SANDY'S TOWING 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

1. DESCRIPTION OF PLAN

The following description of Sandy's Towing 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution savings plan established by Sandy's Towing & Truck Services, Inc. (the Sponsor) effective January 1, 2017 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan trustees oversee the governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's trustees. Prior to January 1, 2018 employees became eligible to make elective deferral contributions upon reaching 18 years of age and completing 90 days of service and could enter the Plan on the first day of the first or seventh month of the Plan year after reaching eligibility. Effective January 1, 2018 employees became eligible to make elective deferral contributions and enter the Plan immediately upon hire date. Employees covered by a collective bargaining agreement are ineligible if that agreement does not provide for participation in the Plan. Eligibility to receive safe harbor matching and qualified non-elective contributions coincides with the participation eligibility requirements. An eligible employee for profit sharing contributions is any person who has completed at least 500 hours of service during the Plan year and is employed by the Sponsor on the last day of the Plan year.

Contributions - Each year, participants may contribute to the Plan up to 100% of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed investment contract as investment options for participants. The Sponsor makes safe harbor matching contributions in an amount equal to 100% of elective deferral contributions that are not in excess of 3% of Plan compensation, plus 50% of elective deferral contributions that exceed 3% of Plan compensation but do not exceed 5% of Plan compensation. Safe harbor matching contributions were \$90,580 in 2019 and \$85,394 in 2018. The Sponsor also made qualified non-elective contributions to the Plan. Qualified non-elective contributions were \$13,542 in 2019 and \$0 in 2018. The Sponsor may make discretionary profit sharing contributions to the Plan. There were no discretionary profit sharing contributions in 2019 and 2018. Contributions are subject to certain statutory limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's safe harbor matching contributions, (b) the Sponsor's qualified non-elective contributions, (c) the Sponsor's discretionary profit sharing contributions and (d) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participants' compensation, earnings or account balances, as provided in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions, safe harbor matching contributions, and qualified non-elective contributions plus actual earnings thereon. Participants' vested interests in discretionary profit sharing contributions plus earnings thereon increase from 20% after the second year of service to 100% after the sixth year.

Payment of Benefits - Upon termination of employment, participants receive vested interests either in a lump-sum amount or over a period of time not to extend beyond the participant's life expectancy (or the life expectancy of the participant and his or her designated beneficiary). There were no benefits payable to terminated participants at December 31, 2019 and 2018. In-service distributions are permitted once a participant has attained 59½. Upon proof, to the satisfaction of the Plan administrator of an immediate financial need, amounts contributed may be withdrawn for a hardship purpose.

Forfeiture Accounts - Forfeitures are used to either reduce administrative expenses or the Sponsor's safe harbor matching or discretionary profit sharing contributions. There were no forfeitures used to reduce administrative expenses or safe harbor matching or discretionary profit sharing contributions in 2019 or in 2018. Forfeited nonvested accounts were \$8,401 and \$1,493 at December 31, 2019 and 2018, respectively.

Tax Status - The Internal Revenue Service has determined and informed the Sponsor by an opinion letter dated March 31, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. Tax years 2017 and later remain open and subject to examination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

The Plan has evaluated subsequent events through September 24, 2020, the date the financial statements were approved and authorized by the Plan administrator.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Contracts - Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan has a guaranteed investment contract with Voya Retirement Insurance and Annuity Company as part of its insurance company general account at December 31, 2019 and 2018. This contract is a fully benefit-responsive contract for the Voya Fixed Account Fund.

Investment Valuation and Income Recognition - Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employer contributions payable represents an erroneous duplicate contribution made by the Sponsor in 2018. The amount will be used to reduce administrative expenses or safe harbor matching contributions in 2020.

Payment of Benefits - Benefits are recorded when paid.

Expenses of the Plan - Certain expenses of maintaining the Plan are paid by the Sponsor and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments. Fees for the administration of benefits paid to participants are included in administrative expenses and are charged directly to the participant's account.

3. INVESTMENTS

The following information included in the Plan's financial statements and supplemental schedule as of and for the years ended December 31, 2019 and 2018 was obtained from data prepared by Voya Retirement Insurance and Annuity Company, the custodian of the Plan. The plan administrator has obtained certification from the custodian that such information is complete and accurate. The following represents the values of the investments in the separate identifiable funds administered by the custodian:

	2019	2018
Investments, at fair value	\$ 603,507	\$ 342,058
Investments, at contract value	38,497	25,534
Net appreciation (depreciation) in fair value of investments	88,038	(32,297)
Net appreciation in contract value of investments	340	204

4. FAIR VALUE MEASUREMENTS

The Plan's measurement of fair value for assets and liabilities is based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The three levels of the hierarchy are as follows:

- Level 1: observable inputs such as unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in active markets that are observable either directly or indirectly
- Level 3: unobservable inputs in which there is little or no market data, which requires the Plan to develop its own assumptions

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued based on quoted market prices of the underlying securities of the account, with adjustments for dividend rates and a management fee. The underlying mutual funds are deemed to be actively traded and are valued based on the closing price as reported by the fund.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different valuation methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts		\$ 603,507		\$ 603,507

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts		\$ 342,058		\$ 342,058

5. INVESTMENT CONTRACTS

The Plan has a fully benefit-responsive guaranteed investment contract with Voya Retirement Insurance and Annuity Company (Voya). Voya maintains the contributions in a general account, the Voya Fixed Account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Voya is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2019 and 2018 was \$38,497 and \$25,534, respectively. Prior to each January 1, the effective annual rate of interest for the Voya Fixed Account is established for the following year. Interest is credited based upon the daily balance at a rate that is the daily equivalent of the effective annual rate of interest applicable for the year. The contract minimum annual interest rate for the Voya Fixed account is 1%.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Voya. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. NONPARTICIPANT-DIRECTED INVESTMENTS

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	2019	2018
Net assets	<u>\$ 8,401</u>	<u>\$ 1,493</u>
Changes in net assets:		
Miscellaneous forfeiture deposits, net	\$ 6,841	\$ 1,474
Earnings	<u>67</u>	<u>19</u>
Net increase in net assets	<u>\$ 6,908</u>	<u>\$ 1,493</u>

7. PARTY-IN-INTEREST TRANSACTIONS

Certain investments are mutual funds managed by the custodian (or affiliates of the custodian) of the Plan. The mutual funds sell portfolio shares to separate accounts offered by the Plan. Therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2019 and 2018:

	2019	2018
Net assets available for benefits per the financial statements	\$ 647,828	\$ 359,874
Employer contributions payable	<u>7,718</u>	<u>7,718</u>
Net assets available for benefits per the Form 5500	<u>\$ 655,546</u>	<u>\$ 367,592</u>

The following is a reconciliation of contributions per the financial statements to Form 5500 for the year ended December 31, 2018:

	2019	2018
Total contributions per the financial statements		\$ 205,676
Increase in employer contributions payable		<u>7,718</u>
Total contributions per the Form 5500		<u>\$ 213,394</u>

10. SUBSEQUENT EVENT

The novel coronavirus (or "COVID-19") has adversely affected, and may continue to adversely affect, economic activity globally, nationally and locally. These economic and market conditions and other effects of the COVID-19 pandemic may adversely affect the volatility of Plan assets. The extent of any adverse impact of the COVID-19 pandemic on the Plan's participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits are unknown at this time. Operation of the Plan has not been adversely impacted.

On March 27, 2020, President Trump signed the Coronavirus Aid, Relief and Economic Security Act (CARES Act) permitting plans to adopt a provision allowing qualified individuals to take coronavirus-related distributions without a 10% early withdrawal penalty. Plans are permitted to adopt this provision immediately provided the Plan document is retroactively amended on or before December 31, 2022. Plan management does not intend to adopt this provision.
