SAN ANGELO, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of Western Shamrock Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: Western Shamrock Corporation 401(k) Plan is a defined contribution plan covering all employees of Western Shamrock Corporation (the Company or Employer) who have completed 30 days of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to enter on the first day of the calendar quarter once the before mentioned criteria are met.

Contributions: Each year, participants may contribute up to the maximum amount allowed by IRS limitations of their annual compensation, as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes a match equal to 50% up to 6% of participant compensation. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer contribution portion of their accounts is based on continuous service. A participant is 100% vested after six years of credited service in accordance with the following schedule:

After 1 Year	0%
After 2 Years	20%
After 3 Years	40%
After 4 Years	60%
After 5 Years	80%
After 6 Years	100%

Notes Receivable from Participants: The Plan does not allow participant loans.

Payment of Benefits: On termination of service due to death, disability, retirement, or termination of employment, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. The plan allows in-service distributions once a participant has reached the age of 59 ½. Hardship withdrawals are not permitted.

Forfeited Accounts: At December 31, 2019 and 2018, forfeited non-vested accounts totaled $32,895 and $14,501, respectively. In the future, these accounts will be allocated to the participants. During the year ended December 31, 2019, none of the forfeited non-vested accounts were allocated to the participants as part of the Employer contribution.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at estimated fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to items such as recordkeeping are allocated to participants. Investment-related expenses are included in net appreciation of fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under GAAP are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

3. Fair Value Measurements (continued)

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the mutual fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,549,913	$ -	$ -	$ 2,549,913
Total Assets at Fair Value	$ 2,549,913	$ -	$ -	$ 2,549,913

Assets at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,965,806	$ -	$ -	$ 1,965,806
Total Assets at Fair Value	$ 1,965,806	$ -	$ -	$ 1,965,806

4. Guaranteed Accounts with Insurance Company

The Plan had previously entered into a fully benefit-responsive guaranteed investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

Because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract was presented on the face of the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by Great-West, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without consent of the issuer.

5. Related Party Transactions

During the year ended December 31, 2019, certain Plan investments were shares of mutual funds and guaranteed accounts held by Great-West Life & Annuity Insurance Company, the custodian, as defined by the Plan. As such, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

The Plan paid administrative fees totaling approximately $16,336 to the custodian and its affiliates during the year ended December 31, 2019, and these expenses are included in the statement of changes in net assets available for benefits. Fees paid for investment management services are included in the net appreciation in fair value of investments.

6. Income Tax Status

The Plan is a qualified cash or deferred arrangement established under Section 401(k) of the Internal Revenue Code and is exempt from income taxes under Section 401(a) of the Internal Revenue Code (IRC). The Plan has executed an adoption agreement using Loren D. Stark Company volume submitter profit sharing plan and relies on the determination letter dated March 31, 2014. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability, if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in Employer contributions.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Information Prepared and Certified by the Custodian

Pursuant to 29 CFR 2520.103-8, the Plan qualified for a limited scope audit. Information relating to investment assets, investment transactions, investment earnings and the schedule of assets (held at end of year) was certified as complete and accurate by the Plan's custodian, Great-West Life & Annuity Insurance Company, as of December 31, 2019 and 2018, and for the year ended December 31, 2019.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2019	2018
Net assets available for benefits per the financial statements	$ 2,724,343	$ 2,121,942
Plus: excess contribution payable	3,021	-
Less: employee contributions receivable	(-)	(11,786)
employer contributions receivable	(103,511)	(106,765)
Net assets available for benefits per the Form 5500	$ 2,623,853	$ 2,003,391

The following is a reconciliation of net income per the financial statements to the Form 5500 for the year ended December 31, 2019:

Net increase per financial statements	$ 602,401
Plus: net employer match by the Plan at December 31, 2018	106,765
Plus: prior year employee contribution receivable	11,786
Plus: excessive contributions payable	3,021
Less: net employer match by the Plan at December 31, 2019	(103,511)
Net income per the Form 5500	$ 620,462

11. Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, September 23, 2020, and determined that the following matter required additional disclosure in the financial statements. No other subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

In March, 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a global pandemic, which continues to spread throughout the United States. The COVID-19 pandemic has negatively impacted the global economy and created significant volatility and disruption of financial markets. The extent of the impact of the COVID-19 outbreak, if any, on the Plan's participants' account balances and the amounts reported in the 2019 statement of net assets available for benefits cannot be reasonably estimated.

In response to the COVID-19 pandemic, the United States Congress passed the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), an aids package designed to help the economy as it suffers from the effects of the COVID-19 pandemic. The CARES Act contains several provisions that affect employee benefit plans beginning in 2020, including temporary suspensions on limitations or expanded provisions related to hardship distributions and required minimum distributions.
