INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
the Hayward Quartz Technology, Inc.
401(K) Profit Sharing Plan and Trust

We have audited the accompanying financial statements of Hayward Quartz Technology, Inc. 401(K) Profit Sharing Plan and Trust (the 'Plan'), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting

policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Hayward Quartz Technology, Inc. 401(k) Profit Sharing Plan and Trust as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the year ended December 31, 2019 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), together referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

HAYWARD QUARTZ TECHNOLOGY, INC.
401(K) PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Note 1 – Description of Plan

The following description of the Hayward Quartz Technology, Inc. (Company) 401(k) Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan and was established on January 1, 1998 for the benefit of all eligible employees of the Company. Employees can enroll into the Plan after completion of three consecutive months of service. Generally, the Plan covers all employees of the Company who are at age 21 or older, except for employees who are:

- union employees covered by the terms of a collective bargaining agreement; or
- non-resident aliens who received no earned income from the Company; or
- employees as a result of an asset or stock acquisition, merger, or similar transaction.

It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Participants' contributions

Participants may contribute up to $19,000 of the pre-tax annual compensation for the year ended December 31, 2019. Participants who have attained age 50 before the end of plan year are eligible to make additional catch up contribution with an amount up to $6,000 for the year ended December 31, 2019.

c. Employer's contributions

Each plan year, the Company may contribute, as determined by the Board of Directors, to the Plan based on the total compensation of all the participants eligible to receive an allocation. The Company may, at its discretion, make qualified non-elective contributions to participants who are not highly compensated employees. The Company may also make profit sharing contributions to all qualified participants at its discretion.

Note 1 – Description of Plan (continued)

c. Employer's contributions (continued)

Both qualified non-elective and profit sharing contributions will be allocated to the participants according to the ratio that the participant's compensation for the plan year bears to the total compensation of all participants for such plan year. For the year ended December 31, 2019, no employer's qualified non-elective and profit sharing contributions was made.

d. Participant accounts

Each participant's account is credited with the participant's contributions, and an allocation of (1) the Company's non-elective and profit sharing contribution, (2) Plan earnings, and forfeiture of terminated participants' non-vested accounts and charged with an allocation of any administrative expense paid by the Plan. The allocations are based on terms as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately and fully vested in their contributions and gains or losses thereon allocated to their accounts. Participants vest in the employer's discretionary contributions according to the following schedule:

Years of Employment	Vested Percentages
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants will be fully vested with the employer's discretionary contributions in the event of death, disability, attainment of normal retirement age or complete or partial termination of the Plan. Forfeitures are allocated to the qualified participants in the ratio that the participant's compensation for the plan year bears to the total compensation of all participants for such plan year. For the year ended December 31, 2019, no forfeitures were allocated to the participants' accounts.

f. Investment options

Participants may direct the investment of their contributions into various investment options offered by the Plan, and make changes on their investment options and allocations at any time.

Note 1 – Description of Plan (continued)

g. Rollovers

With the approval of the plan administrator, the Plan may receive any amounts received by an employee as distribution from another qualified plan provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

h. Notes receivable from participants

All participants with a vested balance of at least $2,000, except stockholders who own 5% or more stock of the Company, may borrow from their accounts. Loan fees and interest due are paid by the participant. Each participant may have only one loan outstanding at any given time. The minimum loan amount is $1,000, but not exceeding the lesser of:

- one-half of the participant's vested account balance; or
- $50,000 (reduced by the highest outstanding loan balance during the one year period ending on the day the loan agreement is executed).

The maximum repayment period is generally 4½ years for a general purpose loan. If the loan is obtained for the purpose of purchasing a primary residence, the maximum repayment period is 10 years. The loan will bear interest at a fixed rate of 1% above the prime rate as published on the first business day of the month. Principal and interest are paid ratably through payroll deductions on a per pay period basis. Borrower may prepay all or a portion of the outstanding loan without penalty. All loans are secured by 50% of the participant's vested account balance. On August 26, 2009, the Plan was amended to disallow new loans to participants, but the amendment does not affect any loans that were issued prior to August 26, 2009.

i. Payment of benefits

Upon separation from employment due to termination of employment, death, disability, retirement or attainment of the age of 59½, the participant has three options concerning the account balance when a distribution is made:

- The participant may elect to roll the vested account balance to another qualified retirement plan or to an individual retirement account;
- The participant may elect to have the vested account balance distributed and income taxes will be withheld accordingly; or

Note 1 – Description of Plan (continued)

i. Payment of benefits (continued)

- If the account balance is greater than $5,000, the participant can leave the vested account balance in the Plan until the participant authorizes a distribution.

The Plan allows participants to take an in-service withdrawal even if they are actively employed with the Company upon attainment of the age of 59½, employer profit sharing and contributions may be withdrawn from the account.

The Plan does not allow for hardship withdrawals.

j. Administration and costs of plan administration

The Company and the Plan trustee are responsible for administering the Plan.

The Company absorbs all costs of the Plan. Accordingly, such expenses are not reported in the Plan's statement of changes in net assets available for benefits.

k. Plan amendment

The Plan was amended on January 1, 2015 to incorporate the language and provisions from the Pension Protection Act (PPA) of 2006 and other law changes listed in the 2010 Cumulative List of Changes in Retirement Plan Qualification Requirements. In accordance to the PPA restatement period, pre-approved defined contribution plans must be rewritten for new laws and regulations and submitted for review every six years. The Internal Revenue Service has issued an opinion letter dated on April 10, 2014 signifying that the restated Plan has been approved and that plan sponsors may reply on them.

Note 2 – Summary of Significant Accounting Policies

a. Basis of accounting

The financials statements of the Plan are prepared in accordance with the US Generally Accepted Accounting Principles.

b. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (continued)

c. Investment valuation and income recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

d. Excess Contributions Payable

Each year, when the participant contributions exceed the amount allowed by the IRS, the excess is recorded as payable with a corresponding reduction of contributions. This excess amount is to be distributed to the participants by the due date as prescribed by the IRS. At December 31, 2019 and 2018, there were no excess contributions payable.

e. Payment of Benefits

Benefits are recorded when paid.

f. Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation or depreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

Note 2 – Summary of Significant Accounting Policies (continued)

g. Recent Accounting Pronouncements

In July 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ASU 2018-09, which among other things amends an illustrative example of a fair value hierarchy disclosure contained in FASB Accounting Standards Codification (ASC) Subtopic 962-325, Plan Accounting – Defined Contribution Pension Plans – Investments – Other to avoid the interpretation that common collective trust funds would never have a readily determinable fair value and, would always be considered eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for the net asset value per share practical expedient in accordance with ASC 820 Fair Value Measurements. This pronouncement is not applicable to this Plan.

In August 2018, the FASB issued the new accounting guidance ASU 2018-13, "Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement", to modify the disclosure requirements on fair value measurements in FASB ASC 820, Fair Value Measurement. The amendments in this ASU are effective for all entities for fiscal years beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted. This pronouncement is not applicable to this Plan.

h. Date of Management's Review of Subsequent Events

The Coronavirus Disease 2019 ("COVID-19") has adversely affected, and may continue to adversely affect economic activity globally, nationally and locally. These economic and market conditions and other effects of the COVID-19 pandemic may adversely affect the volatility of Plan assets. The extent of any adverse impact of the COVID-19 pandemic on the Plan's participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits are unknown at this time. Operation of the Plan has not been adversely impacted.

Note 2 – Summary of Significant Accounting Policies (continued)

h. Date of Management's Review of Subsequent Events (continued)

Additionally, on March 27, 2020, the Coronavirus Aid, Relief and Economic Security ("CARES") Act was enacted which provides for Plan, Plan Sponsor, and participant relief. The Plan has adopted the withdrawal provision of the CARES Act. This allows qualified participants to make distributions up to $100,000 from January 1, 2020 to December 31, 2020. The distributions are not subject to the early 10% distribution penalty as set forth in the IRC, have no mandatory withholding at the time of distribution, and can be included in taxable income over a three year period.

The Plan management has evaluated subsequent events through September 5, 2020, the date at which the financial statements were available to be issued.

Note 3 – Fair Value Measurements

That framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3 – Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018:

Money market and mutual fund: Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table lists the fair value of investment assets as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 138,514	$0	$0	$ 138,514
Mutual funds	5,562,361	0	0	5,562,361
Total investments at fair value	$5,700,875	$0	$0	$5,700,875

The following table lists the fair value of investment assets as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 258,496	$0	$0	$ 258,496
Mutual funds	4,406,949	0	0	4,406,949
Total investments at fair value	$4,665,445	$0	$0	$4,665,445

Note 4 – Related-Party Transactions and Party in Interest Transactions

Paychex Securities Corporation is the record keeper for the Plan, therefore, these transactions qualify as party-in-interest transactions. The Company pays directly for other expenses related to the Plan's operation.

All these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 5 – Income Tax Status

The Plan obtained its latest determination letter on April 10, 2014, in which the Internal Revenue Service stated that the Plan and the related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated asset of the Plan should be allocated to participant account and distributed in such a manner as the Company may determine.

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
the Hayward Quartz Technology, Inc.
401(K) Profit Sharing Plan and Trust

We have audited the accompanying financial statements of Hayward Quartz Technology, Inc. 401(K) Profit Sharing Plan and Trust (the 'Plan'), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting

policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Hayward Quartz Technology, Inc. 401(k) Profit Sharing Plan and Trust as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the year ended December 31, 2019 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), together referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

HAYWARD QUARTZ TECHNOLOGY, INC.
401(K) PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Note 1 – Description of Plan

The following description of the Hayward Quartz Technology, Inc. (Company) 401(k) Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan and was established on January 1, 1998 for the benefit of all eligible employees of the Company. Employees can enroll into the Plan after completion of three consecutive months of service. Generally, the Plan covers all employees of the Company who are at age 21 or older, except for employees who are:

- union employees covered by the terms of a collective bargaining agreement; or
- non-resident aliens who received no earned income from the Company; or
- employees as a result of an asset or stock acquisition, merger, or similar transaction.

It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Participants' contributions

Participants may contribute up to $19,000 of the pre-tax annual compensation for the year ended December 31, 2019. Participants who have attained age 50 before the end of plan year are eligible to make additional catch up contribution with an amount up to $6,000 for the year ended December 31, 2019.

c. Employer's contributions

Each plan year, the Company may contribute, as determined by the Board of Directors, to the Plan based on the total compensation of all the participants eligible to receive an allocation. The Company may, at its discretion, make qualified non-elective contributions to participants who are not highly compensated employees. The Company may also make profit sharing contributions to all qualified participants at its discretion.

Note 1 – Description of Plan (continued)

c. Employer's contributions (continued)

Both qualified non-elective and profit sharing contributions will be allocated to the participants according to the ratio that the participant's compensation for the plan year bears to the total compensation of all participants for such plan year. For the year ended December 31, 2019, no employer's qualified non-elective and profit sharing contributions was made.

d. Participant accounts

Each participant's account is credited with the participant's contributions, and an allocation of (1) the Company's non-elective and profit sharing contribution, (2) Plan earnings, and forfeiture of terminated participants' non-vested accounts and charged with an allocation of any administrative expense paid by the Plan. The allocations are based on terms as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately and fully vested in their contributions and gains or losses thereon allocated to their accounts. Participants vest in the employer's discretionary contributions according to the following schedule:

Years of Employment	Vested Percentages
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants will be fully vested with the employer's discretionary contributions in the event of death, disability, attainment of normal retirement age or complete or partial termination of the Plan. Forfeitures are allocated to the qualified participants in the ratio that the participant's compensation for the plan year bears to the total compensation of all participants for such plan year. For the year ended December 31, 2019, no forfeitures were allocated to the participants' accounts.

f. Investment options

Participants may direct the investment of their contributions into various investment options offered by the Plan, and make changes on their investment options and allocations at any time.

Note 1 – Description of Plan (continued)

g. Rollovers

With the approval of the plan administrator, the Plan may receive any amounts received by an employee as distribution from another qualified plan provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

h. Notes receivable from participants

All participants with a vested balance of at least $2,000, except stockholders who own 5% or more stock of the Company, may borrow from their accounts. Loan fees and interest due are paid by the participant. Each participant may have only one loan outstanding at any given time. The minimum loan amount is $1,000, but not exceeding the lesser of:

- one-half of the participant's vested account balance; or
- $50,000 (reduced by the highest outstanding loan balance during the one year period ending on the day the loan agreement is executed).

The maximum repayment period is generally 4½ years for a general purpose loan. If the loan is obtained for the purpose of purchasing a primary residence, the maximum repayment period is 10 years. The loan will bear interest at a fixed rate of 1% above the prime rate as published on the first business day of the month. Principal and interest are paid ratably through payroll deductions on a per pay period basis. Borrower may prepay all or a portion of the outstanding loan without penalty. All loans are secured by 50% of the participant's vested account balance. On August 26, 2009, the Plan was amended to disallow new loans to participants, but the amendment does not affect any loans that were issued prior to August 26, 2009.

i. Payment of benefits

Upon separation from employment due to termination of employment, death, disability, retirement or attainment of the age of 59½, the participant has three options concerning the account balance when a distribution is made:

- The participant may elect to roll the vested account balance to another qualified retirement plan or to an individual retirement account;
- The participant may elect to have the vested account balance distributed and income taxes will be withheld accordingly; or

Note 1 – Description of Plan (continued)

i. Payment of benefits (continued)

- If the account balance is greater than $5,000, the participant can leave the vested account balance in the Plan until the participant authorizes a distribution.

The Plan allows participants to take an in-service withdrawal even if they are actively employed with the Company upon attainment of the age of 59½, employer profit sharing and contributions may be withdrawn from the account.

The Plan does not allow for hardship withdrawals.

j. Administration and costs of plan administration

The Company and the Plan trustee are responsible for administering the Plan.

The Company absorbs all costs of the Plan. Accordingly, such expenses are not reported in the Plan's statement of changes in net assets available for benefits.

k. Plan amendment

The Plan was amended on January 1, 2015 to incorporate the language and provisions from the Pension Protection Act (PPA) of 2006 and other law changes listed in the 2010 Cumulative List of Changes in Retirement Plan Qualification Requirements. In accordance to the PPA restatement period, pre-approved defined contribution plans must be rewritten for new laws and regulations and submitted for review every six years. The Internal Revenue Service has issued an opinion letter dated on April 10, 2014 signifying that the restated Plan has been approved and that plan sponsors may reply on them.

Note 2 – Summary of Significant Accounting Policies

a. Basis of accounting

The financials statements of the Plan are prepared in accordance with the US Generally Accepted Accounting Principles.

b. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (continued)

c. Investment valuation and income recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

d. Excess Contributions Payable

Each year, when the participant contributions exceed the amount allowed by the IRS, the excess is recorded as payable with a corresponding reduction of contributions. This excess amount is to be distributed to the participants by the due date as prescribed by the IRS. At December 31, 2019 and 2018, there were no excess contributions payable.

e. Payment of Benefits

Benefits are recorded when paid.

f. Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation or depreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

Note 2 – Summary of Significant Accounting Policies (continued)

g. Recent Accounting Pronouncements

In July 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ASU 2018-09, which among other things amends an illustrative example of a fair value hierarchy disclosure contained in FASB Accounting Standards Codification (ASC) Subtopic 962-325, Plan Accounting – Defined Contribution Pension Plans – Investments – Other to avoid the interpretation that common collective trust funds would never have a readily determinable fair value and, would always be considered eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for the net asset value per share practical expedient in accordance with ASC 820 Fair Value Measurements. This pronouncement is not applicable to this Plan.

In August 2018, the FASB issued the new accounting guidance ASU 2018-13, "Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement", to modify the disclosure requirements on fair value measurements in FASB ASC 820, Fair Value Measurement. The amendments in this ASU are effective for all entities for fiscal years beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted. This pronouncement is not applicable to this Plan.

h. Date of Management's Review of Subsequent Events

The Coronavirus Disease 2019 ("COVID-19") has adversely affected, and may continue to adversely affect economic activity globally, nationally and locally. These economic and market conditions and other effects of the COVID-19 pandemic may adversely affect the volatility of Plan assets. The extent of any adverse impact of the COVID-19 pandemic on the Plan's participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits are unknown at this time. Operation of the Plan has not been adversely impacted.

Note 2 – Summary of Significant Accounting Policies (continued)

h. Date of Management's Review of Subsequent Events (continued)

Additionally, on March 27, 2020, the Coronavirus Aid, Relief and Economic Security ("CARES") Act was enacted which provides for Plan, Plan Sponsor, and participant relief. The Plan has adopted the withdrawal provision of the CARES Act. This allows qualified participants to make distributions up to $100,000 from January 1, 2020 to December 31, 2020. The distributions are not subject to the early 10% distribution penalty as set forth in the IRC, have no mandatory withholding at the time of distribution, and can be included in taxable income over a three year period.

The Plan management has evaluated subsequent events through September 5, 2020, the date at which the financial statements were available to be issued.

Note 3 – Fair Value Measurements

That framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3 – Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018:

Money market and mutual fund: Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table lists the fair value of investment assets as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 138,514	$0	$0	$ 138,514
Mutual funds	5,562,361	0	0	5,562,361
Total investments at fair value	$5,700,875	$0	$0	$5,700,875

The following table lists the fair value of investment assets as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 258,496	$0	$0	$ 258,496
Mutual funds	4,406,949	0	0	4,406,949
Total investments at fair value	$4,665,445	$0	$0	$4,665,445

Note 4 – Related-Party Transactions and Party in Interest Transactions

Paychex Securities Corporation is the record keeper for the Plan, therefore, these transactions qualify as party-in-interest transactions. The Company pays directly for other expenses related to the Plan's operation.

All these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 5 – Income Tax Status

The Plan obtained its latest determination letter on April 10, 2014, in which the Internal Revenue Service stated that the Plan and the related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated asset of the Plan should be allocated to participant account and distributed in such a manner as the Company may determine.
