Note A – Description of Plan

The following description of the Hi-Grade Welding & Manufacturing, LLC 401(k) Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Document and any amendments for a more complete description of the provisions of the Plan.

General

The Plan is a defined contribution plan covering all full-time employees of Hi-Grade Welding & Manufacturing, LLC (the "Company"), who are age 20.5 or older and have completed 30 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Company management is responsible for oversight of the Plan as well as determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Contributions

Each year, participants may contribute a percentage of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation, which is increased annually by 1% until a deferral rate of 10% is reached, and their contributions are invested in a designated fund until changed by the participant. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

The Company may make discretionary non-elective employer contributions. For the years ended December 31, 2019 and 2018, the Company made discretionary non-elective employer contributions of $98,819 and $57,244, respectively, which are recorded as employer contributions receivable within the statements of net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contributions, including amounts rolled over from other qualified plans, the Company's discretionary non-elective employer contribution, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A – Description of Plan (Continued)

Vesting

Participants are 100% vested in their salary deferral, rollover contributions and earnings thereon upon becoming eligible for the Plan.

Vesting in the Company's discretionary non-elective employer contributions, plus earnings thereon, is based on years of continuous service as follows:

Years of Service	Amount Vested
0 – 1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to (i) the lesser of $50,000, or (ii) 50 percent of their vested account balance. Participants may have one loan outstanding at a time and may not apply for another loan until the existing loan is paid in full. The notes are secured by the balance in the participant's account and bear interest of 4.50% to 5.50%, which is commensurate with local prevailing rates as determined by the Plan Administrator.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive an amount equal to the vested portion of his or her account as of the latest valuation date. If employment is terminated for any reason other than death, disability, or retirement, a participant has the option to receive an amount equal to all participant contributions and the earnings thereon and the vested portion of Company contributions and related earnings. Benefit payments are in the form of lump-sum or installment distributions of the participant's total vested balance. The Plan also provides for certain in-service distributions.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited accounts totaled $13,183 and $5,737, respectively. Forfeited accounts are utilized to reduce Plan expenses and to reduce employer contributions. For the years ended December 31, 2019 and 2018, administrative expenses and employer contributions were reduced by $0 and $1,036, respectively, from forfeited nonvested accounts.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the amount of assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Company management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note D for additional information related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018, respectively. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRC are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

Payment of Benefits

Benefits are recorded when paid.

Note B – Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Note C – Information Prepared and Certified by Plan Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Fidelity Management Trust Company ("Fidelity"), the custodian of the Plan, that all of the investment and participant note receivable information provided by Fidelity and included in the accompanying financial statements and supplemental schedule is complete and accurate. Information as to the investments in the accounts of Fidelity, investment income (loss), notes receivable from participants and related interest income, and all financial information appearing in the accompanying financial statements and supplemental schedule is presented in reliance solely upon these certifications.

Note D – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note D – Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with industry practices, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

Note E – Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

Note F – Income Tax Status

The Plan adopted the Fidelity Volume Submitter Profit Sharing Plan With CODA prototype plan as its plan agreement. Fidelity received a favorable determination letter dated March 31, 2014, indicating that the plan prototype meets the requirements of Section 401 of the IRC and is, therefore, exempt from taxation. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore, they believe that the Plan is qualified and the related trust was tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note G – Party-in-Interest Transactions

Certain investments are managed by Fidelity Investments, a related party to Fidelity Management Trust Company. Fidelity is the custodian for the Plan and, therefore, these transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. During the years ended December 31, 2019 and 2018, the Plan made direct payments of $1,550 and $926 to the custodian. The Plan Sponsor may directly pay any fees related to the Plan's operations.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
