-year diversification period, participants are eligible to diversify up to 50 percent of the value of the participant's account, less any prior diversification distributions. The Plan will either permit the participant to diversify his or her account and offer at least three investment options, or, in lieu of such offering, the elected amount may be distributed to the participant within 90 days of the participant's election to diversify.

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment. If a participant's vested accrued benefit is equal to or less than \$5,000, the benefit shall be made in a lump-sum payment of cash. If the vested accrued benefit exceeds \$5,000, then the benefit shall be paid in installments not to exceed five years, with payments equal to 20 percent of the vested benefit or \$5,000, whichever is greater. In no event shall any amounts allocated to a participant's account be distributed until the end of the plan year in which the loans detailed in Note 6 are repaid in full, except to make required minimum distributions and pay death benefits, as required by Section 401(a)(9) of the Code.

Under the provisions of the Plan, the Companies are required to distribute a participant's benefit in cash in accordance with the plan document. Cash may be obtained from the subaccounts of the remaining participants who would receive an allocation of the Companies' stock equal to the cash used to make the distribution. The Plan may also use cash obtained from the sale of the Companies' stock or from the Companies' contributions to the Plan.

December 31, 2019 and 2018

Note 1 - Plan Description (Continued)

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Companies allocate forfeitures to participants based on the participant's compensation, as defined. Allocations of forfeitures are considered additional company contributions and are subject to the vesting provisions of company contributions. At December 31, 2019 and 2018, forfeited account balances totaled \$396,103 and \$406,186, respectively.

Termination

The Companies may terminate the Plan at any time, although their expectation is to continue the Plan. Upon termination of the Plan, participants become 100 percent vested in their account balances. Furthermore, all liabilities, trustee fees, and other operating expenses incurred after the termination date may, at the discretion of the Companies, be paid by the Plan. Additionally, shares of financed stock held in the loan suspense account are to be sold to the extent they determine such a sale to be necessary in order to repay the loan. In the event of termination of the Plan, net assets would be distributed to the participants according to participant account balances.

Administration

The Plan's assets, which consist principally of the Participating Employers' common shares, are held by the Trustee of the Plan.

The Companies' contributions are held and managed by the Trustee, which invests cash received, interest, and corporate distribution income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is funded through contributions or S corporation distributions, as determined by the Companies.

Certain administrative functions are performed by officers or employees of the Companies or the Employer. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Voting Rights

The Trustee shall vote any common stock held in the Plan, regardless of whether such stock has been allocated to participants or remains unallocated. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account, with respect to any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transactions.

Companies' Distributions

The Companies are S corporations. Distributions from the Companies on allocated shares of stock must be allocated to each participant's account based on the number of shares of stock allocated to each participant's account as of the record date. Distributions from the Companies on unallocated shares of stock may be allocated to each participant's account based on a ratio of each participant's adjusted compensation in relation to the adjusted compensation of all participants as of the end of the year, or they may be used to make payments on an acquisition loan or pay plan expenses.

Party-in-interest Transactions

Certain plan assets are in investments in the Companies' stock. The Companies are the sponsor of the Plan; therefore, these transactions qualify as permissible party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties, and, as a result, actual results could differ from those estimates.

Included in the accompanying statement of net assets (deficiency in net assets) is an investment in the Companies' common stock reported at fair value of \$41,110,573 and \$45,199,328 as of December 31, 2019 and 2018, respectively. This asset is valued based upon a third-party appraiser's estimation of the current market value of the common stock and is supported by the Companies' financial statements. Due to estimates and assumptions made in developing such appraisals, it is at least reasonably possible that the market value of the investments may be different than reported.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets (deficiency in net assets).

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 23, 2020, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

	2019		2018

Fair value	19,832,558	21,278,015	20,553,683	24,645,645

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2019 and 2018.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include the financial condition of the Companies, the discounted cash flows and guideline company methods, and the marketability of the Companies.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Common Stock

The fair value of the Company's and Companies' common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of the Company's and Companies' assets and liabilities. The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The unobservable inputs for the discounted cash flow method were the weighted-average cost of capital, revenue growth, and discount for lack of marketability. The unobservable input for the guideline company method was revenue growth.

Note 5 - Fair Value Measurements (Continued)

Money Market Fund

The money market fund is valued at closing quoted prices reported in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurements at the reporting date.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2019				
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Company stock	\$ 41,110,573	\$ -	\$ -	\$ 41,110,573
Money market fund	358,737	358,737	-	-
Total	\$ 41,469,310	\$ 358,737	\$ -	\$ 41,110,573

Assets Measured at Fair Value on a Recurring Basis at December 31, 2018				
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Company stock	\$ 45,199,328	\$ -	\$ -	\$ 45,199,328
Money market fund	565,498	565,498	-	-
Total	\$ 45,764,826	\$ 565,498	\$ -	\$ 45,199,328

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

Impact of Disease Outbreak and Impact on Plan Assets

On March 11, 2020, the World Health Organization declared the outbreak of a respiratory disease caused by a new coronavirus a pandemic. First identified in late 2019 and known now as COVID-19, the outbreak has impacted thousands of individuals worldwide. In response, many countries have implemented measures to combat the outbreak that have impacted global business operations.

The Plan holds investments in the Company's common stock, and the fair value of the stock, in part, is dependent upon the Company's results of operations. Any impact on the fair value of the Company's stock in 2020 are not determinable at this time.

Note 6 - Notes Payable

Notes totaling \$2,360,000 matured on December 27, 2015 and have been paid in full.
