**KENTUCKY COUNTRY DAY SCHOOL  
403(b) DC PLAN**

**NOTES TO FINANCIAL STATEMENTS**

**Note 1. Description of Plan**

The following description of Kentucky Country Day School 403(b) DC Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

**General:**

The Plan is a defined contribution plan covering substantially all employees of Kentucky Country Day School, Inc. (School). All permissible employees of the School, as defined in accordance with the universal availability standards and the plan document, are eligible to enroll in the Plan on their date of hire. There is no minimum age or service requirement to make salary reduction contributions to the Plan. Deferrals begin upon enrollment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Finance, Audit and Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

**Contributions:**

The Plan is funded by discretionary participant contributions and employer matching contributions. Each year, participants may contribute up to 100 percent of pre-tax annual compensation, as defined in the Plan. Participants are also eligible to make Roth deferral contributions to the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants who have 15 years of service before year end are eligible to make additional Section 403(b) catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The School makes matching contributions equal to 100% of the first 6% of participant deferrals for participants who have twelve or less years of service. For participants with greater than twelve years of service, the School makes matching contributions equal to 100% of the first 7.5% of participant deferrals.

Contributions are subject to certain IRS limitations.

## **NOTES TO FINANCIAL STATEMENTS**

### **Participant accounts:**

Each participant's account is credited with the participant's contributions and School matching contributions, as well as allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the plan provisions. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account.

### **Notes receivable from participants:**

Generally, participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Participants should refer to the plan document for further limitations. Loan terms range from 1-5 years, but may be longer if the loan is made for the purchase of the participant's primary residence. The loans are secured by the balance in the participant's account and bear interest as determined by the Federal Reserve Board Bank prime loan rate plus 1 percent at the time of loan origination. Principal and interest are repaid by coupon payment directly to TIAA-CREF.

### **Vesting:**

Participants are immediately vested in all contributions plus actual earnings thereon.

### **Payment of benefits:**

Upon termination of employment or attaining normal retirement age, if the vested account balance is less than \$1,000, the distribution will be made in a lump sum. If the vested account balance exceeds \$1,000, the participant must elect to receive benefits in the form of a lump sum, partial payment, installment payments, annuity contract, or rollover to another eligible retirement plan or into an individual retirement account. Hardship distributions are permitted under the Plan if certain conditions are satisfied.

## **Note 2. Summary of Significant Accounting Policies**

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management who is responsible for the integrity and objectivity of the financial statements. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

## **NOTES TO FINANCIAL STATEMENTS**

### **Basis of accounting:**

The accompanying financial statements are prepared on the accrual basis of accounting.

### **Use of estimates:**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

### **Investment valuation and income recognition:**

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Finance, Audit and Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### **Notes receivable from participants:**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent notes receivable from participants are recorded based upon the terms of the plan document.

### **Payment of benefits:**

Benefits are recorded when paid.

## **NOTES TO FINANCIAL STATEMENTS**

### **Expenses:**

Certain expenses of maintaining the Plan are paid directly by the School and are excluded from these financial statements. Fees related to administration of notes receivable from participants are charged directly to participant's accounts and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

### **Subsequent events:**

The Plan has evaluated subsequent events through September 29, 2020, the date the financial statements were available to be issued.

### **Note 3. Certified Investments**

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments and interest and dividends for the years ended December 31, 2019 and 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF), the custodian of the Plan.

### **Note 4. Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active or inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

## NOTES TO FINANCIAL STATEMENTS

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Level 1 assets have been valued using a market approach and Level 3 assets have been valued using the cost approach. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

Fixed rate annuity accounts – fair value is equal to contract value and is based on the contributions made to the accounts, plus interest at the contract rates, less benefits paid to participants and administrative expenses charged by the custodian.

Separate accounts – valued at the net asset value (NAV) of units held. The NAV is based upon the changes in the net asset values of the underlying funds, depending on investment experiences and expenses of the underlying funds, and separate account charges under the contract. The NAV is used as a practical expedient to estimate fair value.

Mutual funds – valued at the daily closing price as reported by the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	2019

### **Investments Measured Using Net Asset Value Per Share Practical Expedient:**

All separate accounts have no unfunded commitments and can be redeemed daily, with no redemption notice period, without specific terms or conditions at the underlying investments' net asset value (NAV). The NAV is updated daily.

## NOTES TO FINANCIAL STATEMENTS

A description of the investment strategies for separate accounts whose value is derived using NAV are as follows:

Stock– seeks a favorable long-term rate of return by investing primarily in a diversified portfolio of common stocks.

Money market – seeks high current income consistent with maintaining liquidity and preserving capital.

Social choice – seeks a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria.

Bond market – seeks a favorable long-term rate of return primarily through high current income consistent with preserving capital.

Global equities– seeks a favorable long-term rate of return by investing primarily in a diversified portfolio of foreign and domestic common stocks.

Growth – seeks a favorable long-term rate of return by investing primarily in a diversified portfolio of common stocks that present the opportunity for exceptional growth.

Equity index – seeks a favorable long-term rate of return by investing in a diversified portfolio selected to track the overall market for common stocks.

Inflation-linked bond – seeks a long-term rate of return that outpaces inflation by investing primarily in inflation-indexed bonds whose returns are designed to track a specified inflation index over the life of the bond.

### **Note 5. Investment Contracts with Insurance Company**

The Plan has entered into fully benefit-responsive investment contracts with TIAA-CREF totaling \$792,189 and \$806,577 as of December 31, 2019 and 2018, respectively. TIAA-CREF maintains the contributions in a general account and a non-unitized separate account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1% to 3% over the life of the contracts. Such interest rate is reviewed on an annual basis for resetting. TIAA-CREF may terminate the contracts with 30 days advance written notice.

## NOTES TO FINANCIAL STATEMENTS

These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by TIAA-CREF, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expense. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are equity wash provisions for certain contracts that prevent the immediate transfer of amounts to any competing funds available in the Plan.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include plan amendments or termination, bankruptcy, spinoffs, divestitures, change in tax status of the Plan, or termination of the contract. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

### **Note 6. Related Party and Party-in-Interest Transactions**

Certain administrative functions are performed by officers or employees of the School. No officer or employee receives compensation from the Plan.

Certain plan investments are managed by TIAA-CREF. TIAA-CREF is the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the custodian for administrative services were \$40,891 and \$35,328 for the years ended December 31, 2019 and 2018, respectively. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing rather than a direct payment.

### **Note 7. Plan Termination**

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

## **NOTES TO FINANCIAL STATEMENTS**

### **Note 8. Income Tax Status**

Currently, 403(b) plans are not required to submit plans to the Internal Revenue Service for determination. However, the Plan is required to operate in conformity with the Internal Revenue Code (Code) to maintain the tax exclusion for plan participants. The plan administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### **Note 9. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

### **Note 10. Plan Loans**

Participants may request a loan based on the vested value of their individual accounts. Certain loans are issued directly by TIAA-CREF to the participant. These loans are secured by the participant's balance in the fixed rate annuity accounts. No funds are withdrawn from the participant's account unless the participant defaults on the loan.

The loan may range from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms range from 1 - 5 years, but may be longer if the loan is made for the purchase of the participant's primary residence. The loans bear interest as determined by TIAA-CREF, and are repaid by coupon payment directly to TIAA-CREF.

As of December 31, 2019 and 2018, \$491,214 and \$321,434, respectively, of investments in the fixed rate annuity accounts served as security for the outstanding loans to participants.

## **NOTES TO FINANCIAL STATEMENTS**

### **Note 11. Reconciliation of Financial Statements to Form 5500**

The Plan holds investments in pooled separate accounts, which are not direct filing entities. As such, per Form 5500 instructions, the Plan's interest in the underlying assets of the pooled separate accounts must be allocated and reported in the appropriate categories on Schedule H. Therefore, these investments are reflected as mutual funds on Form 5500, but as pooled separate accounts for financial statement purposes.

### **Note 12. Subsequent Events**

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the COVID-19 outbreak). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. Management is currently evaluating the impact of the COVID-19 pandemic on the Plan and has concluded that while it is reasonably possible that the virus could have a negative effect on the Plan's financial position, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

The Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), allow for changes to the Plan regarding loans and distributions. The optional features within these acts are currently being assessed by the plan sponsor but have not been implemented to date. Written amendments to the Plan to reflect these operational changes may be adopted at a later date in accordance with applicable law and IRS guidance.
