Valdes Engineering Company Retirement Plan
Notes to Financial Statements
December 31, 2019 and 2018

Note 1: Description of the Plan

The following description of the Valdes Engineering Company Retirement Plan (Plan) provides only general information. The plan agreement, which governs the Plan's provisions, should be referred to by participants for a more complete description.

General

The Plan is a defined contribution plan covering all employees of Valdes Engineering Company (Company) who have completed three months of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Ascensus, as agent for Ascensus Trust Company, is trustee of the Plan under a contractual agreement with the Company and manages all investments. Ascensus is the recordkeeper. The recordkeeping agreement provides that the recordkeeper shall keep account of all receipts and disbursements, benefit payments and other transactions and shall provide annually a report setting forth such transactions and the status of the fund at the end of the period.

Contributions

Participants may elect to make pre-tax or post-tax contributions ranging from 1% to 25% of their eligible compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary matching contributions up to 6% of eligible compensation. Contributions can be made on both a pre-tax and Roth basis and cannot exceed $19,000 in 2019. Age 50 and over participants can contribute an additional $6,000 in 2019.

Participant Accounts and Allocations

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings and charged with an allocation of plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their pre-tax and roth basis contributions and in amounts representing distributions from other qualified defined benefit or contribution plans plus actual earnings thereon. Additionally, participants who attain normal retirement age of 65 or who terminate employment due to death or disability are 100% vested in their entire account balance.

Vesting in the Company's discretionary matching contributions, plus actual earnings thereon, is based on years of cumulative service as follows:

Years of Service	Account Vested
Less than two years	None
Two years but less than three years	50%
Three years but less than four years	75%
Four years	100%

A year of service is defined as at least 1,000 hours of service during any plan year. Participants are credited with 190 hours of service for each calendar month the participant works at least 1 hour of service.

Investment Options

Upon enrollment in the Plan, participants may direct their participant and employer-match contributions, plus actual earnings thereon, into a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options daily.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution. A participant may also leave the value of their vested interest in the Plan.

Forfeited Accounts

Forfeitures are used to reduce employer contributions. At December 31, 2019 and 2018, there were $23,451 and $47,073, respectively, of forfeitures available to reduce future employer contributions. During 2019, the Plan used $44,911 of forfeited nonvested funds to reduce employer contributions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments are reported at fair value. The Plan's investments in shares of registered investment companies are valued at quoted market prices. Money market funds are stated at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain administrative fees are paid by the Company on behalf of the Plan. Administrative expenses of $60,694 paid by the Plan during 2019 are expensed as incurred. Certain investment fees are netted and reported in the net appreciation in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Note 3: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value.

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

The fair value of shares of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Money market funds are stated at cost which approximates fair value based on Level 2 inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2019				
Money market account	$ 765,818	$ -	$ 765,818	$ -
Registered investment companies	19,841,949	19,841,949	-	-
Investments at fair value	$ 20,607,767	$ 19,841,949	$ 765,818	$ -
December 31, 2018				
Money market account	$ 572,500	$ -	$ 572,500	$ -
Registered investment companies	16,387,527	16,387,527	-	-
Investments at fair value	$ 16,960,027	$ 16,387,527	$ 572,500	$ -

Note 4: Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, as agent for Ascensus Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2019 and 2018
- Interest and dividend income and net appreciation in fair value of investments, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2019
- The information included in the supplemental schedule of assets (held at end of year) as of December 31, 2019

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Parties-in-Interest

Fees paid by the plan sponsor for services rendered by the trustee and other parties-in-interest were for services required by the Plan. The Company provides certain administrative services at no cost to the Plan.

Note 6: Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA as amended by subsequent legislation. In the event of plan termination, participants will become 100% vested in their Company contribution accounts.

Note 7: Excess Contributions

For the years ended December 31, 2019 and 2018, the Plan failed certain nondiscrimination provisions resulting in excess contributions due to participants. At December 31, 2019 and 2018, refunds of $20,759 and $27,727, respectively, were due to certain participants to return to them excess deferral contributions in order to satisfy the relevant nondiscrimination provisions of the Plan. The amounts due at December 31, 2019 and 2018, were refunded to affected participants during 2020 and 2019, respectively.

Note 9: Income Tax Status

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit sharing plan and trust sponsored by Ascensus Inc. This prototype plan document has been filed with the appropriate agency and has obtained an opinion letter dated, March 31, 2014, from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and the related trust is tax exempt as of the financial statement date.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11: Subsequent Events

Effective January 1, 2020, eligibility requirements to participate in the Plan were changed to one month of consecutive service instead of three months of service.

As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

Subsequent events have been evaluated through August 19,2020, which is the date the financial statements were available to be issued.
